4 STEP METHOD PART:1

Shri A.R. RAICHUR 8/147,
GARODIANAGAR BOMBAY-400 077

SHREE GANESHAYA NAMAHA

This article is, hopefully, the first of many articles; I hope to write on this Subject:

Before starting, I salute the Late Prof K.S.Krishnamutri, the founder of the KP System, fondly known as Guruji. I congratulate Shri Kanak Bosmia, for having started this e-magazine, especially devoted to KP.

This introductory write up is to convince the readers, that the method is based entirely on principles enunciated by Guruji. Guruji propounded the KP system after a lot of research, and he encouraged students to carry out further research. Dr Kar's Sub-sub theory is a result of such further research. In Maharashtra, Mr. Husbe, and later Mr. S.G. Gondhalekar of Thana, carried out research and have propounded what is called the 4 Step Theory, as 4 steps are involved in finding the houses signified by the planets. Shri Gondhalekar is running a monthly magazine,

"Nakshatra Dena" in Marathi, and also a correspondence course, in Marathi, on this 4 step Theory. I have gone thru this course, and my notes are based on what I have learned from this course.

The Fundamental Principle of KP is that a Planet gives the results indicated by its Star Lord. The Sub Lord indicates whether such a result will be positive or negative, by its placement, and houses owned by it. The planet also

Gives the results indicated by its Placement, and thru the houses it owns.

In the 4 step theory, this KP principle is carried forward, and it is stated, that the Sub-Lord will give the results indicated by the Star-Lord of the Sub-lord. This is the 4th step.

In the 4 Step Method, instead of finding the signifiers of the Houses, and then tabulating the Houses signified by the Planets, the Houses influenced by the planets are found directly. A planet is assumed to give results of the House Where it is situated in the chart, and the house/houses owned by it. Thus each planet will influence 2 or 3 houses, in the Normal Course. However, in the 4step theory, it will also influence the houses influenced by its star-lord, its sub-lord and the star lord of the sub-lord. These houses are found in 4 steps as under

Step 1: The house of residence of the Planet then 1 or 2 houses owned by the Planet:

Step 2: The house of residence of the Star Lord of the planet and 1 or 2 houses owned

Step 3: The house of residence of the Sub Lord of the Planet and 1 or 2 houses owned by it.

Step 4: The house of residence of the Star-Lord of the sub-lord And 1 or 2 houses owned by this planet.

All the houses indicated in the 4 steps are held to be influenced or signified by the Planet.

Prof KSK has indicated that one should consider the Star Lord of the Sub Lord as well.

That sub-lord can influence certain results is dealt with in "Cusps and Subs". "If the Sub-lord of the Ascendant is significator of.....", certain results are indicated.. This shows that the Sub-lord can indicate direct results. In Reader 4 page 86 **"TO FIND OUT THE PHYSICAL FEATURES OF**", it is stated "If the sub-lord of the seventh cusp is SUN and it is deposited in: or **the lord of the constellation is Sun in which the sub-lord of 7 is in :**" ..

In other words, if the 7th sub-lord is SUN or the star-lord of the 7th sub-lord is SUN, and this in This clearly points out that KSK had

visualized the use of the Star Lord of the Sub-Lord.

In the next article, I will attempt to show how these 4 steps are computed.

GOOD LUCK

Dear READERS OF THE E zine,

After praying to my GREAT GURUJI JYOTISH MARTHAND, JYOTISH MANNAN PROF: LATE SHRI K.S.KRISHNAMURTHIJI, I venture to give this first article to the E Magazine brought out by my friend Mr. Kanak Bosmia.

I have been closely following many articles published in various Astrological journals and I find that many are struggling to understand the usage of the principle of RULING PLANETS K.P. System, as invented by our GREAT GURUJI, JYOTISH MARTHAND, JYOTISH MANNAN, LATE PROF: SRI K.S.KRISHNAMOORTHIJI.

WHAT ARE THE RULING PLANETS? These are not mere Planets but they are the POWERFUL LIGHTS that will take the KP followers out of the labyrinth dark tunnel of KP principles where several precious stones, jewels and what not, are strewn all over but cannot be seen by them due to the thick darkness. Therefore one should be very careful before trying to use these GREAT LIGHTS for their use. Then what is the procedure. Let me explain below, which is backed by my experience as a practicing KP Astrologer for the past more than half a century (55 years) after learning this Great

Divine Science directly by sitting under the lotus feet of our beloved GURUJI himself.

Before attempting to verify, correct and predict on a Birth Chart or from a Horary Chart, first close your eyes, concentrate deeply and beg for the GRACE of your Parents, (FATHER AND MOTHER) whether they are alive or not, since they are the persons who gave you this body and mind through which your intellect works on any subject and produce results.

Then beg for the GRACE of GURUJI to guide you properly and correctly. This is a must, since without a Guru or Teacher you cannot understand anything in life.

Next, pray to your Ishta Devta, (WORSHIPPING DEITY) it may be anything like, Christ, Allah, Ram, Krishan, Shiv, Jagadambha etc., etc., This is necessary because the Planets are placed in the firmament by THEM to give results based on their position in the Chart. Here a question may be asked viz., "I DON'T BELIEVE IN THE EXISTANCE OF ANY GOD ", what am I to do?. O.K. At least you know and believe that you are brought into this world by your Father and Mother. For such persons, their Father and Mother only are the Gods or Ishta Devta.

Check your own Natal/Birth Chart and find out whether the period Lords, viz., Dasa, Bukthi, Anthar and Sookshma, Moon and the Ascendant, are Transiting in a favorable position for you on the day you are working out the chart. Here give more importance to the Ascendant which indicates the time at which you are taking up the Chart for working. Please note here that I have not taken into account Jupiter and Sun. The reason is very simple. Jupiter indicates the year and all of us know that it is a very slow moving Planet and you cannot wait for another Year to come before taking up the Chart for working. Similarly Sun which denotes the Month also moves only a degree per day and we cannot wait for one month, for taking up the examination of the Chart.

After satisfying all the above pre-requisites, you should work out the RULING PLANETS with respect for them in your heart since they are

going to guide you to success. Here also first you should take only the **5 RULING PLANETS** followed by our GREAT GURUJI, VIZ., Ascendant Star Lord, Ascendant Sign Lord, Moon's Star Lord, Moon's Sign Lord and finally the Day Lord, (Here, if you follow the Indian System of Day, it should be from Sun Rise to Sun Rise. Otherwise, it should be from Midnight to Midnight) for the time up to the Seconds, at the place you are examining the Chart. Since correct time is the essence in this exercise you should give greatest importance for the correctness of the time up to the Micro Seconds which you can obtain from any Scientific Laboratory which uses the Atomic Clock for their work e.g., National Physical Laboratory branches in your place or any nearby city. You can get it from the local telegraph office also since they correct their time every day at 4 P.M.

These first set of 5 Planets should be kept and used as **PRIMARY RULING PLANETS**. Then, take those Planets that have not figured directly as RPs i.e., Primary RPs, but they are in the Star and / Sub of RPs., those Planets within 3 degrees of a RP, those Planets which are occupying the Ascendant Sign in the RP, those Planets that are being strongly aspected by the Primary RPs. These should be kept separately as **SECONDARY RULING PLANETS**. So far as Nodes are concerned, if they are conjoined with either the Primary or Secondary RPs they should be taken as RPs in their respective set i.e., Primary or Secondary and similarly if they occupy the Signs of the RPs., Primary and Secondary. In this process you will mostly get all the 9 Planets are RPs.

After the above process is over, you can begin your work, first by the positioning the PRIMARY RPs to the required places depending on the type of question etc., In case you are not getting the correct result, go to the SECONDARY RPs to see if they fit in for the purpose for which you have invoked the RPs.

In the case of Horary Charts, the usual elimination process (i) removing the tempting RPs (ii) RPs that are occupying the negative houses from the houses required for getting the result (iii) RPs that are in the Stars/Subs of Planets

occupying the negative houses (iv) RPs in the Star and or Sub of a Retrograde Planet (v) RPs that are occupying the houses 6, 8 and 12 to the houses of judgement, should be followed.

I have been successful in my career as a KP Astrologer by following all the above mentioned procedures and hence I thought that I should share the above with all my fellow KP Scholars, Astrologers and KP Students.

Let me also pray to my respectful **GURUJI JYOTISH MARTHAND, JYOTISH MANNA, PROF: LATE SHRI K.S.KRISHNAMURTHIJI** that he should bless Mr.Kanak Bosmia from his heavenly abode for the success of the venture taken up by Mr.Kanak Bosmia for propagating the Great Science of KP System of Astrology founded by HIM (GURJI).

Let me conclude by thanking Mr.Kanak Bosmia for reposing trust in me by asking me to contribute for his E magazine. I hope to take up Horary charts wherein the above procedures have been used and correct results were obtained, in future postings.

WITH PRANAMS TO GURUJI PROF: LATE SRI KSKJI.

CHAPTER NO: 1

Dr.K.R.Kar developed many theories on sub sub. I will try to write all his theory in simple method with examples, so all reader can understand and use it.

Main rules are four as details is as under:

This theory known as MST(Multi stellar theory)

- 1) F-1
PLANET A IS IN THE START OF B.
- 2) F-2
PLANET A IN THE STAR OF B, AND B IS IN THE STAR OF C
- 3) F-3
PLANET A IN THE SUB OR SUB SUB OF B, B IN THE STAR OF C.
- 4) F-4
PLANET A IS IN THE SUB OR SUB SUB OF B, B IS IN THE STAR OF C, C IS IN THE STAR OF D.

Of the above from F-1 and F-3 are popular used, and as per Dr. Kar he like this two.

For F-1 Position B, For F-2 Position c ,also for F-3 Position c and F-4 Position D is to be well scrutinized .i.e B or C or D Must be in the favorable bhava. We require to judge or they shall be the cuspl sign,star or sub sublord. When we require or consider the cusps (for marriage 2,7,11)
Next planet once found as positive and again in other way found as negative, the positive one should be taken because we are proceeding in search of a good result.

HOW TO FIND OUT SIGNIFICATORE IN Dr. KAR'S MST.

Find out planetary position up to sub sub leaval(we don't take sub in to consideration, there is no room for sub in MST)

To understand easily we take simulacrum example.

ROLE OF “ CUSPAL SUB LOARDS” IN K.P. SYSTEM

Our Gururji late **Jyothisha Marthand Shri K.S. Krishnamurthy** after his unceasing labour and research for over 40 to 50 years derived this marvelous system popularly known as (K.P. System) Krishnamurthy Padhdhati, a system of scientific predictive stellar astrology.

In this system, the Ruling planets serve as a master key in timing due events.

Unlike old Traditional system a planet tenanted the Constellation emits the matter of the house occupied by the constellation Lord and the houses owned by them.

Such matters are indicated by the tenant PLANET which is known as the Significator will come to pass depending on the sub portion of the constellation occupied by the tenant planet

What is SIGNIFICATORS.

- The Planet in the constellation of the occupant of the bhava (House)

- The Occupant of the house, if there are planets in its three stars.
- Planet in the constellation of the lord of House provided the houses owned by the lord of the constellation are un-occupied.
- Lord of the House, if there are no planets in any of its three stars and the houses owned are vacant

What is a Sub?

- You know that the arc or the extent of a star is 13-20 (800 mts) and is divided into an equal proportion of the Dasa years allotted to each Planet in the VIMSHOTTARI DASA SYSTEM of 120 years, each such part is known as sub contracted from Sub-Division.

In other words if the constellation is a kin to DASA, the bhukthi is akin to SUB and Authse is akin to SUB-SUB

Just as a Planet is controlled by sub and thus its powers are modified in terms of its constellation Lord, So also the 12 CUSPS in the Birth chart or Horary chart are ruled by subs and the lord of the same sub is being controlled by the constellation lord and effects of the matters signified by the cusp and house get modified in terms of signification attained by the sub lord of these cusps. Table of subs (1 to 249) can be had in almost all the K.P. Readers and Ephemeris.

In K.P. System the cusp sub lord is the deciding factor in all cases. This is the sheet – Anchor of the K.P. System and is universally applied with out exception to all queries whether judged from birth charts or in Horary Maps. For assessing a particular question and in terms of the matter cited in the query, one shall look into the sub lord of the cusp of house which represents such matters.

The cusp and the sub lord of that house is the deciding factor. An Examination of the cuspal Sub-Lord will enable to decide finally and clearly, if the matter denoted by that house in question will fructify or not

House division in K.P.

Shri K.S.K. had advised the PLACIDIUS system to be used and this system divided the 12 signs into unequal but correct divisions. In this system, a house is so considered to commence from a point in a sign, so that the space between the cusp of the 1st house and that of the 11th House is the extent of the Lagna bhava, the space between the 2nd CUSP and that of the 3rd CUSP is called as 2nd bhava

This radically differ from the old Indian Traditional system, where the cusp of a house is taken as the mid point of a house, which K.P. Students need not consider at all So the entire SUB LORDS of 12 cusps, will reveal the status of a horoscope. This is the essence of Guruji's K.P. system.

So the students of K.P. system should bear in mind the necessity of assessing the strength of each cusp before predicting the effects of dasa and also particular event as desired by the querants.

The cuspal sub lords is also comes as strong significator of the particular CUSP, in the absence of the planets in its three stars. This was tested in so many cases and found to get good results.

For example If you want to predict a query regarding the sale of house, ie Disposal of housing or landed property, the sub lords of the CUSP of 3, 5, 10

are to be judged for selling and 3 & 12 for giving possession.

4th house represents immovable property (Land, Building etc.) The purchaser is represented by the 7th CUSP of the chart and his acquisition of property is denoted by 4th from 7th i.e. 10th cusp. Whether any party would purchase the querant's property (ie whether the querant will be able to sell the property (i.e. whether the querant will be able to sell the property) is therefore to be judged from the 10th CUSP of the chart and its SUB lord.

The Querant's property is denoted by the 4th CUSP and his parting with it by 3rd CUSP (which is 12 from 4th). Thus some party would purchase only if the SUB Lord of 10th CUSP is a significator of houses (Bhavas) 3, and 10th. The 5th CUSP is also relevant to the matter as it is the 11th house from 7th (Fulfillment of his desire) representation of the purchaser. If the sub lord of 4th CUSP signifies 4, 11 and 12 one will construct a house and MARS also should come into picture for immovable properties and Building as SAT for construction (Civil Engineering) 11th for fulfillment of desire and 12th for investment of money.

With the information's in mind, let us discuss a Horary chart regarding the "Disposal of House when? For the benefit of the readers of this magazine.

Horary No: 90 (1 to 249)

RULING PLANETS

DAY LORD	MERC
Lagna (Aqua)	SAT
Lagna Star Lord	MARS
Moon Rasi Lord	VENUS
Moon Star Lord	JUP
RAHU Represents	VENUS
KETU Represents	MARS

So RAHU and KETU also R.P.S.

Analysis

As discussed above, whether the querrent will be able to sell his housing property is denoted by the 10th CUSP SUB LORD. In this HORARY chart under discussion, the 10th CUSP SUB LORD is VENUS. VENUS in 3 and is in the star of Rahu an occupant of 10th Bhava. Venus is in the Sub of JUP lord of 5th bhava & Signifies 10th Bhava. So the Querrent will be able to sell his housing property.

Sale When?

As per this Horary JUP. In spite dasa kethu Bukthi was operating. Both JUP & Kethu are strong significtors of 3,5,10 So I told that the house will be sold before JUP/Kethu Bukther itself.

In RP's venus is represented by RAHU and Mars is by Kethu. So, I have taken both kethu of Rahu instead of Mars & Venus as fruitful significators. So I decided that

the sale process will be completed during JUP dasa - Kethu Bukthi, RAH Anthra and in kethu sook sham. Kethu is more powerful as JUP aspect for him

The Kethu Sookshma operates for 10-03-2003 to 13-03-2003 So I decided the following.

11-03-2003: Tuesday Mars is not a Fruitful Significator

12-07-2003: Wednesday-Mercury is not a R.P. and
Fruitful Significator

13-03-2003: Thursday- JUP is RP & Significator of 5 ,10,

So selected the date of sale of house only on 13th March 2003 to the Querrant.

To my surprise, the Querrent informed me on 12th March 2003 that the Registration of sale of House in the morning of 13-03-2003. But I was very confident that the Registration will be done as only after 12.00 Noon as Moon enters. JUP star (PUNARVASU STAR) by 12.00 **actually the Registration Process started by 12.15 Noon only as predicted by me.**

Such an accurate predictions will be given only by our beloved GURUJI's K.P. HORARY system

Long Live K.P. SYSTEM

With great respects to our beloved Guruji Shri K.S.K. I conclude this article.

GOOD-LUCK

JUDGEMENT :

(Back ground...Laloo was challenged by Nitish Kumar in the Bihar Elections)

- 1) Analyse the sublord of the Ascendant. It is Mars, who is retrograde up to the 14th December 2005. Also Mars is posited in Sun's star. Sun is in IV...which does not augur well for Laloo.
- 2) S/I of the XI th is Moon, posited in Venus star Sun sub, Ven is in V, and Sun is posited in IV...(X to opponent !)
- 3) S/I of the Vth is Venus, posited in V(XI to VII), and in Merc star, Merc sub.
- 4) Merc is in the Vth(XI th to the VII th). Hence Opponent will win, hence Laloo will DEFINITELY LOSE...

GOOD LUCK !

FUTURE OF SUBORDINATE IN A FALSE POLICE CASE

History:

I was manager in a pharmaceutical company. My medical representative who was the senior in the team came across a false case of dowry framed by his in-laws against him. This case came in light at a very crucial stage as the territory sale was growing and he being the senior in the team, I was depend on him a lot for the achievement of the sales targets.

I concealed the case from my superiors as I knew that his services will be suspended with immediate effect though I knew that the case was false. The proceedings were intensifying day after day and I was tense about the future of the subordinate and also about the future of sales of the concern territory.

To solve the problem, I took the help of KP-horary method.

Question:

Kp No. 83: what the future has in store for my subordinate in the present police case?

The Analysis:

[Analysis done taking 6H (subordinate) as the lagna, houses mentioned are w. r. t to 6h]

1. **Focus of analysis:** a. Threat of imprisonment, b. possibility of compromise, c. stability in present job.

2. **Jupiter aspects Lagna** (6h of the horary chart) and the sub-lord Mars, as the lord of the house. --> A point of safety for the subordinate in question.

3. **Imprisonment:** The sub-lord of 12h (5h of the horary chart) =Jupiter-R=3-11-6-8-1-4 (sub-lord: Saturn-R= 4-6-2-3). Saturn-R in the star of Rahu. Rahu is representing Jupiter (by aspect) and 12L-Mars (w.r.t to 6H of horary chart). As per rule: if the rahu is the sub-lord of 12H then the prison is possible. Here the rahu is the representative not the sub-lord of 12H but, Jupiter and Saturn are retrograde. Saturn is aspecting Jupiter and Venus. Chances of imprisonment will prevail, retro gradation will only maintain the threat but the arrest will not happen. Aspect of Saturn will give slowness in the further proceedings.

4. **Compromise:** 11 sub-lord(4h of horary chart) = Mercury = 1-9-10-7[sub-lord=Saturn-R=4-6-2-3] Presence of 9H, 1H, 7H at star level and 3H at sub level shows that communication will be started with the opposite party. Mercury is a planet of communication and mediation. Mercury is in the star of Sun and both of them are on Capricorn Mediation by Father/Govt Official/Distinguished person (Sun) and compromise will be done (3H and 9H). A lawful solution will come.

5. **Planetary Periods:** Mercury - Moon - Saturn - Rahu (upto 15.2.2004) Saturn will delay the process but after 15.2.2004 Jupiter sookshma will start and thus a dignified solution will come in a lawful way.

6. **Threat to present Job:** 10 sub-lord (3H of horary chart)=Sun=7-8-1-9[sub-lord=Sun] Presence of 9H shows change in job but the running sub-period of

Moon not promises the job change in it's antardasa. The pratyantar dasa of Saturn ends on 28.2.2004 which only represents on 3h (star level) and 9H as the sub-lord (2H of horary chart) which are negative to the 10H. It is retrograde so it will not bring the job change but it will create situation for the problem in the job. The Mecury pratyantar starts from 29.2.2004 which only shows the problem in job as 9H is present but it is in the sub of Saturn which is retrograde and hence again job change is not there There is no threat to the job continuity

Final Result:

Case solved on 20.2.2004 in Mercury-Moon-Saturn period. Case finally solved by the mediation of Father and Police. Father helped a lot. Police officer also intervened, after, some bribe given. Actually, actual compromise did not come (retro Saturn as the sub-lord of 11L-Mecury) rather; there was a suppression of the other party by the police. An agreement was done on a stamp paper (role of Jupiter, Sun and the Capricorn) with the in-laws. The subordinate broke all relations with his in-laws after it. After that, till date there is not threat and problem from in-laws. Native is peacefully living family life.

Conclusion:

Retrograde planets do not let the event take place. It can be both positive and negative as per the case.

RADHE KRISHNA

One of the most potent tools in the hands of any Astrologer is HORARY OR PRASNA. In THIS branch of Astrology **OUR GREAT GURUJI, JYOTISH MARTHAND, JYOTISH MANNAN LATE SRI K.S.KRISHNAMURTHIJI**, the inventor of the **ADVANCED SYSTEM OF STELLAR ASTROLOGY CALLED K.P.** has CREATED a new method to attain perfection in predicting events through HIS System. I am one of HIS fortunate students who had heard him in person teaching HIS System. He also occupied the Chair in Astrology in BARATHIYA VIDYA BHAVAN. For the benefit of all Astrologers in general and Astrologers practicing KP in particular, I venture to write about THIS unique system of HIS with HIS blessings from above.

1. **CASTING A HORARY CHART**:- For casting a Horary Chart take the commencing position of the Sub of the Horary number as the NIRAYANA ASCENDANT. This Cuspal position of the Ascendant remains the same irrespective of the year or the locality where the CHART is cast.

2. For ascertaining the Cusps of other houses, take the LATITUDE where the Astrologer judges the chart irrespective of the place from which the Query has been raised, either by phone, letter,

Email, telegram etc., and the Chart is to be prepared as per **THE PLACIDIUS SYSTEM OF HOUSE DIVISION** as advised by our **GURUJI LATE SRI K.S.KRISHNAMURTHIJI** with the help of **UNIVERSAL TABLE OF HOUSES OR K.P.TABLE OF HOUSES AND MAHABALA EPHEMERIS** and other Tables required for erecting the Chart correctly as advised by him. This is for those who prepare the Chart manually. Those who have computers can prepare the Chart with the help of Software prepared by Sri A.R.Raichur of Bombay or Sri Rangarajan of Man Machine Systems, Chennai.

3. If the **HORARY CHAT** is likely to be judged immediately after casting then the position of Planets is to be worked out for the time when the Chart is taken for casting, In all other cases the position of Planets should be worked out only for the time when the Astrologer commences analyzing the chart. I would like to make one point clear in respect of those Astrologers who have KP Charts computer package. In their cases they should remember that unless they are in a position to analyze the Chart immediately after getting a print out of the Chart with all details of the Significators, Aspects, Dasas etc., they should not cast the Chart and keep it and attend to some other job thinking that the Chart has been prepared for the correct time as desired by them and therefore they can take time to leisurely judge them. In their case also the same rule that applies to others who cast Charts manually applies i.e., unless they are in a position to analyze the chart immediately don't feed the data in the computer and get the print out of the Chart with other data mentioned above.

4. The query may be for the Querist himself or for some relative or friend. If the query is for himself make all calculations from Lagna. If it is for younger Brother or Sister, take the 3rd house counted from the Lagna in the Horary Chart as Ascendant and work out. If it relates to Mother, take the 4th as Ascendant. For the Sons and Daughters of the Querist take 5th for Wife or Partner in business take 7th, for Father take 9th, for elder Brother or Sister, for Friend etc., take 11th and for any unknown persons take 9th as Ascendant and work out.

5. After the chart is cast, the first job is to check whether the chart reflects the mind of the Querist. For this check what MOON the Planet that controls the thought process and mind,

represents by virtue of houses owned and occupied by it, whether its star and Sub Lords are connected with the houses relevant to the query raised. Experience confirms that a connection by Sub Lordship is very important.

6. **ASCENDANT** also reflects the Mind of the Querist, since it stands for both the Querist himself and also the query put by him. Whatever matters the Ascendant Sub Lord signifies, that is what the Querist would like to know. So ascertain which houses are signified by the Ascendant Sub lord and what relevancy they have to the question raised.

7. **WHETHER THE MATTER IS PROMISED:-**
The main purpose of HORARY is to get a direct answer to the query raised and therefore unless the matter is promised there is no point in proceeding further. Therefore only when the query is properly reflected by the disposition of **MOON and/or ASCENDANT SUB-LORD**, the case is to be examined whether the matter is promised or not. In this connection I would like the readers to keep in mind **PUNARPOO DOSHA** before coming to any conclusion on this matter. While examining a Horary Chart this will be discussed in detail, if necessary.

8. For finding out whether the matter queried will materialize or not, consider the 11th Cusp and find out whether the 11th Cusp Sub Lord is either **RETROGRADE or deposited in the Constellation whose Lord is RETROGRADE**. If the Sub Lord himself is retrograde then the event will materialize with delay. But if it is posited in the Constellation of a Planet that is retrograde then the event will not materialize at all. On the other hand if the Sub-Lord and Lord of the Constellation in which this Sub Lord is posited are in direct motion and if the same Sub Lord is also a significator of either 11th or at least any one of the concerned houses relevant to the query in question then the event is promised. **FULFILMENT OF ALL THESE THREE CONDITIONS** i.e., i) Sub Lord should not be retrograde ii) Sub Lord should not be in the Constellation of a Planet in retrograde and iii) the Sub-Lord should signify 11th or any one of the houses relevant to the Query, **IS A MUST to give an affirmative answer to the query raised. If ANY ONE OF THEM IS NOT FULFILLED, THEN THE EVENT WILL NOT HAPPEN.**

9. Another method to ascertain whether an event will materialize or not is to check whether the

CUSPAL SUB LORD of the main house is the significator of the main or any of the Subsidiary house(s) or the 11th house. For example for foreign travel Sub Lord of the 12th Cusp (Main house) must be a significator of either 9 (long journey) or III (Change or movement from residence) or 12th - change of environment itself. For marriage the 7th Cusp Sub Lord should signify either 2, 7 or 11 etc.,

10. **WHETHER CHANGE IS BENEFICIAL OR NOT?** Very often the consultants ask whether the change is going to be beneficial or not. For this ascertain whether the 11th Cusp Sub Lord signifies the concerned houses. For example, if the XI Cusp Sub Lord signifies 2nd house (finance) the change will be good financially (increase in family members i.e., birth of children, beneficial to all the other relatives of the Querist since 2nd indicates all relatives irrespective of any particular relationship such as, Wife, Children, Father, Mother, Sisters etc., etc., But if it signifies 12th to 2nd i.e. Ascendant or 1st house, it will indicate negation or worsening of the financial position, negating birth of children etc., if other considerations also agree i.e., if 5th or 11th Cusp Sub Lord gives similar indications. Some K.P. Astrologers have opined that the Ascendant will not negate financial matters. But from my personal opinion and experience I have found that the Ascendant does affect the financial matters. The rest I leave it to the readers.

11. **The Sub Lord of a Planet denotes whether that Planet is auspicious for the progress of the Bhava or inauspicious for the Bhava signified by the Planet.** If the Sub Lord is not in a favourable position then the Querist meets with obstacles, faces disappointment or negation of the matter.

12. For ascertaining the Bhadhakasthana while judging Longevity or health remember that if the Ascendant is in a movable Sign, (MESHA, KATAKA, THULAM AND MAKARA) the 11th house is the Bhadhakasthan, if it (Ascendant) is in a FIXED SIGN (RISHABHA, SIMHA, VRISCHIKA AND KUMBA) 9th house is the Bhadhakasthan and finally if the Ascendant is in a COMMON SIGN (MITHUNA, KANYA, DHANUS AND MEENA) 7th house is the Bhadhakasthana.

13. **HOW TO JUDGE A CHART?** The first step in this direction is to identify correctly the houses which have a bearing on the fructification of

a query, e.g., MARRIAGE 2,7,11- BUILDING A HOUSE 4, 11, 12 - EMPLOYMENT 2, 6, 10 and 11 etc., etc., and the Significators of these houses. The Significators are to be graded as 1st, 2nd, 3rd, 4th and 5th strictly according to K.P. Method. How this grading is done will be explained when I take up a Chart for analyzation.

14. **RAHU AND KETHU** should be included as Significators if they are conjoined with/aspected by the Significators or tenanted in the house of Significators.

15. For identifying the Lordship of a house, it should be remembered that **OWNER OF A HOUSE IS THE OWNER OF THE SIGN WHERE THE CUSP FALLS. THIS IS VERY IMPORTANT TO UNDERSTAND IN K.P.**

16. SELECTION OF FRUITFUL SIGNIFICATORS:

The accuracy of prediction depends entirely on the **CORRECT** selection of the Significators for the event. Therefore we should find out which of the Significators of the relevant houses as selected under K.P. are really beneficial and which of them are only tempters. Many a time many Planets and even all the 9 Planets become the Significators and in such cases the beneficial Significators amongst them are to be found out after weeding out others. THIS is really a very difficult task even for a very seasoned and experienced K.P. Astrologer and all failures in prediction result only on account of wrong selection of **FRUITFUL** Significators. The various methods of selecting fruitful or beneficial Significators are explained below.

17. The MOST reliable and easy method is to select the fruitful Significators with the help of the wonderful **RULING PLANETS** invented by our **GREAT GURUJI JYOTISH MARTHAND, JYOTISH MANNAN, PROF: LATE SHRI K.S.KRISHNAMURTHIJI**. At this stage the **GOLDEN WORDS** of our **GREAT GURUJI SHOULD ALWAYS BE REMEMBERED** - I quote- " **THE RULING PLANETS AT THE TIME OF QUERY WOULD BE THE RULING PLANETS AT THE TIME OF FRUCTIFICATION OF THE EVENT EXPECTED**" unquote. Therefore, Significators which are in common with the Ruling Planets and the **FRUITFUL** Significators for the event in question are to be selected under this method if one is to get the correct result.

18. In order of **MERIT AND STRENGTH**, in the descending order, the following Planets are regarded as the **RULING PLANETS**.

1. **ASCENDANT OR LAGNA STAR LORDS.**
2. **ASCENDANT SIGN LORD**
3. **MOON STAR LORD**
4. **MOON SIGN LORD**
5. **DAY LORD**

The above are only treated as Ruling Planets by GURUJI. Later on many researchers have revealed that **ASCENDANT SUB LORD AND MOON SUB LORD** should also be included as Ruling Planets. THIS is quite in consonance with the Sub Theory of our GREAT GURUJI and thousands of Astrologers and Great Scholars in K.P. by taking these Sub Lords also as Ruling Planets have given innumerable accurate predictions. Therefore when we include these two Sub Lords i.e., Ascendant Sub Lord and Moon Sub Lords they take precedence over the Ascendant Star Lord and Moon Star Lord in the meriting. If need be Sub-Sub Lords also can be taken as RPs. This is left to individual Astrologers based on their experience.

Apart from the above any Planet Aspected by the above selected Ruling Planets and are in the Sign, Star or Sub of any of the Ruling Planets can be included as Ruling Planets - **BOTH THE CONDITIONS BEING SATISFIED SIMULTANEOUSLY.**

Here I would like to make the following comments with regard to **RULING PLANETS**.

There is a practice to work out the Ruling Planets at the time of commencement of reading the Chart or even when the chart is prepared. THIS is quite contrary to what GURUJI was insisting in HIS lectures/writings. I quote HIS words - ' **RULING PLANETS ARE THE DIVINE GUIDE TO AN ASTROLOGER AND THEIR HELP SHOULD BE SOUGHT ONLY WHEN THERE IS AN URGE TO DECIDE THE SIGNIFICATORS WHO CAN BRING OUT THE EVENT QUERIED AND NOT FOR THE MOMENT AT WHICH THE WORKING OF THE HORARY CHART IS TAKEN IN HAND OR WHEN JUDGING THE CHART FOR THE EVENT AFTER THE CHART HAS BEEN WORKED OUT COMPLETELY WITH ALL SIGNIFICATORS ETC.,** ' unquote. This condition applies equally to all those Astrologers who use Computer package for preparing the Chart.

19. One should not accept these RULING PLANETS as it is. Check whether any of them is posited either in the Constellation or Sub of a Retrograde Planet. If there is any reject them and accept the remaining.

20. SUN AND MOON never retrograde. Similarly RAHU AND KETU never retrograde even though their normal movement itself is in opposite direction. Thus only MARS, JUPITER, VENUS AND SATURN will retrograde.

21. The SECOND METHOD for selecting fruitful Significators is to take the CUSP SUB LORD of the concerned houses and see which of the Significators are posited in their Constellation. Those Significators who are in the stars of such Cusp Sub Lords can be taken straightaway as fruitful one. The rest can be dropped or eliminated by further process.

22. The THIRD METHOD of selecting fruitful Significators is to find out whether its Sub Lord is one of the Significators. If yes it can be included or else dropped.

23. As a GENERAL RULE all those Significators which signify 12th to the relevant houses under scrutiny should be rejected. Similarly Planets which are in 6, 8, 12 to the concerned houses also do not contribute to the matters signified by such houses. Similarly any house which are in 6, 8 and 12 to any house are considered to negate the affairs influenced by the house concerned.

24. A Planet which appears a larger number of times amongst the Significators/RULING PLANETS or who is connected with various Significators as their Constellation or Sign or as a Sub-Lord should be taken as THE STRONGEST. Conversely a Planet which is not in the Sub of Lords of the concerned houses should be treated as WEAKEST in producing the result though may qualify itself as a significator after passing through all the elimination processes.

25. Significators that are in the Sub of Planets occupying houses negating the Houses concerned i.e. in the 12th to the houses concerned should be rejected as unfruitful Significators.

26. RAHU AND KETU that are NODES give results as follows:

i) First give results of Planets with which

they are conjoined, ii) Second as Planets Aspecting them, iii) Third as Planets in whose star they are deposited, iv) Fourth as Planets in whose signs they are tenanted.

NOTE: - 1. Some prefer to take the Node as representing the Planet in whose Sign they are tenanted, under the third step indicated above. THIS has been given in KP readers in both the ways and therefore I leave it to the readers to decide this themselves based on their experience in handling Horary Charts where Rahu and Kethu play a decisive role in giving results.

2. Nodes do not Aspect any Planet or any house since they are only the sensitive and powerful intersecting points in the pathway of Sun and Moon and they are not having any physical body which can be seen through a telescope as we can see all the other Planets. THIS is the reason why they are called SHADOWY PLANETS.

27. When the Nodes appear as a RULING PLANETS/SIGNIFICATORS its Sign Lord is replaced by it AND IN CASE THE SIGN LORD ITSELF DOES NOT QUALIFY TO BECOME SIGNIFICATORS THEN THE NODES HAVE ALSO TO BE DROPPED AS SIGNIFICATORS. I WOULD LIKE THE READERS TO UNDERSTAND THIS VERY CLEARLY AND IF AND WHEN I DISCUSS A HORARY CHART later on, THIS POINT, IF APPLICABLE WILL BE EXPLAINED CLEARLY. I would like to make it clear here that in case the Sign Lord is also a powerful significator there is no need to replace it but it can be taken along with the Node.

28. It should be remembered that the RULING PLANETS have a definite bearing over the EVENT. If the SIGN LORD AND STAR LORD OF SUN ARE ALSO COMMON AMONGST THE ALREADY SELECTED FRUITFUL SIGNIFICATORS AND THE RULING PLANETS, then Sun's Star and Sign Lords become STRONGEST to offer result according to their disposition.

29. TIMING OF EVENT:

THIS is the greatest hurdle that even the advanced practitioners in K.P. could not come to grips, at times. Therefore the technique for this can be mastered only by experience over a long period of time. However a few useful tips are given below.

30. An event will materialise during the conjoined period of the selected Significators especially when the Luminaries (SUN AND MOON) transit through their ZONES indicated by these Planets.

31. When the event is expected in:

- a) Few hours from the time of judgement of the Horary Chart, move the Ascendant i.e., Lagna to the sensitive Zone of the Significators.
- b) In a few days time move Moon to the sensitive zone of the Significators.
- c) In a few months time, move Sun to the sensitive ZONES of the Significators
- d) If after a year or more then move JUPITER to the sensitive ZONE of the Significators.

In case the event is likely to happen within a few hours from the time of judgement of the Horary Chart, find the Lagna i.e., Ascendant that is rising at the time of judgement. Then which is next to rise and so on. Then that wing of ZONE that is governed by one of the selected Significators should have the Star governed by another strong significator. In that one has to find out when the third significator becomes the Sub-Lord. When this position in that Sign would rise in the East or transited by Moon or Sun, as the case may be, the event will materialize.

32. But in case the event is expected to materialize in Days, Months or after a Year, then that date and time should be taken when the Moon, Sun or Jupiter as the case may be transits in that Sign, Star and Sub.

33. **IN HORARY CHARTS**, Planets in retrograde motion can't give results as long as they are retrograde. However, if a retrograde Planet is deposited in the Constellation of a Planet that is in direct motion, then this indicates that the matter will

materialize with some delay and obstacles. The matter will materialize when the Planet assumes direct motion and passes beyond the longitude wherefrom retrograde motion started. Some KP Scholars and Astrologers have been writing that

retrogression of Planets in Horary Charts have no effect and they have found to give results even when they are in the Star and Sub of retrograde Planets. But our GREAT GURUJI has categorically stated in HIS lectures and writings that retrograde Planets do not give results if they come as Star/Sub Lords to the Significators. *But in my opinion the LAST WORD on this point is yet to be said* and therefore this will require constant and continuous research for a number of years to come to any Definite conclusion on this ticklish issue. Till that time, in my humble opinion, we should follow our GURUJI'S principles only in this regard.

34. If Planets 'A' and 'B' in their periods give a result, then the Planet in 6 or 8 or 12 to 'A' and 'B' will give the diametrically opposite results. For example if one joins service during 'A' Dasa 'B' Bukthi, then he will lose the job or leave it during 'C' Bukthi, if 'C' is in 6, 8 or 12 to 'A' and 'B' and forms evil aspect with 'A' and 'B'. The Dasa, Bukthi and Anthra mentioned here are the one running in the Horary Chart under examination.

35. Whenever one wants to find out the day of an event in any Bukthi and Anthra, one is to note whether the Lord of the Bukthi and Anthra are strong or the Lord of the Constellation. The Lord of the Constellation, if stronger, will give the result only on its day.

36. For finding out a particular date, the transit of the selected fruitful Significators should also be scrutinized. They should be transiting in the Constellation and Sub of the Significators.

37. If the XI Sub Lord happens to be one of the strong Significators, then an event can materialize in its Sub-period.

38. If the XI house is occupied by fast moving Planets such as Sun, Moon, Mercury, Mars, Venus or if the Lord of the XI, (if there is no occupant in it) are the above Planets then the event queried will materialize within a short period. If on the other hand either the occupant of XI or Lord of XI is a slow moving Planet such as Saturn, Jupiter, Rahu and Ketu, then the event will not materialize in short time but will take a long time. (However in practice it is seen that this rule is not always correct)

39. GENERAL

In case the Sub Lord of the Horary Number happens to rule the Constellation in which Moon is posited at the time of query the answer will be affirmative to the question. (However in experience it is seen that this rule also never operates always)

40. It is often useful to scrutinise what the RULING PLANETS signify, their aspects with the Cusp Cusp Lords and other Planets. How far they promise good result for some Bhava or affect the result of other Bhavas.

41. THE NATURE OF PLANETS SHOULD INVARIABLY BE KEPT IN VIEW, For example. Sun stands for Govt., Ketu/Mars for quick grasping, Jupiter for law and judgement. Moon for Liquids, Mars for Engineering and Saturn for metal

42. A Planet in whose star there is no other Planet is the strongest to give the result of the house of whose significator it is. THIS APPLIES VERY STRONGLY TO CUSP SUB LORDS.

43. The above are only general guidelines. In practice it is found that Planets behave very peculiarly - they give result even when in retrograde/in the Constellation or Sub of retrograde Planets. Only if we have some in-sight knowledge about the Astronomical aspect of Astrology we can understand more fully such phenomenon

44. ASTROLOGY is a continuing science. THIS is the reason why GURUJI himself has invited Scholars of Astrology to study HIS System well and after thorough research, further advance HIS System. Thus the K.P. System is NOT A STATIC ONE where the FINAL CHAPTER has been written. It is left to the K.P. Scholars and Astrologers to dive further deep into this K.P. SYSTEM invented by OUR GREATGURUJI JYOTISHMARTHAND, JYOTISHMANNAN, PROF: LATE SRI K. S. KRISHNAMURTHIJI, of course, WITHOUT LOSING GRIP ON THE FUNDAMENTALS OF SUB LORD AND RULING PLANET THEORY and bring out gems so that posterity may be benefited.

45. Apart from what I have given above as guidelines there are many hurdles that are to be

crossed before one can come into grips of handling a Horary Chart. These can be understood only by handling a Horary Chart, examine it thoroughly, give the prediction and find out whether the prediction given has come true at least upto the date, if not check where a mistake has been committed or which principles have not been followed resulting in the wrong prediction, gain experience and finally apply this GREAT THEORY for the benefit of mankind.

As per news Paper Marriage will be at Worly_Mumbai
time: 11.31 AM Date 29/8/2006

As always I am excited to know about Marriage
muhurat as per KP view.

Asc.: 23 LI 01.12 MOON: 11 Li 10.06

For Marriage:

If 7th sublord signifies 2 or 7 or 11 then happy
marriage.

For Multiple marriages:

Recently we done some research on Multiple marriage(
still going on) and primarily we found that below three
rules work well.

A) If 7th SL is MER/JUP or deposited in dual rasi
Or 7th SL is in the star of MER/JUP or deposited in
dual rasi and signifies 2,11

B) 2nd SL is signifies 7,11

C) 9th SL signifies 2,9,11.

7th SL is SAT: Given time is 11.31 and as we know
ceremony never start at time. so first I check
What is duration of SAT sub .
SAT sub will run from 11.26.01 to 11.35.21 and if
marriage ceremony starts during this
Period my analysis is as per bellow.

SAT SL of 7th is in the star of MER and SL of MAR.
SAT is in 10 I/o 4,5. SAT is CSL of 1,3,7,9 and no planet
in the star of SAT.MER is in 10 I/o 9,12 , MAR is in 11
L/O 2,7.

7th SL indicate both 2,7,11 and 1,10.

Now we check for second marriage:

As per A;

SAT SL of 7th is in the star of MER and SL of MAR.
SAT is in 10 I/o 4,5.SAT is CSL of 1,3,7,9 and no planet
in the star of SAT.MER is in 10 I/o 9,12 , MAR is in 11
L/O 2,7.I ndicate 2,11 Multiple marriage.

As per B:

2nd SL is SUN in the star of KET and sub of MER.
SUN is in 10 I/o 11, KET is in 11, Aspected by SAT.SAT
is in 10 I/o 4,5.SAT is CSL of 1,3,7,9 and no planet in
the star of SAT. MER is in 10 I/o 9, 12 , I ndicate 11th
Multiple marriage.

As per C:

9th SL SAT.SAT is in the star of MER and SL of MAR.
SAT is in 10 I/o 4, 5. SAT is CSL of 1,3,7,9 and no
planet in the star of SAT.MER is in 10 I/o 9, 12 , MAR is
in 11 L/O 2,7.I ndicate 2,9,11 Multiple Marriage.

In my opinion these marriages have No long life.

But if this ceremony will be in MER as 7th SL, during
11.35.21 to 11.43.42.

MER is in the star of KET and sub of JUP.

MER is in 10 I/o 9,12 „KET is in 11, Aspected by
SAT.SAT is in 10 I/o 4,5.SAT is CSL of 1,3,7,9 and no
planet in the star of SAT.JUP is in 12 I/o 3,6.

All negative cusp signifies by MER (1,6,10) only 11th is
positive.

Also this MER sub indicate multiple marriage or
separation.

Hope for good married life of Rahul Mahajan.

Mahajan Rahul

POSSIBILITY OF STAYING TOGETHER: A KP APPRAISAL

Author: The author hails from the Electronics and Communication engineering background, presently heading a Senior Managerial position at The Centre for Development of Telematics (C-DOT), Bangalore. Besides teaching Parasharic and Jaimini astrology at ICAS, Bangalore and contributing to The Astrological Magazine in Jaimini theme since a decade, the author has special interest in The Krishnamurti Paddhati and is a serious student of this subject.

This is a recent case when one of my colleagues in the office came up with the query "When will I start staying together with my wife". On my request he gave me the horary number 1001 out of 1-2193.

I was aware that the colleague stayed in Bangalore in his own house and his wife was engaged in a job at Hyderabad since about last 4 years.

The prashna chart with cuspal details is produced here.

The chart is being analyzed as follows:

The Query

Let us judge the mental setup of the native through Moon. Moon by itself is placed in Lagna as 11th lord and thus poses the sincere interest of a harmonious life. Moon is in the sub of Jupiter, placed in the 3rd house

ensures his effort to pursue his partner. Thus, the chart may be considered genuine.

Lagna sub-lord Rahu is the sub-lord of 3-5-7-9 cusp as well, thus Rahu controls the matters of staying and interacting together with wife (3rd, 9th and 7th cusp) and leading to harmony (5th cusp).

Looking to the disposition of Lagna sub-lord and Moon, the horary chart seems to be genuine and it is safe to proceed further.

The co-ordinates for judgment

In a prashna for harmonious life with wife and children; Lagna, 5th and 7th cusp must get involved with the 11th house to indicate the promise in the chart. The fructification of the desire to stay with family shall be realized only if the 11th cusp indicates its linkage with the Lagna, 5th and 7th house without getting linked to the adverse houses.

Analysis of the chart

Look for the promise in the chart from various angles:

- Note that Rahu dominantly holds its say on the matters of the native, wife and the harmony. Thus, it is important to analyse the signification of Rahu as seen from various reference points.
- Looking from the view point of the native:

Rahu is placed in the star of Jupiter, placed in the 3rd house meaning the request of the native to his wife for leaving the job and staying together. Note that the job of the wife is indicated by the 4th house (10th from 7th) and 3rd house would mean the wife to join the native by quitting her job. Since, Rahu falls in the sub of Mercury placed in the 4th house, the profession of the wife has the promise of continuing, bleaking the chances of staying together.

- Looking from the 7th cusp from the point of view of wife:

Sub-lord Rahu in the star of Jupiter placed in 9th house might led her to think about quitting the job but Mercury (sub-lord of Rahu) placed in 10th house promises her to continue in the job.

- Note that there is no planet in the star of Rahu, thus Rahu is a strong planet to dictate the indications largely on the matter in question based on its placement in the horary chart. Since Rahu is placed in the 6th house, it poses a setback on the desire of the native and it seems that the wife does not approve her staying together with the native.

Rahu, by way of being a shadowy planet, disposes Saturn (sign dispositor) and Jupiter (star dispositor). Let us see, if the Rahu's dispositions of Saturn and Jupiter provide some additional viewpoint.

Saturn is in the star and sub of Ketu and the placement of Ketu in the 12th house seems to weaken the hopes of the couple to stay together, as Rahu by itself signifies 6th house by its strong placement and 12th house through its sign dispositor-Saturn.

Jupiter is in the star of Saturn and in its own sub. Note that the placement of star lord Saturn in 11th house and the placement of sub lord Jupiter in 3rd house is favorable. Since, Jupiter receives sextile aspect from 11th lord Moon, there seems some hope for the good.

- Whether the desire of staying together in harmony is going to be realized or not may be seen from the 11th cusp.

Mars is the sub-lord of the 11th cusp. Mars is in the star of Ketu placed in 12th house and does not offer the choice to the wife to quit the job (12th house is 6th from the 7th cusp), which puts off the native (12th house).

Mars is in the sub of Venus placed in the 5th house, a house of harmony. Venus falls in the star of 11th lord Moon that form trinal aspect on Venus, thus transferring the beneficence of 11th lordship to Venus, offering some solace to the desire of the native, as it is the beneficial house for the native for marital felicity.

- Looking at the promise and fructification aspects, it was concluded that there could be some hope of staying together amongst a lot of constraints.

Timing the event

- Take a cursory glance on the dasha result.

Moon dasha runs upto 2013 within which, Moon-Jupiter dasha runs till 18-04-2007 and thereafter the bhuktis of Saturn, Mercury, Ketu, Venus and Sun are pending.

Dasha lord Moon is in its own star placed in Lagna and its sub lord Jupiter gets placed in the beneficial 3rd house. Note that Jupiter (sub-lord of Moon) gets the sextile aspect of the 11th lord Moon and Jupiter offers its sextile aspect on Venus placed in the 5th house. Thus, Moon dasha does offer a possibility to have re-union.

- At this juncture, Ruling planets were taken at 18-54-21 Hrs on 10-01-2007 at Bangalore to gauge the possibility of a fruitful dasha spread, which came out as Saturn-Moon-Mercury.

Since, Jupiter was not a RP, Jupiter bhukti (currently running) in Moon dasha was eliminated. The bhukti of Saturn (which is a ruling planet) is to continue from 18-04-2007 to 18-04-2008. Can Saturn cause staying together?

As noted earlier, Saturn is placed in the star and sub of Ketu signifying 12th house due to Ketu's placement in 12th house. 12th house represents the 6th house (job) of the wife and if Ketu is taken to dispose Sun (Ketu in Leo), then the placement of Venus (the star lord of Sun) in 5th house (11th house of wife) makes her gainful and too strong in the ongoing profession. Note that apart from Sun, Ketu also disposes Venus as its star dispositor and the placement of Venus in Moon star (11th lord placed in Lagna) and Jupiter sub (7th lord placed in 3rd house) does help towards realizing the objective of staying together.

Thus, it was assessed that Saturn bhukti in Moon dasha could help the native to realize his ambition in staying together with his wife, though wife continues her job strongly.

- The next pending ruling planet is Mercury whose antara in Saturn bhukti runs from 19-7-2007 to 12-11-2007. Mercury does not have any planet in its star, thus its placement in 4th house does promote the environment of home. Mercury falls in the star of 12th lord Sun placed in 4th house. Mercury falls in the sub of Ketu placed in 12th house and providing trinal aspect to the Sun placed in 4th house. As such,

Mercury does not actually pose a felicity at home and the native may not enjoy the bliss of homely environment even if he gets it and could be put off by reasons pertaining to his own dissatisfaction (12th house).

- From the beginning of Mercury bhukti, Sun starts transiting Pushya star in Cancer (both Moon and Saturn be the RP) and perhaps, the desire could be fructified then temporarily.

Conclusion

The overall indications of staying together in this prashna are not seen straightaway, though some threads are available for felicity. Since, 6th and 12th houses are signified very strongly, it was concluded that staying together might not be possible on permanent basis, except for some brief periods as indicated above.

The facts of the case

After, the conclusion was communicated to the native, he mentioned that he had faced hatred from his wife since the time they married and that was the principal driving force for the wife to take up the job outside Bangalore, meeting her requirements of keeping off from the husband.

Well, in this prashna chart, the 6th house was in focus of signification from Lagna sub-lord and that was almost overriding on the entire prashna chart. The 12th house signification was also dominant and that made a thread of mutual discord in the larger domain. The 11th cusp does link to the 5-11th signification through Venus-Moon aspect and is thus able to barely maintain the marriage in the backdrop of discord.

Acknowledgement

The KP principles are infallible and are crystal clear, although, they require genuine efforts for understanding and application. Prof. Krishnamurti has devised a pioneering predictive model in astrology, which deserves sincere appreciation.

Will I get married at all ? If so When ?

Most astrologers whom I have consulted, have told me that there is NO MARRIAGE FOR ME...!

JUDGEMENT AND ANALYSIS:

The gentleman was brought to me by a friend of mine, a traditional Astrologer himself, **(AS A CHALLENGE...AS ACCORDING TO HIM NO MARRIAGE WAS PROMISED OR POSSIBLE. !)**

He had brought along the querist, and both of them threw me the Challenge to predict the date of his if at all, he does get Married... (! ?)

After eliciting from him for a horary number (he gave the no.40), and While I was casting the chart, he told me that so far, every Astrologer he had consulted had predicted that, he will not get Married, and, in fact, till now, his engagement had been Broken ...several times etc...

After casting his horary chart as per K.P., with my friend-Astrologer watching all the time... (as it transpired Later, that it was my friend's group of astrologers who had ALL pronounced... "No marriage is possible...!")

I then began by analyzing loudly for the benefit of all...

MOON is ON the III rd cusp, and signifies III, & IX...also Moon Conjoins Sat also ON the IIIrd cusp, causing Punarphoo which Confirmed that his engagement was broken many times in the Past...Sat owns IX...

Moon reflected his mind... engagement negotiations were on...and he Wanted to know if he will get married this time at least...When I told him this he was surprised...Then I began the analysis:

1) Is marriage promised at all?

2) The s/I of VII is Jup the greatest benefic, and he signifies V & XI.

3) Hence marriage is definite, most probably a love-marriage, as V is Involved with s/I of VII.

(There was a stunned silence...)

4) When will it take place? (Both the astrologer and the querant asked, simultaneously with disbelief written all over their faces...)

5) I continued to analyze loudly...

During the periods of the significators of II, VII & XI ...

They are:

II - Sat, Merc, Jup.

VII - Ven, Sun, Mars, Jup

XI - Jup, Mars, Rahu, Merc

V - Sun, Jup, Kethu, Sat, Merc

6) The Ruling Planets at TOJ: Sun, Sat, Mars, Jup take Rahu and Kethu also.

7) Marriage is most likely to take place during Sat dasa, Jup Bhukti, Sun Anthara during 15-02-2006 TO 31-03-2006...narrowing down further...I Continued...

8) When Transit Sun conjoins Rahu...who represents Jupiter, the strongest significator of XI, most probably, during the last week of March, 2006!

9) THIS PREDICTION WAS PROVED CORRECT WHEN HE GOT MARRIED AROUND 30th MARCH 2006 ! (At his Native place).

As was conveyed to me by yet another common friend... (who was aware of My prediction and also the initial disbelief expressed by Mr. Varude And his astrologer friend...)

LONG LIVE KRISHNAMURTHI PADHDHATI & KOTI KOTI PRANAAMS TO OUR BELOVED GURUJI THE LATE JYOTISH MARTHAND THE LATE SHRI K.S. KRISHNAMURTHIJI...

THE IMPORTANCE OF KP AYANAMSA IN APPLIED KP PREDICTION

It gives me immense pleasure in authoring this article for the inaugural issue of KP E-magazine edited by a scholarly KP professional, Shri Kanak Bhai Bosmia, who is well known in India and abroad for his astoundingly correct predictions using the **Krishnamurthi Paddhati (KP) astrology**. In fact, the launch of this electronic magazine for KP astrology will, perhaps, be the first of its kind in this branch of astrology in the world. My best wishes are with the editor and this scholarly journal.

The role of Ayanamsa in applied prediction can hardly be over emphasized. This article is not an attempt to advocate any particular Ayanamsa, since we are all aware that the Ayanamsa given by our revered **Guruji late Shri K. S. Krishnamurthi (KSK)** is a very important ingredient for using his system of astrology. The Krishnamurthi Paddhati would not yield correct results if one were to use any other Ayanamsa, namely Lahiri, Bhasin, Sanatana, or Raman. For correct prediction through KP astrology we invariably need the Ayanamsa

suggested by Shri KSK, which he arrived at after decades of painstaking research. In his First Reader, Shri KSK spent over 16 pages in discussing the role of Ayanamsa and his exposition on this matter leaves no room for doubt that the Ayanamsa suggested by him for 15th April, 1900, taking the Epoch year as 291 AD, was 22 Deg 22 Min 30 Secs (KP & Astrology Yearbook, 2003; pp 92-93) would yield consistent results with the precision rate per second per year as 50. 2388475 seconds (also known as Newcomb's rate of correction) however, recently there has been some modification in this Ayanamsa. Some researchers in the field of KP astrology have taken a different Epoch year and arrived at an Ayanamsa which is different by about 4 mins 44 seconds. This Ayanamsa is popularly known as the KP Straight Line Adjusted Ayanamsa. As a result of this correction rate, the Ayanamsa value for the same date as above turned out to be 22 Deg 27 Min 14 Secs thereby giving a difference of 4 Mins 44 Secs. Though this may appear to be a minor difference, practitioners and researchers in the field of KP are well aware that this so called 'minor' difference can cause the entire prediction to go haywire.

Before I cite a case example to illustrate the importance of Ayanamsa, let me briefly elucidate the concept of Ayanamsa. The word 'Ayan' means movement.

Therefore, 'Sha Ayan' means moving position or with-Ayan whereas, 'Nir- ah Ayan' means static position or without Ayan. This gives rise to the Sayana zodiac (the moving zodiac) of Western astrology and the Nirayan zodiac (fixed or sidereal zodiac) of Indian astrology. The Ayanamsa value is the distance between the Hindu first point and the Vernal Equinox, measured at an Epoch. Vernal Equinox refers to one of the two points that arise due to the intersection of the celestial equator and the ecliptic or the apparent path of Sun. Thus, the difference in values for the various Ayanamsas occurs due to the different Epoch years that are considered as the dates of coincidence of the two zodiacs. A number of Epochs were used by researchers and scholars such as 361 AD, 394 AD, 397 AD, 498 AD 559 AD etc. We are all aware that in KP astrology the smallest sub-division arc of a constellation is of a value of 4 mins. This belongs to Sun. Therefore, any difference in the Ayanamsa values greater than 4 mins would alter the sublord of a planet and cusp.

In the example below, I provide a case example where the choice of a particular Ayanamsa yielded different results. This case is not an example to advocate any particular Ayanamsa value but a simple illustration that Ayanamsa plays a very important role in prediction. It is up to the wise discretion of the readers

to find out the Ayanamsa value that yield consistent results to them.

On 24th November, 2006 a lady approached me to know whether her husband would get an interview call from a reputed educational institution. The question put forth was, "will my husband get a call for the interview at BMA?" She gave 20 as the horary number within 1-249. I analyzed the chart on the same day at 8:38:02 PM in Hyderabad using geocentric latitude correction and KP Straight Line Adjusted Ayanamsa value of 23 Deg 56 Mins 30 secs.

The cusps used for arriving at the prediction were 3, 9, and 11th cusps from 7th, which means cusps 9, 3, and 5 respectively. The Moon of the un rotated chart reflected the query by signifying houses 3 at planet level, 7 at Starlord level and 5 at the sublord level. The other signification of Moon—10, 2, 1, and 4—denoted that the husband of the querist was seeking a change in the job due to increase in post and pay not due to any problem in the workplace. The lady confirmed this. In the rotated chart, the 7th cusp sublord Venus denoted 10, 6, and 3, 3rd cusp sublord Jupiter denoted 3 and 9, 9th cusp sublord Jupiter denoted 3 and 9 and the 11th cusp sublord Moon denoted 3. So, the call for the interview was definitely to be received by the husband of the querist.

The time for receiving the call for the interview was arrived after taking the help of Ruling Planets at the time of judgment. The Lagna was ruled by Mercury-Jupiter-Saturn and the Moon was ruled by Jupiter-Venus-Saturn. The fruitful signifiers were considered as Venus, Mercury, Jupiter and Saturn. The running Dasa-Bhukti-Anthara (DBA) was that of Venus-Saturn-Mercury. All these planets were in the list of fruitful signifiers. I decided that the matter has to come out during Jupiter Sookshma period.

It was found that Venus-Saturn-Mercury-Jupiter period operated from 30th December 2007 to 21st January 2007. The lady was informed that her husband would be receiving a call during this period.

However, the call was actually received on 5th December 2006 and the lady was more than pleased at me for telling her that her husband would be receiving the interview call. But I was totally displeased at my wrong timing. Upon discussing this matter with some senior KP astrologers of Hyderabad, I was told to look at the same prognosis using the KP Old Ayanamsa. With this input, I re-casted the horary chart with the Ayanamsa value of 23 Deg 51 Mins 47 Secs. The chart is provided in the next page. There is no change in the sub lordship of any cusps or planets except the Fortuna. However, the

longitude of Moon and other planets have changed along with the longitudes of the 12 cusps.

Therefore, a change in the longitude of Moon due to the change in the value of Ayanamsa gave different timings of the Dasa balance. It was found that the same Venus Dasa, Saturn Bhukti, Mercury Anthara and Jupiter Sookshma operated during 17th November 2006 to 9th December 2006. Since, the analysis was done on 24th November 2006, it was clear that the result would have occurred between 25th November 2006 to 9th December 2006.

To conclude, therefore, I would like to say that in the above case example, using KP Old Ayanamsa brought us into the actual period of fructification of results. The choice the fruitful signifiers gave us the DBAS but the timing of this DBAS changed due to different values of the Ayanamsa. Though there was no change in the sub lordship of the 12 cusps and 9 planets in this case, it may definitely happen when the degrees rising on the various cusps are near their transition. And in such situation, the entire analysis may go wrong because the fundamental premise of KP astrology depends upon the planetary lordship of the cusps and planets. I conclude this article with best wishes to the editor of this electronic magazine.

Dear KanakBosmia,

Kudos to your excellent effort for bringing out The first KP E magazine for the benefit of the KP astrologers across the globe.

The articles of Shri.A.R.Raichur 4 step theory
Shri.K.P.Kuppu Ganapathi's Ruling planet
Shri.Andrew Dutta's KP Aynamsha
Shri.L.Y.Rao's of Marriage When?

are excellent. I am sure your effort will gain lot of success and most of us will be benefitted.

Congratulations once again.

In Man Machine Systems Astro software, you may find Marriage matching feature developed by Shri. K.P.Kuppu Ganapathi, in this how the matching was done i.e. principles are not provided in the software. hence if there is any article/paper published by him, may please be printed in this E.Zine for the benefit of the Kp astrologers.

- Ramanathan Balaji

Note from editor: as you suggested in this issue we add article written by Sri K.P.Kuppu Ganapathi ji.

Sir,

Your E-Zine is great.It covers many useful topics written by learned astrologers. Only one minor suggestion if you do not divide page and write continuously on full page it will become easier to read. Please consider

Dear Kanak

Seen the first issue you sent me as attachment. It is a full fledged **e-book** of 51 pages! It will take some time to go through every article. But at first sight, the effort is great. Congratulations for this venture.

Good luck and all the best.

- Hasmukhrai J Mehta.

A very hearty congratulations !! to Shri Kanak Bosmia ji for bringing out the inaugural issue of KP E-Magazine.

May God bless him and his Emagazine.

Wishing him success and joy in KP Astrology

Namaste Kanak Ji,

I have just read the KP e-Magazine and it's awesome and a lot of knowledge is flowing from this (first) magazine. After reading this,

I am inspired to write few articles for this e-Magazine for the future issues. I will start working on this by taking some of my recent accurate KP based predictions.

Again, wonderful job and I know, this is not an easy task to bring such a wonderful product for all of us. Congratulations.

Regards

- **Raghunatha Rao**

Dear Kanakji,

Thank You for the wonderful exposition - e magazine for all Lovers of

KP Astrology. I hope that the Free Reading continues till next 2-3 years at least, and does not change into a paid one as soon as you get a high number of subscribers. And the download of Panchang , tables etc is also certainly helpful to the readers. But how does one copy same from the site and record on his PC in Document or MS Word ? - to enable one to use same when he is offline?

Wish You all the best,

- **Bhaskar.**

Dear Shri Kanak Bosmia,

I forward my heartfelt appreciations for the wonderful efforts you have put to bring out the inaugural issue of KP Ezine.

Let me wish all the best to you and pray The Lord to confer His grace on your efforts.

Congratulations!

- **Vijay Kumar**

It's very impressive and definitely a keeper. Keep up the wonderful work.

All the Best,

- **Sandy Crowther**

4 STEP METHOD - PART: 2

By: Shri A.R. RAICHUR 8/147, GARODIANAGAR BOMBAY-400 077

SHREE GANESHAYA NAMAHA

This is the 2nd Article in the series. We now outline the method of getting the Signified Houses in the 4 steps.

Before we proceed, there are certain strict rules to be observed, so that all practitioners of this method can easily follow the articles written on this subject:

Cast the chart. Note the Planets, which have no other planets in their stars, i.e. Planets, which are not Star Lord of other planets. Mark such planets by a sign say +. Note planets whose star Lord is the same as the planet. Mark this by a sign say *. Note down planets, which are just behind the Cusp, i.e. within 3.33 deg. Note down the planets, which are conjunct (within 3.33 deg) of each other. Note Indian Aspects of planets, but with orb of 3.33 deg. only. These are Opposition; For Mars 4, 7, 8. For Sat 3,7,10. For Jup 7, 5, and 9. Restrict planets to the 7 regular planets, and Rahu and Ketu. No other planets to be considered. Note houses which are empty, contain no planets other than Herschel, Neptune, Pluto, and Fortuna.

The houses signified by a Planet, are the House, which contains the Planet, and 1 or 2 houses, which are owned by the planet. They **MUST** be written down in that order only.

The significance is again of two types. 1 Strong Significance, or Primary significance and 2 secondary significance. Only Primary/Strong significance is considered for prediction.

Rule 1. If there are no planets in the Stars of a planet (marked +) then
The house occupied by that planet becomes a strongly signified house, the houses owned by such a planet also become strongly signified, *provided they are empty.*

Rule 2: If there are some other planets in the Stars of a Planet, then the
House occupied by the planet becomes a secondary signified house, and so do the houses owned by it, even if they are empty.

Rule 3: If the planet is in stars owned by it self, it becomes the strong Significator of its house of occupation, *even if there are other planets in its stars. The houses owned by it are strongly signified only if they are vacant.*

These rules apply to steps 1 and 3. In step 2 we find the houses signified by the Star Lord of the Planet, and in 4 the houses signified by the Star Lord of the Planet's Sub-lord.

Rule 4: When a Planet is the Star Lord of the main Planet, it strongly signifies the house occupied by it, and houses owned by it if they are vacant. If the houses owned are not vacant then the significance is secondary.
This rule applies even if there are other planets in the stars of this starlord.

Rahu and Ketu.

Rule 5: The nodes in step 1 and 3 signify the House occupied and also the House occupied by the Lord of the sign in which they are, and the houses owned by such lord. If there are NO other planets in the Stars of Rahu/Ketu, then the houses occupied by its, and Lord of sign are strongly signified, so are the houses owned by the Sign-lord, if such houses are Vacant.

However, if there are other planets in the stars of the Node, the significance is of secondary nature for all houses, vacant/occupied.

Rule 6: When the Node is a star-lord of another planet (steps 2 and 4), in Addition to signifying the House occupied by it, the Houses of the Lord of the sign occupied by it, it will also signify the houses of ITS Star-lord.

Thus Rahu /Ketu can signify 4 or when it is a star lord 7, houses.

Rule 7: Planets which are conjunct with the Main planet, or which aspect this Planet also contribute to the houses signified by the planet. The house occupied by such conjunct/or aspecting planets will be principally signified, if the main planet is in own star or has no other planets in its stars, other wise significance is secondary. This rule is, however, not applicable in 4th step.

In the next article an example will be given showing application of these rules.

KPDP NO.5 = MUTUAL UNDERSTANDING BETWEEN THE COUPLES:-

i) Work out the aspects formed (by taking into account the ORB of the respective Planets) between the 7th Cusp Sub Lords of the Boy and the Girl, in their respective charts.

ii) See where the 7th Cusp Sub Lord in the Girl's chart is occupying in her chart. Similarly find out the placement of the 7th Cusp Sub Lord in the Boy's chart and work out the aspect formed between these two by taking into account the ORBS of the respective Planets.

Depending on the nature of aspect i.e., favourable or unfavourable, in respect of (i) and (ii) above give marks, proportionately.

KPDP NO.6 = PLEASURE AND HAPPINESS AFTER MARRIAGE:-

Birth Star Lord of the Boy should occupy houses 2, 3, 5, 7, 9 or 11 in the Girl's chart and vice-versa.

KPDP NO.7 = GENERAL SUITABILITY FOR MARRIAGE:-

7th Cusp Sign, Star and Sub Lords of the Boy should be Ruling Planets of the Girl at the time of birth and similarly the 7th Cusp Sign, Star and Sub Lords of the Girl should be the Ruling Planets of the Boy at birth. The occupant of the 7th in the respective charts can be taken as a RULING PLANET for this purpose.

KPDP NO.8 = LIKELIHOOD OF MARRIAGE WITH THIS BOY AND THE GIRL:-

The RULING PLANETS of the Boy should be the significators for 2.7.11 for the Girl and Vice-versa.

KPDP NO.9 = SMOOTHNESS IN MARRIED LIFE:-

See whether the 11th Cusp Sub Lords in the charts of the Boy and the Girl are in any way connected to houses 6, 8, 12 in any manner, in their respective charts. If they are not connected full marks can be given. Otherwise marks will have to be awarded proportionately.

KPDP NO.10 = WHETHER THE PERIOD LORDS NOW OPERATING IN BOTH CHARTS INDICATE DESIRABILITY OF MATCHING FOR MARRIAGE:-

i) At the time of matching if either is running 'A' Dasa, 'B' Bukthi and 'C' Anther see whether A,B,C are the RULING PLANETS at the time of birth of the other.

ii) The Planets deposited in the star of the above A, B, C Planets will be the RULING PLANETS at the time of birth of the other. Either (i) or (ii) above should be there. Accordingly give marks proportionately.

After totalling the marks obtained as above, divide the same by 1000 and arrive at the percentage of matching. Anything above 50% can be taken as matching. But for happy married life the matching percentage should cross 75% minimum.

CHAPTER NO: 2

Last month we discussed MST and in this article we shall discuss how to find out significators.

As per Dr. Kar there are two ways to calculate significators (A) Cuspal significators, and (B) Bhava significators.

CUSPALE POINT SIGNIFICATOR

In this method we have to look for the cuspal point planets and find out fruitful significators by F-1 and F-3 of MST theory.

For example when we look for marriage:

For marriage we, judge cusp 2, 7 and 11. First of all we note down Planets governing sign, star, sub and sub-sub of 2, 7 and 11 cusps. Very first we have to check up whether marriage is promised by the 7th Sub sub lord? In this example 7th Sub sub lord is Mar as per F-1. Mars is in the star of Ven. Ven is Sign lord of 11th. So Mar is fruitful for marriage. So marriage is promised. And as per F-3 Mar is in the sub sub of the Sun and the Sun is in the star of Moo. Moo is Star lord of 2nd so Mar is fruitful for marriage. As per F-3 also, Marriage is promised.

We continue with the same example chart for this example:

Cusp:	Sign	Star	Sub	Sub-Sub
2	Sat	Moo	Ven	Mer
7	Mer	Rah	Moo	Mar
11	Ven	Jup	Sun	Mer

Common from above are: Sat, Moo, Ven, Mer, Rah, Mar, Jup, Sun, Ket (agent of Sun-Ven).

Last month we discussed about F-1 and F-3 Table, as per that table we check which planets are fruitful for marriage:

AS PER F-1:

Sun: Sun is in the star of Moo, Moo is Star lord of 2nd. So Sun is fruitful for marriage.

Moo: Moo is in the star of Jup. Jup is Star lord of 11th. So Moo is fruitful for marriage.

Mar: Mar is in the star of Ven. Ven is Sign lord of 11th. So Mar is fruitful for marriage.

Mer: Mer is in the star of Mar. Mar is Sub sub lord of 7th. So Mer is fruitful for marriage.

Jup: Jup is in the star of Mer. Mer is Sign lord of 7 and sub sub lord of 2nd & 11th. So Jup is fruitful for marriage.

Ven: Ven is in the star of Rah. Rah is star lord of 7th. So Ven is fruitful for marriage.

Sat: Sat is in the star of Mer. Mer is Sign lord of 7 and sub sub lord of 2nd & 11th. So Sat is fruitful for marriage.

Rah: Rah is in the star of Jup. Jup is Star lord of 11th. So Rah is fruitful for marriage.

Ket: Ket is in the star of Ven. Ven is Sign lord of 11th. So Ket is fruitful for marriage.

As per F-3:

Sun: Sun is in the Sub sub of Mer and Mer is in the star of Mar. Mar is Sub sub lord of 7th. So Sun is fruitful for marriage.

Moo: Moo is in the sub sub of Mar and Mar is in the star of Ven. Ven is Sign lord of 11th so Moo is fruitful for marriage.

Mar: Mar is in the sub sub of the Sun and Sun is in the star of Moo. Moo is Star lord of 2nd. So Mar is fruitful for marriage.

Mer: Mer is in the sub sub of Jup and Jup is in the star of Mer. Mer is Sign lord of 7 and sub sub lord of 2nd & 11th. So Mer is fruitful for marriage.

Jup: Jup is in the sub sub of Rah and Rah is in the star of Jup. Jup is Star lord of 11th. So Jup is fruitful for marriage.

Ven: Ven is in the sub sub of Mer and Mer is in the star of Mar. Mar is Sub sub lord of 7th. So Ven is fruitful for marriage.

Sat: Sat is in the sub sub of Ket and Ket is in the star of Ven. Ven is Sign lord of 11th. So Sat is fruitful for marriage.

Rah: Rah is in the sub sub of Ket and Ket is in the star of Ven. Ven is Sign lord of 11th. So Rah is fruitful for marriage.

Ket: Ket is in the Sub sub of Mer and Mer is in the star of Mar. Mar is Sub sub lord of 7th. So Ket is fruitful for marriage.

As we found all planets fruitful for marriage, so we have to take help of RP and then choose DBAS.

Now we take one more example to clear more this theory.

For going abroad we take significators of 3, 9 and 12. Now we shall see how to find out cuspal significators as per MST theory. For going abroad we have to check 12th sub sub lord. In this example 12th sub sub lord is Mer. As per F-1 Mer is in the star of Mar. Mar is Sign lord of 12th. So Mer is fruitful for going abroad. And as per F-3 Mer is in the sub sub of Jup and Jup is in the star of Mer. Mer is Star lord of 12 and sub sub lord of 3rd & 12th. So Mer is fruitful for going abroad.

Cusp:	Sign	Star	Sub	Sub-Sub
3	Sat	Jup	Ven	Mer
9	Sun	Sun	Mar	Rah
12	Mar	Mer	Mar	Mer

Common from above are: Sat, Ven, Mer, Rah, Mar, Jup, Sun, Ket (agent of Sun-Ven).

AS PER F-1:

Sun: The Sun is in the star of Moo, Moo is not the sign, star or sub sub lord of any of the relevant houses (please note that there is no room for sub in MST). So the Sun is not a fruitful planet.

Moo: Moo is in the star of JUP. Jup is Star lord of 3rd. So Moo is fruitful for going abroad.

Mar: Mar is in the star of Ven. Ven is is not the sign, star or sub sub lord of any of the relevant houses (please note that there is no room for sub in MST). So Mar is not fruitful planet.

Mer: Mer is in the star of Mar. Mar is the Sign lord of 12th. So Mer is fruitful for going abroad.

Jup: Jup is in the star of Mer. Mer is Star lord of 12th and sub sub lord of 3rd & 12th. So Jup is fruitful for going abroad.

Ven: Ven is in the star of Rah. Rah is sub sub lord of 9th. So Ven is fruitful for going abroad.

Sat: Sat is in the star of Mer. Mer is Star lord of 12th and sub sub lord of 3rd & 12th. So Sat is fruitful for travel abroad.

Rah: Rah is in the star of Jup. Jup is Star lord of 3rd so Rah is fruitful for Abroad.

Ket: Ket is in the star of Ven. Ven is not the sign, star or sub sub lord (please note that there is no room for sub in MST). So Ket is not fruitful planet.

Now we have fruitful planets for travel abroad. They are: Moo, Mer, Jup, Ven, Sat, Rah.

As per F-3:

Sun is in the Sub sub of Mer and Mer is in the star of Mar. Mar is Sign lord of 12th so Sun is fruitful for going Abroad.

Moo: Moo is in the sub sub of Mar and Mar is in the star of Ven. Ven is not the sign, star or sub sub lord of any of the relevant houses (please note that there is no room for sub in MST). So Moo is not fruitful planet.

Mar: Mar is in the sub sub of Sun and the Sun is in the star of Moo. Moo is not the sign, star or sub sub lord of any of the relevant cusps (please note that there is no room for sub in MST). So Mar is not a fruitful planet.

Mer: Mer is in the sub sub of Jup and Jup is in the star of Mer. Mer is Star lord of 12th and sub sub lord of 3rd & 12th. So Mer is fruitful for Abroad.

Jup: Jup is in the sub sub of Rah and Rah is in the star of Jup. Jup is Star lord of 3rd. So Jup is fruitful for travel Abroad.

Ven: Ven is in the sub sub of Mer and Mer is in the star of Mar. Mar is Sign lord of 12th. So Ven is fruitful for going Abroad.

Sat: Sat is in the sub sub of Ket and Ket is in the star of Ven. Ven is not the sign, star or sub sub lord of any of the relevant cusps (please note that there is no room for sub in MST). So Sat is not a fruitful planet.

Rah: Rah is in the sub sub of Ket and Ket is in the star of Ven. Ven is not the sign, star or sub sub lord of any of the relevant houses (please note that there is no room for sub in MST). So Rah is not fruitful planet.

Ket: Ket is in the Sub sub of Mer and Mer is in the star of Mar. Mar is Sign lord of 12th. So Ket is fruitful for going Abroad.

Now we have fruitful planets for going abroad. These are: Sun, Mer, Jup, Ven, and Ket.

In Cuspal significators there are three kinds of processes. Cuspal points are the sensitive and principal guide to tell the truth about the event; whether the matter will thrive or fall through.

A) Cuspal significators will be scrutinized by F-3 of MST. The principal cuspal significators and the planets in the sub sub of them will be the strong ones for the matter in question.

A) Cuspal significators can straight away be taken for judgment but the planets who are in their sub sub will be the strongest significators.

B) The planets that are in the star of the principal cuspal significators will be taken first; then those who are in the sub sub of the star planet will be strongest significators.

Like this, we can calculate fruitful significators for any question.

BHAVA SIGNIFICATORS

(Note X - No planet in Bhava)

Bhava	A Planet Occupants/Owner	Planet "A" In the Sub-Sub of "B"	Planet "B" In the Star of "C"	Bhava	A Planet Occupants/Owner	Planet "A" In the Sub-Sub of "B"	Planet "B" In the Star of "C"
1	Sun/Jup	Mer/Rah	Mar/Jup	7	Moo/Mer	Mar/Jup	Ven/Mer
2	Rah,Ven,Mer/Sat	Ket,Mer,Jup/Ket	Ven,Mar,Mer/Ven	8	Sat,Ket/Moo	Ket,Mer/Mar	Ven,Mar/Ven
3	X/Sat	X/Ket	X/Ven	9	X/Sun	X/Mer	X/Mar
4	X/Mar	X/Sun	X/Moo	10	X/Ven	X/Mer	X/Mar
5	X/Mar	X/Sun	X/Moo	11	Jup/Ven	Rah/Mer	Jup/Mar
6	X/Ven	X/Mer	X/Mar	12	Mar/Mar	Sun/Sun	Sun/Sun

If we want to choose significators for marriage then we have to select planet from column "B" and "C".
significators of 2, 7, 11 are: Ket, Mer, Jup, Ven, Mar, Moo, Mer, Rah,

If we want to choose significators for going abroad then we have to select planets from column "B" and "C".
significators of 3, 9, 12 are: Sat, Ket, Ven, Sun, Mer, and Mar.

Like this we can find out significators of any bhava related to any question. Next month we will discuss one more theory of Dr. Kar.

PUNJAB ELECTIONS

By: DR. H. S. NAGI, 9/43, PAU, LUDHIANA, MOBILE-09417717910

Email: bkhardeep@yahoo.com

I have no connection with any political party but as student of astrology I have curiosity to know astrologically who will form the next govt. in the Punjab.

I have done calculations based on horary stellar astrology. To know whether one's party will form govt. or not, and to know victory, one has to give number between 1 to 249, on behalf of AKALI and BJP one of the prominent party worker gave no 46 for calculations. The horoscope for this no. was erected on Jan, 24, 2007 at 20:04 IST in Ludhiana.

Query with moon or lagna cusp sub lord

Moon is placed in 10th house and lord of 3rd clearly indicates the querist desire for his party to come in power (10) with cooperation of other party (3). Moon itself is lagna sub lord. Moon is in star of mercury. Lord of 1 (success), 2 (political gains) and 5 (politics) and mercury is in 9 (Bhagya) and in the sub of own.

Rule

To know whether one will win or not, one has to judge from 6th cusp sub lord. It should signify 6 or 10 or 11 houses. And at the same time should not be strong significator of 4 or 5 or 12 houses. If one does not reach at clear conclusion with this analysis then one should judge 12th sub lord. If it signify 6 or 10 or 11 strongly then queerest will win, if signify 4, or 5 or 12 strongly then queerest will loose.

Analysis:

6th sublord is Mar in the star of Ket and sub of Mer. Mar is lord of 6th, Ketu aspected by Ven in 9. 11th sublord is Moon and we discuss above.

Let us analyse from the opponents view. 7th house stands for competitor it falls in Sagittarius under Jupiter sign, ketu star and rahu sub. Sign lord Jupiter is in mercury star which occupies 9th house that is 3rd from 7th. It shows deception. Jupiter is lord of 11th in 6 it becomes lord of 5th in 12th from 7th shows defeat. Ketu is the star lord of 7th cusp, posited in 4th house that is 10th will bring some respect. Rahu is the sub lord of 7th and 12th cusps which are lagna and 6th houses respectively. This Rahu is in Jupiter star and Mer sub. Rahu which is placed in 4 (opponent's 10th), star lord Jup is in 12 lord of 5 (opponent's 11th). Not indicate good for opponenet.

If we analyse by considering 11th cusp as lagna, since he is well wisher of party. Then analyses will be as under Lagna sub lord moon is in star of mercury. Mer is in the 11th. It makes lagna very strong.

Testing 6th cusp sub lord from 11th

6th cusp sub lord is rahu, what rahu will do. It will give the result of planet with which it is conjoined in a sign. Here it is conjoined with venus. Venus is in star of mars, mars in 9 (good for political gain) and venus is in 11th. So rahu got signification of 9 and 11 through venus. Secondly, rahu is in Saturn sign, Saturn is in star of mercury. Mercury is in 11th, so rahu is strongly connected with 11th house. Rahu is in star of Jupiter, lord of 1-9-10 9n 8 aspecting lagna with trine, a most beneficial aspect. To check what Jupiter will do in 8th house, Jupiter is in star of mercury, again mercury is in 11th. So don't afraid by signification of 8th. If 8th sub lord is connected with 6 or 11 then obstacles will removed, here mars is the 8th cusp sub, lord. Mars is in star of ketu. Ketu is in 6th; it shows, in spite of all odds. The akalis will win.

After analyses it can be declare boldly that this time AKALI AND BJP will form the govt.

Note of Editor: Received this article on 11th Feb 2007 now we know that AKALI AND BJP are going to form the govt.

Besides teaching Parasharic and Jaimini astrology at ICAS, Bangalore and contributing to The Astrological Magazine in Jaimini theme since a decade, the author has special interest in The Krishnamurti Paddhati and is a serious student of this subject.

My family was to travel on 14-02-2007 from Jaipur to Bangalore by train on a waitlisted ticket for which HO, Delhi had already sent a request for confirmation to Jaipur. The train was to leave at 740pm from Jaipur and normally, the reservation chart is released from the originating station completing all formalities of last minute reservations 4 hours in advance to the train departure. From this calculation, I was occasionally logging at Internet from 4pm onwards to check, if the ticket was confirmed.

My repeated efforts on Internet surfing at Bangalore continued till 5 pm but the results were showing that the chart is yet not prepared. After getting fed up, finally, I casted a prashna chart at 17-01-24Hrs IST, seeking the answer "When will the PNR status be available to me?"

The prashna chart with cuspal details is on next page.

I made some quick observations as follows to arrive at the result in a matter of about 5-7 minutes, so that I could validate the results thereafter.

The chart is being analyzed from the principles of cuspal interlinks as follows:

The Query

I was too focused and slightly in anxiety for the travel of my wife. Note that Moon by itself appears in 3rd cusp (showing the record of ticket confirmation) and 11th cusp (realization of my desire), which did indicate the genuineness of the query. Moon is in the star of Venus placed in 3rd cusp and 11th cusp (realization of ambition). Thus, the mental focus on the query was represented in the prashna chart.

Lagna sub-sub lord Venus also indicates the promise of the query. Venus is in the star of Jupiter signifying 11th cusps and its sublord-Venus placed in 3rd cusp did indicate the query again. Jupiter's presence in 8th cusp did show my anxiety/apprehension.

Looking to the disposition of Moon and Lagna sub-sub lord, the horary chart was taken to indicate the desired query and it was safe to proceed further.

The co-ordinates for judgment

This prashna chart was casted to find the ticket confirmation status for my wife's travel. Thus the relevant cusps required to be judged were the 3rd cusp showing record of confirmation and the 11th cusp showing the realization of my desire.

In order that the query meets the fructification, the 3-11th cusps should be well connected either way.

Analysis of the chart

Look for the promise of fructification of event, which would be possible, if the principal cusp (3rd cusp: record of ticket status) and 11th cusp are committing to each other either way.

Venus is the sub-sub lord of 3rd cusp, thus it signifies the reservation record. Venus, as said earlier, is in the star of Jupiter signifying 11th cusps and its sublord-Venus placed in 3rd cusp did indicate the promise of fructification. Since, sublord-Venus also signifies Lagna, the fructification has to be witnessed by me.

Timing the event

In this prashna, the results were almost sure because of the recommendation already given by Delhi HO but getting to see it finally was the issue. Since, the event was to happen almost within a matter of 10-15 minutes, there was no need to see the DBA etc and movement of cuspal positions was only sufficient to arrive at the results.

- Lagna was running in Mars sub at the time of prashna, hence it was necessary to examine, if subsequent Rahu sub at Lagna would help to fructify the event. This was the first pointer for timing.

Note that Rahu is the sub-sub lord of Venus (sub-sub lord of 3rd cusp). Rahu disposes Saturn and Jupiter as sign and star dispositor respectively. Since, both Jupiter and Saturn are strongly placed in 11th cusp as sub lord and sub-sub lord, Rahu could fructify the desire of seeing the reservation status. Hence, it was decided that during the time span in which the Lagna transits Rahu sub, the reservation status could be available on internet.

- The next step was to select the time in which the 11th cusp would transit in the planets related to Rahu (such as its sign/Rasi dispositor/sub-sub lord) within the span of time, Lagna transits Rahu sub.
- I also looked to Moon, which was transiting in the sub-sub of Ketu. I checked, if that was to change to Venus sub-sub, as that would activate the Lagna and 3rd cusp bringing fructification to my desire of seeing the PNR status. I found it to change very shortly within 8-9 minutes.
- It was noted that Lagna was to traverse in Rahu sub from 17-02-20Hrs to 17-11-00Hrs. Within, this period 11th cusp transited in Saturn sub (Saturn: sign dispositor of Rahu) and Mercury sub-sub (Mercury is the sub-sub of Rahu) from 17-09-06Hrs to 17-10-21Hrs IST. In addition to it, the Moon was to start transiting in sub-sub of Venus from 17-9-30 Hrs onwards.

Looking to the above, it was inferred to get the result of PNR status after 17-09-30 Hrs, as this meets all the requirements discussed above.

- This whole exercise took about 7 minutes and I was ready to surf the Internet from 17-08 Hrs onwards. While, continuously refreshing the page of PNR logging, I could observe the results at the interval of 8-10 seconds.

To my joy, when I refreshed the page at 17-09-38 Hrs, I got the results of berth allotment.

My intention to look at this case from cuspal interlink was primarily based on the fact that the cusps change extremely fast and thus may be of help in such urgent situations. Thanks for the tool of cuspal interlink theory that proved very handy at my time of need.

WILL I GRANTED BAIL OR DENIED?

(DR. H. S. NAGI, 9/43, PAU, LUDHIANA, MOBILE-09417717910)

While teaching my kp class, one of my student, who is a computer engineer asked, sir, my uncle wants to talk you on phone. I got phone call from his uncle. His question is: Whether I will get the bail on 20th feb, 2007? Horary no. given by him is 132, I took up quarry on 17th feb, 2007 at 15, 40 at Ludhiana.

1-Verification of query with Asc. Sublord or moon

Moon is the mind. Moon is in dhanishtha, the star of mars. It represents quarrel/conflict. Mars is in 3rd house. 3rd house controls the matter of agreement, communications, and bail etc. so moon agrees with the query.

2-Fulfillment of desire by examining 11th cusp

11th cusp sublord is sun. Sun is lord of 11th in the star of mars. Mars is lord of 7th and 2 in 3rd. It creates some hope to see further.

3-Rule-

To know whether the person will be granted bail or denied, look into the sub lord of 3rd cusp. (a) If it is deposited in the retrograde planet then the bail will be denied. So it should be deposited in a star, whose lord is in direct motion. (b) Secondly it should be a significator of 11th house. Only then the bail will be granted.

4-Result-Bail denied?

I replied, NO, it will not happen now.

Just look into the sub lord of 3rd house.

It is Saturn; Saturn is retrograde and posited in star of retrograde planet mercury. Here 3rd cusp sub lord does not qualify to give the result because its star lord is retrograde. So the matter will not fructify in desired manner. On the basis of this I tell him your bail will be denied.

5-Time factor

The matter will not fructify in desired manner, so I didn't feel to calculate Dasa, Bhukti.

6:Result

Today on 24th Feb, my student confirmed it that his bail was denied and now they will go to high court.

OM GANESHAYA NAMAHA

The inaugural issue of KP E-zine published in February 2nd 2007 has become an instant hit in the circles of astrologers, both traditional and KP followers. This magazine has found high respect and acclaim from many reputed astrologers across the globe for the scholarly articles that were published. On behalf of the KP astrologers' community I extend my heartfelt gratitude to the creator and editor of this unique magazine—Shri Kanakbhai B. Bosmia. May Lord Ganesha bless him and this magazine for the great cause of astrology.

Our revered Guruji late Prof. K. S. Krishnamurthi ji gave mankind a unique system of prediction which never fails if they are applied diligently with the principles that have been propounded by him. This unique system, popularly called as the Krishnamurthi Paddhati (KP), helps to provide answer to practically all the problems of human life. Its vastness of application is truly unlimited and an applicant of this system can accurately predict the precise hour and minute of fructification of the outcome.

In this article I shall discuss the practical application of KP principles as they have been propounded by our Guruji with respect to horary questions related to winning competitions or elections. Two case studies will also be provided to illustrate the principles.

Many astrologers have to face questions that have binomial outcomes. In these situations the stake of reputation is high for the astrologer since the outcome can be either positive or negative. The astrologer has to be very sure about his/her prognosis before the pronouncement of his/her judgment. Questions that have binomial outcomes usually relate to matters such as competition, litigation, election, sports matches and such matters where there is only two outcomes for the querist—either win or lose. These are the situations of acid test for the astrologer. (Some people argue that there is a probability of 0.5 in these situations of arriving at the correct answer. But they forget that, by the same rule of probability, the chance of giving a wrong answer is also 0.5. So, the astrologer is not at all better placed). Therefore, the rules of KP should be strictly adhered to in order to offer accurate predictions to the querist.

According to our Guruji Shri KSK, the 6th house of a horoscope (whether birth or horary) controls the matter of competition, litigation, elections, winning etc among many other things. Thus, to judge matters related to these the significations of the 6th cuspal sublord should be carefully noted. Along with this house, the signification of the 11th cuspal sublord should also be noted because 11th house is the house of desire fulfillment or "Iccha puran". Now if Lagna is self then 7th house is the opponent—the person whom we confront. The winning of this opponent will have to be judged by the 'opponent's 6th and 11th house'. This, therefore, means that the winning of the opponent is denoted by the 12th and 5th house of the horoscope, which is the 6th and 11th house respectively of the 7th – the opponent. As a result, for questions pertaining to competitions etc, the house 6th and 11th should be analyzed along with 5th and 12th.

Our Guruji has also provided a set of golden rules that are infallible. With respect to judging the outcomes of competition, litigation etc, Shri KSK clearly mentioned that "note the sublord of the 6th cusp. This sublord should not be retrograde. It should not be posited in the constellation of a retrograde planet. And this sublord should signify the 6th or 11th house. All the above conditions should be simultaneously fulfilled. If any one of these conditions is

not fulfilled, then results will not materialize". I have always followed these rules religiously and they have never let me down. In the light of these rules, I shall now discuss two case studies for the benefit of the readers.

The first case study is just a few days old. It pertains to the recently held Bombay Municipal Corporation during February 1-2 2007. One of the contestants of this election, a very noted figure, gave a horary number of 153 to my friend in Hyderabad who is a KP practitioner. This friend of mine did his analysis but before he pronounced his results, he wanted a second opinion. He called me up on 1st February 1st, 2007 at around 5:00 pm and told me to do a horary analysis for this contestant. I asked for the original horary number given by the querist and I was told by my friend that the number given by the querist is 153. I sat for analysis on the same day at 6:33:15 pm in my residence at Hyderabad. The chart is provided at the end.

Since the horary number is given by the original querist no rotation of chart was done. The Lagna Starlord and the Moon Starlord are the same planet—Saturn. Since I am the third party who did not get this number directly from the querist Saturn's Starlord Mercury signified the mind of the querist by showing connections to the 6th house and the 11th houses. Thus, not only the query was honest, Moon also clearly reflected the mind.

Next I noted the 6th cusp sublord of this chart. It is Venus. Venus is not retrograde. Venus is not in the star of a retrograde planet. But Venus is not signifying either the 6th or the 11th house. Rather, Venus is signifying the 7th and the 12th house. Venus is in star of Rahu and Rahu signified 5th house. *I got my first signal.*

Then I looked for the opponent's fate. 12th cuspal sublord is Ketu. Ketu was signifying 7th and 12th houses. Ketu being a node, I looked at his Starlord. Ketu's Starlord is Venus who was signifying 7th and 12th again. *I got my second signal.*

In both the situation there was only one clear indication: the querist was destined to lose the election. I sent a SMS to my friend telling that his querist is going to lose the seat in the BMC election. The next day, my friend called me up to say that his querist has indeed lost the election.

The second case is about the Cricket Association of Bengal election for the post of the President held in July 2006. The contestants were Mr. Jagmohan Dalmiya and Mr. Prasun Mukherjee. Mr. Dalmiya is well known to all of us. Mr. Mukherjee is the Commissioner of Kolkata Police and was heavily backed by the CM of West Bengal as a candidate for this post. The election was to be held in Kolkata on 30th July, 2006. It was a much hyped up election since political masters took interest in the election. I myself posed a question as to whether Mr. Dalmiya would win the CAB elections tomorrow and provided a number 136 to myself.

I took up the analysis on 29th July, 2006 at my residence in Hyderabad at 9:56 pm. The chart is provided at the end. The genuineness of my query is reflected by the direct relationship between the Lagna sublord and the Moon star lord, which is Sun. Sun denotes matter of politics and is strong significator of 10th house denoting position power. Moon reflected the mind by signifying the 11th house and by being the sub-sub lord of the 6th house.

Analysis of this horary chart showed that the 6th cuspal sub lord is Venus. Venus is not retrograde and is also not posited in the star of a retrograde planet. 11th house denotes success and in this case, it is the next most important house to judge. 11th house cusp sub lord is Rahu posited in the star of Saturn. Saturn is not retrograde. Moreover, 6th cusp sublord Venus is also the star lord of the 11th cusp. Rahu, the star lord of Venus is also the 11th cusp sub lord. Dalmiya was destined to win the elections. Next day in the news, I came to know that Jagmohan Dalmiya won the elections of CAB as the President.

To conclude, I would like to say that Krishnamurthi Paddhati is a very accurate system of prediction, the rules of which are simple and easy to follow. A sincere adherence to the rules propounded by our great Gururji would provide astoundingly correct results. Any follower of KP can safely pronounce the results of competition and election without fear by following the above rules propounded by Shri KSK after decades of painstaking research.

SIDHU'S: VICTORY OR DEFEAT? **(DR. H. S. NAGI, 9/43, PAU, LUDHIANA, MOBILE-09417717910)**

After stint in jail Sidhu gets bail. This is the headline of Hindustan times dated Jan. 14. As admirer of Sidhu. I asked him for horary number between 1- 249, on Telephones he gave no. 11.

The Ascendant for this number falls in Aries at 15 33 20 Mar sign, Ven star and Sun sub. But first of all let us see whether he will face this case with courage? In K.P.Reader 3, on page 246, it is written "mental calibre and courage are shown by the third house". Consider the Sub Lord of the 3rd House. Any Planet being the Sub Lord of the 3rd is also the Signifactor of 2 or 10 or 11, one will surely undertake, do, come out successful and gain thereby."

Let us check 3rd cusp

In this chart, third cusp falls under Gemini 8 56 51 Mer sign lord, Rah star lord and Jup Sub Lord. Jupiter is in the star of Saturn, which is the occupant of the 5th house and Lord of 10 and 11. In this manner, Jupiter has become the significator of 10 and 11 houses. So Sidhu will come out successful. Whether his appeal will be accepted - the same rule will apply. If the third cusp Sub Lord is a significator of 3 or 11, then appeal will be accepted. Here 3rd cusp Sub Lord is Jupiter, being in Saturn star it signifies 11th house. So appeal will be accepted.

Whether it will be in his favour? 11th cusp Sub Lord will decide this.

Judge the 11th cusp sub lord. It is Saturn. Saturn is in Kethu star. What Kethu will do? Kethu is not receiving any aspect from any planet. Kethu is conjoined with Saturn, which is lord of 10 and 11, Kethu is occupant of 5th house, and therefore Kethu is strong significator of 10-11-5. Being in sign Leo Kethu represents Sun, which is in Mercury star and Mercury is lord of 3 and 6 in 8th. In this manner 11th cusp sub lord Saturn is connected with 3rd. so he will get decision in his favour. Of course 8th house signification of Kethu played a role as court ordered his release on furnishing a bond of Rest. 25000/- with one surety. On 17 Th Jan, it is star of Venus. Venus is posited in the star of mercury, mercury is lord of 3 and 6 houses, and it shows he will get stay but case will continue. In this manner he will be able to contest the elections and will come out successful. Saturn holds 5-6-11-12 cusps as sub lord and signifies 5-10-11 But on 17th January it will transit in mercury star, so it will work for 7-3 and 6 houses. Favourable for Sidhu.

Whether he will be imprisoned or arrested? Testing 12th cusp sub lord

To be imprisoned 12th cusp should be rahu and should signify 3-8-12. Here 12th Cusp sub lord is Saturn; Saturn is in ketu star and posited in 5th house, Saturn is in sub of Venus which is in 8th so he was arrested voluntarily. But lagna sub lord sun make him released to make appeal in Supreme Court.

Whether he will get stay?

10th cusp sub lord Jupiter in star of Saturn is full significator of 10th that will keep his status alive. On 23rd it was Jupiter star lord and Saturn star rule the day when Supreme Court stayed his conviction in a road rage death case. On 24th January the Indian Express, praised cricketer turned politician Navjot Singh Sidhu for choosing a moral path to set high standards in public life by resigning from his seat.....to get fresh mandate from the people. The Supreme Court directed: "the order of conviction passed on Dec.1, 2006 and the sentence awarded on Dec.6 are suspended."

Whether he will win election and come out successful?

Testing 6th cusp sub lord, it is Saturn. At the time of elections it will transit in the star of Mercury, which is lord of 6th and Mercury will transit in 11th cusp. At the time of judgment Mercury is 6th Lord posited in 7th conjoined with Mars, Lagna Lord and Jupiter 9th Lord - so all significations show that he will be re-elected.

Note from editor: as per prediction on 27th Feb 2007 he was re-elected.

RECTIFICATION OF BIRTH TIME

Before going to start writing on the article my Pranam to our Late Guruji who is the pioneer of this methods.

Secondly, Thanks to Kanakji, who give me this opportunity to write a article on this subject.

As we know that for KP System Sub lord is very important. To know some thing about a person first we see the Sub lord of the concern house. Suppose anybody wants to know about his / her marriage then we first look to the 7th house sub lord whether the marriage is promising or not then we go for other details. If the Sub lord is wrong then the calculation will be wrong. So for to analyze a horoscope, it is very important to get the exact Birth time.

But we know that it is next to impossible to get the exact Birth time of a person, and we know why. I don't think to write in details on it. But it is important, for to analyze a Birth chart - correct Birth time is needed. To get the exact Birth time through KP System is called - RECTIFICATION OF TIME.

Rectification means only to check ascendant is not right, to find out date, (if birth is near midnight this or that date) year of birth, month of birth etc all are under rectification.

In the beginning there was no computer or soft ware and every calculation done by manually and it was not easy to calculate up to the Sub-Sub level manually. But now due to the soft ware we are getting all the information correctly and can go up to Sub-Sub or Sub-Sub-Sub level easily within a second which helps to get the perfection up to the second level.

Thanks to Raichur ji, Mr. Rangarajan for the KP soft ware.

Lots of learned Astrologers are doing research on KP and develop new methods to make KP system more perfect and accurate.

One of our learned KP followers Mr. K. Baskaran from Madurai, who is doing lots research on KP system and present us some valuable books.

He has developed a system which helps me a lot regarding the Birth Time Rectification. Now I'm following that system and getting a very good result. I have done more than 40 time corrections It is very easy and giving me the accuracy up to the 5 to 10 sec.

The Rule is Casting time RP lagna = Birth Mon and RP Mon = Birth Lagna.

I'm giving below two examples in details:-

Rectification of Time for Zoheb Siraj Farooqui

Date of Birth = 21/08/1987

Place = Vile Parle, Mumbai. 19 N 06 , 72 E 51.

Given Time = 09:35:00 Hour.

Mon on 21st Aug 1987 at 09:35:00 Hour

Jup- Ven- Rah. Beginning point at 09:07:31 AM. Degree = 87:21:07

Jup- Ven- Rah End point at 09:48:01 AM Degree =87:41:06.

Given time is 09:35:00 hour, so not need to check more sub of birth Moon.

RP at checking time 22/02/07 = 18:04:27 Hour at Mira Road (E), Thane, Maharashtra. 19 N 16, 72 E 51.

RP Lag = Sn- Ke- Ve- Ju.

RP Mon = Ma- Ve- Sn- Me.

Day Lord = Jup.

On day of Birth, Jup is the Star Lord and Ven is the Sub Lord of the Birth Moon. and Jup and Ven is in RP too so both are OK.

If we select Jup as Sub- Sub lord then the time goes to 09:48:02 AM which is far away from the Birth time.

Again on 22nd Feb 2007 Rah is in Jup star. So Rah is also in RP. That's why we choose Rah as Sub- Sub Lord.

Now for the Ascendent Lets apply the Rule Birth Asc = RP Mon.

RP Mon = Ma- Ve- Sn- Me.

For the Time of 09:07:31 to 09:48:01 we found ascendant as under:-

Asc = 162:14:37 = Me- Mo- Ra- Ju = at 09:07:31.
Asc = 162:27:26 = Me- Mo- Ra- St = at 09:08:25.
Asc = 162:46:24 = Me- Mo- Ra- Me = at 09:09:45.
Asc = 163:03:29 = Me- Mo- Ra- Ke = at 09:10:57.
Asc = 163:10:22 = Me- Mo- Ra- Ve = at 09:11:26.
Asc = 163:30:32 = Me- Mo- Ra- Sn = at 09:12:51.
Asc = 163:36:28 = Me- Mo- Ra- Mo = at 09:13:16.
Asc = 163:46:25 = Me- Mo- Ra- Ma = at 09:13:58.

Asc = 165:40:12 = Me- Mo- St- St = at 09:21:58.
Asc = 166:00:06 = Me- Mo- St- Me = at 09:23:22
Asc = 166:18:06 = Me- Mo- St- Ke = at 09:24:38.
Asc = 166:25:27 = Me- Mo- St- Ve = at 09:25:09.
Asc = 166:46:31 = Me- Mo- St- Sn = at 09:26:38.
Asc = 166:52:55 = Me- Mo- St- Mo = at 09:27:07.
Asc = 167:03:34 = Me- Mo- St- Ma = at 09:27:50.
Asc = 167:10:54 = Me- Mo- St- Ra = at 09:28:21.
Asc = 167:29:50 = Me- Mo- St- Ju = at 09:29:41.

Asc = 163:53:32 = Me- Mo- Ju- Ju = at 09:14:28
Asc = 164:07:46 = Me- Mo- Ju- St = at 09:15:28.

Asc = 165:24:06 = Me- Mo- Ju- Ra = at 09:20:50.

In RP Mon we have - Ma- Ve- Sn- Me.

At the time of Birth we have Mer as sign lord and Mon as star Lord. Mer is in the RP, but Mon is not in the RP.

All the 4 planets (Ma, Me, Sn & Ve) are in conjunct and all are in Ket star. So, Ket is stronger than these 4 planets. Again Ket is in Mon star & Sub. In Virgo there are 3 stars - Sun, Mon and Mar. Because Ket is in Mon star and Sub, We can take Mon as star lord. Here Ket is the Star lord if these 4 planets so, Ket is repeating 4 times.

So, we will definitely choose Ket as Sub lord and Sub -Sub Lord. So, the for Me- Mo- Ke- Ke is 09:38:52 and the end time is 09:39:02.

So, we take the starting time of Me- Mo- Ke- Ke as Birth time ---- 09:38:52. And the Degree of the Ascendant is ----- 169:40:08.

We will discuss another example in next April Issue of KP Ezine.

FROM THE EDITOR'S DESK

Dear Readers,

After two month of publishing KP Ezine I have something to say to you all. Very first I am very thankful to **Sri Hasmukhbhai Mehta (Vadodra)** who checks all spell and grammar of the articles. I am also thankful to **sri A.R.Raichur ji and Sri Tin Win ji** for their advice on selecting the articles and guidelines. And I am also thankful to a person who always supports me and boosting energy, ready to solve all chart problems with his software, and who put the idea about E-Zine in my mind. He is **Mr.Rangarajan Krishnamuthy**.

I request all the readers to send their opinions, suggestions, comments, and what you want to see in **KP E-zine** and what not. It will help me to improve **KP E-zine**.

From June 2007 I want to start special issue on any subject, like marriage and child birth, Job and business, trip abroad and immigration, etc. I shall announce the subject in the next issue, so I request all KP Astrologers to send your articles for the special issue. I request the readers to send about subject which they want to read.

I request the authors to please check it with the relevant chart properly, before you send your articles. Many a times what is written in the article does not match with the chart submitted. I do not want to continue what is going on other KP Magazine. Some authors send me articles which were already published in other magazine; so I request you all not to send any article which has been published in any magazine.

Many readers request me to publish this magazine in print format; but it is difficult and financially not possible to send free to all. Also I need at least 500 paid members to run the printed magazine. And at present, I am not planning to change this free **KP E-Zine** into paid one in the near future.

Your encouragement and compliments are more then money for me, so without any miserliness on this count, kindly send your comments and suggestions each month.

With best regards,

Kanak Bosmia

(KP Astrologer/Editor KP E-Zine)

Dear Mr. Bosmia,

Thanks for the link to KP Ezine. I downloaded the ezine. You have done an excellent piece of work. Please keep up the good work and also keep adding variety of KP articles. My best wishes. -- Rahul.

Dear Kanak Ji,

Congratulations to your for giving us a wonderful concept of KP E-Zine. There was a long felt need to propagate KP cutting across geographical barriers and what could have been better way than having a magazine which is easily accessible from any part of the globe. Well done!

Best,

Rajendra Nimje, IAS

Director, Technical Education,

My Dear Kanakkumar B. Bosmia

Pranams

I have gone through you inaugural issue of K.P.E. Magazine Propagating our Gururji's K.P. system. I am also thankful to you for publishing my article in this issue.

You have taken great care in bringing out this E. Magazine successfully. It is high time you have started this E. Magazine as no other Monthly Magazine is available is K.P. system to share the views of all K.P. followers and scholars.

The articles of Mr. A.R. Raichur Mr. Kanak Bosmia and Shri K.P. Kuppu Ganapathy were good and interesting. Shri K.P. Kuppu Ganapathys articles he has dealt elaborately and given good educative matters in respect of K.P. Students.

The article on AYANAMSA by Mr. Andrew Dutta is a good of thought provoking as Ayanamsa Value is most important in the timing of events. I really appreciate the author for the article on "AYANAMSA" I once again thank you for bringing out this monthly E. Magazine on K.P. System and pray God to get great success in your Venture.

I also congratulate on behalf of K.P. Institute of Stellar Astrology Chennai-2 as its "Professor" and wish you a grand success. If time permits, I will again send some more articles to you E. Magazine.

GOOD LUC K

Thanking you,
astrologically yours, Prof:

VAI KARI Ramamurthy

Respected Sir,

It is fortunate that I am a member in your group. The March issue of Ezine is really worth. Thank you for giving me so much knowledge.

I missed to save the Feb issue. Kindly send me a copy of February issue. I have already registered with you for Ezine. Thank you,

UmaSekar.

Dear Kanakji,

First of all heartily congratulation for the release of KPEzine Magazine.

I was reading your article on MST but I think you have already started this topic in your first issue. I'm not able to find 1st issue of the Magazine on your website. Can you please let me know where can I get the first issue.

Warm Regards,

K.Nitin

Dear Kanak,

Hope, everything is colorful at your end.

Pl note following observations for your e-zine.

01.

I saw your ezine's 2nd issue where you had taken the full page width instead of breaking into 2 columns. Comparing the page format of the last 2 issues, it occurs to me that the page format which divides the page in 2 columns is much more easy and focused to read. Most of the international level journals resort to this practice.

However, there is only my opinion. You may do as you feel pertinent.

02.

As my specific request, please increase the left margin in the pages as it would be easier to bind it or staple it for maintaining it as record purposes.

Thanks,

Vijay Kumar

FOUR STEP METHOD - Part: 3

SHREE GANESHAYA NAMAHA

This is the 3RD Article in the series.

Mark

- 1 EMPTY HOUSES -NOT occupied by Sun to Ketu 2 4 5 6 7 8
- 2 Planets, which are not star lords of others + these, are KET, JUP, and SUN
3. Planets which are in their own stars with * these are VEN only:

Now we start finding the houses signified by each planet.

These are in the same order as the Vimsottari Dasas. So the 1st is KETU

NO planets in stars of Ketu. Ketu is in 9th House so it primarily signifies 9th House. It does not own any houses. It is agent of JUP, being in sign of Jupiter. Jup is in 11th, owns 6 and 10. ^ is empty since KET is strong (no planets in its stars), the house occupied by JUP is strongly signified by Ketu acting as JUP agent. Since 6th house is empty, it is also signified strongly. However as the 10th house is not empty, this is signified only weakly, or secondarily.

So the 1st step for KETU will be as below: P/p is principally.

PLN: KET: + 9P (Jup 11P-6Ep-10)

KETU is in Star of MER: In the 2nd step MER being a star lord becomes strong so the House occupied by it will be a principal house signified. It owns 4 and 12th. 4th is empty, 12 is occupied. So 4th is strongly signified, where as 12 is weakly signified. So the 2 steps of Ketu will be

PLN: KET: + 9P-(Jup 11P-6Ep-10) STL OF Ket Mer: 11p-4Ep-12

Now 3rd step, the sub of Ketu, similar to step 1. Sub is JUP. Here NO planets are Stars of JUP. Jup owns 6th and 10th. only 6th is empty. So the third step is: PLN: KET: + 9P-(Jup 11P-6Ep-10) STL OF Ket Mer: 11p-4Ep-12 SBL OF Ket Jup: + 11P-6Ep-10

4th step.

The star lord of JUP is MARS, in 10th owns 5 which are empty so both become strongly signified. So the 4 steps are completed. Ketu will signify all houses as given the 4 steps as below:

PLN: KET: + 9P-(Jup 11P-6Ep-10)

STL OF Ket Mer: 11-4E-12

SBL OF Ket Jup: + 11P-6Ep-10

STL OF SBL Mar: 10p-5Ep

SINCE ONLY HOUSES STRONGLY SIGNIFIED ARE USED FOR PREDICTION, THE FINAL SIGNIFICATION OF KETU WILL BE:

PLN: KET: + 9P (Jup 11P-6Ep)

STL OF Ket Mer: 11P-4EP

SBL OF Ket Jup: + 11P-6Ep

STL OF SBL Mar: 10p-5Ep

Now we will work out for VENUS,

Which is in its own star. This becomes strong; even there are other planets in its Stars (Mars)

1st step and 2nd will be same

PLN: VEN: * 10P-11 since 11th is not empty it is signified weakly

STL OF Ven Ven:* 10P-11

3rd step Sub lord of Ven is Mar. There are other planets in its stars.

IT is in 10 and owns 5. So 3rd and 4th steps are

SBL OF Ven Mar: 10-5E

STL OF SBL Ven:* 10P-11

SO the 4 steps for Venus are

PLN: VEN:* 10P-11 STL OF Ven Ven:* 10P-11 SBL OF Ven Mar: 10-5E

STL OF SBL Venn:* 10P-11

Now deleting the secondary houses, the final signification of Venus will be

PLN: VEN:* 10P

STL OF Ven Ven:* 10P

SBL OF Ven Mar:

STL OF SBL Ven:* 10P

SO Venus becomes a very-very strong significator of 10th house.

Readers are requested to workout the signification for the other 7 planet

The final signification table should be as under

PLN: KET: + 9P (Jup 11P-6Ep) STL OF Ket Mer: 11p-4pE SBL OF Ket Jup: + 11P-6Ep STL OF SBL Mar: 10P-5PE	PLN: MAR... STL OF Mar Ven:* 10P SBL OF Mar Ven:* 10P STL OF SBL Ven:* 10P
PLN: VEN:* 10P STL OF Ven Ven:* 10P SBL OF Ven Mar: STL OF SBL Ven:* 10P	PLN: RAH: STL OF Rah Mar: 10P-5PE SBL OF Rah Jup: + 11P-6Ep STL OF SBL Mar: 10P-5PE
PLN: SUN: + 12P STL OF Sun Mar: 10P-5PE NOTE DIFF BETWEEN MARS AS STARLORD AND SUB-LORD SBL OF Sun Ven:* 10P STL OF SBL Ven:* 10P	PLN: JUP: + 11P-6Ep STL OF Jup Mar: 10P-5PE SBL OF Jup Mar... STL OF SBL Ven:* 10P
PLN: MOO... STL OF Moo Rah: 3P-(Mer 11P-4PE) SBL OF Moo Moo... STL OF SBL Rah: 3P-(Mer 11P-4PE)	PLN: SAT: + 1P-7Ep-8Ep STL OF Sat Mer: 11P-4PE SBL OF Sat Ven:* 10P STL OF SBL Ven:* 10P
	PLN: MER... STL OF Mer Moo: 12P-2PE SBL OF Mer Mer... STL OF SBL Moo: 12P -2PE

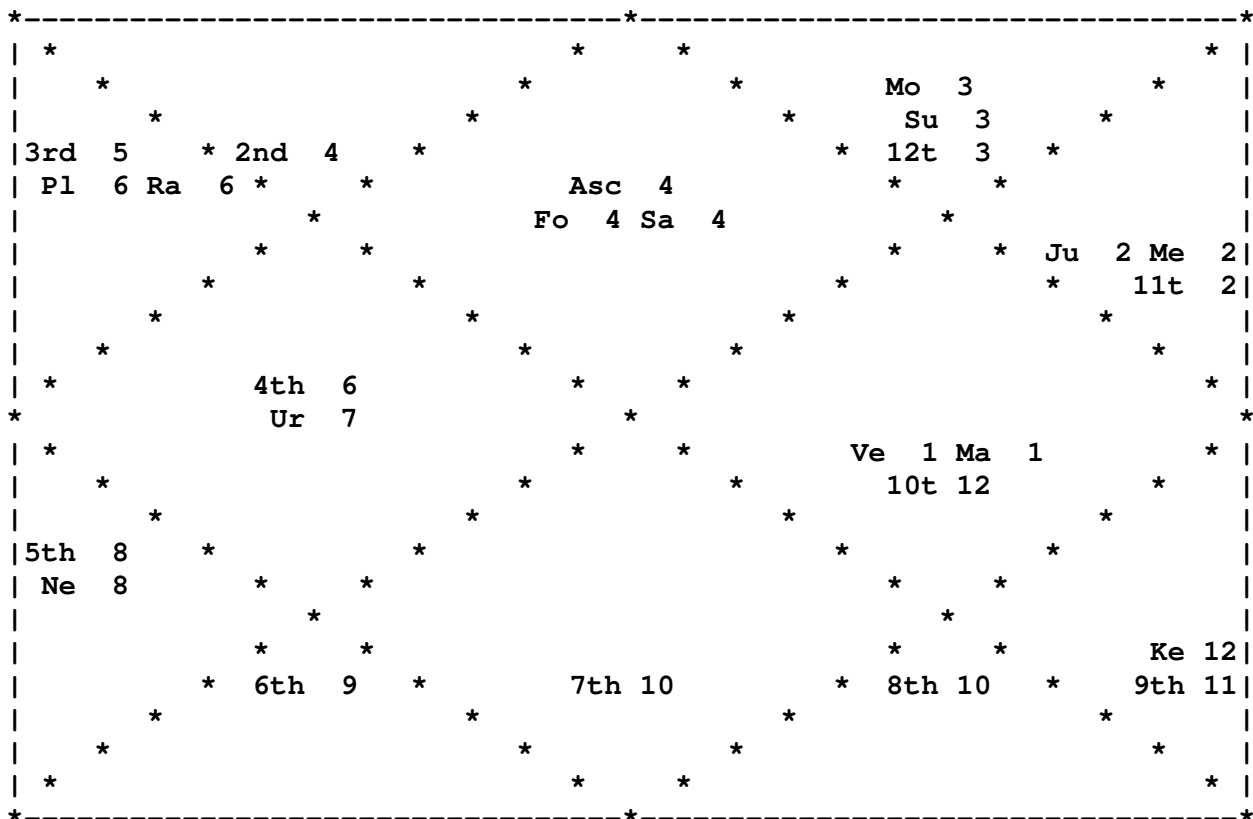

THERE ARE OTHER CONDITIONS BY WHICH THE HOUSE SIGNIFIED BY THE PLANETS ARE INCREASED.

This will be in the next article.

Please preserve the data in this as the same will be used in the next article also

Sree Maha Ganapataye Namaha

After the general election held during March 2004 for our Indian Parliament the congress I party was the single largest party, and formed a new govt. headed by Dr. Manmohan Singh as Prime Minister. Dr. Singh took the Oath as Prime Minister and the Oath taking ceremony was held on 22-05-2004 at 17.34 hrs. at New Delhi. The K.P. chart for the time of Oath taking ceremony is attached at the end of this article.

Lot of discussions were going on about the stability and longevity of Dr. Manmohan Singh headed govt. I decided to work and analyse as per K.P. system about the prospects of the govt. for the benefit of the readers of this E. Magazine purely on the merits of academic interest as how our Guruji's cuspal SUBLORDS play an important role in predicting future events. All the article writers often write only post mortem articles but I have written so many articles in K.P. System giving future predictions; so this article is also one of its kinds.

The full term of any govt. can be only up to 5 years tenure as per our democratic constitution. But the dasa balance will be based on Vimshothari dasa system, which is 120 years. The conversion factor of 120 years = 5 years was considered by me as a Political DASA system.

Kethu Dasa 7 years is divided by 120 years is converted equivalent to 5 years term. i.e.

Kethu dasa	:	7/ 120 x 5 x12 (month)=	3months and 15 days
Venus Dasa	:	20/120 x 5 x12(months)=	10 months
Sundasa	:	6/120 x 5 x12 (months)=	3months
Moon dasa	:	10/ 120 x 5 x12 (months)=	5 months
Mars Dasa	:	7/120 x 5 x 12 (months)=	3 months 15 days
Raghu dasa	:	18/12 x 5 x12(months)=	9 months
Jupiter dasa	:	16/120 x 5 x 12(months)=	8months .
Sat dasa	:	19/120 x 5 x 120(months)	9months 15days
Mercury dasa	:	17/120 x 5 x120 (months)	8months 15 days
		Total =	60 months

The Oath taking ceremony took place on 22/05/2004 at 17.34 hrs at New Delhi. The Lagna was LI BRA sign. So, Venus sign lord, Rahu star lord Moon Sublord.

As moon was in the constellation ARUDRA the balance of Rahu dasa arrived at was 08 years 04 months and 10 days as per the Vimshothari dasa balance. This should be converted to the 5 years of government period (political dasa). Rahu dasa is total of 18 years of 120 of Vimshothari dasa convert the balance dasa period and the total dasa period and of multiplied by 9 months period (Total Rahu period of 9 months in political dasa).

$$\begin{array}{rcl} 0.8 \times 360 & + & 4 \times 30 + 18 \\ \text{(yrs)} & \text{(months)} & \text{(days)} \end{array} = \underline{3018 \text{ days}}$$

$$\text{Total of Rahu period 18 years} \times 360 = \underline{6480 \text{ days}}$$

$$\text{So } \frac{3018 \times 9 \text{ month} \times 30 \text{ days}}{6480} = \underline{125 \text{ days}}$$

So the balance of Rahu dasa at the time of taking Oath is 0 years 4 months and 5 days as per 5 years govt. term dasa (Political dasa)

Stability and Longevity of the New Govt.

As per the canons of the K.P. System it is judged from the lagna sublord and sublord of asc.

In the above chart Libra is rising. Its lord is Venus, star lord is Rahu, Sublord is Moon.

The Lagna sign lord Venus as lord of 1 and 8, and signifies 8th bhava.

The Lagna Sublord is Moon. Moon is in 8th lord of 10th bhava. Moon is in Rahu Star. Rahu in 6th bhava but in 7th CUSPI Rahu represents mars in 8th bhava. But moon is in the sub of Mercury, a significator of 8th bhava. Mercury is in 6th bhava. Mercury is sublord of 2 (Maraka), 5, 8, 11 (Badhaka) and no planet in the star of mercury,

As per cuspal sublord theory, the lagna sublord Moon having no planets in her stars Rohini, Hastham, Sravana stars, gets full signification of lagna bhava more over Moon lord of 10th (govt) and planets in 10th bhava also. So the longevity and performance of the New Govt. is good in General. But the dasa lord though connected to 8th bhava, indicates obstacles and delays and dejects. Rahu as a node has to give results of 2 and 7th also (Maraka Power)

For political success we have to judge important houses 1, 6, 10 and 11th (bhavas)

The 6th cusp sublord is Mars. Mars lord of 2 & 7 in 8th and gets signification of 7th bhava (stiff opposition). Mars in Venus sub, signifying 8th bhava indicates the interruption of Parliaments always and frequently.

The 11th cusp sublord is MERCURY. Mercury, lord of 9 and 12 in 6th bhava having no planets in his star is good. So the Govt may able to run the govt, without danger. The 11th cusp also indicates friends and coalition parties.

The 7th cusp indicates opposition and opposition parties. The 7th sublord is RAHU. RAHU is dasa lord is in the 7th cusp (orb 2) in the star of Ven in 8th and lord of 1st & 8th (Danger). Rahu is in the sub of Moon in 8th. So the govt has to face stiff opposition always.

The 2nd cusp indicates finance and financial policy of the govt. 2nd cusp sublord Mercury. Mercury in 6th bhava signifying 6 & 8 tells about weak status in its financial commitments.

Now as per the dasa period (in terms of political dasa) Venus dasa started from 18-03-2007 and will run up to 18-01-2008. Venus, lord of 1 and 8 and signifying 8th bhava is good for the stability of the govt. So the govt, may be stable and function well during this period with great obstacles, difficulties and dangers. (8th bhava)

The next dasa of the sun will be from 18-01-08 to 18-04-08.

Sun in the 7th (Maraka) bhava is in his own star. Sun also is lord of 11th bhava (a Bhadhaka). So the Sun dasa is very bad for the longevity and stability of the govt. Sun dasa Sun bukti will run from 18-01-08 to 22-01-2008.

During this period the Govt may face lot of troubles, opposition, and danger and there will be possibility of govt resigning and ordering fresh Elections to Lok Sabha during the above period.

The above analysis is purely based on the academic interest of K.P. Students as to how our Guruji's cuspal SUBLORD plays a major role in our K.P. System and not connected to any political matters.

I am very much thankful to Sri KANAK BOSMIA Editor of this esteemed E.Magazine for publishing my article and wishing him a grand SUCCESS in his future Ventures.

With great respects to our beloved Guruji Shri K.S.K. I conclude this article.

In Series of theory of Dr.kar this moth we discuss view on retro planet effect in horary chart and ruling Planet.

Important view of Dr.Kar on retrograde planet is base on bellow point.

- ✓ Very important thinking of Dr. Kar is **NOTHING IMPOSIBLE IN ASTROLOGY.**
- ✓ "Retrograde is not actually retrograde" -Sri I. C. Das
- ✓ The main thing of retrogression in horary is to wait for its direct course.
- ✓ There are three things in the world and those are ever true and pure. They always indicate the right one. Nothing can remove their purity in future too. These three are Arithmetic, Astrology and Yoga. This A-A-Y is are true and pure any body who tries to adulterate it, he can not expect pure and correct result. it will never speak.
- ✓ It is true; retrogression may delay but will not reject the matter. If a retrograde planet in horary is nothing and if it is posited in the star of which is again retrograde, yet it is nothing (star lord is also a planet) but if it is posited in retrograde sub then it is a RED LIGHT. The plea in that sub is the final and deciding factor; Sub is not any extra ordinary heavenly body in the zodiac. It is also a planet, there are sub sub, sub sub sub, sub sub sub sub etc also available in KP and they are all planet.

Author of this article also agree with all this view of Dr. Kar and many times I found Retrograde planet in Horary and Ruling planet give result and all examples are discuss in k_p_system group time to time.

Now let us discuss theory of retro gradation of Dr. Kar.

THEORY OF RETOGRADATION OF DR. KAR

- ✚ Any retrograde planet if posited within 30° of the Sun, the planet loose it retrograde strength and work like direct planet at command of the SUN.
- ✚ If retrograde plane not found within 30° of the Sun, it may be posited in the star lord of which may be within 30° of the Sun. The retrograde planet brings result during its period or sub period or sub sub period. It is certainty.
- ✚ Retrograde planet is posited in the star of the SUN or the SUN him self is posited in the star of a retrograde planet, the result is same.
- ✚ Mercury and Venus are generally found within 30° of the Sun in there retrograde motion, But Mar, Jup and Sat may not be found in that sate. It is quite possible that they may be posited in the star lord of which may be the Sun or within 30° of the Sun or the SUN him self is posited in the star of a retrograde planet.
- ✚ Rajo Guna Rasi (Vrihsabh, Tula, Kark, Simha), Satwik Guna Rasi (Mithun, Kanya, Dhan, Meen) has a role to play to mitigate the retrograde nature a planet. One may note all these point with deep care when they deal in retrograde planets result in sure and certain.

Retrograde planet in Ruling Planet

- Ø Retrograde planet is not a headache for any Ruling planet in the star of or in the sub sub of another Ruling planet is necessary. Rising of the planet in the Lagna group can not be denied or challenged.

Next month we will discuss with one another theory of Dr. Kar

Denial of Education: A Case Study

G. Subramanian,

19, West Road, West C.I.T. Nagar, Chennai-35

E-mail: gurusubra@yahoo.com

In K.P.Astrology, certain clear and specific rules have been laid down by Late Shri.K.S.K and later on by his disciples to assess the educational level of a native from his horoscope.

It is well-known that, for deciding about education, we have to judge fourth, ninth and eleventh houses.

If the sub lord of the 4th cusp is a significator of 4 and 11, the indications are that the concerned person will complete secondary education. If the said sub-lord also signifies 9 and 11, the person will successfully complete college and post graduate education.

Third house suggests denial of basic education, as it is the vryasthan for the main 4th house. Likewise 8th is negative to 9th and shows adverse results for higher education. Similarly, while the 6th house shows success in examinations; the fifth house is detrimental to studies. Thus houses 3, 5 and 8 point to denial of education or that education will suffer.

With these introductory remarks, let us proceed to analyze the horoscope appended below to study the level of education:

Let us first take up the 4th sub lord, which in this case is Saturn. By itself Saturn, a malefic does not speak well of good education like Jupiter or Mercury.

Saturn in this case is lord of 9th and 10th and is placed in the 9th itself. One may, therefore, be tempted to jump to the conclusion that the girl will have successful higher education. But the truth is quite to the contrary. Though born in a respectable and well-educated family, she did not go to school at all and was thus denied even basic education. What are the factors responsible for this and how can we explain astrologically the reason for this position?

It may be observed that Saturn is in the star of Mars, lord of 7 and 12, placed in 3, not a favorable position for education. The sub lord of Saturn is Sun, who star wise signifies 3 and 12 and is placed in 5.

"If the sub lord of the 4th is Mars or Saturn and is connected to houses 8 and 12 the native will not go to school at all" (Astro Secrets and Krishnamurthy Paddhati- Part-I, Page 142, item 7) Saturn is also connected to the 8th by being its sub-sub lord. It has also to be remembered that Saturn is bhadakathipathi for this chart.

Moreover, the Dasa period running during the formative years (6-12 years) is that of Jupiter, the 8th lord in 12, with no planets in its star and thus strongly signifying the two detrimental houses 8 and 12.

The cumulative effect of the adverse placement of planets influencing education has denied even basic education to this unfortunate girl.

In conclusion, I bow down to our Guruji, Shri.K.S.K and also thank Shri Kanak Bosmia, for allotting me some space, in his prestigious e-zine.

Author: The author hails from the Electronics and Communication engineering background, presently heading a Senior Managerial position at The Centre for Development of Telematics (C-DOT), Bangalore. Besides teaching Parasharic and Jaimini astrology at ICAS, Bangalore and contributing to The Astrological Magazine in Jaimini theme since a decade, the author has special interest in The Krishnamurti Paddhati and is a serious student of this subject.

My daughter who has to appear in the final exams of post-graduation in medicine was communicated about the dates of exams falling on 26th and 28th of March, 2007 by some communication channel. The exam dates were yet not notified on the college notice board.

In order to find out whether the exam dates as communicated by rumor were authentic or not, she telephoned me about her query and gave me Horary number 77 (1-249).

The prashna chart was delineated at 14-32-11Hrs IST on March 12, 2007 at Bangalore (12N51, 77E40) and is presented herewith with cuspal details.

The chart is being analysed as follows:

The Query

Moon is placed in 5th house in the house of benefic Jupiter, shows that the news about the exam date was welcome, as it was perhaps much awaited.

The co-ordinates for judgment

Any rumor or a piece of information is a communication, which is represented by the 3rd cusp in a prashna chart where the intent is to find out whether the communication is true or false.

It is advised to look for the nature of star lord of the 3rd cuspal sub-lord and generally, the malefic planets indicate the un-truth/malice in the rumor whereas the benefic planets portend it to be true. It should also be understood that the signs lorded by the malefic planets do carry the behavior as their lords. The major malefics are Mars, Saturn and Rahu who have the attributes of haste/panic/mischief, deceit/part information and confusion/conspiracy respectively.

It is necessary to integrate the observation of the nature of the star-lord of the sub-lord of the 3rd cusp with its placement also. As an example, if the star lord of 3rd cuspal sub-lord is Mars, it may be assumed that the rumor is spread in haste or has a mischievous intent. If the same Mars is placed in the sign lorded by another malefic-Saturn, it may completely be discarded to be false. On the other hand, if the star-lord of the 3rd cuspal sub-lord is Jupiter (a benefic), then it is taken as true but if placed in a malefic sign, does arise the element of confusion about its authenticity. In cases, where the star-lord of the 3rd cuspal sub-lord has varied indications, the sub-sub lord of the 3rd cusp may be analyzed for verification.

The impact of the rumor may be studied by the house where the star-lord of the 3rd cuspal sub-lord is placed and where it aspects. If the star-lord falls in the 6-8-12th houses, it causes worries.

Analysis of the chart

Look for the 3rd cusp, which falls in Virgo and whose sub-lord is Mercury. Mercury falls in the star of Mars (a malefic), which indicate that the rumor is spread with mischievous intent to shake the students for the fear of exams. Since, the Mars is placed in the sign of Saturn (another malefic), the rumor of the date of exams may definitely be taken to be un-reliable.

Ruling planets at the time of judgment were Jupiter, Moon and Ketu. If Ketu is further expanded to represent Sun (sign lord) and Venus (Star lord), the ruling planets could be taken as Jupiter, Moon, Sun, Venus and Ketu. Note that the horary number given was 77, which denote Moon-Mercury-Venus as sign/star/sub-lord. Since, the planets signifying the horary number does not match with the ruling planets, it does indicate the intent of the question as un-true. Thus, the rumor was branded false by second level of verification.

Look to the dasha sequence on the day of prashna, which was Ketu-Ketu-Ketu-Rahu. The sookshma dasha lord is Rahu, which is a strong planet, as no planet falls in its star. Since Rahu falls in 8th house in saturnine sign, the rumor did shake the students.

Facts of the case

While, the rumor of exam date as 26th and 28th March 2007 floated for about a week strongly, the official dates of the exam displayed on the college notice board thereafter indicated it to be on April 2 and 7th 2007.

OM GANESHAYA NAMAHA

Krishnamurti Paddhati is a crown among all the systems of prediction in astrological science. The rules of prediction are uniform across cases and the route of prediction followed is always the same. The modus operandi of this system is same for all sorts of prognosis and an applicant of this system need not get confused at all as to how to reach a concrete conclusion.

In order to bring this clarity in this system of prediction, our great Guruji late Shri K.S. Krishnamurti invented two concepts, the credit of which is solely his. The first is the breaking up of a constellation of 13 deg 20 mins into 9 unequal divisions according to the Vimsottori Dasa proportion of planets. These 9 unequal divisions of every constellation are called as the Sub-division or more popularly as the "sub". It is this sub which acts as the determining factor in KP based prediction.

Guruji's second invention was the concept and use of Ruling Planets, popularly called as the RP. Guruji used to call the RPs as 'divine indication' because the RPs help a KP practitioner to correctly pinpoint events correct to the nearest minute. This article is an endeavor to discuss some fundamental principles of ruling planets where the use of RP was made in day to day life to pin point the time of an event correct to the very minute.

To become an adept in KP based prediction methods one has to be well conversant with the use of RP. One of the best to understand the role of RP and how it behaves and gets linked with the event is to constantly use it in one's own personal life in day to day events. Only then shall the actual role of RP come to the fore.

As ruling planets, our Guruji originally gave 4 planets. In decreasing order of importance they are:

Ascendant Lord
Moon Star Lord
Moon Sign Lord, and the
Day Lord

Here 'Ascendant Sign Lord' means the lord of the sign which is rising on the eastern horizon at the time when the judgment for the query is undertaken. Therefore, for the same time, the lagna or the Ascendant will differ in different places. For example, the ascendant at 10:30 am in Hyderabad would be different from that of Ahmadabad. So, it is necessary to ascertain the correct ascendant which is rising at the time and place where the astrologer is drawing up the ruling planets

Even though Guruji originally advocated 4 ruling planets, later he suggested the inclusion of the 5th RP, which is the strongest in power, as the Ascendant Star Lord. Thus, ruling planet usually means, in descending order of power:

Ascendant Star Lord
Ascendant Sign Lord
Moon Star Lord
Moon Sign Lord, and the
Day lord

For pin pointing the time of events that are expected to happen within the next 24 hours, we need to see when a proper lagna sign, star and sub comes that contains in it the ruling planets that we received at the time of judgment. In other words, if one is expecting something to happen within the next 24 hours our focus should be to trace the ascendant

that will comprise of sign lord, a star lord and a sub lord who were found in the list of RPs during judgment. This is because within 24 hours lagan moves over all the 12 signs, 27 star and 249 subs.

Let me take the first example. On 24th February 2007, I came to know in my office that I will have to meet my Associate Dean on Monday 26th February 2007 for an important issue. My AD gave me a time of 9:30 am in the morning on Monday. Later on 25th, a Sunday, I thought why not I find out the exact time when the meeting will actually happen tomorrow? So, after my dinner that evening, I sat for finding out the time of meeting my AD the next day. The RP on 25-2-2007 at 9:50 pm in Hyderabad, Somajiguda was as follows:

Ascendant Star Lord: **Mars**

Ascendant Sign Lord: **Venus**

Moon Star Lord: **Mars**

Moon Sign Lord: **Venus**

Day Lord: **Sun**

Out of these 5 RPs I rejected Venus since it was in the star of retrograde Saturn. So, I was left with only Mars and Sun. Mars Sign Mesha started from 9:15 am the next day whereas Sun's sign Leo started from 5:20 pm the same day. My office gets over at 5:00 pm, so I was sure that Sun's sign will not be the time. Moreover, Leo does not have a Martian constellation. As a result, I had no alternative but to choose Mesha lagna as the sign when the time to meet will come. Next, in Mesha sign I looked for Sun's star. I saw that Mesha sign and Sun star will operate from 10:45 am to 11:40 am. Therefore, to finally pinpoint the exact time, I chose Mesha sign, Sun star and Mars sub (because Mars appeared twice and was the only ruling planet) which started from 10:50 am. The next day when I was waiting outside my AD's cabin, I was called inside for the meeting precise at 10 50 am on 26th February 2007.

Many such incidences can be cited. However, upon close scrutiny it can be found that a few fundamental rules must be followed while using RPs for making predictions for events that are expected to happen within 24 hours. Some of the rules that hold good are as follows:

1. The lagna point must contain the ruling planets only.
2. The lagna sign star and sub lords should be chosen according to 'first come first serve' basis depending upon the hierarchy in which they appear in the RP list during the time of judgment.
3. A ruling planet is strong by virtue of its level of appearance and not how many times it has appeared.
4. However, when a ruling planet repeats itself, the lagna point must also contain the same repetition

I hope this article will help the readers of KP Ezine to use RPs more fruitfully. I thank Shri Kanak Bhai Bosmia for being very kind and cooperative in publishing this article. I dedicate this article at the lotus feet of Lord Ganesha and our great Guruji Shri K. S. Krishnamurti ji and also to Shri Suresh Sahasne ji.

Shri Ganeshaya Namaha

Guruji Sri K.S. Krishnamurti Ji has founded KP through research for many years and proved that ASTROLOGY is a science. It has a set of rules which can be put to use by novice and professional alike. As he himself pioneered KP by testing Indian Vedic and Stellar systems and also Western system, he has given us a mantra that 'Don't believe the Shastra blindly'. He has blessed us with the Krishnamurthy Paddathi which has answer for every question provided the question is asked with a serious need in querent mind and not for testing the science or astrologer. Today many intellectuals are attracted to this divine science. The credit of bringing this science in the domain of learned people from the clutches of few traditional practitioners who never wanted to part with the knowledge goes to our Guruji. On the solid foundation laid, new researches are undertaken by many KP Astrologers. Popular new researches include MST by Dr. Kar, Use of ruling planets for numerology and 4 Step theory founded by Sri Sunil Gondhalekar.

The four step theory has its advantages like selection of correct planets for timing the events and also it has unique system of judging the strength of planets. The major difference with the traditional KP and 4 step is the use of planet's lord and its constellation lord as signifiers rather than using them as deciders.

As 4 step theory signifiers and its use has already been demonstrated in this magazine in recent issues, I would like to show how the KP traditional system and KP 4 step theory works on the same chart. Though, the efficacy of 4 step theory is to be proved beyond doubt, it is certainly an excellent tool in the hands of modern KP-Astrologers.

CHILD BIRTH:

Date of Judgment : 21st August 84 at 1330 hrs. at Thana
 (long 72-58, Lat 19-12)
 KP No. 195

I have picked an example on child birth explained by Sri Gondhalekar in his write up on 4 step course book. The horary question was "Whether any child birth promised? If yes When?".

The question was put to Sri Hasbe Guruji popularly known as Krishnamurti of Maharashtra and has been published in his book "Krishnamurti Prasnasiddantha"

ANALYSIS BY TRADITIONAL KP METHOD:

Moon shows the reflection of mind in the chart. It is in 5th house and in self constellation. Question is reflected correctly about the child birth.

Houses for Child birth questions are : 5th House as main house (If question is asked by female else take 11 as the main house), 2nd house as kutumbasthana and 11th for fulfillment of desire. The KP rule for any answering any query is : *Main house sublord should be in non-retro constellation and should connect to main or allied houses for affirmative answer.*

House	Rasi	Deg	Min	Star
1	Capricorn	10	0	Moor
2	Aquarius	15	54	Rahu
3	Pisces	21	12	Mer
4	Aries	21	49	Ven

9	Virgo	21	12	Moor
10	Libra	21	49	Jup
11	Scorpio	18	9	Mer
12	Sagittarius	13	1	Ketu

Planet	Exalt	In	House	Sign	Deg	Min	Motion	Star-Name	Starlord	Sub lord
Sun		.	7	Leo	4	55		Magha	Ketu	Mar

Ketu		.	10	Scorpio	8	38		Anuradha	Sat	Ven
Fortuna		.	3	Pisces	22	21		Revathi	Mer	Moon

5th and 11th house sub is Mercury in 8th, owns 6th and in constellation of venus (Non-Retro) in 8th, owns 5th and 10th Hence the answer is affirmative. 2nd house sub is venus in self constellation owning 5th and 8th asserts confirmation that the answer is affirmative. In order to have confirmation, check the Ascendant. It is falling in Makara 10 deg. It is under the constellation of moon and sublord is also moon. Moon is in 5th in its own constellation. Hence the result is confirmed that the querent will have child birth.

Once it is decided that child birth is promised to the querent, next answer we need to give is the period of the child birth.

TIMING the event in Traditional KP:

At the question time Moon dasa left is 6 months and this period is not enough for conception to delivery. Hence leave moon dasa.

Next Mars dasa : Mars is in 10th owns 11th and 4th, In constellation of Saturn in 9th owning 1 and 2. Mars aspect 2nd and 5th house, hence it is signifying 2, 5 and 11 hence this dasa is certainly fruitful.

Whether Mars Bhukti will give?

Mars bhukti is till 16 Aug 1985 and medically child birth is possible in this period but Mars is connecting to negative houses 1 and 10 and hence it will not be fruitful for bhukti.

Next Rahu Bhukti : Rahu in 4th in constellation of sun owning 8th and also sublord of 8th. Hence though node, this Bhukti is not favorable.

Jupiter bhukti: Jupiter in 11th in constellation of Ketu in 10th It appears that Ketu being in 10th we should not take this bhukti. However, note further that Ketu is in rapt conjunction with Mars which is owning 11, aspecting 2 and 5. Hence we can't ignore this bhukti.

ANTARA:

Shall we take Jupiter antara?

No. Because for antara we need no opposition and Ketu certainly is not fruitful at this level due to its signification of 10th.

Saturn Antara : It is in Rahu's constellation hence NO

Mercury: Strong significator of 8th and 10th hence NO

Ketu , of course no due to signification of 10th

Venus in self constellation owns 5th but it is in 8th and owns 10th hence NO

Sun Antara: in constellation of Ketu and certainly NO

MOON antara: in self constellation in 5th hence YES

Accordingly, child was born to the querent in this conjoined period of Mars/Jupiter and Moon.

Child-Birth Analysis through KP-4 Step theory:

STEP 1) Any planet in self constellation? MOON & VEN are in self constellation.

STEP2) Any planets who have no planets in their constellation? MAR, JUP & MER

3) MOON Connection:

Moon in 5th house in self constellation indicates the question about child birth.

4)Whether Child-Birth is promised?

Take 5th sublord, it is MER (No planets in its constellation hence strong) in 8th owns 6 (no planets in the cusp) , Signifying 8 and 6 only. Though MER owns 9th cusp, there are other planets in the house and hence it is not signifying this house as per 4 step theory. MER is in Constellation of VEN (Venus is strong being starlord) in 8th . As explained it is not signifying 5th though it owns a rasi Vrishabha there because of Moon's presence in the house. MER is sub of MARS (no planets in Mars constellation). MAR is signifying 10th and not 4 and 11 being planets in these cusps. MARS is in constellation of SAT which is in 9th and owing 1 and 2 where no planets are found. Hence SAT signifies 9,1 and 2.

In All : 5th Sub is MERCURY signifying 6,8,10,9,1,2 cusps. As 5th sublord is not in retrograde constellation and connected to 2 , 5 or 11 (Here 2), the answer is positive. Yes, child birth is promised.

TIMING OF THE EVENT by 4 STEP:

At the time of asking question the lady was not pregnant and hence Moon Dasa which was left for 6months is not feasible. Next MARS dasa.

Let us see MAR signification as per 4 step theory.

MARS as in step one is strong. There are no planets in its constellation. It is in 10th (It is not signifying 4 or 11 though it Owns rasis there as Rahu is in 4th and Jup is in 11th) Mars is in Constellation of SAT signifying 9,2 and 1 Mars is in Sub of VEN which in self constellation and in 8th Hence MARS signifies 10,9,2,1 and 8th
As out of 2, 5 and 11 - 2 is present and hence the dasa is fruitful for child birth.

Can we take MARS bhukti too?

NO as as per 4 step theory we need to take houses other than the selected for dasa for bhukti and antara. i.e. we need either 11 or 5 for bhukti now which is not present in the above signification of Mars.

Take next RAHU

Rahu in 4th is not signifying it as there is SAT in its Swathi constellation. Rahu's Constellation lord is SUN is in 7th. (though owns 8th there are two planets in 8th cusp) Rahu is in sub of VEN signifying 8th Rahu signifies 7 and 8th not fruitful for child birth (NO 5 or 11 { we are not looking for 2nd as we already used it for DASA})

Next is JUP bhukti. Whether Jupiter will bless?

Jupiter is strong as there is no planet in its constellation (see step 1) JUP in 11th owns 12 and 3 untenanted. It signifies 11, 12, and 3 Jupiter in constellation of KETU in 10th MARS rep. KETU and signifies 10th being deposited there. Jupiter is in sub of SAT which has planets in its constellation Anuradha. Sat is in constellation of RAHU as 4th step. Signifying 4th. Venus is rep. Rahu and signifies 8th. JUP's 4 step signifiers are 11, 12, 3, 10, 4 and 8

We needed 5 or 11 and we found Jupiter is signifying 11th. Hence Child birth is promised in JUPITER bhukti.

ANATARA:

As we have used 2 and 11 already, we need the left over house i.e. 5th for Antara and after examining all antaras we can find that only MOON has the signification over 5th as per 4 step. MOON is in self constellation hence strong. It is in 5th and sub of VEN which signifies 8th. Hence MOON signifies the required 5th house and hence moon antara is fruitful for the child birth.

Accordingly, child was born to the querent in this conjoined period of Mars/Jupiter and Moon.

The result by Traditional KP and 4 STEP theories tallied.

Clearly, 4 step theory has shown a new way to approach the analysis for KP Astrologers and is giving encouraging Results Main advantage of this theory is we can narrow down the dasa, bhukti and antara without using ruling planets. If we take signifiers of 2, 5 and 11 and many a times all the planets become signifier by the original KP method. There is no way we can filter it in a better way other than R.P. Another notable feature of 4 STEP is it has taken into consideration planet's and cuspal sub's sub as signifier which was only a deciding factor in traditional KP. We need to judge the opposite houses in traditional KP apart from the houses under consideration. eg. In this case we have judged 2, 5, 11 for child birth and negative houses 1, 4 and 10 for opposition if any. On the other hand we don't drop the signifying planet for bhukti or antara even if it is signifying negative house in 4 STEP theory.

I would like to thank Prof. Andrew Dutta who was constantly pursuing me to write this article and also Sri Kanak Bosmia Who was keen to see my article early. My best wishes to Sri Kanak Bosmia for launching the first KP e-Magazine and Providing Easy access to latest KP articles across the globe.

I conclude this article by offering my prayers to Guruji Sri K.S. Krishnamurti ji who has shown us the path to success.

Good Luck!

IMPORTNACE OF MUHURAT AS PER KP SYSTEM

There is nothing more on Muhurat chart in KP books. When I was a student of Vedic astrology and joined the School of Astrology, in advance course, I learnt on Muhurat and specially with reference to the book "MUHURAT MARTAND".

When first time I predicted using MUHURAT chart very correctly about Discovery Shuttle Launch, my friend Sri Tin Win ji sent me a good Vedic Muhurat book "CLASSIC MUHURAT"-By Ernest Wilhelm as a gift. After reading the book I thought to do more work on muhurat chart in KP.

During this period one of my friend Ajitbhai Amin who is in USA, sent me details of his joining in job. And I predicted that he would be fired from the Job. And my prediction came correct.

Before I discuss the details why I predicted about "fired from job", let us see what is Muhurat?

An auspicious time to start any event is a Muhurat. The chart for that special moment is MUHURAT CHART. Here it should be clearly understood that **WE HAVE TO TAKE MOMENT OF STARTING, WE DO NOT CARE WHEN THE EVENT GETS FINISHED**. We take only time when we start.

In the following example I took the time when first time he joined the job.

Now I discuss why my friend was fired from Job. Detailed analysis is as under:

Date of Joining: 22/7/2005

Time of Joining: 09.00.00AM (DST)

Place of Joining: ATLANTA-GEORGIA-USA.

Very important point in any MUHURAT chart is, never select MESHA, KARKA, TULA AND MAKAR rasi as a Lagna. This four Rais--MESHA, KARKA, TULA AND MAKAR are CHARA Rasis and for Chara Rasi the 11th cusp is Badhaka Sthana. When we do special work we always think for long life of that work, and for long life/longevity of event we have to look Asc sub lord. For good longevity if we set time when Asc sub lord signifies 1,5,11 that means good longevity. And if we take Chara Lagna i.e. MESHA, KARKA, TULA AND MAKAR 11th is not good but becomes a Badhaka. So we should avoid Chara Lagna for any Muhurat.

Role of Asc. Sub lord

In this case Asc sublord is Sun. Sun is in the star of Sat and sub of Mer. Sun is in 12, L/o 1, 2 (Maraka), Sat is in 12 L/o 6,7 (Maraka), 8(Anxiety, punishment), Mer is in 12 L/o 3,11. So it is clear that there is no long life, only 11th supports long life and rest indicate Balarist.

Role of 10th Sub lord:

10th Sub lord is Rah. Rah is in the star of Mer and sub of Mar. Rah is in 9 (change), Jup aspect on Rah. Jup is in 2, L/o 5, 9; Mar is in 9 L/o 10. Mer is in 12 L/o 3, 11. This signification of Rahu indicates 5, 9 Change in Job and 12th and 8th show fire from Job.

Role of Running Dasa:

Running Dasa when he joined Job was Moon-Ven-Rah

Dasanath Moon

The Moon is in his own star and in the sub of Ven. Moon is in 6 l/o 12. Ven is in 1 L/o 4. No planet in the star of Ven and Ven is sub lord of 5, 7, 8, 11. The Moon indicates 6 & 11 and 1, 5, 8. Job and fire in job too.

Bhukati nath Ven

Ven is in the star of Ket and sub of Mar. Ven is in 1 L/o 4. No planet in the star of Ven and Ven is sublord of 5, 7, 8 and 11. Ket is in 3, Jup conj. with ketu and Sat aspects Ket by his 3rd Aspect. Jup is in 2, L/o 5, 9, Sat is in 12 L/o 6, 7 (Maraka), 8 (Anxiety, punishment), Mar is in 9 l/o 10. Job and fire from job too.

Antara nath Rahu (End on 7/8/2005)

Rah is in the star of Mer and sub of Mar. Rah is in 9 (change), Jup aspect on Rah. Jup is in 2, L/o 5, 9; Mar is in 9, l/o 10. Mer is in 12 L/o 3, 11. This signification of Rahu indicates 2, 11 good for job and 5, 9 Change in Job and 12th and 8th show fire from Job.

In this chart Sat is in the sign of Moon and the Moon is in the sign of Sat means PUNARPHOO YOGA. So we select next antara for the fructification of event.

Next Antara of Jup start from 7/8/2005 to 27/10/2005.

Jup is in the star of Moon and sub of Mer. Jup is in 2 L/o 5, 9 Moon is in 6 l/o 12. . Mer is in 12 L/o 3, 11. So I predicted that in this Antara he would be fired from Job.

Actually on 16/9/2005, when he was present at job place he was informed that he was fired. Chart is on next page.

How to check and what care we have to take in MUHURAT chart?

For Job:

- 1) Never consider Chara Lagna i.e. MESH, KARKA, TULA, MAKAR.
- 2) 2nd Sub lord should signify 2, 6, 11 for good earning of Money from Job and getting good chance of Promotion.
- 3) 10th / 6th Sub lord should signify 2, 6, 10, and 11, for peaceful job.
- 4) Asc sub lord should signify 1, 5, and 11. For long longevity of Job.

For Marriage:

- 1) Never consider Chara Lagna i.e. MESH, KARKA, TULA, MAKAR.
- 2) 7th Sub lord should signify 2, 7, and 11. For good married life and good relations between the couple.
- 3) 2nd / 11th Sub lord should signifies 2, 7, 11, for peaceful Married life
- 4) Asc sub lord should signify 1, 5, 11. For long longevity of marriage.
- 5) Never consider Mer as 7th Sub lord or any planet who is deposited in or in the star of Dual Rasi. Or in the star of mer.

For Launch of shuttle in space:

- 1) Never consider Chara Lagna i.e. MESH, KARKA, TULA, MAKAR.
- 2) 12th Sub lord should signify 3, 9, and 12. For good and safe journey.
- 3) 3rd / 9th sub rod should signify 3, 9, 12, for peaceful Journey.
- 4) Asc sub lord should signify 1, 5, and 11. For safe journey.

For Starting PhD:

- 1) Never consider Chara Lagna i.e. MESH, KARKA, TULA, MAKAR.
- 2) 9ND Sub lord should be signifying 4, 9, 11. If possible select Jup or Mer as sublord.

Now we take one more example of marriage. This MUHURAT was suggested by a well known astrologer; but when I checked this as per this theory I found some disharmony in married life. Till we know about this case we have to wait.

This case of a well-known personality is the Son of Late Shri Pramod mahajan, Mr. Rahul Mahajan. He married with Sweta Singh. Details are as under:

Date of marriage: 29/08/2006

Starting Time of Marriage: 11.31 AM

Place of marriage: Worly - Mumbai - Maharashtra

First let us check Rules for marriage Muhurat:

- 1) Never consider Chara Lagna i.e. MESH, KARKA, TULA, MAKAR.
- 2) 7th Sub lord should signify 2, 7, 11. For good married life and good relations between the couple.
- 3) 2nd /11th Sub lord should signifies 2, 7, 11, for peaceful Married life.
- 4) Asc sub lord should signify 1, 5, 11. For long longevity of marriage.
- 5) Never consider Mer as 7th Sub lord or any planet who is deposited in or in the star of Dual Rasi. Or in the star of Mer.
- 6) Runing Dasa Must to agree with relevant Bhava.

1) Asc sublord is Sat. Sat is in the star of Mer and sub of Mar. Lagna is TULA and 11th become as a Badhaka. Sat is in 10 I/o 4, 5. Sat is sublord of 1, 3, 7(maraka), 9 and no planet in the star of Sat. Mer is in 10 I/o 9, 12. Mar is in 11 (Badhaka) L/o 2 (Maraka), 7(Maraka). So strongly indicate no long life of this event.

2) 7th sub lord is also Sat. Sat is in the star of Mer and sub of Mar. Sat is in 10 I/o 4, 5. Sat is sub lord of 1, 3, 7, 9 and no planet in the star of Sat. Mer is in 10 I/o 9, 12. Mar is in 11 L/o 2, 7. Now Sat is in the star of Mer and signifies 2, 11; multiple marriages. Sat also indicates 2, 7, 11 and 1, 10. Indicates no harmony in Married life.

3) 2nd sub lord is Sun in the star of Ket and sub of Mer. Sun is in 10 L/o 11. Ketu is in 11, Sat aspect on Ketu by 3rd aspect. Sat is in 10 I/o 4, 5. Sat is sub lord of 1, 3, 7, 9 and no planet in the star of Sat. Mer is in 10 I/o 9, 12. 11th Sub lord is Ketu. Ketu is in the star of Sun and sub of Jup. Ketu is in 11, Sat aspect on Ketu by 3rd aspect. Sat is in 10 I/o 4, 5. Sat is sub lord of 1, 3, 7, 9 and no planet in the star of Sat, Sun is in 10 L/o 11, Jup is in 12 L/o 3, 6. . Indicate no harmony in Married life.

4) Running dasa is Rahu-Sat. Dasa lord Rahu is in the star of Jup and own sub. Rahu is in 5, Mar aspect on Rahu by 8th aspect, Mar is in 11 I/o 2, 7. Jup is in 12 L/o 3, 6. Dasalord indicate 2, 7, 11 and 6, 12.

Bhukti lord Sat. Sat is in the star of Mer and sub of Mar. Sat is in 10 I/o 4, 5. Sat is sub lord of 1, 3, 7, 9 and no planet in the star of Sat. Mer is in 10 I/o 9, 12. Mar is in 11 L/o 2, 7. Now Sat is in the star of Mer and signifies 2, 11 multiple marriages. Sat also indicates 2,7,11 and 1, 10. No harmony in Married life.

So in my opinion during this Bhukti they will be separated. Up to 13/7/2008.

One another example of signing of agreement:

US President Mr. George Bush come to India at 07.40Pm New Delhi. On 1/3/2006.

I am interested to know result of his visit. So I cast muhurat chart when he arrive at New Delhi airport. As per doordarshan news Mr. Bush arrived at 7.40 P.M.

- 1) Never consider Char Lagna i.e. MESH, KARKA, TULA, MAKAR.
- 2) 3rd Sub lord should be signifies 3,9,11. If possible select Mer as sub lord.
- 3) 11th Sub lord should signify 3, 9, and 11, for completion of agreement/contract without any hurdles.
- 4) Asc sub lord should signify 1, 5, 11. For completion agreement/ contract safely.

3rd cusp sub lord is Sat. Sat is in own Star and sub of Moon. Sat is in 11th lord of 5 and 6. Sub lord Moon is in 7 and lord of 11.

11th sub lord is Mer. Mer is in the star of Jup and sub of Rah. Mer is in 7 lord of 1 and 10 (MER IS SUBLORD OF 1, 5, 11 AND NO PLANET IN THE STAR OF MER). Jup is in 2 lords of 4 and 7. Sub lord Rahu is in 7. So 11th indicate this meeting will be fruitful and profitable for India.

Asc. Sub lord connected with Maraka and Badhaka but Sub lord Mer is cuspal sub lord of 1, 5, 11 so there is no short life of this contract/ agreement.

As per my prediction the Bill was passed without any change on 26/7/2006 with 359 votes. And finally bill was signed by Mr. Bush on 19/12/2006 and now this agreement is final.

It should be kept in mind that when we fix time we never find the entire points match with our requirement. So in some point we have to compromise. To fix time is very lengthy and difficult work because we have to check all day's subs and its significations.

Like this we can fix a good time for any event and get benefited with good result. If readers find this article useful, then some more examples of Muhurat chart will be presented in the future.

-: Good Luck :-

RP Lagna – Ve- Ma- Mo- Me.

RP Mon - Ju- Me- Ju- Mo.

Day Lord – Mar.

Transit information of Mon on 9th Jan. 1963.

Time	Lord	Star Lord	Sub Lord	SS Lord	SSS Lord
5:32:20 PM	Mer	Rah	Mar	Sat	Sat
5:34:25 PM	Mer	Rah	Mar	Sat	Mer.
5:36:16 PM	Mer	Rah	Mar	Sat	Ket.
5:37:02 PM	Mer	Rah	Mar	Sat	Ven.
5:39:12 PM	Mer	Rah	Mar	Sat	Sun.
5:39:52 PM	Mer	Rah	Mar	Sat	Mon.
5:40:57 PM	Mer	Rah	Mar	Sat	Mar.
5:41:43 PM	Mer	Rah	Mar	Sat	Rah.
5:43:40 PM	Mer	Rah	Mar	Sat	Jup.
5:45:25 PM	Mer	Rah	Mar	Mer	Mer.

On 20th Mar.07- Rah & Mer are together. Sun & Mon are together.

Jup asp. on Sun & Mon. Mar & Sat asp. each other.

Jup asp. Sat & Ven. Ven asp. by Sat & Mar.

As per Rule Birth Mon = RP lagna.= Ve- Ma- Mo- Me.

Birth Mon is under Rah star. Rah is not in RP. But Rah & Mer are in Conj.

So we can choose Rah instead of Mer and Mer is in RP.

Sub Lord of Mon is Mar and Mar is in RP.

Sub- Sub Lord of Mon is Sat. Sat is not in RP. But Ven asp. by Sat and Sat is the outer planet.

Here Ven is in the RP. So we can take Sat instead of Ven.

Now the rest one is Mon in RP. So Mon is the Sub- sub- sub lord.

That means the Birth Mon we are getting – Ra- Ma- St- Mo.

**That means the Birth Mon Ra- Ma- St- Mo Starting time is :- 5:39:52 PM
And End time is :- 5:40:56 PM.**

During this period The Lagna Transit :-

Time	Lord	Star Lord	Sub Lord	SS Lord	SSS Lord
5:39:52 PM	Mer	Rah	Sun	Jup	Mer .
5:39:54 PM	Mer	Rah	Sun	Jup	Ket.

5:40:41 PM	Mer	Rah	Sun	Mer	Ven.
5:40:45 PM	Mer	Rah	Sun	Mer	Sun.
5:40:46 PM	Mer	Rah	Sun	Mer	Mon.
5:40:48 PM	Mer	Rah	Sun	Mer	Mar.
5:40:50 PM	Mer	Rah	Sun	Mer	Rah.
5:40:54 PM	Mer	Rah	Sun	Mer	Jup.
5:40:57 PM	Mer	Rah	Sun	Mer	Sat.

As per Rule Birth Lagna = RP Mon = Jup- Mer- Jup- Mon

In Birth Lagna Rasi pati is Mer and in RP Mon Mer is as star Lord.

In Birth Lagna Star Lord is Rah. Rah is not in RP but Rah is the agent of Jup and Jup is in RP.

So, we can take Rah instead of Jup.

In Birth Sub- Lord is Sun. Sun is not in RP but Sun is conj with Mon and Mon is in RP as Sub- Sub Lord.

In RP Mon Jup repeats two times we have taken one so rest another Jup is Sub- Sub Lord.

Being Jup as Sub Lord we are getting the time 5:39:52 PM – to – 5:40:04 PM where we get Mer, Ket, Ven, Sun, Mon, Mar, Rah as Sub- Sub- Sub Lord. we have already taken Rah, Mon, Mer. Sun & Ven is not in the RP.

Here Mar is repeated two time as RP Lag Star & Day Lord. Again Mar aspects on Ven and Mar is the outer planet.

So, we will take Mar as Sub- Sub- Sub Lord and the time is 5:40:03 to 5:40:04 . So, we will take the starting time of Mar as Sub- Sub- Sub Lord. that is 5:40:03 PM is the right time of Birth for the Jataka.

So, the Lagna = 5:40:03 PM= 77:44:45= Mer- Rah- Sun- Jup- Mar.

Sale and purchase of a house

When the house of my younger brother will be sold out?

The number given by the querist is 52 (between 1 to 249), I worked out on 24-12-2006 at 19-35 IST, at Ludhiana.

The chart discussed here should be rotated as taking 3rd house as ascendant for younger brother, who is living in the USA.

Let us discuss some rules astrologically.

KP Stellar astrology is a system of scientific predictive astrology. In this system, the Ruling planets serve as a master-key in timing due events. Unlike old Traditional system, a planet tenanted the Constellation emits the matter of the house occupied by the constellation Lord and the houses owned by him. Such matters are indicated by the tenant PLANET which is known as the Significator will come to pass depending on the sub portion of the constellation occupied by the tenant planet

What are the significators (for further clarification please see the article by Sh Raichur ji in kpezine)

- i) The Planet in the constellation of the occupant of a house
- ii) The Occupant of the house, if there are no planets in its three stars.
- iii) Planet in the constellation of the lord of House provided the houses owned by the lord of the constellation are unoccupied.
- iv) Lord of the House, if there is no planet in any of its three stars and the houses owned are vacant.

What is a Sub?

a) You know that the arc or the extent of a star is 13-20 (800 mts) and is divided into unequal proportion of the Dasa years allotted to each Planet in the VIMSHOTTARI DASA SYSTEM of 120 years, each such part is known as sub contracted from Sub-Division. In other words, if the constellation is akin to DASA, the bukthi is akin to SUB and Antara is akin to SUB-SUB. Just as a Planet is controlled by sub and thus its powers are modified in terms of its constellation lord, so also the 12 CUSPS in the Birth chart or Horary chart are ruled by subs and the lord of the same sub is being controlled by the constellation lord and effects of the matters signified by the cusp and house get modified in terms of signification attained by the sub lord of these cusps. Table of subs (1 to 249) can be had in almost all the K.P. Readers and Ephemeris. In K.P. System the cusp sub lord is the deciding factor in all cases. This is the sheet-Anchor of the K.P. System and is universally applied without exception to all queries whether judged from birth charts or in Horary Maps. For assessing a particular question and in terms of the matter cited in the query, one should look into the sub lord of the cusp of house which represents such matters. The cusp and the sub lord of that house is the deciding factor. An Examination of the cuspal Sub-Lord will enable to decide finally and clearly, if the matter denoted by that house in question will fructify or not.

House division in K.P.

Shri K.S.K. had advised the PLACIDIUS system to be used and this system divided the 12 signs into unequal but correct divisions. In this system, a house is so considered to commence from a point in a sign, so that the space between the cusp of the 1st house and that of the 2nd House is the extent of the Lagna bhava; the space between the 2nd cusp and that of the 3rd cusp is called as 2nd bhava This radically differs from the old Indian Traditional system, where the cusp of a house is taken as the mid-point of a house, which K.P. Students need not consider at all. So the entire SUB LORDS of 12 cusps will reveal the status of a horoscope. This is the essence of K.P. system. So the students of K.P. system should bear in mind the necessity of assessing the strength of each cusp before predicting the effects of dasa and also particular event as desired by the querants. The cuspal sub lords also comes as strong significator of the particular cusp, in the absence of the planets in its three stars. This was tested in so many cases and found to get good results. Planets occupying the 4th house, or the planet in constellation of the occupant, having connection with

Mars, and planets in the constellation of the 4th house connected with Mars indicate buildings. By connection with Mars, it means that the planet may (A) occupy the sign owned by the Mars, or (B) occupy the star of Mars, or (C) the sub governed by Mars (whatever be the sign and star)

Therefore, if one judges about one's house to dwell in, one has to consider the planets connected with the 4th house and also with Mars:-

1. The planets occupying the 4th house (whatever be the sign) and are either in Mars star or Mars sub.
2. Planets in the constellation of such occupants,
3. Lord of the 4th house in the constellation or sub of Mars.
4. Planets in the constellation of such lords
5. and the favorable placement of Mars to the 4th house.

Acquisition of the house may be by inheritance or legacy or by purchase. Hence, if the 4th house receives good aspects from the lord of 10, the native gets a building by inheritance. Here he does not withdraw money from bank or borrow, and then buy or build.

But if the 4th house has connection with lords of 1 and 12 the native will invest the money he has, and convert some liquid cash into permanent possession.. The 2nd house indicates bank's position, one's movable property, liquid cash etc.; the first house indicates one's efforts and 12th house shows he spends and invests.

But if the 4th house has connection with lords of 1, 6 and 12th, one will borrow and invest or one may acquire a house through co-operative society etc.

If the lord of 1 is also the significator of 2 and 6 and has no connection with Mars, one borrows *money by mortgage*.

If the lord of 1 has no connection, but if the lord of 4 and lord of 8 are connected, he will sell away the property, the purchaser is represented by the 7th house; 8th house will be the 2nd house to the purchaser, so he acquires.

If the lord of the 4th is connected with the lord of 12 and also with the Sun, either he loses the house by fire accident or through public auction.

One uses much of wood if the planet, which gives the house, is connected with Jupiter. Ketu and Mars indicate that one will use well burnt bricks. Saturn and Venus indicate cement. Saturn, Venus and Mars indicate reinforced concrete. Moon indicates that there will be copious supply of wholesome water, Mercury indicates that he will have twin houses or servant quarters. Venus and the Moon indicate that one will use lime and render it to give the appearance like marble; Mars and Venus indicate mosaic flooring; Venus gives garden, furniture and glass etc.

Saturn gives air conditioning, fridges etc. Mars improves the kitchen; Venus the bedroom; Jupiter the cash treasury room; Mercury the reading room; Saturn indicates that he may have the underground room etc.

When one lets the house for others

Sun - lets to government;

Moon - nurses, midwives, navy people; those who work in water supply etc.

Mars - surgeon, industrialist, police, military;

Mercury - business people, agents, journalists, post office etc.

Jupiter - bank, school;

Venus - hotels, silk shop, for ladies;

Saturn - laborers, workers etc.

So one can find out that the owner of the house where one lives belongs to one of a particular caste, or profession or the quarters belong to the government or local body, etc, by scrutinizing the position of the lord of the 4th, and the lords who rule the dasa, bhukti, antara etc.

Rule regarding the sale of house, ie Disposal of housing or landed property,

The sub lords of the cusp of 3, 5, 10 are to be judged for selling and 3 & 12 for giving possession. 4th house represents immovable property (Land, Building etc.) The purchaser is represented by the 7th cusp of the chart and his acquisition of property is denoted by 4th from 7th i.e. 10th cusp. Whether any party would purchase the querist's property (i. e. whether the querist will be able to sell the property) is therefore to be judged from the 10th cusp of the chart and its sub lord. The querant's property is denoted by the 4th cusp and his parting with it by 3rd cusp (which is 12

from 4th). Thus some party would purchase only if the sub Lord of 10th cusp is a significator of houses (Bhavas) 3, and 10th. The 5th cusp is also relevant to the matter as it is the 11th house from 7th (fulfillment of his desire) which represents the purchaser.

Purchase of house

If the sub lord of 4th cusp signifies 4, 11 and 12 one will construct a house and Mars also should come into picture for immovable properties and Building as Sat for construction (Civil Engineering) 11th for fulfillment of desire and 12th for investment of money. With this information in mind, let us discuss a Horary chart regarding the "Disposal of House and purchase of New House, when?"

WHETHER HE WILL BE ABLE TO SELL?

Moon shows mind

Moon is in the star of Mars. Mars is in 4th house and lord of 4 and 9, aspect on 10th house. And moon is lord of 12th house in 6th. Moon is in sub of Saturn an occupant of 12th and aspect on 3 and 10th houses. It clearly shows the mind thinking in terms of purchase and sale of property.

Checking 10th cusp

10th cusp sub lord is Rahu. Mar aspect on Rah. So Rahu will give results of Mars. Why? Because nodes give results of planets aspecting them as first grade results, secondly they give results of those planets which are conjoined with them, thirdly they give results of the star lord in which they are deposited, and then the lord of sign in which they are situated. Here, Mars aspects Rahu with his 4th aspect. So Rahu will give what Mars signify. Now look what Mars gives.

Where is Mar? He is occupant of the 4th house. But there are planets in Mars star, so he becomes a weak significator of 4th. But surely it has connection with 4th house, as it is occupant and owner of the 4th house. Mars connection with 4th house clearly shows that he will buy new house.

Now look in which star Mars is deposited. Mars is deposited in Mercury star. Mercury is occupant of 4th house. Therefore Mar becomes strong significator of 4th house. Mercury is lord of 11 and 2 houses. Both are vacant houses. So Mars signifies 2 and 11 fully. In total, Mars has a signification of 4-11 and 2 houses – all are required to buy a house. So through Mars, Rahu got signification of 4-11 and 2. It clearly indicates that he will buy. But can he sell also?

Look the sub lord of Rahu. Rahu is in sub of Ketu. Ketu is in star of Venus. Venus is in 5 and lord of 3 and 10, both are vacant houses. So Ketu gets full signification of 5-10 and 3, all are needed to sell the house. So he will sell it.

On the basis of the above analyses I told the querist that he will sell and buy simultaneously.

When?

Mars major period up to 23-10-2010. Will it give? Mars is a strong significator of 4 (property or house)-11 (realization of ambition) and 2 (possession). Mars is a ruling planet. So select Mars.

Sub period of Saturn will go up to 24-4-2007. Will it give? Look into Saturn. Saturn is in Ketu star. Ketu is in Lagna. Therefore Saturn is a significator of Lagna. Being in Sun sign Ketu represents Sun. Sun is in 4th house. Therefore Ketu got signification of 4th house. So at stellar level Saturn got signification of 4th house through Ketu. At sub level Saturn is in Venus sub. Venus is a strong significator of 5-10 and 3. All are good to sell the property or house.

But here a doubt came in my mind. Saturn is retrograde. Will it give?

I gave another look into ruling planets. Saturn comes twice. But it is retrograde. Here I remembered Dr. Kar's theory of retrograde planet, that if it is in Sun sign, or in Sun star or close to the Sun then it will work as direct planet and will give result. In this case Sat is in the sign of Sun. So I tell them that before last week of April, you will sell away and buy a new house.

I was thinking that if it is not possible in this period, because who knows what Saturn can do, then I also keep safe side of mine then I told them if it is delayed, then in Mercury Bhukti it will surely happen.

But in the second week of February, I got phone call that they have been shifted in a new house and the old one had been sold out.

I checked sub-sub period at that time. It is Rahu from 31-12-2006 to 3-3-2007

Rahu is not in ruling planet but Saturn is. And being in Saturn's sign Rahu became ruling planet. Secondly Rahu is being aspected by Mars—another ruling planet. Thus Rahu is a significator of 4 at stellar level and being in sub of Venus it got signification of 5-10 and 3.

Om Ganeshaya namah ! Today we see that astrology finds many applications not only to just marriage fixing and matching, but also for any indecisive occasion which seems to trouble us mentally or physically. The application of KP gives us amazing results helping us to point out facts very accurately.

Ajith menon ,a male native has been working in Qatar and recently used to give troubled clues to his parents . When he used to call, there were always bouts of depression in his speech. More that a couple of time he had been saying that he wanted to return to India. His troubled parent came to me with their son's horoscope to know about his present condition in Qatar and wanted to know his present condition and will he be coming back to India leaving his job and career at stake.

This example, I believe shall prove to be very helpful to KP students in analysis of natal charts.

KP Rule:

The 10th Cuspal sublord and 12th Cuspal sublord - Sukr is deposited in 12th bhava, Sukr is in the star of Ketu which is also in the 12th bhava. Sukr is the owner of the 3rd and 10th house. Sukr is aspected by the 9th lord. So the native will surely go abroad.

The 6th Cuspal sublord Budh is in the star of Ketu both are in 12th bhava again. Budh being owner of Kanya rasi and Mithuna rasi connects Ketu also to the 2nd and 11th house. Also Budh in the sub of Sani, and Sani in the 9th bhava (long journey) and owns the 6th house (service) as seen above promises connection to abroad opportunities.

Effect of Guru dasa/ Ketu Bhukti -

Positive points

The 9th Cuspal sublord Guru is also the Dasa lord Guru is in the star and sub of Sani in the 9th bhava (long journey) and Sani owns the 6th house (service). We see mutual aspect of Guru and Sani. Sani also aspects the 12th bhava .Both Sani and Guru is aspecting Ketu to offer results. So he got an opportunity to try his luck abroad.

Negative points

Guru owns 8th and 5th , this is however a bad disposition and at the same time it can benefit ones opponents as 7th denotes opponents and 8th house (2nd from 7) denotes gain to opponents and 5th house(11th from 7) denotes success to opponents . There is no planet in the star of Guru. So the results of 5 and 8 are to be given only by Guru himself. However, Ketu is powerfully aspected by Guru by its 9th aspect. So Ketu gives negative results in terms of disturbance in job from superiors and inimical activities by even friends who will eventually turn in to foes.

Hence, Guru Dasa / Ketu antara that ran from 14/10/2003 to 20/9/2004 was to be really bad.

Effect of Guru Dasa/ Sukr Bhukti -

Sukr antara started and will continue up to 21/05/2007. Let's see the effects-

Positive points

Sukr apart being the 10th and 12th Cuspal sublord as discussed above favours career overseas.

Negative points

Mang is the 9th lord hence a badakasthanathipati for Sthira Rasi. Here Rahu conjoins Mang. So Rahu also is a bhadaka. Mang also aspects the same 9th (badakasthan) and also Sukr by its powerful 8th aspect. Thus Sukr is affected. Also we see sukr in the star of Badaka -Rahu and in the sub of Ketu as discussed above spoils all benefic qualities of Sukr. Hence Sukr antara is no doubt of malefic tendencies. Note that mang being lord of the 4th house is tempting the native to come back to India. So this antara will again be a difficult time to the native. Since sukr is also the 4th cuspal sublord he will be willing to come back to India unable to make it there.

Return to India

The native will be running Guru Dasa / Sukr Bhukti /Budh Anthra from 10/11/2006 to 26/03/2007. Also, the Current transit of Dasa lord Guru is in Scorpio (owned by Mang). So I boldly declared that they could expect him to reach India within this time frame.

As predicted the native was mentally forced to resign and happened to return back to India on 17th March 2007.and at that time running sookshma dasa is Sani from 05/03/2007 to 26/3/2007.

I am concluding this article with all my good wishes to Kanakji for taking such a decisive step to promote KP.

FROM THE EDITOR'S DESK

Dear Readers,

Please take note that KP E-Zine is **FREE UP TO END OF EACH MONTH ONLY.**

I request all the readers to send their opinions, suggestions, comments, and what you want to see in **KP E-zine** and what not. It will help me to improve **KP E-zine**.

I decided to publish KP E-zine August 2007 issue as a Marriage and child birth special. So I request all authors, please send your articles on this special subject before 30 July 2007

I request the authors to please check it with the relevant chart properly, before you send your articles. Many a times what is written in the article does not match with the chart submitted. I do not want to continue what is going on other KP Magazine. Some authors send me articles which were already published in other magazine; so I request you all not to send any article which has been published in any magazine. **Please do not send article which is Prediction -come-true type, I want to make this magazine educative not fortune teller type.**

Your encouragement and compliments are more than money for me, so without any miserliness on this count, kindly send your comments and suggestions each month.

With best regards,

Kanak Bosmia

Dear Kanak bhai,
 Congratulation is not proper word for services you are providing and pain you are taking for promotion of KP method. I think you are fully blessed by Guruji Krishnamurthyji and that is the reason why you feel happy explaining people without any hesitation. To know astrology is a common process, to become expert in astrology is a rare process but to build such a genuine efforts for KP is hardly possible process. I know you very well as you have diverted me from Conventional Astrology to KP method and I am still getting guidance in case of complex questions from you and you are providing it to me with love and happiness. This great quality differs you from other KP astrologer. Good luck

MARK BELOW THE CHART

EMPTY HOUSES -NOT occupied by Sun to Ketu ARE 1 4 5 7 9 11 12

CONJUNCTION WITH IN ORB OF 3 DEG 20 MIN

planets conjunct :Mar with Sat: Jup with Ket:

PLANETS CONJ WITH CUSPS Mar WITH 6:Jup WITH 3:Ven WITH 3:Sat WITH 6:

Rah WITH 9: Ket WITH 3:

Planet in own star is with *: SUN,VEN,SAT,KET

Planet which is not Star Lord

lord of other planets is shown with + MOON,MARS,JUP

E= empty house. P/p= PRIMARY SIGNIFICATION

As is the standarad way, we start with **KETU**

Step 1

PLN: ket+6p(Mar 6P)

Now Ket is conjunct with JUP. So we add that also

ket+6p(Mar 6P)-(Jup 2P-11Ep) : Since KET is strong, Jup also is treated as strong. So the 11 house which is empty also becomes strongly signified.

SO step 1 now is

PLN: ket+6p(Mar 6P)-(Jup 2P-11Ep)

NOW KET IS WITH IN 3 DEG.20 MIN (CONJ) WITH 3RD CUSP. SO THIS IS ALSO STRONGLY SIGNIFIED

So step 1 now becomes:

PLN: ket+6p(Mar 6P)-(Jup 2P-11Ep)-C3

so Ketu has now become strong significator of 6,2,11, and 3. So 3 more houses are signified.

In step 2 Star lord Ven is in own sign so nothing is to be added. But he is Conj with 3rd cusp. so that is to be added, although it is already there

PLN: : ket+6p(Mar 6P)-(Jup 2P-11Ep)-3c

STL OF Ket Ven:* 3P-4Ep-9Ep-3c

SUB LORD OF KET IS RAHU. HE IS CONJUNCT WITH 9TH CUSP. So that is added though in this case it makes no difference

SBL OF Ket Rah:* 8P-(Ven 3P-4Ep-9Ep)-9C

STL OF SBL Rah:* 8P-(Ven 3P-4Ep-9Ep)-9c

Hence Ketu will now signify:

PLN: : ket+6p(Mar 6P)-(Jup 2P-11Ep)-3c

STL OF Ket Ven:* 3P-4Ep-9Ep-3c

SBL OF Ket Rah:* 8P-(Ven 3P-4Ep-9Ep)-9C

STL OF SBL Rah:* 8P-(Ven 3P-4Ep-9Ep)-9c

FOR **VENUS** WE HAVE TO ADD 3C AS IT IS CONJUNCT WITH 3RD CUSP
for Sub lord of Ven (sat) we add MAR By conjunction

SO

PLN: VEN:* 3P-4Ep-9Ep-3C

STL OF Ven Ven:* 3P-4Ep-9Ep-3c

SBL OF Ven Sat:* 6P-1Ep-12Ep MAR:+ 6P (Note if Sat was not strong then
Mars will signify 6 weakly)

STL OF SBL Sat:* 6P-1Ep-12Ep MAR:+ 6P

THE REST HAVE BEEN CORRECTED ON SAME LINES

PLN: **SUN**:* 3P-7Ep

STL OF Sun Sun:* 3P-7Ep

SBL OF Sun Jup:+ 2P-11Ep - MAR:+ 6P

STL OF SBL Ven:* 3P-4Ep-9Ep- 3C

PLN: **MOO**:+ 10P

STL OF Moo Mer: 3P-5PE

SBL OF Moo Sat:* 6P-1Ep-12Ep MAR:+ 6P

PLN: **MAR**:+ 6P-3 -10 SAT:* 6P-1Ep-12Ep c6

STL OF Mar Sat:* 6P-1Ep-12Ep MAR:+ 6P-C6

SBL OF Mar Mer:

STL OF SBL Sun:* 3P-7Ep

PLN: **RAH**:* 8P-(Ven 3P-4Ep-9Ep)-c9

STL OF Rah Rah:* 8P-(Ven 3P-4Ep-9Ep)-c9

SBL OF Rah Moo:+ 10P

STL OF SBL Mer: 3P-5PE

PLN: **JUP**:+ 2P-11Ep- ket+6p(Mar 6P) -c3

STL OF Jup Ven:* 3P-4Ep-9Ep-3C

SBL OF Jup Rah:* 8P-(Ven 3P-4Ep-9Ep) -9C

STL OF SBL Rah:* 8P-(Ven 3P-4Ep-9Ep) -9C

RAHU/KETU RULES IN KP

By: Tin Win
15209 Carrollton Road
Rockville, MD 20853
USA

I. BASIC RAHU/KETU RULES

1.1. Origin of Rahu/Ketu Rules

(KP Reader II, 1983, page 315)

Rahu or Ketu will act as a strong agent to the planets to which they are conjoined. If they are not conjoined with any planet, then they give the results of the planet which aspects them. Only when they are neither conjoined with, nor aspected by any planet, they represent the lord of the house. (Uthrakalamrita -- Khanda VI Sloka 14 onwards)

1.2. Rahu/Ketu Rules by Guruji KSK

(KP Reader III, Old Edition/OE/, Part 1, page 123/New Edition /NE/ page 130; KP Reader V, 1983, page 123)

- 1) Rahu or Ketu indicates the results of planet which it is conjoined;
- 2) If no planet in conjunction, the results of planets aspecting it;
- 3) If neither conjoined nor aspected, the results of the constellation in which it is deposited;
- 4) Lastly the result of the sign in which it is deposited.

1.3. Similar Version by Sri C. B. Bhatt

(Nakshatra Chintamani, page 19)

Rahu/Ketu as PLANET gives:

- 1) Firstly, the results of the planet in conjunction with it,
- 2) Secondly, the results of the planet aspecting it,
- 3) Thirdly, the results of its own star lord, and
- 4) Fourthly, the results of the owner of the sign occupied by it.

1.4. A Slightly Different Version by Guruji KSK

(by taking the STARLORD "before" the planet in aspect/ KP Reader VI, 1978/2002, pages 187/212/214/274/276)

A node gives:

- 1) Firstly, the result of the planet or planets with which it is conjoined,
- 2) Secondly, of the star lord in which it is deposited,
- 3) Then, of the planet or planets aspecting it and
- 4) Lastly, of the lord of the sign in which it is deposited.

II. HOUSE OCCUPIED BY RAHU/KETU

(KP Reader III, OE, Part 1, page 124 /NE, page 130/ KP Reader V, 1983, page 124)

2.1. The Role of House Occupied by Rahu/Ketu

- 1) Rahu or Kethu gives results to greater extent than what Starlord can offer.
- 2) Imagine as though Starlord is posited in that house in which Rahu or Ketu tenanted.
- 3) Also imagine that Starlord is posited in that bhava. And it gives results to greater extent.

2.2. KP Reader III, OE, Part 1, page 110/ NE, page 116/ KP Reader V, 1983, page 110

Rahu and Ketu will occupy a house. They govern the stars Arudhra, Swathi, Sathabisha, Aswini, Maka and Moola. So planets situated in these stars will offer the results as indicated by either Rahu or Kethu according to the house occupied by them. Further one should include the results of the lord of the constellation and then the lord of the sign in which Rahu and Kethu is posited. It is explained in the end of the chapter (i.e. as furnished in 1.2 and 2.1).

III. A DIFFERENT APPROACH FOR RAHU/KETU AS STARLORD

3.1. Nakshatra Chintamani, page 19 (Sri C. B. Bhatt)

If any planet is in the STAR of Rahu or Ketu,

- 1) that planet will signify the matters of the house occupied by Rahu or Ketu;
- 2) that planet will indicate the matters of the house owned and occupied by the Star lord of Rahu or Ketu; and
- 3) that planet will denote the matters of the house occupied and owned by the owner of the sign occupied by Rahu or Ketu.

3.2. It is similar to 2.2 including the house occupied and excluding the planets in conjunction and aspect.

3.3. The results of planets in conjunction and aspect for Rahu/Ketu as STARLORD is rarely applied in KP Readers as furnished in 1.2 and 2.2. of the Appendix.

3.4. It may be a little awkward in preparing a KP planet wise and star wise significator table while taking the starlord effects of Rahu/Ketu as STARLORD.

IV. OTHER VIEWS

4.1. An interesting approach is noted in Astrosecrets & KP, Part 1, 2003, page 308 and 311 (Sri M.P. Shanmughan) and in KP Year Book 2002, page 40 (N. Pandu/N. Santhanalingam), that Rahu/Ketu will offer the results of a planet which is deposited in Rahu/Ketu star, eg. if Mars is deposited in Rahu star, Rahu will offer the results of houses 3 and 10 owned by Mars. And then the results of planets in conjunction and aspect and starlord are mentioned to be considered.

4.2. In the 4 Step Method (invented by Sri Sunil Gonchalekar and explained by Sri Anant Raichur in English), Rahu/Ketu is taken as agent of the lord of sign occupied and as a significator of the house occupied. If Rahu/Ketu is in conjunction with any planet within 3.33 degrees, this planet is also considered, and then the Starlord of Rahu/Ketu, the Sublord of Rahu/Ketu, and the Starlord of the Sublord are also considered. Only strong significators are considered by taking into account of occupation of starlord, Rahu/Ketu in own star, Rahu/Ket having no planet in its star and empty houses. Planets in aspect are not considered unless within 3.33 degrees.

4.3. The importance of strong significators is emphasized in Astrology for Beginners, Vol 5, page 669 (Sri K. Subramaniam). Only if there are no planets in Rahu/Ketu star, Rahu/Ket will signify the house occupied. (If a planet is in Rahu/Ketu star, the planet will signify the house occupied by Rahu/Ketu.) Only if there are no planets in the star of the signlord, Rahu/Ketu will signify the results of the signlord. (If a planet is in the star of signlord, Rahu/Ketu will signify the houses occupied by the signlord and the starlord of the signlord and the houses owned by the STARLORD of the signlord, provided there is no planet in those houses). And then the results of the planets in conjunction and aspect are mentioned to be considered.

V. RAHU/KETU'S ASPECTS

5.1. Since the Rahu/Ketu Rules in 1.2 and 2.1 are commonly used, the application of Rahu/Ketu's aspects is not found in KP literature except Dr. Bal Krishna Singh Hatia applying Rahu's 5th and 9th aspects in KP Year Book, 1999, page 26 and Sri Prof. K. Balachandran using Kethu's 7th, 9th and 12th (Hindu) aspects in KP Year Book, 2002, page 82-90. According to Parasara, Rahu aspects 5, 7, 9, and 12 fully (Uttara Kalamrita Kalidasa by Dr. P. S. Sastri, Edition 2001, page 43; Thanks to Ms. Sandy Crowther for giving reference.) and Jupiter-like aspects of Rahu/Ketu are used in Vedic Astrology.

VI. SOME FINDINGS FROM EXAMPLES IN KP READERS

6.1. In examples regarding Rahu/Ketu Rules in KP Readers III, IV, V and VI (as furnished in the Appendix), Hindu aspects and conjunction are used; the importance of strong significators is considered whenever appropriate by taking into account of the occupation of starlord, Rahu/Ketu in own star, Rahu/Ketu having no planet in its star and empty houses.

6.2. Even though quoted "only when they are neither conjoined with, nor

aspected by any planet, they represent the lord of the house." , whether Rahu/Ketu as Planet or Starlord or Sublord, the results of the followings are taken depending on relevance to the matter under consideration regardless of their sequence of order:

- 1) House occupied,
- 2) Planet in conjunction,
- 3) Planet in aspect and
- 4) Starlord,
- 5) Signlord, for instances:

- a) Conjunction/Starlord/Signlord Rules are applied together in Reader III OE Part 1 pages 142-3 (NE pages 149-50) and Reader VI pages 302/316;
- b) Conjunction/Aspect/ Signlord Rules are applied together in Reader IV page 111;
- c) Occupation/Aspect/Signlord Rules are applied together in Reader VI , page 190;
- d) Signlord Rule is applied neglecting the planet in conjunction in Reader III OE Part 2 pages 44-5/85 (NE pages 200-1/244-45).

6.3. Rahu/Ketu as agent of the planet in conjunction or aspect or signlord is supposed to give whatever the planet concerned is to signify (KP Reader VI , page 234) but only houses occupied and owned by the planet are commonly considered, and further results of the planet's Starlord are taken in some cases only, for instances:

- 1) Starlord of Starlord in Reader III OE Part 2 page 13 (NE page 166);
- 2) Starlord of Signlord in Reader III OE Part 2 page 85 (NE pages 244-45).

6.4. Generally the houses occupied and owned by STARLORD and the house occupied by Rahu/Ketu are shown by KP SWs, and in addition planets acted by Rahu/Ketu as agent and planets having no planet in their stars are also shown by KPAstro 2.5.

VII. CONCLUSION

In applying Rahu/Ketu Rules of house occupied, planets in conjunction and aspect, starlord and signlord, consideration of the priority and strong significators will be crucial when Rahu/Ketu plays a dual role in cases of life or death, marriage or denial etc.

In today's life and in our society many people say that nowadays matching of girl and boy's horoscope is not important but between mother-in-law and daughter-in-law is a must; because we show relations between both should always be right.

In this regard, inspired from Sri K.P.Kuppu Ganapathi ji's Articles on KPDP, I made some rules for matching the relationship between partners, sister-brother, mother-child, father-child, Mother in law and Daughter-in-law etc.

In this article, first I shall discuss relations between mother-in-law and daughter-in-law with one example.

How to match the charts of mother-in-law and daughter-in-law

- 1) Ascendant Sub Lords in the charts of both should be natural friends or Neutral and should not be enemies.

Below is the table of Natural friends/Neutral/Enemies.

Planet	Sun	Moon	Mar	Mer	Jup	Ven	Sat	Rah
Friends	Moon Mar Jup	Sun Mer	Sun Moon Jup	Sun Ven Rah	Sun Moon Mar	Mer Sat Rah	Mer Ven Rah	Mer Ven Sat
Neutral	Mer	Mar Jup Ven Sat	Ven Sat	Mar Jup Sat	Sat Rah	Mar Jup	Jup	Jup
Enemies	Ven Sat Rah	Rah	Mer Rah	Moon	Mer Ven	Sun Moon	Sun Moon Mar	Sun Moon Mar

- 2) In the chart of Mother-in-law the sub lord of 11th (5th is son, * 7th from 5th i.e. 11th wife of son) for first child, for second child 1st (7th is second son, 7th from 7th i.e. 1st wife of son), for Third child, 3rd (9th is third son, 7th from 9th i.e. 3rd wife of son) and in the chart of daughter-in-law 10th (7th is husband, 4th from 7th i.e. 10th mother of husband) sub lord should be natural friends or neutral and should not be enemies.
- 3) Sub Lords of the Moon in the charts of both should be natural friends or neutral and should not be enemies. Because Moon represents the mind of the native.
- 4) Star Lords of the Moon in the charts of both should be natural friends or neutrals and should not be enemies.
- 5) (A) In mother-in-law's chart, sub lord and star lord of sub lord of 11th (5th is son, * 7th from 5th i.e. 11th wife of son) for the first child, for second child 1st (7th is second son, 7th from 7th i.e. 1st wife of son), for Third child, 3rd (9th is third son, 7th from 9th i.e. 3rd wife of son) must be a ruling planet of the daughter-in-law.

Please note that day lord must be taken as per sunrise to sunrise, not as per western system of 00 Hrs.

- (B) In daughter-in-law's chart sub lord and star lord of sub lord of 10th (7th is husband, 4th from 7th i.e. 10th mother of husband) is a must be a ruling planet of Mother-in-law.

Please note that day lord must be taken as per sunrise to sunrise, not as per western system of 00 Hrs.

- 6) (A) Ruling planets of Mother-in-law should be signficator of 2 (Family) and 11 (permanent friendship) of Daughter-in-law. But take care to select signficators. Do not take all the signficators. Select A (Planet in the star of occupant of bhava) and C (Planet in the star of bhava Lord) grade of signficators from table of signficators, I f any planet is not found in A or C then only take B (Planet in Bhava) instead of A and D (Bhava Lord) instead of C.
- (B) Ruling planets of Daughter-in-law should be signficator of 2 (Family) and 11 (permanent friendship) of the Mother-in-law. But take care to select signficator. Do not take all the signficators. Select A(Planet in the star of occupant of bhava) and C (Planet in the star of bhava Lord) grade of signficator from table of signficators. I f any planet is not found in A or C then only take B (Planet in Bhava) instead of A and D (Bhava Lord) instead of C.
- 7) (A-1) At the time of checking Relationship, if Mother-in-law is running 'X' Dasa, 'Y' Bhukti, note whether X, Y are Daughter-in-law's Ruling Planets at the time of birth.
- (A-2) The Planets deposited in the stars of the above X, Y Planets will be the Ruling Planets at theTime of birth of the Daughter-in-law.
- (B-1) At the time of checking Relationship, if Daughter-in-law is running 'M' Dasa, 'N' Bhukti, note Whether M, N are the Ruling Planets at the time of birth of the Mother-in-law.
- (B-2) The Planets deposited in the star of the above M, N Planets will be the Ruling Planets at the time of birth of the Mother-in-law.

Now we shall understand this rule with the help of an example. A lady has three daughters-in-law and she lives with one and there is no relation with other two.

Author: The author hails from the Electronics and Communication engineering background, presently heading a Senior Managerial position at The Centre for Development of Telematics (C-DOT), Bangalore. Besides teaching Parasharic and Jaimini astrology at ICAS, Bangalore and contributing to The Astrological Magazine in Jaimini theme since a decade, the author has special interest in The Krishnamurti Paddhati and is a serious student of this subject.

This case is from my file of records.

One person contacted me to inform me about the marital discord he was undergoing and wanted me to analyse, if a patch up with his wife was possible?

He gave me his birth time as 25-12-1959, 20:15 Hrs IST, Chennai for analysis.

The birth time was corrected to 20:15:47 Hrs IST and analysed as follows on 17th Jan 2007. The birth chart is enclosed herewith.

The chart is being analysed as follows:

The Query

The chart under discussion is a natal chart and the query may not be confirmed by the disposition of Moon or Lagna sub-lord, just as done in prashna charts.

However, the sub-sub lord of Moon at the time of judgment may assess the state of affairs going on at that point of time in the life of a querist.

This case was taken up for analysis on 17-01-2007 at 10-13-26 Hrs IST at Bangalore and at that time Jupiter ruled as sub-sub lord of Moon. Jupiter in the natal chart is the 6th lord in the star of 12th lord-Mercury, which was sufficient to confirm the marital discord prevailing in the life of the native.

The co-ordinates for judgment

In a natal /prashna chart, the harmonious life with wife is promised if Lagna, 5th and 7th cusp get involved with the 11th house. The marital discord starts from the 6th house and 12th house involving the 7th house. The healthy marital life shall be realized only if the 11th cusp indicates its linkage with the Lagna, 5th and 7th house without getting linked to the adverse houses.

Analysis of the chart

1. Look whether there is a promise for marital discord in the chart. Lagna sub-lord Moon is placed in the star of Rahu, which is placed in 2H, causing disturbance in family life. The sub-lord of Moon is Saturn, which as 7th and 8th lord gets placed in 6th house, bringing the focus of difficulties in married life in principle.

Look to the 7th sub-lord Mars that gets placed in the star of 12th lord Mercury bringing the element of un-happy marital life and loss of attachment, as Mercury gets placed in the 5th house of attachment and mutual respect.

Now, note the 11th cusp whose sub-lord is Rahu. Rahu disposes Mercury (sign lord) and Sun (star lord). 2nd lord Sun is in the star of Ketu placed in 8th indicate break of family life and Mercury in its own star placed in 5th house (conjunctions not considered yet) portend the marriage to continue for some time, though involving discord.

Thus, there seems to be a clear case of marital discord at some point of time in native's life. It is expected that a vulnerable dasha will trigger the marital discord.

2. The native started the dasha of Mercury from Sep-2006 and as soon as he entered this dasha, the explosion of marital discord took place and the native was thrown out of the house.

Note that Mercury is in its own star, hence powerful. Mercury as 3rd lord indicates his point of view and as 12th lord indicates the embarrassment he has to undergo in terms of relationship. Since, Mercury is placed in 5th house (the house of marital bondage by co-ordination and mutual felicity), the results of felicity shall get dictated by the indications of the Mercury's sub-lord and planetary conjunction taking place in 5th house involving Mercury. Lagna lord-Moon as sub-lord of Mercury is placed in

3rd house, hence the native shall always be in favour of a fruitful dialogue but may not get benefited by this placement, as the star lord of Moon (Rahu) destroys the marital felicity (refer analysis of Rahu at #1).

3. Now, analyse the planetary conjunctions which dasha lord – Mercury suffers in the 5th house. Incidentally, Mercury gets in close conjunction with Mars (within a degree) and Jupiter (within 3 deg). Let us study it further.

Mars is 5th and 7th sub-lord, thus rules marital life and felicity. Mars is very powerful planet, as no other planet falls in its star and is placed in its own sign.

Dasha lord Mercury (12th lord) is the star lord of Mars and is closely conjunct with it, thus bringing the element of Martian influence in the results dispensed by Mercury, as the conjunct planet take over the results. Since, Mars is non-friendly to Mercury, this conjunction in the sign of Mars may expectedly bring the element of hot exchanges (Mars), breaking away harmony (5th house) and ensuring loss of marital life (Mercury being 6th lord from 7th house). The sub-lord of Mars (Moon) would decide the end result given by Mars, which is placed in 3rd house, giving an opportunity to the native to deliberate on the issues. Since, Moon is in the star of Rahu, a situation of helplessness arises and the power to deliberate on family matters gets inhibited because of Rahu's placement in 2nd house denying the possible action of 3rd house by Moon.

Examine, if Jupiter as another conjunct planet with Mercury and Mars also has to say something. Jupiter is in the star of Mercury and sub of Mars. Jupiter as 6th lord in the star of 12th lord

Mercury and in the sub of Mars (already discussed) completes the ritual of separating the couple (6th and 12th house breaking the walls of attachment in 5th house).

Thus, it was evident that Mercury dasha was a very difficult dasha, which had to materialize separation without giving any chance to the native to put forth his side.

In view of this, I was of the opinion that Mercury dasha was very disastrous to cause breakage in relationship and no immediate respite was seen to get out of the situation.

Facts of the case

The native contacted me later to give me the following facts of the case, which are analysed astrologically.

1. The separation was in the form of severe heated arguments, which resulted in separation.

Dasha lord Mercury has Mars as the sub-sub lord. Mars is 7th sub-lord and gets closely conjunct with the 3rd lord Mercury and 9th lord Jupiter indicating mutual dialogues in hot tone. Conjunction of Merc-Mars-Jupiter in 5th house, as discussed above, destroys the mutual attachment and cause separation.

2. The fight between the couples and subsequent separation took place on 6th Oct, 2006 when the native was running the dasha of Merc-Merc-Merc-Merc-Sat.

The results of Mercury dasha, as analysed, are self-revealing. Saturn is placed in the 6th house and is in sub-sub of 12th lord- Mercury, sufficient to put the last nail to the separation.

3. The parents in law were the chief party to cause the relations to get spoiled. Father-in-law was the hero in this case causing the separation to take place.

The 3rd cusp indicates Father in law and the 10th cusp indicates Mother in law. 3rd cuspal sub-lord is Venus, which is placed in the star of Jupiter (6th lord) joined in the tangle of Mercury-Mars-Jupiter conjunction indicating discord. 10th cuspal sub-lord is Saturn, which is in the star and sub of Venus.

Since, Venus (FIL) gives the results of Saturn (MIL) because Venus is the star lord of Saturn, it may be concluded that father-in-law could have enacted the scene and may have been the chief executor of effecting separation on the instigation of his wife, just as the star lord effects the results of the planet.

4. Native has 2 children who have been given to him for their upbringing. His wife has not kept the children with her.

5th and 7th cusp indicate 1st and 2nd child whose sub-lord is Mars. Mercury (dasha lord) is closely conjunct with Mars in the 5th house (house of children), thus the dasha did not separate the children from him.

The phenomenon of retrogression of planets has always been a tricky and a sticky issue to all those who practice astrology sincerely. Predictions have gone haywire due to both consideration and non-consideration of retrograde planets. It still remains one of the most discussed yet hardly researched topic in the field of modern astrology. This article calls for research frameworks for methodically analyzing the predictive outcomes of astrological analysis by taking into consideration the discrepancy between prediction and actual outcome in the light of retrograde planets in a large pool of data set. The article will also discuss two horary case studies wherein retrograde planets played their necessary roles and created the usual confusion.

Considerable amount of literature has been spent in the field of Vedic astrology about the role of retrograde planets, their effects and their capacity to alter results in nativities. Various rules on the effects of retrograde planets have been discussed in ancient texts as well as in modern discourses. But the quality of prediction has not improved. In the last century, with the advent of the Krishnamurti Paddhati technique of astrological delineation much clarity has been brought to the fore. Our Guruji, late Sri K. S. Krishnamurti used retrogression of planets with much clarity and simplicity for predictions and timing of outcomes. It was only with Krishnamurti Paddhati that retrograde planets received their due status in prediction and the astrological fraternity understood how to use retrogression of planets for prediction. Sri KSK in his six readers formulated a number of rules for accurate predictions, the fundamental premise of which is based on retrogression. In order to offer prediction for specific queries in the horary chart, our Guruji gave a number of golden rules, which when summarized can be stated as follows¹:

1. For every query, find out the most important (main) house, its cuspal sublord and the star lord of this cuspal sublord.
2. Next, find out the houses related to this main house, their cuspal sub lords and the star lords of these cuspal sub lord.
3. *The most important house cusp (main) sub lord should not itself be retrograde at the time of judgment.*
4. *This sub lord should not occupy a star whose lord is retrograde at the time of judgment.*
5. *The main house cuspal sub lord should be related with other house pertaining to the question.*
6. *Finally, Rules 3, 4, and 5 should be SIMULTANEOUSLY satisfied to denote a positive answer. If any one of the Rules 3, 4 or 5 is not satisfied, it shows a negative result for the querist. Results will not fructify.*

It is therefore, clear that the inventor of this system of astrological prediction placed a lot of emphasis on retrogression of planets and its practical utility in prediction. Later authors such as Sri C. R. Bhatt, Sri J. Hasbe, Sri M. P. Shanmugam, Sri V. Ramamurthy have equally emphasized in their writing about retrograde planet's capacity to alter prediction. Today in the KP fraternity there appears to be opinion divided upon the role of retrograde planets in the light of the above rules. There is one school of thought that considers the above rules given by Guruji to be true with respect to both natal and horary horoscopy. The second school of thought makes a clear distinction that the above rules of retrogression apply only to horary

¹ Refer Readers I to VI authored by Sri K. S. Krishnamurti

and not to natal horoscopy. Whereas, the third school of thought take a detour and believes that the rules of retrogression as propounded by KSK applies to horary only if the main cuspal sublord is in the star of a retrograde planet. They do not take exceptions to the cuspal sublords being retrograde. However, no systematic research has yet been published to test these issues.

In the year 1996, late Dr. (Pandit) Kesav Ranjan Kar published an article on retrograde planets in KP & Astrology Yearbook. Subsequently another article appeared in the 1997 issue of the same magazine. Both these articles were a landmark paper in the theory of retrogression of planets for two reasons: firstly, the paper was based on his personal research, and secondly, he was able to provide certain pre-tested rules that were amenable to further hypotheses testing. Experimentation, testing and inference are the hallmark of a natural science and Dr. Kar paved the way for modern practitioners of astrology to take up a new research agenda. However, though Dr. Kar's papers have immense merit in their own respect, today we need research output in astrology that would stand the test of rigor and statistical validity. In this respect it is noteworthy that Sri. A. R. Raichur and Sri. Kanak Bosmia are doing very commendable, statistically rigorous and valid research in KP astrology. In the April issue of KP E-Zine Sri Bosmia has beautifully summarized the research contribution of Dr. Kar with respect to retrogression of planets.

In this article I suggest a research framework that may assist in operationalizing research in retrogression. The purpose of this framework is exploratory in nature and the exact model would be determined by the research questions and the hypotheses to be tested in deductive approaches.

While researching on retrogression of planets in KP, one would need to clearly articulate the research question to be addressed.

This is important both from an ontological as well as methodological point of view. Clear articulation of the research question would set the backdrop of the research and the researcher would be better equipped to handle data collection, data sorting, data cleaning and subsequent data analysis. To give a few examples, it may be worth the time and resource to look into research questions such as:

1. *Does retrogression of main house cuspal sublord deny results?*
2. *Does retrogression of auxiliary house cuspal sublord deny results?*
3. *Does retrogression of main house cuspal sublord's starlord deny results?*

Many such valid research questions can be formulated to test various rules and arrive at conclusions. Once the research questions have been identified, then a researcher would need to start collecting data related to his or her research questions. For example, with respect to the first question above, one may collect 200 horary and 200 natal charts related to a particular issue, say, child birth wherein the main cuspal sublord is retrograde. Once this data has been collected, a researcher would then require categorizing this data in appropriate matrices. I provide below an operational design to sort the data for easiness of analysis for natal as well as for horary datasets.

R e s u l t s	Yes	A	B
	No	C	D
		Yes	No
		Main cuspal sublord retrograde	

In the above 2X2 matrix we find four types of data situations that beckon analysis for testing rules of retrogression in KP astrology. The first type is A type wherein the main cuspal sublord is retrograde but results were achieved. (An unexpected outcome according to the dictums of classical KP astrology). In B type data situations, the main cuspal sublord was NOT retrograde and results were achieved. (A normal outcome according to classical astrology). In C type of situation the main cuspal sublord is retrograde and no results were achieved. (Another normal outcome according to classical KP rules). Finally, in D type of situations, the main cuspal sublord was not retrograde BUT no results were achieved. (A situation of anomaly requiring inductive research designs). Such situations may arise due to a multitude of factors such as effects of other rules, astrologers' mistakes, etc. Type D data situations are perhaps the most complex wherein the researcher needs to be careful about and control for extraneous effects such as astrologers' mistakes. One practical solution to such data situations would be to recast and reanalyze these datasets by two additional astrologers. This would help in bringing inter-rater reliability and the much needed data validity in the process of scientific inquiry. Once the various types of data situations are analyzed, one may then proceed in systematic data analysis with manual tabulation followed by software driven statistical analysis. The results obtained would be much more reliable in understanding the efficacy of various rules of retrogression found in classical KP texts.

The above matrix a simplistic form of data sorting with two parameters. However, in situations requiring more than two parameters, suitable modifications in the research design is possible with the guidance of an able research supervisor. The design of multi-parametric model should not be viewed as a challenge but rather a necessity borne out of practical consideration. Sri Rangarajan Krishnamurty's research on a couple of KP topics is based on such multi-parametric research designs.

I now provide two case examples to justify the importance of research in retrogression rules in KP astrology. The first example is that of a lady whose query was: **My monthly menses has stopped. Am I pregnant?** She gave the KP horary number 248 and I analyzed on the same day—15th April 2007—at 7:16 pm (IST) in my residence at Hyderabad. The chart is provided below.

Moon, the reflector of mind and the bearer of the radicality of a horary chart, signifies 5 and 11. So, the question of child birth is reflected in the chart. Moreover, Moon's strong signification of 12th shows the tension and worries at the back of the lady's mind.

Since the question is put by a lady, the main cusp that was considered was the 5th cusp. The 5th cuspal sublord is Mercury. It is not retrograde. Moreover, Mercury is an A grade significator of 5 and cuspal significator of 5 and 11. At the stellar level, Mercury is also a good significator of 5. Mercury is in Meena rashi—a fruitful sign, and Mercury's starlord Saturn is also in a fruitful sign—Cancer. This analysis tempts us to pronounce that the lady is pregnant. However, I pronounced that the lady is NOT PREGNANT for a simple reason. The reason is also related with retrogression and is part of our 3rd question discussed above. Even though main cusp sublord, Mercury, is direct, Mercury is in the star of Saturn which is retrograde at the time of judgment.

This case is a classic example for research questions 1 and 3 discussed above. But one needs to be careful in classifying this case. If we consider only Question 1 then this case falls in Type A, whereas if we view it as an anomaly with respect to question 1, then this case becomes classified as Type D. What we need is a very good number of such case examples where the results can be put to tests for classical KP rules. On 20th April 2007 this lady informed me that on this date she had her normal menses, which meant that she was indeed not pregnant!

The second case is about a MBA graduate, Ms. Mittal, who asked me the question **when will I get a job?** She gave me the KP horary number 57 and I analyzed the query on 22nd March 2007 at 1:53 pm (IST) in Hyderabad. The lady was working with a multinational but gave up her job due to health reasons and was seeking a job in a better position and pay package. The chart is provided below.

Moon, the significator of mind, signified 11 and 2 along with 10 at the stellar level. Thus, the query was clearly reflected. The main cusp considered for the analysis was the 6th cusp. This is because she was curious to know about the timing of the job. It was a case of timing service and therefore, I considered 6th cusp to be more appropriate than 10th. Here the 6th cuspal sublord was Sun signifying only 9 and 3. Sun's sublord Saturn, though signified one of the auxiliary houses—namely the 2nd house—it was retrograde.

NOW THIS WAS A CRITICAL SITUATION. If we consider the first case study to be true and reflecting a correct retrogression rule in KP then we should also say that this lady is not destined to get a job since the starlord of the main house cuspal sublord is retrograde. This is a typical example of dilemma that any astrologer would face. In the first case, the retro starlord of the main cuspal sublord did not deliver the result. So, by virtue of scientific logic, the same should hold true in this case also and we should declare negative result.

But previous research on retrogression rules by Dr. Kar points out a rule that if Sun is related with retrograde main cuspal sublord or its retro starlord or both then there is no effect of retrogression. Note, that in this second case, the main cuspal sublord's starlord--retro Saturn--was the planetary starlord of Sun. This direct one-to-one connection of Sun with retro Saturn rendered it powerless to deny results.

Upon working out the Dasa, Bhukti and Anthara and emphasizing on the Ascendant Starlord of the RP on my date and time of judgment, I declared to Ms. Mittal that she would be getting the job and gave her two time periods of one week each. The first time period was 22nd to 28th April 2007 and the other was 11th to 16th June 2007. On 8th April 2007 she informed me that she has got an appointment letter from American Express Bank for the post of Business Analyst and her joining date was 23rd April 2007. Retrograde planet delivered result.

To conclude therefore, I would like to emphasize on the development of proper research design in executing research on various dictums of astrology in general and KP astrology in particular. We need clearly focused research questions followed by testable hypotheses for deductive frameworks, rigorous analytic techniques with high inter-rater reliability and constant ex-post data testing with the research findings. Research in astrology should also conform to norms of scientific testing for greater validity of rules. Only then we can predict safely without the attendant danger of making mistakes and drawing the flak of our clients. Sri Kanak Bosmia has done a yeoman service to the KP field by publishing KP E-Zine and I would be more than glad to offer my guidance for any person who would like to do some serious and systematic research in astrology. They may contact me without hesitation.

Last month we discuss rules and one example, this month we discuss Third example of birth time rectification.

Mr. R.

Date of Birth :- 20th Jan 1969.

Time of Birth :- 05:50:00 Hour.

Place :- Pansemal, Barwani, M.P.

21 N 39, 74 E 42.

Casting Time :- 20th Apr '07.

Time :- 16:05:06 hour

Place :- Mira Road. 19 N 16 , 72 E 51 .

RP Lagna - Sn- Ve- Ke- St.

RP Mon - Ve- Mo- St- Ju.

Day Lord - Ven.

On 20th Apr '07 - Ven & Mon are conj.

Rah & Mar are conj.

Jup asp on - Me, Ve, Mo & St.

Sat asp on - Sn.

Ma asp on - Ve, Mo & Ke.

Ve & Mo asp on - Ju.

Rah = St & Ju.

Ket = Ve, Sn.

As per Rule Birth Mon = RP lagna.= Sn- Ve- Ke- St.

Birth Mon is under Mar star. Mar is not in RP, but Ket in RP asp by Mar.

So, we can take Mar instead of Ket.

Sub Lord of Mon is Rah. Rah is not in RP, but Rah is the agent of Sat who is in RP.

So, we can take Rah as Sub lord instead of Sat.

Sub- Sub Lord of Mon is Ven. Ven is in RP as Star lord.

Sub- Sub- Sub lord of Mon is Sat. We have already taken Sat for Rah.

Sun as Sign lord in RP is aspected by Sat. So we can take Sat instead of Sun as SSS lord.

That means the Birth Mon we are getting - Ma- Ra- Ve- St. Whose starting time is - 05:44:45 AM.

And the End time is - 05:51:08 AM.

During this period The Lagna Transit :-

05:44:45 AM - 262:23:05 - Ju - Ve - St - Me - Ma.

05:45:21 AM - 262:31:56 - Ju - Ve - St - Ke - Ve.
05:45:26 AM - 262:33:09 - Ju - Ve - St - Ke - Sn.

05:49:38 AM - 263:35:16 - Ju - Ve - St - Ra - Ke.
05:49:43 AM - 263:36:31 - Ju - Ve - St - Ra - Ve.
05:49:55 AM - 263:39:29 - Ju - Ve - St - Ra - Sn.
05:49:59 AM - 263:40:28 - Ju - Ve - St - Ra - Mo.
05:50:06 AM - 263:42:12 - Ju - Ve - St - Ra - Ma.
05:50:10 AM - 263:43:11 - Ju - Ve - St - Ju - Ju.
05:50:19 AM - 263:45:25 - Ju - Ve - St - Ju - St.

05:51:08 AM - 263:57:32 - Ju - Ve - St - Ju - Ra.

As per Rule Birth Lagna = RP Mon = Ven - Mon - Sat - Jup.

In Birth Lagna Rasi pati is Jup. And in RP Mon Jup as Sub- Sub Lord.

In Birth Lag Star Lord is Ven , here Ven is the Rasi lord in RP Mon.

In Birth Lag Sub lord is Sat, Here Sat is the Sub lord in RP Mon.

In Birth lag SSLord is Mon, here Mon is the Star lord of RP Mon.

So, we are getting the Lagna - Jup - Ven - Sat - Mon , whose Starting time is - 05:47:41 AM.

And the End time is - 05:48:21 AM.

Between these time period we are getting the nine planets as SSS Lord. But we have to choose one.

Now in RP, Ven is repeating three times. So, Ven is Very strong in RP.

So, we can choose Ven as SSS lord of Lagna.

That means we are getting

Lag :- Jup- Ven- Sat- Mon- Ven = Time - 05:48:14 and the degree- 263:14:32.

THE RULING PLANETS ARE :

DAY LORD JUP.

MOON .. Ven Sun Rah

ASCEN.. Mar (Ven Rah) not considered in 4 step

THE DETAILS OF PREDICTION NOW FOLLOW:

In this case of getting a Job, 10th Sub-lord is to be considered.

10th sub-lord is Venus. It is a ruling planet. So we can go ahead, assuming TOB is correct

From above Signification Table, Venus strongly signifies 6 and 11. So the native will get a job.

Timing. He is running Rahu Dasa, Ketu Bhukti upto July 2007

Now signification of Rahu

PLN: RAH: 5c

STL OF Rah Sat: 6p-11pE-12pE

SBL OF Rah Ket: + 10P-(Sat 6p-11pE-12pE)

STL OF SBL Sun: 5p

Rahu is strong significator of 6,11,10. So Rahu dasa gives the job

Ketu Bhukti:

The signification of Ketu is

PLN: KET: + 10P-(Sat 6p-11pE-12pE)-c11

STL OF Ket Sun: 5p

SBL OF Ket Ket: + 10P-(Sat 6p-11pE-12pE)-c11

STL OF SBL Sun: 5p

Ketu is strong significator of 10,11,3

So we could take Rahu Dasa Ketu Bhukti as mainly fruitful, though it signified 5 in step 4. (it could mean he may also change the job in this bhukty)

Now the antara: This must signify the remaining house 2. Only Mars and Mercury satisfy this

Mars is already over ONLY Mercury is possible :

Mer Ant. 15 05 2007 TO 08 07 2007: So the native should get a job during this period.

A near date can be fixed by taking the transits of the DBA lords. Here we consider the Sub-lord for Slow Moving Planets and Star Lords for fast moving planets.

IN this step we have to CONSIDER only the 1st 2 steps. These should be favourable

Now classify the planets on this basis we get all planets except SUN

Check the Sub-lord of Rahu, Ketu, and star lord of Merc. These should not be SUN.

Also (in this case) Mars should not be retro.

15th May satisfies the criterion. However Sun is in so favourable. I chose 16th May 2007 when SUN is in Venus star Rahu sub.

However to the querent I am communicating a date Latter Half of May 2007

Here the Transits generated by my sw, would be helpful

GOOD LUCK

1. THREE KP AYNAMSAS

1.1. There are three KP Ayanamsas, namely

i) Original or Old KP Ayanamsa,

ii) KP Straight Line Ayanamsa , and

iii) New KP Ayanamsa.

2. ORIGINAL OR OLD KP AYNAMSA (OKPA)

2.1. This is Ayanamsa given by Guruji KSK in K.P. Reader I . Based on 291 A.D as the year of coincidence of both Sayana and Nirayana zodiacs or the year of zero ayanamsa and the annual precession rate of Newcomb's 50.2388475 sec per year, the ayanamsa values for the year 1840 to 2001 were given in deg. and min. only. The formula was not given and for years beyond 2001 the Newcomb's rate is to be added per year to the ayanamsa for 2001. The K.P. Ayanamsa values are usually given in K.P. ephemeris, for instance for the year 1900 to 2040 in "Krishnamurti's Nirayana Ephemeris 1961-1970 by Mahabala".

2.2. Formula for the OKPA given by Mr. Neville Lang (developer of Astracadabra)

$$\text{OKPA} = B + [T * P + (T * T * A)] / 3600$$

where,

B = Base = 22 + 1320 / 3600 (22d:22m:00s for 1 Jan 1900, @00:00 UT)

T = Y-1900, Y= Calendar year for which ayanamsa is required

P = Annual precession rate of Newcomb's 50.2388475 sec per year

A = Annual precession rate adjustment of 0.000111 sec per year (included for proper "fit" of the values given originally in K.P. Reader I)

2.3. The Old KP Ayanamsa was presumed to be constant for the full calendar year. However, the Krishnamurti Ayanamsa values for the Year 1861 to 2103 in deg., min., sec. and a Table of Ayanamsa for Any Day of the Year given in "Astrological Tables for All by Shri Eshwara Manu" published with the blessing of Guruji KSK are supposed to support a manual calculation of the Old KP Ayanamsa value correct to seconds and for any date in the calendar year. Nowadays it may be a common practice in most astrological SWs to use the OKPA value for any date in the calendar year by applying "T" as decimal year in the form of Year in the above Mr. Neville Lang's formula.

2.4. Late American Astrologer Richard Houck said that the ayanamsha (in his word) values used in his book (The Astrology of Death, 1994) --- are generally within about a minute of the popular Krishnamurti ayanamsha. (Ayanamsha values for the year 1900 to 2000 in deg., min., sec. are given in pages 40-41 of his book eg. 22d:22m:45s for 1900, 23d:04m:17s for 1950, 23d:46m:01s for 2000.)

2.5. In Dr. Jagdish Maheshri's KP based book, "It's All in Timing, 1977", the Old KP Ayanamsa is calculated as per the above formula in 2.2 with the same Base "B" and "T" but different P = 50.2564

and $A = 0.000222$, which are similar to the Lahiri Ayanamsa calculation in 3.2. (Formula is given in page 31 of his book.)

2.6. It is worthy to know from Mr. Neville Lang that if a precession rate value is not equal to Newcomb's 50.2388475 sec (eg. 50.2564 in Dr. Jagdish Maheshri's formula), then the annual precession rate adjustment value "A" commonly used is 0.000222.

2.7. The Old KP Ayanamsa is used as the correct ayanamsa in Mr. Umang Taneja's KP book, "Nadi Astrology, Accurate Predictive Methodology, 2002" and ayanamsa values are given in pages 190-192.

2.8. The Old KP Ayanamsa used by late Shri Chandrakant R. Bhatt is given for the year 1901 to 2000 in his book, "Further Lights on Nakshatra Chintaman, 1980", page 249.

2.9. After the adoption of the New KP Ayanamsa in the K.P. & Astrology magazine 2003, the Original KP Ayanamsa has been known as the Old KP Ayanamsa.

3. LAHIRI AYANAMSA (LAHIRI)

3.1. While the controversy of the correct Ayanamsa was going on, the Lahiri Ayanamsa was adopted in the Universal Table of Houses (UTOH), though not so stated. (Thanks to Shri Raichur, co-author of the UTOH, for clarification.)

3.2. Lahiri Ayanamsa Formula

(as in the UTOH given by Shri K. Hariharan in "Notable Persons & KP", pages 75, 138, 153)

$$\text{LAHIRI} = B + [T * P + (T * T * A)] / 3600$$

where

B = Base = 80890.1535 sec = 22d:28m:10s @ 1 Apr 1900

T = $Y - 1900$, Y = Calendar year for which ayanamsa is required

P = 50.2564 (for 1900) (Annual precession rate as per modern astronomy)

A = 0.000222 sec per year (Annual precession rate adjustment)

Note: 285 A.D is taken as the year of zero ayanamsa.

3.3. Referring Shri Lahiri's statement, Shri Kuppu Ganapathi has explained about 3 sec. difference between True and Mean values of the Lahiri Ayanamsa, eg for 1 Jan 1990 Lahiri Ayanamsa: True value (after taking into account of the Nirayana Longitude of Rahu) is 22d:27m:59s and Mean value is 22d:27m:56s). Such a small difference may not affect any calculation even up to Sub Sub Sub level.

4. KP STRAIGHT LINE AYANAMSA (KPSTLA)

4.1. It is known from Shri Raichur that there was a lot of discussion on the old KP ayanamsa in K.P. & Astrology magazine, mostly by Shri M.G.G. Nair and others. But the editor simply barred the discussion, and Sri K.M. Subramaniam of "Sub Lord Speaks" just would not change his views on 2 figures as given by Guruji KSK, i.e. year 291 A.D. of zero ayanamsa and Newcomb's rate of 50.2388475 sec. So a straight line simple formula was assumed using those two figures, though Guruji KSK never said so.

4.2. KP Straight Line Ayanamsa Formula

(provided by Dr. Rangarajan Krishnamoorthy, developer of KPAstro 2.7)

$$\text{KPSTLA} = T * P / 3600$$

where

T = $Y - 291$ (Year of zero ayanamsa)

Y = Calendar year for which ayanamsa is required

P = 50.2388475 sec per year (Newcomb's annual precession rate)

4.3. The KP Straight Line Ayanamsa such calculated up to any date in the calendar year by using "T" in the above formula as fractional/decimal year taking days between given date and 15th April is called KP Straight Line (Adjusted) Ayanamsa.

4.4. In Shri Raichur's view, the Newcomb's rate is to use only for finding the ayanamsa beyond 2000 and not from the year 291 A.D. as some have incorrectly presumed. The assumption of a constant precession rate is not valid and a correction is made once in 100 years. This correction factor is given by Lahiri, by Surya Siddhanta, and by the New KPA formula in 2003. This straight line ayanamsa value does not match the figures given by Guruji KSK himself, in his KP Reader I (original edition) for 1840 to 2000, year by year.

4.5. The KP Straight Line Ayanamsa value is different from the Old KP Ayanamsa about 5-6 min.(as shown in 6) despite the application of the original year 291 and Newcomb's rate. The exclusion of the base "B" is the mathematical reason for this difference. Another exclusion of the precession rate adjustment factor is supposed to be affected after a long time since its effect is accelerating from 1.11 sec. for 100 years to 4.44 sec. for 200 years, 9.99 sec. for 300 years etc.

4.6. Surprisingly the KP Straight Line Ayanamsa value is so close to the Lahiri Ayanamsa (as shown in 6) that it looks like the Lahiri Ayanamsa in the articles, which used this straight line ayanamsa, in the old K.P. & Astrology magazines. Some KP astrologers could make correct predictions by using this straight line ayanamsa. In some astrological books of a new theory, this straight line ayanamsa is used but misnamed as the New KP Ayanamsa and misstated its closeness to the Old KP Ayanamsa perhaps due to the misunderstanding of the UTOH ayanamsa as the Old KP Ayanamsa but in reality the UTOH ayanamsa is the Lahiri Ayanamsa as mentioned in 3.1.

4.6. It is worthy to learn from Shri Raichur that the small difference in ayanamsa used by various KP astrologers need not bother a new comer unduly. The important elements in KP are the 'star lord and the sublod'. In almost all cases, a slight change in the ayanamsa does not change these important elements. A new comer should go to the essentials, rather than worry about the technicalities of ayanamsa. In fact, The Times of Astrology magazine publishes articles, which use the Lahiri Ayanamsa, with a difference of 6 min. approximately from the KP Ayanamsa, and the KP system of division. It has been found that in almost all cases, except borderline cases, the Star/Sub Lords are the same as the ones with the accurate KP ayanamsas. The Sub-Sub lord will change, as it is more sensitive.

4.7. However, a 5 min. difference in ayanamsa value will make a difference in dasa balance at birth from 13.5 days for Sun dasa to 45 days for Venus dasa through Moon position. Such difference will affect the timing of event at Sookshma level as has been found in Kanak Bosmia's research study mentioned in 7.2.

5. NEW KP AYANAMSA (NKPA)

5.1. New KP Ayanamsa Formula

(given by Prof. K. Balachandran in KP & Astrology magazine 2003, pages 88-89)

$$NKPA = B + [T * P + (T * T * A)] / 3600$$

where

$$B = 22+1350/3600 = 22-22-30 @ 15 Apr 1900$$

$$P = 50.2388475 \text{ (Newcomb's annual precession rate)}$$

$$A = 0.000111 \text{ sec per year (Annual precession rate adjustment)}$$

Note: 23 March, 291 A.D. is assumed as date of zero ayanamsa

5.2. It is known from Shri Kuppu Ganapathi that a similar formula was also given by Shri M.G. G. Nair who had questioned the Newcomb's rate and desired a correction for this.

5.2. As Shri Raichur explains, after a lot of discussions, letters etc., the correct KP Ayanamsa had been fixed by Prof. Balachandran, and was published in the KP & Astrology magazine 2003, pages 92-93, together with Guruji KSK's second son and magazine editor K. Subramaniam's declaration that the values of ayanamsa published supersedes all the previous Tables of ayanamsa published in K. P. Reader I and all ephemeris (Krishman & Co.), K.P.T.O.H. and H.T.O.H. etc.

5.3. There is not any significant difference between the Old and New KPAs. The New KPA gives a formula for calculating the ayanamsa correct to seconds and for any date in the calendar. The formulas for New and Old KPAs in 2.2 and 5.1 are basically the same, except the base "B" is taken up to seconds in the New KPA.

5.5. The difference between NKPA and LAHIRI

- i) The year of zero ayanamsa is 291 A.D. for NKPA and 285 A.D. for LAHIRI ;
- ii) The annual precession rate is Newcomb's 50.2388475 sec for NKPA and 50.2564 sec for LAHIRI as per modern astronomy;
- iii) The annual precession rate adjustment is 0.000111 for NKPA and 0.000222 for LAHIRI ;
- iv) The difference in value is about 5-6 min. (as shown in 6) depending on the year under consideration due to different annual precession rate and annual precession rate adjustment factor.

6. COMARATIVE AYANAMSA VALUES

(As of 1st January)

2100*	25-10	25-09-48	25-14-28	25-15-18	23-48-33

OKPA= Old KPA, NKPA= New KPA, KPSTLA= KP Straight Line (Adjusted)

* As per Mr.Neville Lang's formula

** RAMAN = $T \cdot P / 3600$

where

$T = Y - 937$ (Year of zero ayanamsa)

$Y =$ Calendar year; $P = 50 \frac{1}{3}$ sec (Annual precession rate)

(B.V. Raman: Hindu Predictive Astrology, 2003, page 279)

7. SOME OBSERVATIONS

7.1. Shri Raichur says that ultimately, it is not a question which ayanamsa is correct, but 'using KP which ayanamsa gives us the more accurate predictions?'

7.2. It has been found in the KP researcher Kanak Bosmia's study on around 120 life events of 15 AA rated charts that the New KP Ayanamsa is working better than Lahiri Ayanamsa in the application of KP rules, especially at the Sookshma, fourth dasa level. This finding is consistent with the following saying.

7.3. There is a saying that the KP Ayanamsa is more accurate for Vimshottari dasa and the Lahiri Ayanamsa for division charts. However, in a comparative review of 8 ayanamsas (Mod Yukt.,Yukteshwar, Raman, Krishnamurti, Lahiri, Rosicrucian, Fag-Bradley, Deluce), the Krishnamurti Ayanamsa, the closest one to Lahiri Ayanamsa (except Rosicrucian which is almost the same as Lahiri), is

the only one ayanamsa which gives all the same Jaimini's Karakas, Navamsha, Saptamsha, Dwadashamsha and finer divisions of Chaturvimshamsha (1/24), Shashtyamsha (1/60) like the Lahiri Ayanamsa. (K.N. Rao: Timing Events Through Vimshottari Dasha, 1996, Preface to the Second Edition)

7.4. In a study of comparing ayanamsa (Lahiri, Raman and Chandrahari) on the case of Rabindra Tagore, a Vedic astrologer concluded that the real ayanamsa should be between the Lahiri and Raman Ayanamsas. In fact, the KP Ayanamsa is between the Lahiri and Raman Ayanamsas(as shown in 6).

8. CONCLUSION

8.1. Needless to say, nowadays KP followers and KP SWs are using the New KP Ayanamsa adopted in 2003. It can be useful for other astrologers too like the Lahiri Ayanamsa.

8.2. The choice of Ayanamsa (out of around 30 available) is up to the preference of an astrologer finding best for him and there is no need to discuss the correctness of ayanamsa which may depend on the rules applied by different schools of thought.

Dr.Kar's THEORY OF SHORT PREDICTION (TSP)

What is the use of Theory of short prediction (TSP)

Theory of short prediction (TSP) is very effective when we need the answer into YES or NO. Many a time we are asked the question the answer of which can be YES or NO and there is no room for WHEN? At such times this TSP works very well. For example, "Will I get job in ABC Company?" "Will I get club membership today?" "Will I get number 1 to 5 in my exam?" etc. For queries like this one can predict fairly accurately by using TSP.

Difference between Gulbarga Theory and TSP

TSP is modification of Gulbarga Theory; but there is vast difference in both. As per Gulbarga theory, if the Asc sub lord is the same as Moon star lord, the result is positive. Later it was suggested that if sub lord of Asc is star lord of Fortuna the answer is Positive. But, in TSP main difference is there is no room for sub in TSP while the Gulbarga theory is based on sub. Also, TSP not only goes up to star lord but adds sub sub lord and Asc star and sub sub lord too. Dr. Kar does not suggest about Fortuna but we have to check it and do research on the connection of Fortuna in getting answer.

How to calculate planetary position in TSP

Planetary position considered here in this method would be based on Indian meridian (82 Deg.30Mnt) at 5.30 AM basis and not otherwise. For example one starts work at Agra or Ahmedabad, Baroda or Bangalore, Chennai or Chandigarh, at 4.25 p.m. or 5.25 p.m.; 7 a.m. or 8 a.m.; 10 a.m. or 10 p.m.; but he has to take time only morning 5.30 a.m. We need only Horary Asc., so no need for other cusp calculation. So, only planetary position for 5.30 a.m. is needed, even when we work at any place in India. Day means 24 Hrs. So if we start our work at 05.29.59 a.m., we consider planetary position of the previous day. In other words, this planetary position is called as DAY-RISE-PLANETARY-EFFECT (DRPE) (*note: Dr. Kar has developed one system named DRPE. I shall write on this theory in future*).

I want to repeat the same what Dr. Kar said about TSP: *"I sometimes wonder how it works on 5.30 a.m. planetary basis; though the judgment times are different in the day. DRPE is really a wonder in astrology. It has changed the pattern of astrological calculations."*

Now I want to clear two doubts pointed by one of KP System group members about planetary position. 1) What is the meaning of Day rise? Have we to calculate local time day rise? 2) Day rise means sunrise time? NO, both are wrong. We have to take Indian Meridian time. For example one starts work at Agra or Ahmedabad, Baroda or Bangalore, Chennai or Chandigarh, at 4.25 p.m. or 5.25 p.m.; 7 a.m. or 8 a.m., 10 a.m. or 10 p.m.; but he has to take only the morning time of 5.30 a.m. We need only Horary Asc; so no need for other cusp calculation. So only planetary position for 5.30 a.m. needed even when we do work at any place in India. If the astrologer is not from India, he has to calculate as per his meridian time; for example, the astrologer is in London. He has to take 00 Hrs. 00 Mnt as England meridian time zone. In other words, the astrologer may be working in any country, he has to take the same planetary positions at the country's Meridian time which is equal to 00:00 GMT. So be clear that the astrologer has to calculate his country's Meridian time zone and not the local or sunrise time.

Process of short prediction (TSP) and Following Way.

A: Using sub number 1 To 249

B: Using sub sub number 1 To 2193

C: Using Number from 1 To 9

D: Leter, Dr. Kar (in 2004) also introduced the number 1 to 27 based on Nakshtra.

We know all about A & B but C & D are new for us. So first we understand what is 1 To 9 and why. Number 1 To 9 are basis for 9 planets, 9 constellation ($9 \times 3 = 27$) 9subs, 9 sub sub, and 9 sub sub sub of whichever way we go, we will get a particular sub, If the number represents the sub, then the sub sub will be the same. If number represents sub sub, then the sub sub sub will be same. As per dr. Kar's thinking, querist doesn't know what is 1 to 9 or 1 to 2193 etc. So astrologer only decides which number he wants to consider. For example, if one gives number 8, now astrologer want to go with 1 to 9 or 1 to 249 or 1 to 2193, it depends on the astrologer. Astrologer is free to select Asc as per any of the above mentioned options. I never ask the querist to give a number from A to B or C to D; but I ask only for a number and after that I decided which Asc is to be considered for analysis. The reader may do as per his/her experience. If one says Number 9 (Sub) then its Lagna Point is Mesh $11^{\circ} 26' 40''$ To $13^{\circ} 20' 00''$ to complete the constellation of Ketu in Mesh and Combination is Mar-Ket-Mer, If one can add sub sub to it than its sub sub will be same Mer. But if you say No: 9 (sub sub), then the combination will be Mar-Ket-Ket-Mer. If you add sub sub sub, it will be same Mer. You can select number up to sub sub sub but then you have to calculate planetary position up to sub sub sub

Table for 1 to 9 for sub.

No: 6 MAR-KET-RAH-RAH
No: 7 MAR-KET-JUP-JUP
No: 8 MAR-KET-SAT-SAT
No: 9 MAR-KET-MER-MER

Number 1 To 27 is based on Nakstra. For example, one gives us number 7. 7 belongs to Punarvasu Nakshtra and its Nakshtrapati is JUP. Punarvasu comes in Mithun rasi; so Asc becomes MER-JUP-JUP-JUP , if someone says number 3, it means Nakshtra is Kritika and Nakshtrapati is SUN. Kritika comes in both Rasi Mesh and Vrishabh; but we take only the starting point. So we take Asc as MAR-SUN-SUN-SUN.

Later, Dr Kar wrote some more about number selection that one can select any number and then decided which number he wants to follow. For example, someone gives us number 5000 and we want to start our work with sub sub then we have to deduct 2193 from 5000, $5000 - 2193 = 2807$, more than 2193 so again deduct 2193 = so number found is 614. But in my experience this type of number selection does not work. The reader may try and follow according to his personal experience.

How to get answer?

We have to check three conditions as below. There is no special rule to give more importance to any of the rules; but we follow with majority answer. If we found two yes, our answer is Yes; if we found two NOs, our answer is NO. Note that there is no room for sign and sub in TSP. Calculate Planetary position for 5.30 a.m whether you are in Ahmedabad or Andaman, Cochin or Kashmir - because we have fixed Asc with us and we don't need any more calculations for other cusps. Planetary position for 5.30 a.m. is same all over in India. Main deciding factor in TSP is Asc sub sub lord.

- 1) Note down sub sub lord of Asc sub sub lord. (Horary sub sub lord A is in the sub sub of planet B, in this case B is deciding factor). Now tally Planet B with Moon star lord or sub sub lord. If tallies (in other words, if B is star lord or sub sub lord of the MOON) the answer is YES. If not, check with Asc star lord and sub sub lord, if tallies (in other words, if B is star lord or sub sub lord of Asc.) the answer is YES.
- 2) Note down F-1, star lord if Asc sub sub lord. (Planet A is in the star of B, Please read detailed article by the same author in Feb-Mar 2007 KP Ezine issue). Now tally planet B with the Moon star lord or sub sub lord. If tallies (in other words, if B is star lord or sub sub lord of the MOON) the answer is in YES. If not, check with Asc star lord and sub sub lord. If tallies (in other words, if B is star lord or sub sub lord of Asc.) the answer is in YES.
- 3) Lastly check with F-3, (Planet A—sub sub lord of Asc—is in the sub sub of planet B. Planet B is in the star of Planet C. In this case, Planet C is the deciding factor). Now tally Planet C with Moon star lord or sub sub lord. If tallies (in other words, if C is star lord or sub sub lord of MOON) the answer is YES. If not, tally with Asc star lord and sub sub lord. If tallies (in other words, if C is star lord or sub sub lord of Asc.) the answer is YES.

Role of Node in TSP.

If Node becomes a deciding Factor (If in Rule 1, "B"; in rule 2, "B" and, in Rule 3, "C" is Node), then we have to check the Planet whose agent is the Node in below condition:

A: Star lord of the Node; B: sign lord of the Node; C: Conjoined Planet; D: planet who aspects the node.

If any one of "A", "B", "C", "D" becomes the star lord or sub sub lord of the Moon or star lord or sub sub lord of Asc., the answer is YES.

Special Rules

- 1) If sub sub lord of Asc is Moon, the result is always positive.
- 2) If Moon is in the star of Sat and the Moon is aspected by Sat itself, the result becomes Negative i.e. NO. If Sat-Moon are conjoined but connected with the sun by way of conjunction, star or aspect, result comes in a delayed way.
- 3) If sub sub lord of Asc is equal to Moon star lord or Asc star lord, the result is always positive i.e. YES.

Note from Author: if we select number from 1 to 27 always Asc sub sub lord and star lord is the same, so there is no value of this rule and I request the readers not to use this rule blindly.

- 4) There is no room for retrograde planet in TSP.

In TSP there are no complicated rules, no too many rules; so if one has 5.30 a.m. planetary position with him and someone asks question, and then he can answer using 1 to 9 or 1 to 27 numbers Asc within a second.

Now I want to give you detailed examples for each rule. Rules 1 to 3 are common. So I shall discuss all the three at a time, using numbers 1 to 9, 1 to 249, 1 to 2193. I never use number 1 to 27. So I don't have any example for it.

With number 1 To 2193. With all three rules

Example -1:

QUERY: WILL I GET NUMBER WITHIN 1 TO 5 IN EXAM?

NAME: FEMALE PLACE: L G HOS.-AHD GUJARAT 23 N 00 , 72 E 36

DATE : WEDNESDAY E: 10 - 1 - 2007 : TIME: 5 H. 30 M. 0 S.

MERC	9 27 10 2	Jup Sun Sun Mer	KETU	5 25 19 32	Sun Ven Mer Rah
JUP.	8 16 8 27	Mar Sat Jup Sun			

- 1) Note down sub sub lord of Asc sub sub lord. (Horary sub sub lord A is in the sub sub of planet B, in this case B is the deciding factor). Now tally Planet B with Moon Star lord or Sub sub lord. If tallies (in other words, if B is star lord or sub sub lord of the MOON) the answer is YES. If not, check with Asc star lord and sub sub lord, if tallies (in other words, if B is the star lord or sub sub lord of Asc.) the answer is YES.

Sub sub lord of Asc is Mar. Mar is in the sub sub of VEN. VEN is not the star lord or sub sub lord of the Moon or Asc—means answer is negative = NO.

- 2) Note down F-1, Star lord if Asc sub sub lord. (Planet A is in the star of B, Please read detailed article by the same author in Feb-Mar 2007 KP Ezine issue). Now tally planet B with Moon Star lord or Sub sub lord. If tallies (in other words, if B is the star lord or sub sub lord of the MOON), the answer is YES. If not, check with Asc star lord and sub sub lord, if Tallies (in other words, if B is star lord or sub sub lord of Asc.) the answer is YES.

Sub sub lord of Asc is Mar. Mar is in the star of Ket, Ket is not the star lord or sub sub lord of the Moon or Asc; but here we found a Node. So we have to check the planet whose agent is the node. Ketu is in sign of SUN and star of VEN, Conjoined with SAT (SAT is retro but in TSP there is no room for retrograde Planet). The SUN is star lord of the MOON. Hence the answer is positive = YES.

- 3) Lastly check with F-3, (Planet A—sub sub lord of Asc—is in the sub sub of planet B, Planet B is in the star of Planet C. In this case, Planet C is the deciding factor) Now tally Planet C with Moon Star lord or Sub sub lord. If tallies (in other words, if C is star lord or sub sub lord of the MOON) the answer is YES. If not, tally with Asc star lord and sub sub lord. If tallies (in other words, if C is star lord or sub sub lord of Asc.) the answer is YES.

Sub sub lord of Asc is Mar. Mar is in the sub sub of VEN, Ven is in the star of MOON. The MOON is not star lord or sub sub lord of Moon or Asc. Means negative answer = NO.

Result: out of three two conditions are negative. So I predicted NO and actually she did not get number within 1 to 5.

- 1) Note down sub sub lord of Asc sub sub lord. (Horary sub sub lord A is in the sub sub of planet B. in this case, B is the deciding factor). Now tally Planet B with Moon Star lord or Sub sub lord. If tallies (in other words, if B is star lord or sub sub lord of the MOON), the answer is YES. If not, check with Asc star lord and sub sub lord. If Tallies (in other words, if B is star lord or sub sub lord of Asc.) the answer is YES.

Asc sub sub lord is Sun. Sun is in his own sub sub. Sun is sub sub lord of Asc = OK.

- 2) Note down F-1, Star lord of Asc sub sub lord. (Planet A is in the star of B. Please read detailed article by the same author in Feb-Mar 2007 KP Ezine issue). Now tally planet B with Moon Star lord or Sub sub lord. If tallies (in other words, if B is the star lord or sub sub lord of the MOON), the answer is YES. If not, check with Asc star lord and sub sub lord. If tallies (in other words, if B is star lord or sub sub lord of Asc.) the answer is YES.

Asc sub sub lord is Sun in the star of Sat. Sat is not in both. = NO.

- 3) Lastly check with F-3, (Planet A—sub sub lord of Asc—is in the sub sub of planet B. Planet B is in the star of Planet C. In this case Planet C is the deciding factor) Now tally Planet C with Moon Star lord or Sub sub lord. If tallies (in other words, if C is the star lord or sub sub lord of the MOON), the answer is YES. If not, tally with Asc star lord and sub sub lord. If tallies (in other words, if C is the star lord or sub sub lord of Asc.), the answer is YES.

Asc sub sub lord is Sun. Sun is in his own sub sub. Sun in the star of Sat. Sat is not in both = NO.

So I predicted, "NO, you will not get elected as the Member of the Club in the elections scheduled for 31 Mar 2007."

If Tallies (in other words, if B is star lord or sub sub lord of Asc.) the answer is YES.

Asc Sub sub lord is Sat. Sat is in his own sub sub. -The answer is YES

Asc Sub sub lord Sat is in the star of Mer. Mer is star lord of Asc. The answer is YES.

- 3) Lastly check with F-3, (Planet A—sub sub lord of Asc—is in the sub sub of planet B. Planet B is in the star of Planet C. In this case Planet C is the deciding factor) Now tally Planet C with Moon Star lord or Sub sub lord. As per F-3: Asc Sub sub lord Sat is in his own sub sub; and Sat is in the star of Mer. Mer is star lord of Asc. The answer is YES.

So my opinion is Yes. Rail minister Lalu Prasad Yadav reduced Traveling Fare. And prediction came correct.

Now from next example I will not write three rules to save space. I will give only my analysis. So the readers may please check the rules from above examples.

Process of short prediction (TSP) and Following Way.

A: Using sub number 1 To 249

B: Using sub sub number 1 To 2193

C: Using Number from 1 To 9

D: Leter, Dr. Kar (in 2004) also introduced the number 1 to 27 based on Nakshtra.

We know all about A & B but C & D are new for us. So first we understand what is 1 To 9 and why. Number 1 To 9 are basis for 9 planets, 9 constellation ($9 \times 3 = 27$) 9subs, 9 sub sub, and 9 sub sub sub of whichever way we go, we will get a particular sub, If the number represents the sub, then the sub sub will be the same. If number represents sub sub, then the sub sub sub will be same. As per dr. Kar's thinking, querist doesn't know what is 1 to 9 or 1 to 2193 etc. So astrologer only decides which number he wants to consider. For example, if one gives number 8, now astrologer want to go with 1 to 9 or 1 to 249 or 1 to 2193, it depends on the astrologer. Astrologer is free to select Asc as per any of the above mentioned options. I never ask the querist to give a number from A to B or C to D; but I ask only for a number and after that I decided which Asc is to be considered for analysis. The reader may do as per his/her experience. If one says Number 9 (Sub) then its Lagna Point is Mesh $11^{\circ} 26' 40''$ To $13^{\circ} 20' 00''$ to complete the constellation of Ketu in Mesh and Combination is Mar-Ket-Mer, If one can add sub sub to it than its sub sub will be same Mer. But if you say No: 9 (sub sub), then the combination will be Mar-Ket-Ket-Mer. If you add sub sub sub, it will be same Mer. You can select number up to sub sub sub but then you have to calculate planetary position up to sub sub sub

No: 8 MAR-KET-SAT-SAT
No: 9 MAR-KET-MER-MER

Number 1 To 27 is based on Nakstra. For example, one gives us number 7. 7 belongs to Punarvasu Nakshtra and its Nakshtrapati is JUP. Punarvasu comes in Mithun rasi; so Asc becomes MER-JUP-JUP-JUP , if someone says number 3, it means Nakshtra is Kritika and Nakshtrapati is SUN. Kritika comes in both Rasi Mesh and Vrishabh; but we take only the starting point. So we take Asc as MAR-SUN-SUN-SUN.

Later, Dr Kar wrote some more about number selection that one can select any number and then decided which number he wants to follow. For example, someone gives us number 5000 and we want to start our work with sub sub then we have to deduct 2193 from 5000, $5000 - 2193 = 2807$, more than 2193 so again deduct 2193 = so number found is 614. But in my experience this type of number selection does not work. The reader may try and follow according to his personal experience.

How to get answer?

We have to check three conditions as below. There is no special rule to give more importance to any of the rules; but we follow with majority answer. If we found two yes, our answer is Yes; if we found two NOs, our answer is NO. Note that there is no room for sign and sub in TSP. Calculate Planetary position for 5.30 a.m whether you are in Ahmedabad or Andaman, Cochin or Kashmir - because we have fixed Asc with us and we don't need any more calculations for other cusps. Planetary position for 5.30 a.m. is same all over in India. Main deciding factor in TSP is Asc sub sub lord.

- 1) Note down sub sub lord of Asc sub sub lord. (Horary sub sub lord A is in the sub sub of planet B, in this case B is deciding factor). Now tally Planet B with Moon star lord or sub sub lord. If tallies (in other words, if B is star lord or sub sub lord of the MOON) the answer is YES. If not, check with Asc star lord and sub sub lord, if tallies (in other words, if B is star lord or sub sub lord of Asc.) the answer is YES.
- 2) Note down F-1, star lord if Asc sub sub lord. (Planet A is in the star of B, Please read detailed article by the same author in Feb-Mar 2007 KP Ezine issue). Now tally planet B with the Moon star lord or sub sub lord. If tallies (in other words, if B is star lord or sub sub lord of the MOON) the answer is in YES. If not, check with Asc star lord and sub sub lord. If tallies (in other words, if B is star lord or sub sub lord of Asc.) the answer is in YES.
- 3) Lastly check with F-3, (Planet A—sub sub lord of Asc—is in the sub sub of planet B. Planet B is in the star of Planet C. In this case, Planet C is the deciding factor). Now tally Planet C with Moon star lord or sub sub lord. If tallies (in other words, if C is star lord or sub sub lord of MOON) the answer is YES. If not, tally with Asc star lord and sub sub lord. If tallies (in other words, if C is star lord or sub sub lord of Asc.) the answer is YES.

Role of Node in TSP.

If Node becomes a deciding Factor (If in Rule 1, "B"; in rule 2, "B" and, in Rule 3, "C" is Node), then we have to check the Planet whose agent is the Node in below condition:

A: Star lord of the Node; B: sign lord of the Node; C: Conjoined Planet; D: planet who aspects the node.

If any one of "A", "B", "C", "D" becomes the star lord or sub sub lord of the Moon or star lord or sub sub lord of Asc., the answer is YES.

Special Rules

- 1) If sub sub lord of Asc is Moon, the result is always positive.
- 2) If Moon is in the star of Sat and the Moon is aspected by Sat itself, the result becomes Negative i.e. NO. If Sat-Moon are conjoined but connected with the sun by way of conjunction, star or aspect, result comes in a delayed way.
- 3) If sub sub lord of Asc is equal to Moon star lord or Asc star lord, the result is always positive i.e. YES.

Note from Author: if we select number from 1 to 27 always Asc sub sub lord and star lord is the same, so there is no value of this rule and I request the readers not to use this rule blindly.

- 4) There is no room for retrograde planet in TSP.

In TSP there are no complicated rules, no too many rules; so if one has 5.30 a.m. planetary position with him and someone asks question, and then he can answer using 1 to 9 or 1 to 27 numbers Asc within a second.

Now I want to give you detailed examples for each rule. Rules 1 to 3 are common. So I shall discuss all the three at a time, using numbers 1 to 9, 1 to 249, 1 to 2193. I never use number 1 to 27. So I don't have any example for it.

With number 1 To 2193. With all three rules

Example -1:

- 1) Note down sub sub lord of Asc sub sub lord. (Horary sub sub lord A is in the sub sub of planet B, in this case B is the deciding factor). Now tally Planet B with Moon Star lord or Sub sub lord. If tallies (in other words, if B is star lord or sub sub lord of the MOON) the answer is YES. If not, check with Asc star lord and sub sub lord, if tallies (in other words, if B is the star lord or sub sub lord of Asc.) the answer is YES.

Sub sub lord of Asc is Mar. Mar is in the sub sub of VEN. VEN is not the star lord or sub sub lord of the Moon or Asc—means answer is negative = NO.

- 2) Note down F-1, Star lord if Asc sub sub lord. (Planet A is in the star of B, Please read detailed article by the same author in Feb-Mar 2007 KP Ezine issue). Now tally planet B with Moon Star lord or Sub sub lord. If tallies (in other words, if B is the star lord or sub sub lord of the MOON), the answer is YES. If not, check with Asc star lord and sub sub lord, if Tallies (in other words, if B is star lord or sub sub lord of Asc.) the answer is YES.

Sub sub lord of Asc is Mar. Mar is in the star of Ket, Ket is not the star lord or sub sub lord of the Moon or Asc; but here we found a Node. So we have to check the planet whose agent is the node. Ketu is in sign of SUN and star of VEN, Conjoined with SAT (SAT is retro but in TSP there is no room for retrograde Planet). The SUN is star lord of the MOON. Hence the answer is positive = YES.

- 3) Lastly check with F-3, (Planet A—sub sub lord of Asc—is in the sub sub of planet B, Planet B is in the star of Planet C. In this case, Planet C is the deciding factor) Now tally Planet C with Moon Star lord or Sub sub lord. If tallies (in other words, if C is star lord or sub sub lord of the MOON) the answer is YES. If not, tally with Asc star lord and sub sub lord. If tallies (in other words, if C is star lord or sub sub lord of Asc.) the answer is YES.

Sub sub lord of Asc is Mar. Mar is in the sub sub of VEN, Ven is in the star of MOON. The MOON is not star lord or sub sub lord of Moon or Asc. Means negative answer = NO.

Result: out of three two conditions are negative. So I predicted NO and actually she did not get number within 1 to 5.

If tallies (in other words, if B is star lord or sub sub lord of the MOON), the answer is YES. If not, check with Asc star lord and sub sub lord. If Tallies (in other words, if B is star lord or sub sub lord of Asc.) the answer is YES.

Asc sub sub lord is Sun. Sun is in his own sub sub. Sun is sub sub lord of Asc = OK.

- 2) Note down F-1, Star lord of Asc sub sub lord. (Planet A is in the star of B. Please read detailed article by the same author in Feb-Mar 2007 KP Ezine issue). Now tally planet B with Moon Star lord or Sub sub lord. If tallies (in other words, if B is the star lord or sub sub lord of the MOON), the answer is YES. If not, check with Asc star lord and sub sub lord. If tallies (in other words, if B is star lord or sub sub lord of Asc.) the answer is YES.

Asc sub sub lord is Sun in the star of Sat. Sat is not in both. = NO.

- 3) Lastly check with F-3, (Planet A—sub sub lord of Asc—is in the sub sub of planet B. Planet B is in the star of Planet C. In this case Planet C is the deciding factor) Now tally Planet C with Moon Star lord or Sub sub lord. If tallies (in other words, if C is the star lord or sub sub lord of the MOON), the answer is YES. If not, tally with Asc star lord and sub sub lord. If tallies (in other words, if C is the star lord or sub sub lord of Asc.), the answer is YES.

Asc sub sub lord is Sun. Sun is in his own sub sub. Sun in the star of Sat. Sat is not in both = NO.

So I predicted, "NO, you will not get elected as the Member of the Club in the elections scheduled for 31 Mar 2007."

Below is the confirmation of the result by the questioner:

What is the Rule?

If Node becomes a deciding Factor (in Rule 1, "B"; in rule 2, "B" and in Rule 3 "C" is Node), at this time we have to check the planet for whom the agent is Node in below condition:

A: Star lord of Node, B: Sign lord of Node, C: Conjoined Planet, D: planet who aspects the node. If any one of "A", "B", "C", "D" becomes the star lord or sub sub lord of the Moon or star lord or sub sub lord of Asc., the answer is YES

- 1) Asc sub sub lord is Rah. Rahu is in the sub sub of Ket. Ket aspected (as per Hindu aspect) by Mar (7th aspect) & Mer (7th Aspect). Mar is not in both and Mer is sublord of Asc, but there is no room for sub in MST. = NO.

DATE :SUNDAY E: 11 - 3 - 2007 : TIME: 5 H. 30 M. 0 S.

HOR. NO : 2192 : ASC 12 29 24 7 Jup Mer Sat Rah

SUN. 11 26 9 53 Sat Jup Ket Rah
MOON 8 12 54 39 Mar Sat Rah Rah
MARS 10 15 57 34 Sat Moo Sat Sat
MERC 11 1 56 38 Sat Mar Ket Ven
JUP. 8 24 52 16 Mar Mer Rah Sat

VEN. 12 27 44 46 Jup Mer Jup Rah
SAT.-R 4 25 37 51 Moo Mer Rah Ven
RAHU 11 22 8 46 Sat Jup Sat Mer
KETU 5 22 8 46 Sun Ven Sat Sat

- 1) Asc sub sub lord is Rah. Rah is in sub sub of Mer. Mer is the star lord of Asc. - OK.
- 2) Asc sub sub lord is Rah. Rah is in star of Jup. Jup is sign lord of Asc. Sign lord and sub lord are not important so - NO.
- 3) Asc sub sub lord is Rah. Rah is in sub sub of Mer. Mer is in the star of Mar. Mar is sign lord of Moon -sign lord and sub lord are not important so - NO.

So I predicted: West Indies will not win this match. But due to Moon in Sat star (even not aspected by Sat) prediction come negative.

Example 2:

SUPER EIGHT WORLD CUP: S. AFRICA vs SRI LANKA 28-3-2007

QUERY: WILL SOUTH AFRICA WIN THE MATCH?

NAME: KANAK BOSMIA PLACE : L G HOS.-AHD GUJARAT

DATE :WEDNESDAY E: 28 - 3 - 2007 : TIME: 5 H. 30 M. 0 S.

HOR.NO : 6 : ASC 1 5 33 20 Mar Ket Rah Rah

VEN. 1 18 15 41 Mar Ven Rah Rah
SAT.-R 4 24 44 20 Moo Mer Rah Sat
RAHU 11 21 14 42 Sat Jup Jup Sun
KETU 5 21 14 42 Sun Ven Jup Ven

- 1) Asc sub sub lord is Rah. Rahu is in the sub sub of Sun. not in both = NO.
- 2) Asc sub sub lord is Rah in the star of Jup. Not in both = NO.
- 3) Asc sub sub lord is Rah, Rahu is in the sub sub of Sun, Sun is in the star of Sat. Sat is Star and sub sub of Moon. = OK.

So I predicted: South Africa not win this match. But due to Moon is in Sat star and aspected by Sat prediction come negative.

Special Rule Third:

Rule: There is no room for retrograde planet in TSP.

In the above examples I have mentioned about retrograde planet where I found in my analysis. The reader may scrutinize all examples for this rule.

I conclude this article here and strongly request the readers to follow this theory and give their feedback.

When shall train arrive? A KP appraisal

My family was to reach Bangalore by train on 18-05-2007 and I had to go to the station to pick them up. On the same day morning, I had the strong urge to find what time the train would reach Bangalore. The scheduled arrival of the train was 12 50 Hrs IST.

Horary number 97 flashed in my mind to get the answer. The prashna chart for the horary number 97 is produced here.

This prashna was casted after I reached the office and wanted to observe quickly, as I had to proceed for pickup after finishing a lot of office work.

The chart is being analysed as follows:

The Query

My mind was focused to know the status of train arrival. Look to the position of Moon, which appears in 3-7-11th cusp indicating travel and meeting family on arrival. Thus, the mental focus on the query was represented in the prashna chart. Hence, it was OK to proceed for analyzing the query.

The co-ordinates for judgment

In reader 6, I remembered having read "Urge comes to one when Moon touches the most sensitive point of the zodiac which indicates about the particular matter in question".

Taking clue from this statement, it may be observed that when Lagna transits the sensitive point indicated by the Moon, the arrival of the train may fructify. Lagna is taken as the event had to fructify shortly.

This analysis is based on this principle.

Analysis of the chart

- Look for the promise of fructification of event, which would be possible, if the 11th cusp links to the required cusps. Here, 11th sub-lord Moon is also the sub-lord of 3rd and 7th cusps. Since, the Moon is placed in its own sub, the results repeat and the meeting with the family was indicated.
- Whether the train arrival shall be in time or late etc shall be examined by the 11th cuspal sub-lord. Here, Moon is the sub-lord of the 11th cusp and falls in its own star and hold the sub-lordship of 3rd cusp. Thus, it was concluded that the train should be near to its scheduled time or even beforetime.
- At the time of prashna, Moon was transiting in Venus (Sign lord), Moon (Star lord), Venus (sub-lord) and Jupiter (Sub-sub lord). While, there is no planet in the star of Jupiter, Ketu falls in the star of

Venus and Mercury falls in the star of Moon. Thus, the position of Moon is jointly governed by Venus-Moon-Jupiter-Ketu-Mercury. Here, Ketu disposes Sun (Sign lord) and Venus (Star lord) in which it transits.

- From the 11th cusp, the indication of train reaching near to its scheduled time is indicated. Since, the scheduled time for the arrival of train was 1250Hrs IST, I checked up the Lagna to transit around that time as follows.

Leo Lagna was to start at 1209 Hrs.

Lagna was to transit in Ketu's star from 1209 Hrs to 1259 Hrs.

Till now, it was OK as both Sun and Ketu represented Moon's position at prashna time.

Lagna was to transit in Sun-Ketu-Jupiter from 1242 to 1249 Hrs. This was taken OK, as Jupiter was the sub-sub lord of Moon at prashna time.

Within the span of Jupiter's sub, following sub-sub were scheduled to run.

Sun-Ketu-Jupiter-Mercury: 12-43-13 Hrs to 12-44-15 Hrs

Sun-Ketu-Jupiter-Ketu : 12-44-15 Hrs to 12-44-41 Hrs

Sun-Ketu-Jupiter-Venus : 12-44-41 Hrs to 12-45-53 Hrs

- It occurred to me that the train was to arrive during one of the above time slot; hence I left at this point.
- I reached station in time and observed the visibility of engine reaching the platform at 12 45 Hrs.

My intention to look at this case from Moon's position at the prashna time is an experiment for the first time. May be, this method requires some more fine-tuning for its general acceptability. Readers may try out it on larger platform.

OM GANESHAYA NAMAHA

Success is the ability to go from one, failure to another with no loss of enthusiasm.

- Winston Churchill *British politician (1874 - 1965)*

Introduction

In the science of astrology there are often situations when the direction of the outcome is more important than the inherent attribute of the outcome itself. Clients and querists may be more interested to know in which side the result is going to be tilted rather than the innate happenings in the outcome. For example, people might be interested to know whether the person will win or lose, whether a person will live or die, whether a person will get the job or not, or whether his country will win in the game or not. These are all situations where the expected results have a binomial outcome. In other words, an astrologer may have to answer questions where the querist is only interested to know whether the answer is favorable to him or not; that is, whether the answer is Yes or No. The querist is not interested to know 'when', 'how' or 'why' such outcome will happen simply because he has a clear indication of these factors in his mind and therefore, he has no innate urge to know these from the astrologer. For example, a minister contesting an election may simply be interested to know whether he is going to win or his opponent is going to win. His focal interest lies in knowing a Yes or No for himself.

It is primarily for the above situations that late Dr. (Pandit) Kesav Ranjan Kar from Bolani, Orrisa invented and provided the astrological community with his Theory of Short Predictions (TSP). The first article on TSP was published in the KP Yearbook 2002 and then in the years 2003 and 2004 a few more articles were published by Dr. Kar on the same method. The fundamental philosophical basis of TSP is rooted in the concept of binomial predictions without any focus in root cause analysis. Dr. Kar gave TSP to the astrological community to answer questions which have a definite Yes or No type of outcomes. His TSP was neither meant to check the honesty of the querist, nor give any reason for the outcome or the timing of the event. The epistemological basis of TSP rules out the possibility of addressing these issues also which perfectly justifies the applicability of this method. In other words, it would be fallacious on the part of querists or astrologers to try to find out the genuinity of the query, or the timing of the event or the reason behind the outcome. Dr. Kar's method of TSP is designed to answer yes or no type of questions.

In the last few months the editor of this esteemed magazine, Shri Kanak B. Bosmia, has made a very commendable and laudable effort in making predictions of World Cup Cricket 2007 cricket matches through the application of the TSP method. Shri Bosmia's effort is commendable and laudable because not only he used a technique which is new in approach but he also posted his prediction publicly along with his analysis on an internet forum for public appraisal and scrutiny. Shri Bosmia has shown the courage that many practioners of astrology may dare to show due to fear of losing face over wrong prediction. But our esteemed editor has taken a lot of pains and immense courage to provide predictions of all the 51 matches of the World Cup Cricket 2007.

Shri Bosmia's predictions are very important to us for three reasons. Firstly, he is the only one person in this whole world who has consistently offered unequivocal predictions on world cup cricket this year based on the TSP method. Secondly, he has given clear logic behind all his predictions openly

and publicly thereby giving the scope to the scientific minded people to take up future research in TSP. His 51 predictions form a very important repository of TSP based predictions. Lastly, and most importantly Shri Bosmia's all 51 predictions were based on the same set of rules of TSP but results varied. This proves that neither Dr. Kar's rules are wrong nor that Shri Bosmia made any wrong application. And this brings us to conclude that if TSP rules, as provided by Dr. Kar is correct and its uniform application in 51 cases have also been maintained then there is something that is yet to be discovered.

It is solely for this last reason that I have done this small, exploratory research on the 12 failed predictions that were attempted through TSP. The main purpose of this article is to support Shri Bosmia in his effort to strengthen the TSP method. The aim of this article is to complement the effort of Shri Bosmia in identifying the common pattern or thread present in the 12 failed predictions. This article is meant to identify certain issues that may be found common across the 12 failed predictions of world cup cricket matches.

This article therefore, may help future researchers in the area of TSP to look in to various undiscovered issues which Dr. Kar may have given to us had not his untimely demise in 2004 deprived us of a great mind in KP astrology. The findings of this research initiative of mine does not challenge any fundamental tenets of TSP as advocated by Dr. Kar and applied by Shri Bosmia, but it provides insights in certain issues for further structured research to be taken up in the area of TSP.

My Kudos to Shri Kanak ji for his untiring efforts in the field of KP astrology in general and TSP in particular. This research initiative would not have happened had Kanak ji not made all his 51 predictions boldly like a true scientist along with his personal encouragement and guidance that I received whenever I faced any difficulty with TSP.

Objective of this Study

By virtue of positivist scientific reasoning and logic, if a rule, A holds true in 100 situations then it must also hold true in the 101st situation assuming that there has been no deviation in its mode of application and the rule remains unaltered. If rule A, after holding true in 100 situations fail in the 101st situation, then on the assumptions made above, we need to reexamine rule A once again before we can take it as an infallible rule (Bryman, 2001). On similar logic it was observed that all the 51 world cup cricket match predictions provide to us by Shri Bosmia, the same rules of TSP were applied diligently in all the 51 cases. However, only 12 actual match results were different than that of the prediction made. Now if 39 matches yield correct result with the same set of TSP rules applied equally, then logically we can conclude that there is some missing link in the present state of rules.

The objective of this research is to attempt an exploratory study to find out the commonalities, if any, present in the set of 12 predictions of world cup that did not yield consistent result. In other words, the objective of this research is to see what common factors are found across these 12 predictions. This study therefore, does not offer any new rule in TSP but paves the way for future researchers to take up new research initiatives based on these findings.

Data Collection

The data for this study was collected from the email messages that were publicly available to me as a member of an internet forum on KP astrology. These email messages were the predictions made by Shri Kanak Bosmia for all the 51 cricket matches along with the rules that he consistently followed. All the 51 messages were copied and pasted in a word document that served as the initial repository of data. Later, 12 messages were identified where the actual match outcome was different from that of the predicted one. These were further validated through the official roster of ICC.

Data Analysis

Firstly, the data on the 12 matches were rechecked for the horary number and the ascendant cuspal positions that were originally used. Secondly, the planetary positions were rechecked for 5:30 AM (IST) at the Indian Meridian (82°E30') for the days on which the analysis was originally attempted. These two were considered important in order to ensure that there is no noisy data and that there is no data in our data set that do not strictly adhere to the Day Rise Planetary Effect (DRPE) principle of Dr. Kar.

Conceptually Ordered Pattern Matching Matrices (COPMM), as suggested by Miles and Huberman (1994), were used to tabulate the data for all the 12 matches. All the 12 matches were checked with 5 basic rules advocated by Dr. Kar. These are:

Rule A: YES, if the sub-sub lord (SS) of the Number sub-sub lord (SS) is equal to the Ascendant cuspal points i.e. sign or star or sub or sub-sub

Rule B: YES, if the SS lord of the number SS lord is same as the Moon star.

Rule C: YES, if the Number SS lord is equal to the Moon star.

Rule D: YES, if MST F1 (i.e. the star lord of the number SS lord) is same as the Moon star, and

Rule E: YES, if MST F3 (i.e. No. SS lord (A) in SS of planet B and planet B in star of planet C. This C is F3) is equal to the Moon star.

Apart from the five basic rules above, the COPMM also contained five other concepts from the data set to allow emergence of patterns. These are provided in the COPMM table at the end of this article.

Results

The pattern that emerged across the 12 predictions was very intriguing. I believe that the observations that came out of analyzing these 12 failed predictions need further testing on a wide number of charts having TSP based predictions. My findings below are only to initiate others into deeper research and constantly check whether better rules can be obtained

1. Whenever the number SS lord and the SS lord of the No. SS lord is a Node or a retrograde planet, the result was opposite to that of predicted result.
2. Exception to retrogression happened only in 1 out 12 cases where Sun was the number SS lord, thereby negating the retrogression effect.
3. Whenever the star lord of the number SS lord and/or the C of F3 is a node, the result was opposite.
4. Only DRPE at the Indian Meridian of 82E30 yielded consistent results. Three out of the 12 failed predictions could have been correct if the DRPE at the Indian meridian was used.
5. Horary number beyond the specified limit of 9, 249, or 2193 directly showed the final outcome (in the negative) and no further analysis was required.

Therefore, the analysis was able to explain all the variation in the 12 cases.

Implications of the Findings

The first and foremost implication of the findings is that we need more research with more number of failed predictions based on TSP. Even though 12 data sets were good enough to do this exploratory study, yet for a statistically valid research we need a large sample size. Secondly, the results beckon us to carefully handle Nodes and retrograde planets in TSP prediction. This is important because it is a fundamental assumption in KP horary that a retro planet will not deliver results till it becomes direct. With the same analogy we can say that since TSP is about very short term prediction, we need to be careful about the presence of retro planets at sensitive decision points like SS lord of the No. SS lord and the C of F3 during the time when we expect the results to be delivered or happening.

Thirdly, obtainment of horary numbers beyond the specified limits needs to be carefully handled. Though Dr. Kar has himself pointed out in his article of 2004 that any number can be taken for TSP beyond any limit, we need sufficient research on this before we can accept this practice for the

simple reason that horary number beyond specified limits goes against the philosophical basis of Prahnsa charts.

Scope for Further Research

Shri Kanak Bosmia ji has created a very good repository of datasets for TSP based on his 51 predictions of World Cup Cricket 2007. This research would not have been possible had Shri Bosmia not placed all his predictions on the internet. What we need today is more number of predictions based on TSP, which would be available for systematic research.

The findings from this study needs to be reexamined in the light of more number of TSP based predictions both successful and failed in order to ensure that the astrological community is better equipped to help mankind. Even though TSP is based on a few basic rules that was offered to us after some amount of research, we need to take TSP further and try to make it as rigorous as possible. We should not forget that the inventor of KP astrology, Shri K.S. Krishnamurti practiced and researched horary with 108 for decades and threw it out after he found that 249 gives better results. I will not conclude anything in this article because no research is ever conclusive. We need to keep on perfecting our knowledge through trials, errors and constant observation.

Divine guidance will never fail

Shri Ganeshaya Namaha

It is our common experience that our clients seek astrological advice mostly on their personal issues or issues concerned to their near relative. Sometimes, they ask questions for friends and sometimes will ask on noted personalities such as film stars, cricket stars and political bigwigs in order to satisfy their curiosity.

The divine guidance in terms of connecting querent mind in a horoscope is reflected clearly through the KP Horary number. It is also possible to know the querent mind by placement of moon in the horary chart (Prasna Kundali). In Krishnamurti Padhdathi we use the divine law 'Client brings the solution of his problem along, when he consults an astrologer'. Astrologer then search for this ready-made solution brought along by his client. Guruji Krishnamurti Ji has mentioned in his books that a client will decide to go to astrologer and seek guidance on his problems when his Dasa, bhukti and antara is promising to do so. Hence, the advice seeking or astrologer consultations are also predestined.

In one of the rare cases I handled a question asked by a doctor about her patient. The question is whether the patient can deliver before the medically indicated date and whether she needs to undergo operation. In a normal course we would have taken a number from the patient directly and casted a horoscope to reveal the divine direction.

However, here the doctor is interested to know and patient has not idea about it. Doctor did not want me to disclose the answer to the patient either.

Well, it is a challenge and I offered my prayers to Lord Ganesha and Guruji KSK Ji and attempted this question.

As the question is asked by a doctor about her patient I was interested to know the reason. The doctor told me that she has booked her flight tickets for 25th April 2007 to attend a urgent work in another city. She is anxious as medically the expected date of delivery for her patient falls on 26th April. She wanted to handle the patient personally and did not want to hand over to another gynecologist.

I casted the chart for given number KP 142 and took it for examination on 7th March at 8:41 a.m. at Hyderabad.

Houses for a delivery of a child are 5, 2 and 11. The main house is 5th.

Step I : Moon Connectivity:

Doctor wants to know if the patient can deliver earlier and she can catch the flight. Hence I tried to find out if her desire can be fulfilled. In such cases 11th house sublord should connect to the lagna or 11th or with the houses under consideration.

Moon is in 11th in sub of Jup in 1st. Hence mind of doctor is reflected in chart.

If we examine the question from patients point of view, rotate the chart (7th As Asc.) and see if moon is connected with 5, 2, 11. In this case moon is in the fifth house indicating the question is related with the child birth. Question is correctly reflected from patient and doctor viewpoints.

Step II : Whether the main house is promising?

For Doctor 11th sublord is Mars in const of Moon (never retro) and in 11th confirms her desire to be fulfilled to attend delivery before leaving Hyderabad on 25th.

From patient's viewpoint: Main House: 5th of the patient (Rotate the Chart) 5th sub is Mars in const. of Moon in 5th (Moon never retrogrades) hence affirmative. 11th sub Venus is connected to 11 and 2 confirms the above indication Fortuna is in 5th connected to the main house of query and Ascendant lord Venus sublord Ketu in const of Venus - 11th hence affirmative answer to doctor was given.

Step III: Timing the event (Date of delivery)

The running Dasa is as follows: Dasa/Bhukti/Antara: Mars/Jup/Ketu from 4th April till 24th April. As the answer is affirmative the event should take place in this period before 24th April in this Dasa, bhukti and antara of Mars, Jupiter, Ketu only.

Let us take the significators of these houses.

Step IV: House Significators:

Significators of 5th are Mars, Moon, Sun (Rahu rapt conjunction) Significators of 11th are Ketu, Ven (Jup aspects Venus by perfect 120 deg.) Sat, and Significators of 2nd are Ketu and Ven Ketu is more strong being in const. of Venus to give fruits of 2 and 11 Hence the significators for 2, 5 and 11 are agreeing with Dasa, bhukti and antara.

Step V: Transit

In order to find out the precise moment we need to apply transit.

a) Sun Transit - During that period Sun is in Mesha. Sun has three constellations Ashwini, Bharani and Kritika in this rasi. Ketu being the strong significator, I selected Ashwini constellation. Sun transiting through Ketu const. Moon sub and Venus sub sub occurs on 19th April 2007.

Let us see if other transits agree.

b) Moon Transits in Mesha, Venus, Ketu.

c) Dasa lord Mars transits in Kumbha, Rahu const (fast moving hence const important) Venus sub on that day.

d) Bhukti lord Jup transit in Vrishchika (mars owns) in Mercury const and Rahu Sub (Slow moving hence sub)

e) Antara Lord Ketu transits in Simha (sun) which is a significator in Venus Constellation which is a strong significator and Rahu sub which of course is strong.. (Ketu slow moving planet hence sub matters)

Transit agrees with 19th April 07.

Step VI: Ruling Planets:

Confirmatory RP is taken on 11.21PM on 7th March Asc. Venus, Asc starlord sun (Ketu), Moon starlord Mars, rasi Venus, day of Mercury. Hence all significators are present

Connection of Mars everywhere indicate that the delivery will not be normal. Surgery is indicated.

Result:

I was anxious to know as the date was approaching near to 19th April. The doctor told me on 14th that the patient is having delivery pains and she will be admitted for normal delivery on 14th night. However, I asked again on 14th and she told that the pain came down and patient is taking rest at her house and

not having indications of delivery. Again on 18th morning she phoned and confirmed that suddenly BP of the patient went up and she is admitted for delivery and after giving prolonged trials, the patient finally was **OPERATED** on early hours of 19th April.

As seen from this case, it clearly indicates how beautifully the chart speaks about the doctor and patient both. It also proves that if a question is asked with the real urge the divine guidance will never fail. KP system is competent to answer any type of the question, any time; anywhere provided the desire is genuine.

I would like to Congratulate Kanak Ji once again for bringing this new concept of e-Magazine to the world of astrology and providing a platform to KP astrologers spread over different parts of the globe to share their ideas.

I conclude this article with offering prayers to Guruji Sri K.S.Krishnamurti Ji to show us the right path.

Good luck

KP ACTIVITY

Report on KP Astrologers' Forum, India

For the first time India, a knowledge generation and sharing forum has been created in the field of astrology. The forum, based in Hyderabad, is a unique endeavor to integrate and institutionalize astrological knowledge, especially in the field of Krishnamurti Paddhati (KP), but is also open to traditional techniques in astrology.

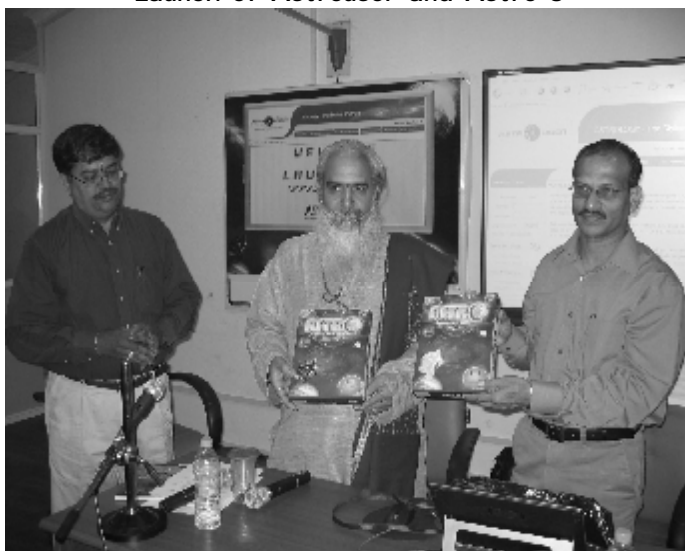

KPAF started with the initiative of two individuals, Sri Rajendra Nimje, IAS, and his friend Dr. V. V. K. Mohan. The Forum was inaugurated on 17th December 2006 at Taj Belson Hotel in Secunderabad and currently there are more than 50 regular members who attend, discuss and contribute astrological knowledge in the fortnightly meetings held on every second and fourth Sundays. The forum also has members from Europe and the US on its yahoo group (kpastrologers@yahoogroups.com) who also regularly send in their comments and views apart from members spread all over the country. Recently, the Governing Body has been formed for KPAF, which would be responsible for the administration of the Forum in a more structured manner.

The activities of the KPAF include discussion on various rules found in the classical texts of KP and new rules based on research. In every fortnightly meeting, pre-decided blind charts, live case studies, unique charts are actively discussed and the views and opinions of the members are documented. Senior astrologers from the twin cities of Hyderabad and Secunderabad are invited regularly for guest lectures to add more value to these meetings.

On, 22nd March 2007, the website of Astrouser (www.astrouser.com) and Astro 3 astrology software was launched by the former head of the department of astrology of Telegu University, Sri C. Subramanyam ji. The inaugural ceremony was attended by more than 100 guests along with regular members. Demonstration of the software was also provided by the developer, Sri Rajendra Nimje and was well taken by one and all. Demo CDs were also distributed to members.

The KPAF has shown the astrological fraternity the need for unified effort in knowledge generation, dissemination and documentation. With doctors, engineers, lawyers, chartered accountants, bankers, professors and businessmen as its regular members, the forum clearly shows how elated minds have united to bring back to astrology its lost glory. With the publication of the forums annual journal due at the end of this year, the astrological fraternity will immensely benefit from a rich basket of applied knowledge.

EDITOR'S NOTE

It is with a sense of satisfaction that we present herewith the special Edition of Kpezine on "Marriage and Child Birth", for the benefit of the large number of KP followers.

Mr. Kanak has successfully given the KP bhaktas magazine for FEB, MARCH, APRIL, MAY and JUNE. This JULY edition is a special edition devoted to articles on a subject which is of great importance to all practicing astrologers.

The most common questions, these days, especially from the younger generation are, When will I get a Job?, When will I marry? And when will I have a child. This special edition devotes to articles dealing with the latter 2 questions.

Some articles are specific, and some give the State of Art in these matters. All are readable, and worthy of study.

*I congratulate Kanak on bring out this special issue.
May God bless him and his family.*

Sri A.R.Raichur

(Editor of this special Issue)

Knaakji,

It is a good beginning. If more topics relating to specific issues like marriage, poruththams etc. are handled topic wise, it will be more informative. Also, putting some blind charts for analysis will make it more challenging. Of course there are deep subjects like new research on horary, mundane astrology and stock markets when covered will have more interested readers. Certain topics like significator of houses and fruitful signifiers for any action to take place, if well defined under similar headings will be informative to all. These are only some suggestions.

Looking forward to the next issue of e-zine soon.

V.Ramachandran.

My dear kanak,

I read ur article with great interest and such articles are necessary now a days. because couples will not bother about in-laws in the family, It is very important to analyze in-laws charts along with the

couples charts, I agree with u in this matter. But we will not get those charts easily. Any How it is a good article and I like such articles.

With regards and GOOD-LUCK.

VAIKARI RAMAMURTHY.

Dear Kanak,

Thanks for sending me the June issue of KP Ezine. The issue is very impressive and is getting developed in its right spirit and intent. I sincerely wish The Lord to grace you with more and more fruitful endeavors.

Vijay kumar

Dear Kanak Bhai,

Namaskar !

I have some suggestions for KP Ezine.

1. Page numbers are not written .Kindly write page number at the end of each page, in centre.
2. Left side margin is very less. Kindly increase that.
3. Kindly convert page in two columns to help readers read fast. for providing Horoscopes/charts , single column page can be used.

I hope you will appreciate my observations.

Regards

Rajeev K Khattar

Hi Kanak,

Am seeing the magazine. It looks great.

Congrats. You are ultimately doing what Gujaratis are good at. Entrepreneurship

Best wishes

Seshadri

Dear Sir,

For the first time I have gone through such a qualitative magazine on astrology. Great job to the mankind. May god bless you with strength and spirit to continue. I need little help in understanding two things in TSP theory. Kindly refer your article, How we can fix ascendant for a horary number greater than 249 e.g. you have used 2191 in one of the examples. Particularly when you have provided us a PDF document giving tables 1 to 249. Of course the document needs to be corrected at places. Secondly, in page 20 under the heading Will England win this match? the analysis does not match the ascendant given. Could you help me out, I will be grateful to you.

KP MARRIAGE AND CHILDBIRTH

1. GENERAL RULES

1.1. Referring KP Readers, Shri Bhatt's books, Astrosecrets and KP & Astrology Year Books and some other KP literature, the KP general rules are summarized in the attached table of the KP House Grouping for Marriage and Childbirth. Some information on related issues has been provided below.

2. MARRIAGE RULE

2.1. It is learned from Shri Kuppu Ganapathi that some KP Astrologers are of the view of that signification of houses 5 and 8 by the 7th Cusp Sub Lord can also give marriage since 5th is 11th to the 7th and 8th is 2nd to 7th. But GURUJI LATE SRI K.S.KJI., INVENTOR OF THIS KP SYSTEM, mostly ruled that unless the 7th Cusp Sub Lord signifies either 2, 7 or 11, we can straightaway decide that for such a person there will be no marriage at all in his life time.

2.2. Regarding the 2,7,11 KP marriage houses, 5, 7, 11 houses are taken in a new theory and 2, 7, 11, 5, 8 houses in a new method but only 2,7,11 houses by Shri Bhatt except 5th in some love marriage cases only.

2.3. In fixing the DBA, in addition to 2, 7, 11 houses, 3 (negotiation) and 5 (love affair) houses are used to be taken by some as supporting houses. Moreover, other houses might be involved depending on circumstances such as 3, 9 or 12 houses (a bride leaving her parents' residence to join the bridegroom's family in a far place) and 4, 8 houses (father's expenditure for her wedding).

2.4. The general rules are applicable to any chart without discrimination but they are not supposed to fit to each and every chart. Here is an exceptional chart of a male of three marriages which can not be justified by the general marriage rule. In the first attached chart (b. 11-07-1920, 06-15 LMT, GMT+08:47), the 7th cusp sublord is Jupiter in the star of Mercury and sub of Jupiter, which is in the star of Mercury. Jupiter is in 1 I/o 6 and Mercury is in 1 I/o 12. No planet is aspecting on the conj. Mercury and Jupiter. So marriage is not promised but three marriages in reality.

3. DELAY IN MARRIAGE

3.1. Attached is a typical example chart (The Times of Astrology, 1999 September) of a Male (b. 9-3-1958) whose marriage was delayed until the end of Saturn dasa, i.e., 27-5-1994 (SAT-JUP-JUP) due to the KP rule of delay in marriage having Saturn in 5th house aspecting 7, 11 & 2 houses and Saturn giving whatever it has to give but only at the very end.

3.2. In the second attached chart, the 7th Cusp Sublord is JUP, which is in the star and sub of RAH. JUP is in 2 I/o 5, 8. JUP is conj. with RAH (within 3d:20m). RAH's singlord VEN is in 6 I/o 3, 10. No planet is in the star of VEN, which is sublord of 2, 8, 12 and so VEN is a significator of those houses. So marriage is promised and possible during JUP Bhukti & Anthra.

3.3. Dasa lord SAT is in star of KET and sub of VEN. SAT is in 4 I/o 6, 7. No planet is in the star of SAT, which is sublord of 1, 5, 9, 11 and so SAT is a significator of those houses. JUP aspects on KET

(within 3d:20m) and JUP is in 2 I/o 5, 8. KET's singlord MAR is in 5 I/o 4, 9. So marriage is justified during SAT dasa.

4. KP RULES FOR SECOND MARRIAGE

4.1. KSK RULE ONE

(KP Reader VI, page 165 covering the rules in KP Reader IV, page 84, 181 & 182)

4.1.1. Second marriage is indicated if the following two conditions are simultaneously satisfied:

1) The sublord of the 7th cusp is deposited in a dual sign or in the constellation of a planet in or owning a dual sign or if the sublord of the 7th cusp is Mercury; and

2) The sublord of the 7th cusp is also a significator of either of the houses 2 or 11.

If any of the above two conditions is not satisfied, then second marriage is denied.

4.1.2. The KP dual signs are Gemini, Sagittarius and Pisces only, excluding Virgo. (KP Reader II, page 75) As a dual planet in this case of multimarriage only, Jupiter, lord of two dual houses, works well for the rule along with Mercury in Kanak's study on Multimarriage.

4.2. KSK RULE TWO

(KP Reader IV, page 146)

4.2.1. If the sublord of the second cusp is connected with 7th house, second marriage (is promised); (if connected with 11th house, one will keep a keep, as 7th house significator shows legal bondage whereas the 11th indicates attachment and friendship.)

4.2.2. The 2nd cusp sublord's connection with 7th is crucial for a legal marriage, otherwise it will be keeping a keep or companion or living together only.

4.2.3. Udaychandra Vaidya: As for first marriage 7th cusp is judged; 2nd cusp to be judged for 2nd marriage; if the sublord of 2nd cusp is connected with 7th house, 2nd marriage is promised. (KP & Astrology Year Book 2002, page 60)

4.2.4. The rationale of taking the 2nd house for the second wife is that the 2nd being 8th from 7th signifies death of first spouse or 7th house matters. Advocates are Kalidasa, KSK, O.S. Agarwal, Sanjay Ruth etc.

4.3. RULE THREE BY KANAK'S EXPERIENCE

4.3.1 Assuming the 9th house for the 2nd wife, the second marriage is indicated if the sublord of the 9th cusp is a significator of either of the houses 2 or 9 or 11.

4.3.2. The rationale of taking 9th as the second wife is that 9th being 3rd from 7th indicates the second wife as a younger sister of the first one; the 9th being 3rd from 7th is the house of plurality of sexual relations. Advocates are Kanak, K. Baskaran, S. P. Khullar.

4.4. RECOMMENDATION BASED ON KANAK'S STUDY OF 100 AA-RATED MULTIMARRIAGE CHARTS

4.4.1. Since no rule by itself gives a 100 percent co-relationship, CHECK BY ALL 3 RULES, and then GIVE the prediction on more than one marriage.

5. MARS DOSHA

5.1. Mars Dosha is supposed not to be valid in KP because of the following reasons:

a) KP Reader IV page 69: "To cause difference of opinion, disagreement, dispute, divorce etc. among the couple it is not left to Mars alone, any planet can cause such undesirable effect provided they happen to be deposited in such a position, that the sublord of the planet is the significator of 6 or 10 or 12 or the sublord is deposited in a constellation, the lord of which is the significator of 6 or 10 or 12".

b) N. Sarangan quoted the above statement in his article "Mars Dosha- A Myth" (KP & Astrology Year Book 2002, page 48) to conclude that the traditional ideas about Mars Dosha are meaningless without taking into consideration of the beneficial aspects received by Mars from other planets, its stellar position etc, and Mars Dosha does not suit our modern age.

c) KP Reader VI page 319: "Prof. Krishnamurti says that when a house is in fire, we throw water and send." does not agree with suggestion for a native with Mars Dosha to marry with another one with Mars Dosha like adding more fire to a house which is already in fire.

d) Shri Raichur has found in a study on the AA rated 100 foreign born charts of multi-marriages Kanak had used for the Multi-marriage study that no Mangal Dosha in 52 charts, mitigated dosha in 38 charts and unmitigated dosha in 10 charts, ie.10% only. Other findings are given below.

5.2. Since all marriages are love marriages, the Rule "5th cusp sublord connected with 7th" is found working in more than 90 percent cases. The connection is by the 5th sublord signifies 7th or the 7th sublord signifies 5th or both are the same. The birth times are AA-rated, i.e. highly reliable, and it is found only 2 cases out of 100 not satisfying the often toted rule "Moon-Star = ASC sublord".

5.3. In Dr. Rangarajan Krishnamoorthy's study of 300 AA-rated charts, the above rule of connection between ASC sublord and MOON starlord is satisfied for 247 (82%) charts with the original TOBs, also satisfied for 242 (81%) charts with the original TOBs 'added by 30 min' and still satisfied for 252 (84%) charts with the original TOBS 'deducted by 30 min', indicating this connection is not a reliable technique for rectifying birth time because of its highly skewness to acceptance. And the opposite is the CKV birth time rectification rule which is also highly skewed to rejection of the TOBs under consideration.

6. PUNARPHOO

6.1. It may not need to worry about Punarphoo adverse effects because:

a) The whole idea of Punarphoo is condensed by Guruji KSK in one paragraph, Reader IV, page 74: "Whenever Saturn has got any connection what-so-ever with Moon, there will be some obstacle or impediment, not only during negotiation but also at the time of fixation and even at the time of celebration of the marriage. This connection between Moon and Saturn causes delay, though ultimately both of them do much more good with a better partner."

b) Shri Vaikari Ramamurthy: Our beloved Guruji in his Readers mentioned about this 'Punarphoo' only in some marriage matters... (Punarphoo)

c) Delay in marriage due to Punarphoo, the cancellation of Punarphoo and other adverse effects of Punarphoo are not conclusive.

d) There are many spiritual leaders and successful celebrities with Punarphoo.

e) It is not so important that Shri Bhatt did not mention anything about Punarphoo.

6.2. Referring KP Reader IV page 74, 76-79 and Reader VI page 179, Dr. Kar's definition of Punarphoo (KP & Astrology Year Book 1996, page 70 and Punarphoo book page 1-2)

It is a matter of DELAY if Saturn is in the star of Moon and his own sub (Saturn); or Moon in the star of Saturn and in the sub of Moon; or if Moon-Saturn is found in one sign. Besides the above combination, Punarphoo comes into effect if they are found in the following ways:

- 1) Moon in the star of Saturn and Saturn in the star of Moon;
- 2) Moon in the sub-sub of Saturn and Saturn in the sub-sub of Moon; (sub of Saturn & Moon in "Punarphoo")
- 3) If the Moon is in the 3rd sign or in the 10th sign from Saturn, i.e. Saturn's 3rd or 10th aspect over Moon.

6.3. Dr. Kar's cancellation of Punarphoo theory to destroy the evil effects of Punarphoo by burning Saturn or Moon by Sun's ray (KP & Astrology Year Book 1996, page 70) is to work if:

- 1) Saturn or Moon or both if found in association with Sun in one sign, may be divided into two bhavas;
- 2) Saturn or Moon is in the star of Sun; Or Sun is in the star of either of them;
- 3) Sun is in the star, lord of which is near either of Moon or Saturn;
- 4) Any planet near the Moon or Saturn but is in the star of Sun;
- 5) Saturn or Moon is in the sub-sub of Sun.

6.4. Some findings of the Punarphoo effects are the postponement of date of marriage, broken engagement, marriage not materializing (Shri Raichur), mostly delay in marriage and other events like launching of space mission but promise not denied (Kanak), delayed (or obstacles to) marriage only in 18 (41%) charts out of 44 Punarphoo charts (Dr. Rangarajan Krishnamoorthy), affecting not only in marriage aspect, but each and every aspect of a man's life (Shri Vaikari Ramamurthy), and the cancellation theory not working in some Punarphoo cancelled cases in "Punarphoo" book and some other cases (Kanak and others.)

7. KPDP MATCHING METHOD BY SHRI KUPPU GANAPATHI

(KP & Astrology Year Book 1997, page 32-44; also in KP E-Zine March 2007; incorporated in Shri Raichur's SW and KPAstro 2.8)

7.1. In Kanak's experience of over 350 KPDP horoscope matching cases, the overall score needs to be more than 60% and specifically the score of aspect no. 10 should be more than 51% (border line) for a just recommendable matching. If the score of aspect no. 10 is less than 51%, the marriage is not recommendable despite how high the overall score may be. Moreover, even though it is found a high score of aspect no. 10, say over 70% and an overall score of more than 65%, they may not be the reliable indicators if one or both charts have a promise of multimarriage like Elizabeth Taylor and her husbands. The aspect no. 10 alone is not sufficient and it is necessary to do the overall judgment of both charts. The changing score of aspect no. 10 is helpful in assessing the condition of married life for any time of calculation.

8. CHILDBIRTH RULE

8.1. Houses 2, 5, 11 are common to all of the childbirth. In addition to those houses, 3rd house (12th to the 4th house) signification is very important for the child to come out of the womb (which is indicated by 4th) of the mother; the 6th represents sickness, in this case labor pain during delivery; the 3rd or 7th indicates change of place i.e., to the nursing home for delivery; the 8th represents again pain, hospital treatment, operation if it is a difficult delivery; the 12th indicates hospital or the nursing home and/or labor pain. (Shri Kuppu Ganapathi, Shri Shanmugam)

9. RELATION OF MOTHER AND CHILDREN

9.1. Shri Raichur has suggested to carry a research of the cusp/ chart relation between a mother and her children, so that if a definite, statistically significant relation is obtained, it can be used as a rule to check the birth time etc. The suggested rule is to take the **SUBLORD OF THE 5TH CUSP** of the mother, **AND** more importantly, the **Starlord** of this Sublord. The **ASCendent** of the 1st child should contain this Starlord, preferably as the **ASCendent** starlord. The exception to this will be if the mother's 5th sub-lord is in its own stars, then take the Sublord as the relevant planet. If Rahu/Ketu is involved take the planets that they represent, as per rules. The same may be applied for the 7th cusp for the 2nd child, and the 9th cusp for the 3rd child. He has found the rule is satisfied in 8 (80%) cases out of 10 cases and asked for more cases to come to a conclusion. (a minimum of 100 charts to make a rule)

9.2. In Ms. Hillary Clinton's chart (26-10-1947, 20:00 PM, GMT-6, Chicago, IL, 41N51, 87W39), the 5th cusp sublord is Jupiter in the star of Saturn. For another TOB 8:02 AM, the 5th cusp sublord is Rahu in the star of Sun. In her daughter Chelsea's chart (27-02-1980, 23:24 PM, GMT-6, Little Rock, AK, 34N44, 92W17), the Asc is Venus, Jupiter, Saturn (Sgl, Stl, Sbl). The above rule is satisfied for Hillary's TOB 20:00 PM. It is also said to be 20:02 PM by Yogi Karve.

10. HOUSE OF FATHER

10.1. Taking the 9th house for father is a common practice for the Eastern astrologers, both KP and Vedic, like KSK, B.V. Raman, Dr. P.S. Sastri, Bepin Behari, Sanjay Rath, V K Choudhry etc.)

10.2. However, it is worthy to note that:

1) The 10th house is mentioned for father in "bhava signification" part and the 9th for father in "effects on bhavas" portion. (Maharishi Parashara: BPHS)

2) In other words, the 9th house represents the person's experience of father, while the 10th house governs "matters pertaining to the father". This is how a person could have a lot of happiness from the father even while the person's father is suffering terribly. Or vice versa. (James Braha: The Art and Practice of Ancient Hindu Astrology)

3) A mother gives birth a child. For that child, any one can be father. When that is so, the 4th house allotted to mother is very clear. Therefore the 10th house which is 7th to 4th to be denoted to father, will be more appropriate. (Shri Shanmugam: Astrosecrets)

4) In a study of 39 charts, the KP death-inflicting (Badhaka, Maraka & Moksha) DBA are significant in 32 (82%) charts out of 39 charts taking the 9th house for father and 27 charts (69%) taking the 10th house for father

11. CHILD SEX

11.1. Some methods of child sex prediction are given below and explained by the third attached example chart of Princess Diana. For female (mother) the 5th house is to be judged for the first child, 7th for the second child and so on. Any abortion over 3 months is to be counted. For male (father) the 11th (5th from 7th/wife) house is for the first child, the 1st house for the second child and so on.

11.2. SHRI SHANMUGAM'S 5TH SUBLORD METHOD

(Astrosecrets Part I page 295-296, 304 & Part III, page 84; KP & Astrology Year Book 2000, page 10; Shri K. Hariharan: Hand Book on Astrology, Part II, page 88-89)

11.2.1. It is to decide by the male or female nature of the 5th cusp sublord, its starlord, the lord of the signs occupied by them and the planets conj. and aspecting them. It is finally decided by the sublord of the 5th cusp sublord. Sun, Mars, Jupiter and Saturn indicate the male child and Moon, Venus and Rahu the female child. Mercury and Ketu are to be studied by the sign occupied and conj. and aspecting planets.

11.2.2. In Diana's chart, the 5th cusp sublord is Saturn which is in the star of Sun and sub of Saturn. Saturn, Male planet, is in Capricorn, Female sign, and conj. with Jupiter, Male planet. Sun, Male planet, is in Gemini, Male sign. So the first child is a MALE CHILD.

11.3. SRI RAICHUR'S METHOD

11.3.1. It is determined by the nature of the lords of the signs occupied by the sublords of the cusps of houses 5, 11, 2 for the first child (7, 2, 11 for the second child and so on) and the sublords of those three sublords.

11.3.2. Diana's 5th & 11th sublord Saturn is in Capricorn and the sublord of Saturn is also Saturn. The signlord of Capricorn is Saturn, Male planet. The 2nd cusp sublord Mercury is in Gemini, whose lord is Mercury. But Mercury's sublord Jupiter is in Capricorn, whose signlord is Saturn, Male planet. And so it indicates a MALE CHILD.

11.4. SHRI BALAKRISHNA SINGH'S METHOD

(Provided by Shri Kuppu Ganapathi)

11.4.1. It is decided by the nature of the three sublords of the signlord, starlord and sublord of the 5th cusp sublord. If the planets are showing both the sexes, then see what is the sublord of the 5th cusp and if it is in the star of Mercury or a planet occupied in a dual sign then predict the twin birth, one having male sex and one female sex.

11.4.2. In Diana's chart,

5th cp Sgl= Mar, Stl= Ven, Sbl= Sat

Mar's Sgl= Sun, Stl= Ket, Sbl= Jup

Ven's Sgl= Ven, Stl= Sun, Sbl= Rah

Sat's Sgl= Sat, Stl= Sun, Sbl= Sat

Out of the three sublords, the two sublords Jupiter and Saturn indicate Male child and the third sublord Rah indicates Female child. Since the starlord of 5th sublord Ketu is in Aquarius, there is no chance of twin birth. The overall indication is a MALE CHILD

11.5. SHRI BALASEKAR'S HORA METHOD

(K P & Astrology Year Book 2000, page 39-41)

11.5.1. If the 5th cusp sublord or its star lord is posited in the Sun Hora, the child is Male, and in the Moon Hora, Female. (In odd signs, the first half, 15 deg., is called the Sun Hora, the second half the Moon Hora; in even signs the first half is Moon Hora and the second half is Sun Hora. If there is no planet in the star of the 5th cusp sublord, the 5th cusp sublord itself is to be judged. If there is any planet in the star of the 5th cusp sublord, the star lord of the 5th cusp sublord is to be judged.)

11.5.2. For Diana's first child, there is no planet in the star of the 5th cusp sublord Saturn. So it is to judge Saturn, which is in Capricorn, even sign, in the first half, 4d: 35m, in Moon Hora, i.e FEMALE CHILD.

11.6. CKV METHOD

(by Shri C. Kadirvelu; provided by Dr. Rangarajan Krishnamoorthy)

<http://www.kpastrosystem.com/docs/ckv-rule.pdf>

11.6.1. The procedure is:

1) Take 5th cusp sub lord (CSL). Note whether it is deposited in Male or Female sign. Denote this gender by 'G', that is, G is either Male or Female.

- 2) Count the number of times Rahu or Ketu or Saturn appears as the 5th signlord, star lord or subsublord. Let this count be K. (Note: Sublord is excluded.)
- 3) Count the number of times Rahu or Ketu or Saturn appears as the signlord or starlord of the 5th CSL. Let this count be L.
- 4) Count the number of times Rahu or Ketu or Saturn that appear in the sign where 5th CSL is deposited (i.e., conjoined with 5th CSL). Let this count be M.
- 5) Add K, L and M. Let the result be N.
- 6) If N is even number, then G is the guessed gender of the native. If N is an odd number, the opposite of G is guessed gender of the native.

11.6.2. In Diana's chart,

- 1) The 5th CSL Saturn is in Capricorn, Female sign. F = FEMALE
- 2) None is applicable. Hence K= 0
- 3) 5th Sgl is Saturn. Hence L= 1.
- 4) 5th CSL Saturn is not conjoined with Ra/Ke/Sa. Hence M= 0
- 5) $N = 0+1+0 = 1$
- 6) Since N is odd, the guessed gender is the opposite of G, which is FEMALE, i.e. MALE CHILD.

11.7. SAPTAMSHA (D-7) METHOD

(Provided by Ms. Sandy Crowther)

11.7.1. Viewing the Saptamsha for the male (husband's) chart, the first born is determined by the lord of the 5th house from the D-7 lagna, while for the female (wife's) chart, the first child is determined from a reverse count to the 5th from the D-7 lagna - (or the lord of the 9th house).

- 1) A son is predicted if the lord of the child (5th house) is posited in an odd sign or Cancer or Pisces; or the lord is exalted or conjunct exalted or male planets (Su/Ju/Ma/Ra).
- 2) A daughter is predicted if the lord of the child (9th lord - which is 5th lord in reverse) is placed in an even sign or Gemini or Aquarius; or the lord is debilitated, conjunct debilitated or female planets (Mo/Ve/Me/Ke/Sa - There are no eunuch considerations).

11.7.2. In Diana's D-7, 9th lord, a reverse count to the 5th from D-7 lagna, is Mercury, which is in Leo, Male sign. So the first child is a MALE CHILD.

11.8. DR. JONAS METHOD

11.8.1. Dr. Jonas's three discoveries:

- 1) The time of a woman's fertility is the moment of the recurrence of the angle between the Moon and the Sun that occurred at the woman's own birth. If Lunar Conception coincides with ovulation, the probability of conception is very high. (Timing)
- 2) The tropical position of the Moon at the moment of conception in odd signs gives boys while in even signs gives girls. (Gender)
- 3) Certain configurations at the time of conception can affect the viability of the embryo. (Risk)

11.8.2. The above information can be easily obtained in the table form below at the following link:

<http://www.lunarium.co.uk/jonas.php>

Lunar Conception Time for Diana for 1981

Date	Time	Gender	Risk
24.01.1981	04:01 am	G	1
22.02.1981	11:58 pm	B	0
24.03.1981	07:16 pm	G	6
23.04.1981	12:36 am	B	1
23.05.1981	03:10 am	G	3

21.06.1981	02:43 pm	B	1
20.07.1981	11:30 pm	G	2
19.08.1981	06:24 am	B	2
17.09.1981	12:42 am	G	2
16.10.1981	07:46 pm	B	3
15.11.1981	04:47 am	G	1
14.12.1981	04:24 pm	B	1

11.8.3. The period of maximal probability of conception begins 24 hours before the moment specified in the above table. The difference in timing is within only 5-10min with compared to any accurate calculation method. It would be reasonable to choose the Risk Factor ('Risk' column in the above table) as low as possible.

11.8.4. By applying the backward calculation of 'childbirth due date' for Diana's first son Williams (b. 21-06-1982), the first day of menstruation before his pregnancy is supposed to be 17-09-1981. The Lunar Conception date 16-10-1981, 7:46pm (B) from the above table is a reasonable one for his pregnancy. In this way the child sex can be predicted after pregnancy of a child by using Dr. Jonas Method, which gives the timing of conception to get a child and of desired sex.

EDITOR'S NOTE:

MR TINWIN has beautifully summarized the literature currently in use on the subject of this special issue. The Editor generally is in agreement with his views expressed, but not all the views. Readers should read the article, with a critical eye and accept what they think is correct according to their experience.

UNMARRIED (UNFAVOURABLE SUB)

Translation by : Shri A.R. RAICHUR 8/147, GARODIANAGAR
BOMBAY-400 077

(Original article by SHREE S.S.HI REMATH-Kolhapur)

(Below is an English Translation of a very interesting article, which appeared in the "NKASHTRA DENA" OF June 2007.)

The parents of the girl Born at Belgaum on 22-8-1984 at 1,30 a.m. approached an astrologer friend, to find out, if there was a possibility of marriage in the girl's life. She belongs to an educated and rich family, and is good looking, intelligent, a degree holder, and is very well behaved. In spite of all this she refuses to get married.

I cast the KP Chart, and told the parents that she will remain unmarried. The reasons are detailed below.

The rule is, that if the 7th cusp sub-lord is strong significator of any of the houses 2,7,11 and 5,8 (any one or more) then marriage is promised. The marriage will take place will take place in the Dasha, Bhukti, Antara of the significators of these houses.

In this case, the 7th Sub Lord is RAHU. Let us see his significance:

Rahu :---

Stl Sun : 3 asp of Jup 7,8,11

Sbl Ven. : 4

Stl of SBL: 4

The 7th sub-lord strongly signifies 3,7,8, 11 and 4.

However, in step 3 and 4 it strongly signifies 4. To be certain, I checked the 7th Sub-lord using the Ruling Planets. On 13, 4, 2007, at 19, 27 hrs. The Asc. Was Venus: Mars: Sat and Sat. Rahu is in Capricorn. Because Mar is the star lord, the Houses signified by Mars are:

Mars :-

Stl Sat : 5,9,10

Sbl Venus : 4

Stl of Sbl : 4

So the 7th sub Lord Mars becomes significator of 5, 9, 10, 4. On the 3 and 4 step sub and its star lord signifies the 4 house, which is unfavorable.

Now let us test the whether the Dasa Lord is favourable for marriage. The Dasa Lord is Jup. Upto 20-9-22

His significance is:

Jup : 7,8,11

Stl Ketu : 6, stl Rahu conjoined Mars 6

Sub sat :---

Stl of Sbl Rahu: 12, Stl of Rahu Ven 4 asp Mars 6

Thus the Dasa Lord Jup signifies 7,8,11,6, 4 12. In the 3rd and 4th steps

He signifies 4 and 6, houses inimical to 5, and 7. So no possibility of marriage in this dasa.

Next Dasa is Sat, and its significance is:

Sat :-

Stl Rahu : 12, Stl of Rahu Ven -4, aspect of mars-6

Sbl : venus :4

Stl of Ven Ven: 4

So sat becomes the significator of 12, 4, and 6. All these are negative to marriage. Sub also is unfavorable.

The Dasa Lord is supreme in giving results. He cannot be influenced by others.

If one had considered only the 1st 2 steps, Jup Dasa promises Marriage. This however would be wrong. So it is important to consider the 3rd and 4th steps.

By the time Sat Dasa ends, the girl will be 57 yrs.

This girl has appeared for the final of BE civil, and has plainly told her parents that she has no desire to marry.

This is my second article in this series. In this article I want to discuss MUHURAT for Fertility Muhurat chart. Before I start my analysis I reproduce again some important points from my last article on MUHURAT.

An auspicious time to start any event is a Muhurat. The chart for that special moment is MUHURAT CHART. Here it should be clearly understood that **WE HAVE TO TAKE MOMENT OF STARTING, WE DO NOT CARE WHEN THE EVENT GETS FINISHED.** We take only time when we start.

Very important point in any MUHURAT chart is, never select MESHA, KARKA, TULA AND MAKAR rasi as a Lagna. These four Rasis--MESHA, KARKA, TULA AND MAKAR are CHARA Rasis and for Chara Rasi the 11th cusp is Badhaka Sthana. When we do special work we always think for long life of that work, and for long life/longevity of event we have to look at Asc sub lord. For good longevity if we set time when Asc sub lord signifies 1,5,11 that means good longevity. And if we take Chara Lagna i.e. MESHA, KARKA, TULA AND MAKAR, 11th is not good but becomes a Badhaka. So we should avoid Chara Lagna for any Muhurat.

What is the fertility cycle?

The lunar cycle was rediscovered by Czech psychiatrist Dr Eugene Jonas in the 1950's. His interests in astrology led him to ancient writings which stated that "women are fertile during a certain phase of the moon"... Dr Jonas' clinical studies were based on the premise that the natal lunar fertile time was the only time a woman would conceive. Astra International, a private clinic in Vienna using Dr Jonas' single fertile time premise had a success rate of 80 - 85% contraception if abstinence is practiced only during lunar fertile times. **An individual has his particular natal lunar phase repeated when the moon is in the exact position relative to the sun as it was at his time of birth.**

Women can conceive not only directly after ovulation, i.e. at the moment in their hormonal cycle, when their ovule is ripe and ready for conception. They can also conceive at the moment when lunar phase in the sky (i.e. angle between the Moon and the Sun) reproduces the phase which was at the moment of their birth.

Fertility Awareness relies upon the following assumptions:

- ✚ An egg (ovum) can live inside a woman's body for 12-24 hours. However, in calculating the fertile time we use 48 hours in case more than one egg is released.
- ✚ Sperm can live in a woman's body up to 5 days after intercourse, though more often 2 days. Pregnancy is most likely if intercourse occurs anywhere from 3 days before ovulation until 2-3 days after ovulation.
- ✚ Since the exact time of ovulation cannot be predicted, we add 2 to 3 days to the beginning and end.

Each month when the moon returns to this same position (as it was at birth) it can trigger woman's body to spontaneously ovulate even if this time occurs outside your normal mid cycle fertile time.

Furthermore - the moon's trigger effect is increased by two factors - stress and sexual intercourse. That is, if you are having sex during your natal lunar phase, the chances of ovulation being triggered are increased.

In Reader: 5 Ninth edition: 2004 page No: 234 under heading: Life With wife: Root for fruit.

Sri KSK ji gives details about How to find out MUHURAT for such people who are not having children after long time of marriage.

On the basis of the ABOVE INFORMATION I tried to find out some rules to find out the best Muhurat Time for Child Birth. And tried on some couples; but as always, I do not get any feedback from them about the result. So I am not able to give any feedback on this work. The readers may use this as per his/her understanding and inform me as to what is the outcome with all details.

What are the rules to follow?

- 1) Find out fertility date (in other world find out birth TITHI of woman and note down the date of each month of birth TITHI. For example, if the woman is born on ashtami, then each month of ashtami is best fertility day for her.
- 2) Take Place where lady live at present. Not as per her birth place.
- 3) On that day select the time when the 5th SL signifies strongly 2, 5, 11 and does not signify 1, 4, 10 anyhow.
- 4) At that time Asc sub lord should not signify Marka and Badhaka.
- 5) Running Dasa, bhukti, Antara and sookshma Dasa clearly signify 2, 5, 11--this is a must.

Now I discuss one example:

Birth detail of the Lady:

Date of Birth: 27/07/1978

Time of Birth: 00.45AM

Place of Birth: Thiruvavur-TN

Lon/Lat: 10 N 46, 79 E 37

Birth tithi: Krishna Paksa Ashtami.

I found best fertility day using KP Astro2.5 (Open chart, select TOOLS-View Conception time) as under:

- 1) 14/Sep/2006, 01:36:00 PM [Sun: 147:30: 58, Moon: 055:54: 37]
- 2) 14/Oct/2006, 02:24:00 AM [Sun: 176:30: 55, Moon: 084:48: 09]
- 3) 12/Nov/2006, 08:00:00 PM [Sun: 206:11: 56, Moon: 114:41: 19]
- 4) 12/Dec/2006, 04:48:00 PM [Sun: 236:25: 15, Moon: 144:57: 59]
- 5) 11/Jan/2007, 03:11:59 PM [Sun: 266:54: 37, Moon: 175:32: 25]
- 6) 10/Feb/2007, 12:00:00 PM [Sun: 297:15: 45, Moon: 205:42: 52]
- 7) 12/Mar/2007, 05:36:00 AM [Sun: 327:09: 55, Moon: 235:20: 16]
- 8) 10/Apr/2007, 08:00:00 PM [Sun: 356:28: 30, Moon: 264:41: 05]
- 9) 10/May/2007, 07:11:59 AM [Sun: 025:10: 37, Moon: 293:44: 35]
- 10) 08/Jun/2007, 01:36:00 PM [Sun: 053:18: 29, Moon: 321:22: 01]

Now this time will continue up to 24 Hrs from given time so from given time. I check the best time when 5th sub lord signifies 2, 5, 11. I did this exercise for three months and I got MUHURAT time as bellow.

14th Sept.2006 10.02.20 PM.

This time is for starting intercourse, for best chance to conceive a child.

Detail analysis of MUHURAT chart 14/9/2007

Detail of Muhurat chart:

Date of Muhurat chart: 14/09/2006

Time of Muhurat chart: 10.02.20 PM (DST-1.00)

Place of Muhurat chart: Randolph- New Jersey- USA
Lon/Lat: 40 N 51, 74 W 35
Muhurat tithi: Krishna Paksa Ashtami.

Now I discuss 5 rules given above:

- 1) Find out fertility date (in other words, find out the birth TITHI of woman and note down the date of each month of birth TITHI. For example, if the woman is born on ashtami then each month of Krishna paksha asthami is best fertility day for her.

Above is the list of date of Krishna paksha asthami. And now I am discussing the first date.

- 2) Take Place where lady lives at present. Not as per her birth place.
The Lady born at Thiruvavur-TN but at present she is in Randolph- New Jersey- USA. So in Muhurat chart I took place Randolph- New Jersey- USA.
- 3) On that day select time when 5th SL signifies strongly 2, 5, 11 and does not signify 1, 4, 10 anyhow.

In this chart 5th sub lord is Mer in the star of KET and sub of VEN.

MER is in 5 I/o 2, 3, 6. KET is in 5, KET conj with MER and MAR, MAR is in 5 L/o 7. VEN is in 5 I/o 1.

In this Muhurat chart 5th sub lord signifies 2, 5, 11 strongly.

- 4) At that time Asc sub lord should not signify Marka and Badhaka.

Asc of this Muhurat chart is Vrishbha, and Bandhaka sthan is 9th.

Asc sublord is Mer in the star of KET and sub of VEN.

MER is in 5 I/o 2, 3, 6. KET is in 5, KET conj with MER and MAR, MAR is in 5 L/o 7. VEN is in 5 I/o 1.

Asc sub lord does not signify badhaka and 12th cusp anyhow so time is OK.

- 5) Running Dasa, bhukti, Antara and sookshma Dasa clearly signify 2, 5, 11. A must.

Running DBAS: MAR-MOO-MAR-MER.

Mar is in the star and sub of Moon. Mar is in 5 I/o 7, Moon is in 2 I/o 4. This Dasa lord indicate 2, 5 so it is OK.

Moon the bhuktilord is in the star of Mar and own sub.

Moon is in 2 I/o 4. Mar is in 5 I/o 7, This Bhukti lord indicate 2, 5 so it is OK.

Sookshma nath is Mer. Mer in the star of KET and sub of VEN.

MER is in 5 I/o 2, 3, 6. KET is in 5, KET conj with MER and MAR, MAR is in 5 L/o 7. VEN is in 5 I/o 1.

This Sookshma lord indicate 2, 5 so it is OK.

So given time 10.02.20 is mostly perfect as per 5 rules.

Like this we can find out best Muhurat chart and help those who have no child.

Denial of childbirth: A KP appraisal

In cases of delayed childbirth, generally the couples have the anxiety to know about the prospects of childbirth, as by then they are fairly frustrated. The childbirth is a complex issue and the delay or denial of birth of children could involve a host of possibilities such as the lack of fertility, deformity in sex organs etc in one or both the partners.

The prospects of childbirth may be tackled both from the natal charts and through prashna. Since, I do not have any chart where the natives were denied of the children, I preferred to take up the birth data of such cases from some authentic publications.

I have chosen to write on Denial of childbirth and I have selected the case of a childless couple from The Astrological Magazine, June 2007 issue, Page 517, Chart-6 (Husband) and chart 7 (Wife). The charts were corrected for minor variations of birth times. The couple reportedly did not have any childbirth since 18 years of marital life.

The KP styled chart for Husband and Wife is produced End of this Article.

The methodology of judgment:

KP recognizes the childbirth to be governed by the significators of 2-5-11th houses from Lagna. The 5th house is the main house of childbirth both for males and females and is necessary to be evaluated to know, if one is capable of producing a child or not. In case, if the childbirth for the spouse is also to be examined from the male chart (reverse also), the 11th house gives the clues for the children of spouse, as it is the 5th from 7th house (spouse). In case, if 5th and 11th cusps jointly deny children, the couple may be sterile and may enter the domain of denial of childbirth.

As per standard canons of KP, if a person is to be blessed with childbirth, the sub-lord of the 5th cusp should signify 2-5-11th houses in any way through star-lord of the 5th cuspal sub-lord and validated by its sub-lord.

In KP, a house is destroyed by the 4-8-12th houses from the house under consideration, similarly the cusps. The denial of children happens if 5th cusp signifies 4th, 8th and 12th house counted from itself which means that the 5th house should not signify the 8th house (4th house from 5th), 12th house (8th house from 5th) and 4th house (12th house from 5th) looking from lagna, if it has to promote the childbirth in principle.

In addition to the above, the 2nd house from 5th house acts as the maraca house for the 5th house and is thus detrimental to the sustenance of pregnancy in principle. Thus the 6th house acts as the house of death (maraca) for the 5th house (childbirth) and it is generally seen that all abortions and loss of childbirth necessarily involve the 6th house.

The negation of 11th house (pregnancy of the spouse) is required to be observed from 10th house, which covers the possibility of having children through spouse (such as children from earlier marriage or with some other person etc). KP observes a few modalities in these regards in the reader-6 on horary astrology.

In case, if the denial of childbirth for the spouse is to be examined from 11th house, the 4-8-12th houses from 11th and 2nd house from 11th as maraca shall have to be examined. Referring from the Lagna, if 11th cuspal sub-lord only signifies 2-6-10-12th houses it would point to the sterility of the spouse.

To sum up, KP dictates that if the 5th cuspal sub-lord signifies 4-8-10-12th houses only without having any connection with the fruitful houses of childbirth (2-5-11), the native will be childless. In case of mixed influences, the childbirth is delayed.

After having assessed the basic promise for denial of childbirth, it is generally seen that the native runs the dasha of planets, which also deny children.

The judgment methodology given above equally applies both on the natal charts and on horary charts.

Analysis of Husband's birth chart:

The husband's chart is being analyzed as follows:

- In this chart, Jupiter as star-lord and sub-lord rules the 5th cusp. Jupiter is placed in the star and sub of Saturn placed in 3rd house. Note that the Jupiter is the lord of 10th house placed in the star of 8th lord Mercury and Saturn is 8th and 9th lord, not signifying 2-5-11th houses at all.

Looking from cuspal angle, Saturn as the star and sub-lord of 5th cuspal sub-lord Jupiter links 4-7-8-9-10th cusps, thereby not linking 2-5-11th cusps, thus denying childbirth.

- Look to the 11th cusp whose sub-lord is again Jupiter and as per the assessment made above, it signifies 3-7-10-8-9 houses only, not conducive for the childbirth.
- During the last 18 years of married life, the husband was running the dasha of Jupiter, which denies childbirth, as described above.

In view of the above, the prospects of childbirth do not get indicated in the husband's birth chart.

Analysis of Wife's birth chart:

The wife's birth chart is being analyzed as follows:

- In this chart, the 5th cusp is ruled by Sun as its star-lord and Venus as its sub-lord.

Sub-lord Venus falls in the star and sub of Rahu. Rahu is placed in the 6th house, which is the maraca of 5th house, hence detrimental to it. Venus is the lord of 1-6th houses, not conducive for childbirth again.

Rahu may be taken to dispose sign lord-Mars and star lord – Saturn as per its placement. Mars as 12th lord is placed in the star of Moon placed in 12th house. Saturn on the other hand is placed in its own star signifying 6th house by placement and 10th house by ownership.

Looking from cuspal angle, 5th cuspal sub-lord Venus is placed in the star and sub-lordship of Rahu that links 2-4-6 cusps, denying the childbirth.

- Look to the 11th cusp whose sub-lord is Venus. The analysis of Venus is already done above which signifies 6-10-12th house, not conducive to the childbirth from the husband that tallies the analysis of the husband's chart for childbirth.

- During the last 18 years of married life, the wife was running the dasha of Rahu, which was not fruitful for the childbirth, as described above.

In view of the above, the 5th and 11th cusp denies childbirth in wife's chart with the husband.

Conclusion:

In both the example charts of husband and that of wife, the 5th and 11th cusp do not signify the houses fruitful for childbirth (2-5-11) but predominantly signify adverse houses (4-6-8-10-12) only. This was the reason that the couple did not enjoy the fruits of childbirth even after 18 years of marital life.

The KP principles are infallible and are crystal clear, although, they require genuine efforts for understanding and application. Prof. Krishnamurti has devised a pioneering predictive model in astrology, which deserves sincere appreciation.

CANNOT AVOID CEASERIAN

(Original article by SHREE BANE ANNA)

(Below is an English Translation of a very interesting article, which appeared in the "NKASHTRA DENA" OF May 2007. the author are translated(free translation) for the benefit of KPEzine.)

The Native, whose chart was examined by the author in March 2005 are was
Born on 20th Jan 1984 at 9,42,39 am (corrected time). POB Kagal 16 N 35, 74 E 19.

To get a good idea of the discussions, it is recommended that the reader cast the chart, including, Uranus, Neptune, and Pluto. This article is written mainly to demonstrate the effect of Neptune and Pluto.

Shri Sunil Gondhalekar in his Lessons on the 4 step theory, has given the following rules, in respect of Childbirth.

Rule 1: If the Sub-lord of the 5th cusp is a strong significator of the Houses 2 or 5 or 11, child birth will happen in the DBAs of the planets signifying the 3 houses.

Rule 2: If the sub-lord of the 5th cusp sub-lord is in an odd sign, then a boy will be born, and if in an even sign, a girl will be born.

Now let us study the 5th cusp for the first issue. The sub lord is Sat. It's 4 step significance is:

Sat: 3-6-7

StL Jup: 4-8-5

Sbl Sat: 3-6-7

StL Jup: 4-8-5 as Conjunct with 5th cusp (3 deg 35min)

2nd and 4th step, Jup is conjunct with Neptune. Neptune is retrograde. It induced a negative result, and a girl was born, although the sub-lord Sat was in an odd sign, and should have given a boy.

For the 2nd issue we have to study the 7th cusp sub. The sub-lord is Jup. Its 4 step significance is:

Jup: conjunct with Neptune, but as Jup here is not strong, Sat being in Jup's stars, there is no effect:

StL Ket: 4(Mars 3-9)

Sbl Rah: 1004-3: Rahu is in an even sign, its sign lord Ven is in an odd sign, so a Son was born:. The Star Lord is Mars, therefore surgery was indicated, and a caesarian had to be done.

Moreover, Mars is conjunct with Pluto, and aspects, within orb, the 6th and 10th house. So illness and ceaserian, negative to desired normal delivery was indicated. The husband was advised to be prepared for this expense.

Moon in 12th, so hospitalisation was indicated. A male child was delivered On 12th May 2005, by ceasarian method.

The important points are, the negative results by Neptune, (1st child), and the effect of connection with Mars, and his conjunction with Pluto.

Divorce, Love Affairs and 2nd Marriage

(DR. H. S. NAGI, 9/43, PAU, LUDHIANA, MOBILE-09417717910)

History:

The querist lady was passing through bad experience in her married life. It was a case of desertion. Then an NRI, whose wife had died, was in contact of this lady. After initial resistance the lady agreed to get married with that person.

Then she applied for divorce in the court and got divorce and got married. At every step she took astrological advice from me. So first of all she asked whether her husband will come back to her, then she asked about divorce, and at the same time she asked marriage prospects with the person in contact.

Rule

Divorce is caused when the significators of 2, 7 and 11 are also the significators of the houses 1, 6 or 6 and 10 or 6 and 7 or 10 and 7 and so on. Therefore, the 12th house to the houses 2, 7 and 11 are all detrimental for smooth, pleasant family life with wife/husband.. Hence these houses are to be judged and then only one has to declare the result whether they will go for divorce. If the significators of 2, 7, 11 happen to be the significators of 1, 6 and 10, then separation will surely happen and then it may lead to divorce..

If separation is caused by the wife running away, saying that she has no mind to stay with the husband, then in one's horoscope, the significator of 7 will also be the significator of 6 and 9. If the person does not like wife, and he goes away, then we have to judge the houses 3 and 12. The 4th house is place of residence and 3rd vyaya to it.. Therefore, one will go away from his residence, proceed on a journey and thereby get separated. (p. 191-192, marriage, married life and children)

For married life, planets connected with 6th house, i.e. significators of 6th house, bring about separation due to partner's walking out or desertion. 12th house significators denote that the native will seek separation, get out and live singly, 8th house significators denote disharmony and quarrel. 8th house doesn't threaten separation. The native will experience difficulties and continue to live together. (page 154, marriage, married life and children)

Analysis

7th cusp sub-lord is Mercury. Look in which star mercury is. Mercury is in star of Rahu. Now see whether this Rahu has got signification of 6 or 12 or 10 or 1. If it has, then there will be divorce. Now look, Rahu is in 6th house. Therefore Mercury, which is sub lord of 7th- a house for marriage, became signifier of 6th house (end of marriage), through its star lord Rahu. Since 7th sub-lord is a signifier of 6th that shows the husband has no mind to stay with this querist. Therefore divorce is sure.

Court case Rule:

1. According to KP, the 6th house represents litigation, and the 7th house indicates the opponent in litigation.
2. Therefore, litigation would be imminent whenever the significators of the 6th and 7th houses are operating in life.
3. The cause of the litigation is represented by the planets connected with - or associated with the 6th house or its lord.
4. Success in litigation is promised by the lord of the 11th house or planets in the 11th house. Success is also ensured if the 6th and the 7th houses come under the influence of the lords of the stars or the occupants of the 1st, 3rd, 4th, 6th, 10th and 11th houses.

5. If the lord of the 6th house is connected with the 11th house, or the 11th house is connected with the lord of the 6th house, success in litigation is realized.
6. The above (#5) also suggests that the connection of the lords of the 12th and 5th houses will cause failure in absolute.

The matter was in the court. To know whether one will win the case in the court or the elections or victory in any competition, 6th cusp sub lord should have strong signification of 11 or 6 or 10th house, and it should not have a strong signification of 5 or 4 or 12 houses. And 11th cusp should have a signification of 6 or 11 strongly.

Analysis

Here in this chart, Jupiter, the sub-lord of the 6th cusp has got the strong signification of 11th house. How? Look into the star in which Jupiter is deposited. Jupiter is in star of Saturn and Saturn is occupant of 11th house. So Jupiter became significator of 11 strongly. It means she will win the case. At the same time 11th cusp sub-lord Venus is also a strong significator of 11th house. Because Venus is in star of Saturn, who is occupant of 11th house. It shows she will win the court case very easily. I told her: "Don't bother, because you are going to win this court case and will get divorce".

She doesn't believe my wordings, because she is afraid that the court case will linger on. But to her surprise her husband didn't turn up in the court, and the judge gave decision in her favour on Nov 20, 2006.

Love affairs

If the sub lord of the 5th cusp (love affairs) has the signification of or connected with the 2nd or 11th, it shows a love affair, and if it is connected with Rahu or Ketu, the love affair is with a person belonging to a different caste, creed, or province. If the sub-lord of the 7th (marriage) is the significator (in the star of the occupant or owner) of the 5th or 11th, or connected with the 5th or 11th, it denotes marriage with the person in the love affair, and if it is connected with Rahu or Ketu, it denotes marriage with the person who belongs to a different caste, creed, or province.

Here in this chart 5th cusp sub lord is Venus. Venus is in the star of Saturn. Saturn is in 11, so Venus becomes full significator of 11th house. Her love affair was going on, and it will be successful since Venus is sub lord of 2nd house and 11th house, and karka for marriage also.

After getting divorce, she got married with the person in love.

After one month of getting divorce, she got married with other person. It is interesting to know how the dasa lord and bhukti lord which gave her divorce, which she wanted, also fulfilled her desire to get married again with a person she wanted.

2nd marriage Rule

Note the sub lord of the seventh cusp. If the sub lord of the 7th cusp is either Mercury or any other planet occupying a dual sign or deposited in the constellation of a planet in a dual sign, there will be more than one marriage (p. 183, reader 4). Actually, second marriage is mostly represented by the 2nd house. (p. 184, Reader 4).

If the lord of the sub or the lord of the constellation in which the sub lord is situated is in a dual sign or happens to be a dual planet, then the second marriage is promised. (p. 180, Reader 4).

Analysis

Here in this chart, 7th cusp sub-lord is Mercury. Mercury is occupant of 2nd house. So the second marriage is assured. Finally she got remarried on Dec. 22, 2006.

Dear Kanak Ji,
June issue of Ezine is fantastic but I was disappointed to note that you had not written any article on Muhurata :(. KINDLY write articles on muhuratas in every issue of Ezine as it is very useful for everybody.

The articles on TSP written by Mr.Andrew and yourself were very interesting and informative. Thanks a lot for giving such an important formulae to us .

Mr Andrew had done a wonderful job of compiling n analysing the failed predictions . I missed your article on Muhurata again.

Good luck to you n KP Ezine.

Thanks

Rajeev K Khattar

Dear Kanakji,

Congratulations on bringing out the latest KP EZINE june 2007.i downloaded it just now. (Please post a notification regularly on arrival of new issue of KP EZINE)

went thru the pages and yet to read the contents. you have given a variety of topics in this issue. i found your article (the much awaited TSP theory for students like me) in the issue.

More on reading the issue.

best wishes.

Dr. Rahul.

Dear Kanakbhai,

As expected a wonderful issue of July 07 on Marriage and Chilbirth. Sri Raichur as a senior astrologer was of wonderful assistance as Editor/Pitamaha.

God's Blessings for greater progress. Hope to meet you in Hyd.

Regards,

Satish

Dear Kanak,

I went through the July issue just now. It has come out incredibly well. Many thanks to Shri.Raichur for agreeing to be the editor of this special issue. I think you should consider a "print form" for the magazine as you start getting more readers.

As usual our beloved Tin Win has done a fantastic job of compiling a lot of useful information.

Regards,

Rangarajan

Dear kanakji,

My heartfelt thanks to Shri.A.R.Raichurji for editing the special July 2007 issue on "Marriage and Child Birth". Every issue is of new learning experience. Every KP follower aware of the Punarphoo Dosha which delays marriage. But I could find Dr.Kar's cancellation of punarphoo theory in this july issue is very much valid. In my own chart where Saturn is in the star of Moon and Moon is in the sub of Sat, apart Saturn aspects moon. In spite of this punarphoo dosha, I got married at the age of 29, which is normal not a delayed one. But Saturn is conjoined with Ketu, where ketu is in Sun star cancelled the punarphoo dosha. Hence every issue is of new learning experience. My sincere thanks Kanakji and looking forward to see you at Hyderabad Summit of KP Astrologers Forum.

With Regards,

R.Balaji

KP CHART SETTINGS

By: Tin Win

15209 Carrollton Road

Rockville, MD 20853

USA

E MAIL: tw853@yahoo.com

KP Settings

1. The settings for a KP chart are:

- (a) Geocentric positions
- (b) True positions for planets
- (c) Mean nodes
- (d) New KP Ayanamsa
- (e) Placidus house system
- (f) 365 D/Y Vimshottari dasa

Geographic and Geocentric

2. The geocentric latitudes calculated to the true center of the spheroid earth is commonly used to ensure much more accuracy and precision. The geographic latitudes assuming as if the earth is a perfect sphere, which is not so, are automatically converted into the geocentric latitudes in astrological SWs, and it is usually a default setting.

3. In order to properly use the tables of houses, which generally furnished geocentric latitudes, the conversion formulas and tables from geographic to geocentric latitudes are available in Astrosecrets & KP, Part 2, 2003, page 304-320 and Shri K. Hariharan: How to Cast and Read Your Horoscope, page 78-87. Guruji KSK has mentioned the "tan" formula for conversion of the Geographic latitude into Geocentric one in Astrology and Athrista, 1978 May. (Mrs. Kousalya Sattainathan says in her KP Astrology & Prime Ministers, page 3 that geographic latitude has been used and not geocentric because Gurujui KSK had used geographic latitude.)

True Positions for Planets

4. The true positions for planets (Sun to Saturn) are taken in all systems of astrology.

True and Mean Nodes

5. The Nodes are the points of ecliptic where the plane of Moon's orbit intersects the plane of the Sun's orbit. True is the exact position of the Nodes at any given time, while Mean is the presumed position based on the average speed. The Mean Node assumes that the nodes are always moving in retrograde motion, whilst the True Node are occasionally moving direct too as if it's wobbling due to the wobble of the earth and the moon orbits.

6. Sages Parasara and Jaimini's teaching is the constant Rahu retrogression which is also confirmed in Prasna Marga Rahu-Sun-Moon chakra and Jataka Parijatha. (Shri Sanjay Rath) Rahu and Kethu are ever retrograde. Never direct. (Sri M.P. Shanmugam: Astrosecrets & KP, 2003, page 27)

7. The advantage of the True Nodes against the Mean ones is that when the Moon is in exact conjunction with them, it has indeed a zero latitude. This is not true with the Mean Nodes. However, this seems somewhat illusory because the True Nodes are true only twice a month when the Moon crosses the ecliptic. Positions given for the times in between those two points are just a hypothesis. They are founded on the idea that celestial orbits can be approximated by elliptical elements. This works well with the planets, but not with the Moon, because its orbit is strongly perturbed by the Sun. True Nodes are applied by Shri V. K. Choudhry's System Analysis followers and Westerners.

New KP Ayanamsa

8. It has been found in Mr. Kanak's research that the New KP Ayanamsa (KP & Astrology Year Book 2003) is working better than Lahiri Ayanamsa especially in the Sookshma dasa level.

Placidus House System

9 The Placidus house system is one of three pillars of KP, together with Hindu zodiac and Vimshottari dasa.

360 D/Y vs 365.25 D/Y Vimshottari dasa

10. Only 365.25 days (interval of time taken by Sun to leave any one position in the Zodiac and again reach the same position) must be taken for a year and 360 D/Y is taken for convenience and for calculation of sub sub (DBAS) periods. (KP Reader I, page 97)

The common application of 360 D/Y-based sub sub dasa tables does not mean using a 360 D/Y as long as 365 D/Y is applied in the Mahadasa calculation.

11. Almost all East and West vedic astrologers have used 365 D/Y Vimshottari dasa without giving attention to the arguments of a few 360 D/Y advocates.

Observation

12. The settings of Geocentric positions, true positions for planets, Mean nodes and 365 D/Y Vimshottari dasa are in line with most Vedic astrologers, and however, KP Ayanamsa and Placidus house system are the particular features of KP.

WILL I GET A JOB ON COMPASSIONATE GROUNDS

By: Dr. Madhukar Konarde, M.D. Ayurveda

Translated by Raichur. A. R

8/147, GARODI ANAGAR BOMBAY-400 077

THIS INTERESTING ARTICLE HAS BEEN TRANSLATED FROM THE ORIGINAL PUBLISHED IN : NAKSHTRA Dena" of July 2007, as it deals with subject rarely dealt with KP astrologers.

Upeen, had just passed his B.Com. His father was working in the Housing Dept. He had some eye trouble for the last 4-5 years. He was finding it difficult to attend to his daily work, and was thinking of voluntarily retiring.

I thought his son had come to enquire regarding him. However, he gave me a chart and asked "Grand Pa, my father is thinking of taking a voluntary retirement, and his seniors have also advised him to do it. Is there a possibility of my getting a post when he retires, on compassionate grounds? The management thinks I can accordingly have sent in an application. Is there a chance according to Astrology?".

He presented his chart, drawn up on traditional lines. I thought of asking for a Horary No. from him, but thought better, and cast the chart of KP lines. This is given later.

I have solved many questions concerning jobs, transfers, promotions, demotions, reinstatements etc.

But I had not, so far solved the question of getting a job on compassionate grounds. So I stated thinking:

What does getting a job on compassionate grounds imply? This is like a hereditary/legal inheritance. Shree Krishnamurthy has clearly stated that all matters of inheritance, should be solved by reference to the 8th house.

Shree Hasbe Guruji, has written in his book, that considering the 8th house results as obstacles, worry, loss, etc. is not correct and Shri KSK has shown that 8th house can give pleasant, and profitable results as well. Jyotishi Shri Ram Wadulekar, Shree Tushar Bhoj have also, in their books, have justified 8th house for getting hereditary properties etc. As an example, we refer to the 8th house for Insurance money, Provident funds etc. Shree Vilas Kulkarni in his book "*Krishnamurti Paddhati antaranga*" on page 39 has opined that if 8th sub is significator of 6-10 one will get a job, as an inheritance.

Shri Gonaldhalekar, of 4 step fame, has said that 8th being 11th to 10, can be considered as a supporting house for getting a job. So I have solved this question from the 8th house. The chart with details is as below

(Chart is on Next Page)

Here the 8th sub Rahu has become a strong significator of 10. So it is certain that he will get a job on compassionate grounds.

When will he get the Job?. We examine the DBA.

The native is running Rahu Dasa upto 15-2-2009. He strongly signifies 1, 10,11

Shree Sunil Gondhalekar has opined that houses 1, and 11 are supportive houses to 10. So it is certain that the native will get the job in this dasa. At the same time the Bhukti of Ven. was running: Venus strongly signifies 11.

We have seen that we are getting houses, 11, and 10 but to complete the chain we still need houses 6,2. So the antara Lord has to be the significator of these houses.

Sun signifies the houses 2,5, and also 11. So this is required Antara in this Bhukti.

This antara dasa runs from 3-3-2003 to 27-4-2003. Ravi's sookshma Dias runs from 3-3-2003 to 6-3-2003.

The boy Upin got his appointment order on 3-3-2003, and joined his job in Pune on 4-3-2003.

As Sun strongly signifies 3 also, he had to leave home for his Job.

I convey my respects to Late KSK, Hasbe Guruji, and Shree Gondhalekar, for the guidance, given through their books, and conclude the article.

Translator's Note: While checking the chart, even with the author's Ayanamsa, which is slightly different from the New Kp Ayanamsa, I found some small discrepancies in the longitudes of the Planets as well as House cusps. These were minor, and less than 1 minute. I found this did not change the sub-lords, except one cusp 5, which were not concerned at the moment. The Sub-subs do not change. In the chart, I had to copy what was printed in the article.

Good Luck.

I decided to write series on question related First Bhava. And, in this regard, this month, I have selected "BALARISHTA" as the subject.

Sri KSK ji has taught us how to find out longevity.

- 1) If Asc sub lord signifies 1.3.5.9.10 then Poorna Ayushya means more than 66 Years.
- 2) If Asc sub lord signifies 1. 5.8, 9.10,6,12 + Badhaka and Maraka, then Madhya Ayushya means up to 66 Years.
- 3) If Asc sub lord signifies 6,8,12 + Badhaka and Maraka, then Alpa Ayushya means up to 33 Years.
- 4) If Asc sub lord signifies 12, 7 + Badhaka and Maraka, then Balarishta.
- 5) Death by Accident: If Asc sub lord signifies 1, 6, 8, 12, + Badhaka, native faces accident.
- 6) If Asc sub lord signifies 2, 7, 8 + Badhaka, the native will commit suicide.

I shall try to discuss all the above 6 rules each month. This month I am going to discuss balarishta.

My family was traveling from Bangalore to Delhi by train on a 3-day journey starting from Bangalore on 29-06-2007. On the next day of travel (Saturday 30-06-2007), I was eagerly expecting a call from her about travel going well.

I did not receive any call from her till noon but I kept on waiting. My attempts of calling her remained futile, as the mobile was off as per the announcements. I went into high degree of anxiety to know when will the call materialise at a point of time in the afternoon and thus approached the query by a horary chart.

The prashna chart at the casting time is produced herewith.

The chart is being analysed as follows:

The Query

I was extremely worried, if everything was well with my wife who was traveling. Since, the communication was not taking place, I was feeling helpless and handicapped.

Look to the position of Moon, which appears in 6-8-12th cusp indicating my frustration, disgust and my invisible fears respectively. Moon gets placed in the star of Ketu disposing Sun that is placed in 8th house, indicating my turmoil.

Take note of the sub-lord of Lagna, which is Jupiter. Jupiter falls in the star of Mercury placed in 8th house, confirming my worries.

Thus, the mental focus on the query was established in the prashna chart. Hence, it was OK to proceed for analyzing the query.

The co-ordinates for judgment

In this query, I represent Lagna and 7th cusp indicates my wife. The 3rd cusp represents the communication from my end and 9th cusp represents the communication from wife's side. In order that the communication is established, there must be an amicable connection amongst 3-9-11th houses.

If 11th cuspal sub-lord signifies 3-9th houses, the communication will be established. If the 3rd cuspal sub-lord signifies adverse houses from it, there would be difficulties to establish communication from my side. Similarly for the other side seen from 9th cusp.

Analysis of the chart

- Look to the 3rd cuspal sub-lord Rahu that indicates communication from my end. Rahu is placed in own star, thus signifies 4th house, a house for halt. Rahu disposed Saturn because of its placement in Aquarius and by way of Saturn placed in 10th house (8th from 3rd house), it blocked communication from my end. Saturn being 6th lord made me tensed up.
- Look to the 9th cuspal sub-lord Mars that indicates communication from my wife's side. Mars is a strong planet, as there is no planet in its star. Mars signifies 7th house, as it is vacant and 6th house by way of its placement. It could mean that my wife (7th house) may be sleeping (12th to 7th meaning 6th house indicating sleep).

9th cuspal sub-lord Mars would offer the results of its star lord Ketu. Ketu strongly disposed Sun placed in 8th house (12th to 9th house), negating the 9th cusp and blocking the communication from my wife's side.

- Look for the promise of fructification of call establishment, which would be possible, if the 11th cusp links to the required cusps. Here, 11th sub-lord is Jupiter who lords 3rd house, its star-lord Mercury lords 9th house and Mercury conjuncts with the 11th lord Sun. This ensured to me that the call would certainly materialize.

Till this point of time in analysis, it was inferred that the call would materialize, though is obstructed for the time being.

Timing of the call fructification

- Look at the ruling planets at the time of casting prashna chart, which are Jupiter, Venus, Ketu and Saturn. Since, Ketu disposes Sun and Venus, the Sun may also be included in the RPs. Incidentally, Sun is a strong planet having no planet in its star and is useful as 11th lord.
- In the fair logistics, I assumed that the call would materialize in a few hours, as 11th cuspal sub-lord Jupiter was in Mercury's star and sub (Mercury being a reasonably fast planet). Thus, I decided to monitor the movement of Lagna keeping an eye on the movement of Moon's sub and sub-sub lord.

At the time of query, Libra lagna was running continuing in Jupiter's star till 1531 Hrs. Since, Jupiter was placed in Mercury's star placed in 8th house, I was almost sure, that the communication would not come through during this duration.

Since, RPs did not contain Mars, so I decided to ignore Scorpio Lagna and switched to Sagittarius lagna for timing the call fructification.

In the light of RPs, I inferred that the call would materialize when Lagna transits in Sagittarius sign in Ketu's star, Venus sub and Sun sub-sub as all the planets were conforming to the RP. Accordingly, I inferred that the call would materialize at 1748 Hrs.

I checked up the Moon position at that time which was transiting in the star/sub of Venus and sub of Sun (all in RPs).

I was thus very comfortable with my calculations and made up my mind accordingly.

Facts of the case

Surprisingly, I received a call from my wife at 1642 Hrs, indicating that everything was fine with her, travel was smooth and she slept for the larger part of the day on the upper berth without bothering to call me and she did not spell a single word of regret.

The Lagna was moving in Scorpio sign in Mars-Saturn-Jupiter-Sun at 1642 Hrs.

While, I was relieved of the anxiety, I was left perplexed why the call materialized at the time when the lagna lord was not conforming the RPs. I tried to find some excuse of my misinterpretation or oversight for a long time after receiving the call but failed to reach any conclusion.

However, I was taken to further surprise when she called me again at about 1748 Hrs to communicate me her concern and begged for a pardon for her negligence of making a call whole day long.

Would it be prudent enough to say that KP principles are perfect and errors in judgment are accounted to our lack of understanding, prompting us to look deeper into the invisible?

Garbage In Garbage Out! Can We Depend On Our Software-based Predictions?-- Part I

When Charles Babbage first invented the Difference Engine and the Analytical Engine in the nineteenth century, which later became the design of our modern day computers, he made it amply clear that garbage fed into the computer system will lead to garbage coming out of it. In other words, faulty data fed in to the system will lead to faulty output. And so we should not blame the computers for our own folly. So, GIGO is the all time favorite catchword of all systems people. Time has come when GIGO should also become the favorite phrase of all astrologers.

The inventor of the Krishnamurti Paddhati (KP) technique late Prof. K. S. Krishnamurti categorically emphasized on the accuracy of three important inputs for arriving at correct predictions. They are:

1. Correct time of birth for birth charts or correct time of judgment for horary charts.
2. Correct Ayanamsa for sidereal system of house and planets' position.
3. Correct longitude and latitude for house division and planets' longitude.

It is now well known in the KP circles that the issue of correct birth time is a matter of serious concern. Many a times we get a birth time provided by the client that appears to be dubious in quality. Just by looking at the birth chart we come to know that the birth time is not correct (Dutta, 2007b). Though there are a few well tested methods of birth time rectifications, for all practical purposes, these methods only provide us with a *probable* time of birth and we can never be 100% sure that we have arrived at a cent percent correct birth time. Similarly in horary charts, the time of judgment also needs careful consideration. Not two watches ever tally. And with the plethora of 'World clocks' and 'atomic clocks' available on the internet, the time that has been corrected by us in our watches still remain doubtful.

Ayanamsa is another important issue that requires careful handling, understanding and application. The relevance of KP Old Ayanamsa has already been demonstrated in the inaugural issue of KP Ezine (Dutta, 2007a)

The next most important ingredient is the longitude and latitude of the place of birth or the place of judgment. This is because both the longitude and the latitude is an important determinant of the house division and the position of the Ascendant series of the Ruling Planets (RP). As KP follows the Placidus system of house division, changes in the longitude and latitude of the place has the potentiality to alter the degrees and minutes of the cuspal positions of the houses (bhavas), which in turn can alter the sub-divisions of the constellations occupying such positions. In other words, changes in the longitude and latitude of place by minor increments may change the subs occupying the house cusps. For example, the Ascendant, the most important house of a chart, is dependent on the Latitude of a place and the sidereal time. Difference in the values of the latitude would alter the cuspal positions of the ascendant to the extent of altering the sub-divisions. Similarly, the longitude of a place helps in determining the actual degrees of the planets. Change in the value of the longitude will also alter the sub-division occupied by a planet. In total, all these will result in faulty diagnosis and prediction.

In the year 1998, Sri A. R. Raichur published a research paper in KP Yearbook on the impact of variation of longitude and latitude by 3 minutes and 1 minute on the cuspal position of the ascendant. The simulation experiment was conducted on live datasets of 372 and 348 pairs of data. The results obtained by Raichur (1998) are very important for scientific minded astrologers. He was able to find

that for a change in 3 minutes of latitude (holding the longitude constant) there has been 1 incidence of change in starlord, 5 incidences of change in sublord and 25 incidences of change in sub-sub lord. For a change in 3 minutes of longitude (holding the latitude constant) the incidences change in the ascendant starlord was 1 and that for the sublord was 12 and for sub-sub lord it was 108. In probabilistic terms, though the incidences may appear to be negligible apparently but it does create awareness that there might be occasions where differences in the values of the longitude and latitude may give sublord positions that lead to wrong analysis.

The chart below shows the variation of few key cities of India as it is found in the software.

CITIES	PARASHAR A LIGHT 6.1	KP ASTRO 2.7	ASTROLOK A PRO 5.1	ASTRO 3	Longitude variation range (Highest - Lowest)	Latitude variation range (Highest - Lowest)

Ahmedaba d city	72E37 23N02	72E37 23N03	72E40 23N03	72E40 23N03	3min	1 min

The problem is that all astrological software in the market today claims accuracy of their basic databases. But a look in the above chart clearly tells us that there are large variation in the values of the longitudes and the latitudes. The point is that as astrologers we are relying on materials that itself requires further probing.

Going by the result of the experiment conducted by Raichur (1998), variation of 5 minutes in latitude and longitude, as found in the softwares above, will increase the chances of errors in starlordship and sublordship positions of cusps and planets by a factor multiplied by the magnitude of variation in the coordinates. In other words, for a variation of 9 minutes we would find 3 incidences of change in the starlordship and 10 incidences of change in sublordship position of the ascendant.

The implication of these would be overwhelming for any astrological endeavor for two reasons. Firstly, though Raichur (1998) conducted the experiment of variation of latitude and longitude on the ascendant, it leaves no room for doubt that the other 5 cusps may also change due to such variations. That is, the second, third, fourth, fifth and the sixth cuspal starlordships and sublordships may also undergo a change. Secondly, as Krishnamurti Paddhati uses the Placidus system of house division, a change in the first house cuspal lordships would invariably mean a similar and corresponding change in the seventh house cuspal lordships and other subsequent houses.

In effect therefore, what we may get from a variation in the latitude and longitude of a place is a totally changed Bhava chart without the knowledge of the astrologer. And then he bases his prognosis on this chart and arrives at his prediction that fails in due course of time. I sincerely believe that if all the astrological software developers of India meet at a conclave or workshop and discuss the reliability of their databases and coding schemes in order to arrive at standardization, only then we may be able to move a step ahead in removing a barrier of correct prediction. Do our astro-software developers in India have this mindset?

Analysis of Mars Dosha as per KP Principles

Shri.KSK and his followers have enumerated various rules characterizing Mars dosha and its impact on marriage. Every time an example is discussed, one such rule is cited in support of the example. We decided to study Mars dosha in greater detail along two dimensions:

- 1) Clearly identify the rules that are supposed to indicate Mars dosha in a chart
- 2) Apply the rules to a reasonably large data set to determine if Mars dosha has an effect on these data

We will first list the 11 rules that we picked from various sources, as defining Mars dosha in a chart cast as per KP principles.

- R1) Mars in own star or in Sun star, and occupying any of 1, 2, 4, 7, 8, or 12
- R2) Any planet deposited in the Star or Sub of Mars, and occupying 1, 2, 4, 7, 8, or 12
- R3) 7th CSL is Mars and is located in 6, 10 or 12
- R4) 7th CSL is in the star of Mars and is located in 6, 10 or 12
- R5) 7th CSL is in the sub of Mars and is located in 6, 10 or 12
- R6) 7th CSL is Sat and is located in 6, 10 or 12
- R7) 7th CSL is in the star of Sat and is located in 6, 10 or 12
- R8) 7th CSL is in the sub of Sat and is located in 6, 10 or 12
- R9) Mars is the 7th CSL and is located in 1, 2, 4, 7, 8, or 12
- R10) Mars is the starlord of the sublord of 7th cusp and is located in 1, 2, 4, 7, 8, or 12
- R11) Mars is the sublord of the sublord of 7th cusp and is located in 1, 2, 4, 7, 8, or 12

We got hold of fairly reliable birth data of persons with single or multiple marriages. The following table shows the data set size.

Number of Marriages	Sample Size
1	103
2	26
4	23
5	15
6	1
7	2
9	2

Thus a total of 172 charts were analyzed.

Analysis Methodology

Since both the number of rules and the size of the data are large, we decided to do a computer analysis rather than doing it manually. A program was written to encode the above 11 rules, and to apply the rules on the given data. When looking at each chart, the program would emit "yes" if a particular rule was satisfied on the chart, or would emit "no". The result was then loaded into Microsoft Excel™ program for a manual interpretation of the results.

Instead of merely stopping with this, we decided to go one step further. What if the data sets we used were not accurate enough? Although the charts were rated "AA", we did not want to exclude the possibility of marginal error in the birth time. We adopted a fairly novel approach here. Since the focal point of our analysis was the 7th cusp, we decided to consider two more time points for each chart where the 7th CSL was the "previous" sublord, or the "next" sublord. We used a maximum time offset of 10 minutes from the given time since we did not believe the birth time could be off by more than that

interval in each direction. For instance, if the 7th CSL for the given birth time was Jupiter, the program computed the time when the 7th CSL was Rahu (previous sublord) and the time when the 7th CSL was Saturn (next sublord). It then applied all the 11 rules to these two “hypothetical” charts.

Analysis Results

Table-1 shows the results for the given time, Table-2 for the earlier sublord and Table-3 for the next sublord as explained above. For each rule, the value given is the percentage of cases where the rule is satisfied. The numbers in brackets indicate the sample size in the respective category.

Conclusion

From the analysis performed, it appears that there is no strong correlation between Mars dosha and marriage. We consider this study as a starting point. If readers have any suggestions for improving the study by providing more sample data, or by revising the rules used, they are most welcome to communicate with us.

MARRIAGE TIMING: AN EXAMPLE

By: G. Subramanian,

The horoscope of a young girl was brought to me by her mother to know the prospects of her marriage. They started looking for alliances for the girl right from the end of 2004. The girl was around 24 years of age when they approached me and the mother of the girl was worried as for some unknown reasons, the marriage was getting postponed. Even though a number of boys came and saw the girl, there was no noticeable progress in the matter.

The horoscope was prepared in a traditional style and so I had to completely recast it as per K.P using KP Ayanamsa and Placidus house system. In addition as a measure of caution I had the natal chart suitably rectified in such a way that the sub-lord and sub-sub lord of the Ascendant were the Moon's star lord and sublord respectively. A copy of the horoscope is appended and may be referred to for details. The name of the girl has not been given for obvious reasons.

The first question which an astrologer would like to examine is whether marriage is promised in the case under consideration. For this the seventh cusp sub-lord is to be thoroughly examined as it bears the clue to whether the chances are positive or otherwise. If the 7th sub-lord signified 2 and /or 7 and /or 11, then we can safely arrive at the conclusion that marriage is there for the native.

In the case under review, the 7th sub-lord is Mercury, lord of 7 and 10 in 6. Mercury is in the star of Moon, lord of 8 posited in 12. The sub-lord of Mercury is Saturn, lord of 2 and 3 in 10. While the connection of the 7th sub-lord to 2 and 7 as explained above promises marriage for the girl, its signification to two unfavourable houses for marriage, viz. 6 and 10 indicates delay, impediments and problems in settling the marriage. Also Saturn as a lord of 2 aspects 7th house and this is another reason for the delay.

We know that marriage will take place during the period of the strongest significators. The significators of the relevant houses are enumerated hereunder;

2	-----	-----	Venus	Saturn
7	Jupiter	Rahu	Moon	Mercury
11	-----	-----	Kethu	Venus
			Sun	

At the time of consultation, the girl was running the period of Venus and Bhuthi of Jupiter. It can be readily seen that these two planets are in the significators listed above. And that they signify 2 and 7 respectively. For Anthara, I selected Rahu, the powerful node placed in 7th house itself and also representing Mercury, lord of 7. Venus-Jupiter-Rahu period runs from 11-9-2007 to 3-2-2008.

But I was disappointed that my prediction went wrong because the marriage was fixed to take place on 23-8-2007, which falls during the anthara of Mars itself. I was puzzled as to how Mars came into the picture as a marriage significator. When I thoroughly reexamined the question, it struck me that Sun is a powerful significator of 11 (already 2 and 7 are covered by Venus and Jupiter) and therefore it automatically follows that any planet in the star of Sun will be equally effective in delivering the same

results. Please note that Mars is placed in the star of Sun and therefore figures as anthara lord. I lost sight of this vital point in my earlier analysis.

The transit of luminaries and the period lords on the date fixed for marriage - 23rd August 2007 are as under:

Sun	Leo	Kethu star	Rahu sub
Moon	Scorpio	Mercury	Saturn
Venus	Cancer	Mercury	Saturn
Jupiter	Scorpio	Saturn	Jupiter
Mars	Taurus	Moon	Saturn

I conclude this article by offering my humble pranams to our immortal Guru Late Shri K.S.Krishnamurthy whose epoch-making Krishnamurthi Paddhathi has revolutionized the astrological world.

Case History

I was trying to get an interim order from the court for some issue. The court was expected to hear the case on 5 July, 2007.

The senior counsel, who appeared on my behalf told me that there was no room for anxiety, and interim orders will certainly be passed by the court since the evidence is in my favour and the defence is weak. Anyhow, I thought this was an opportunity to put the principles of KP Horary to test.

KP Rule and my Findings

The 10H stands for judgement. If cuspal sublord of X, becomes a significator of II, VI or XI one could expect a favourable judgement.

However, in my personal studies, I have observed whenever, the cuspal sublord of X happens to be Rahu or Kethu or a planet in Retrograde Mode, a fair judgment is out of question.

Analysis

Querist -Self

Query--Will the Court pass the interim orders on 5 July 2007?

KP Horary No--132(computer generated)

Authenticity of the query

Libra, the Law sign ascends as per the KP Horary No

Moon, the natural significator of Mind owns the 10H of judgement and is posited in its own star. So the query is true.

The Sublord speaks emphatically

Please note Kethu coming as the sublord of X. This means I am not going to get a favourable judgement. If we probe further, we could find Kethu posited in XI (Success) and getting a signification of Ascendant (Success) VII (Failure)& X.

(Negation of 11 H of success, hence unfavorable). So I was sure, my prayer won't be granted.

Actual Outcome

On 5 July 2007, the court declined to pass the interim orders citing some flimsy reason and I lost the case. Another testimony for the Truth and validity of KP Horary.

ASTROLOGY AND EDUCATION IN KP METHOD

By: Vishwanath Nair

Flat 204 B Block 1

Now-a-days the subject of education is being discussed at length and breadth by parents, who are anxious about the future of their offspring.

In ancient times, parents used to send their children to *Guru-kula*, but history says that there existed an University in India in *Pataliputra*.

In olden times agriculture and trade used to be the main sources of income, and in order to attain monetary gains and learning the traditional occupation, parents used to employ their children right from young age.

The world has since grown at length and breadth and the necessity of establishing universities and imparting education has become a prime necessity.

Education is the wealth, as the old saying goes.

The below-mentioned horoscope is of a student, who had passed Intermediate examination and joined B. Pharma degree course in Ayurveda in Banaras Hindu University (BHU), Varanasi.

Acronyms:

Asc=Ascendant, Su=Sun, Mo=Moon, Ma=Mars, Me=Mercury, Ju=Jupiter, Ve=Venus, Sa=Saturn, Ra=Rahu, Ke=Ketu

CSL=Cusp sub lord, PCO=Planets in the constellation of occupant, OCC=Occupant, PCBL=Planet in the constellation of Bhava Lord. BL=Bhava Lord. RP=Ruling Planets.

The father of the student was known to me. The boy did attend the 1st year classes of the four years term beginning June 2005, but did not write the first year examination in May 2006 and returned to Hyderabad.

The boy has since vowed not to go back to BHU and study B. Pharma. This has put father of the student in an embarrassing situation, who, as usual, like any other father was anxious about the future and his son's education.

The father of the boy and myself were co-students in a famous astrological institute in Hyderabad.

The chart was shown to me on a Tuesday evening in the last week of November 2006, and we sat in a Subramanya Swamy temple premises in Secunderabad to analyze it on the following aspects:

- 1) Did the chart promise further education?
- 2) Did the chart promise higher education?
- 3) If so, what will be the line of education?

The chart was examined as per KP dicta:--

- a) When 4th cusp sub lord is connected 4,9,11 there will be higher education. While 4th house signify school education, 9th house is for higher education. 11th house stands for fulfillment of desires.
- b) The fructification will take place during the conjoined period of the significations of 4,9,11.

The analysis went on like this:

4TH CUSP SUB LORD.

As per point no. (a) above, 4th cusp sub lord is Moon. Moon is placed in Mars sign, Saturn Star and Mercury sub.

4TH HOUSE.

4th cusp falls in Sun sign, Venus star and Moon sub. Ketu is placed in Moon star Hasta in 4th cusp. Therefore, Ketu becomes an agent of 4th cusp sub lord Moon. Jupiter is the Top significator of 4th house, who is placed in Ketu star. Saturn is conjoined with Moon.

9TH HOUSE.

Saturn is the lord of the 9th signifying higher education. 9th cusp falls in Saturn sign, Moon star and Saturn sub. Saturn is conjoined with the Moon. Mars, Rahu and Moon are placed in Saturn star.

11TH HOUSE.

Sun is the top significator of 11th house. Sun is conjoined Mars in 2nd cusp and Mars is placed in Saturn star.

Hence, Sun, Rahu, Ketu, Mars, Jupiter, and Saturn have become signifiers for education. But since Saturn is connected to all the houses, Saturn becomes more powerful in the matter of education.

DAY LORD.

Day lord on the day of birth and day of judgement was Mars.

Hence in all the houses such as 4, 9 and 11 are connected to Saturn and Saturn is conjoined with 4th cusp sub lord Moon.

It was declared immediately that the native will have higher education, mostly dictated by Saturn.

As per dictum of KP, since so many planets are becoming signifiers, the astro-analyst should take the day lord. The day lord on the date of birth as well as date of judgement is

Mars, and Mars is very well connected to Saturn, the line of education was declared as engineering.

Mars and Saturn connection makes the person a shrewd engineer.

FRUCTIFICATION OF EVENT.

As per point no. (b) above, at the time of judgement, the native was running Dasha / Bhukti / Antara periods of Mercury-Venus-Jupiter respectively. Mercury and Venus are placed in Rahu star. Jupiter is also connected with education and hence placed in the 11th in Ketu star is well connected.

Since Dasha / Bhukti / Antara of Mercury-Venus-Saturn respectively is commencing in March 2007, it was declared that Saturn will give education commencing period March 2007.

Since Moon and Mars are in the sub of Mercury, it was further said that the branch will be Computer related Engineering course.

However, it did appear that the native's father was not very happy with the prediction as he was having his own doubts, and looked skeptically at the readings. This could be because of two major factors viz. (1) there was a severe jolt in the past in the educational pursuits by his son. (2) I was still a student of the KP system.

During the last week of May 2007, native's father called me up and informed that his son indeed passed the entrance examinations for engineering which were conducted in March / April 2007, and he got interview call for selection and the branch selected is Computer Science.

He thanked me for the correct prediction, and informed me that I will become a good astrologer in future to come. I immediately told him that God is great and the readings were based on KP System.

On further analysis it was further revealed that the attempt to complete B. Pharam took place in Mer-Ven-Ven period in May 2005.

The boy came back from the BHU without writing the examination was in Mer-Ven-Rah period in June 2006.

Although Rahu signifies 9th lord Saturn, but is in the 10th house, Rahu did not offer the continuous education.

The medical line was dictated by Rahu through Venus and Mercury, who are conjoined with Sun in Gemini, a house for sastra owned by Mercury.

Since Saturn was prime significator for all the 3 houses, viz. 4,9, 11 the medical line was made to give up by Saturn.

Saturn in his antara period in March 2007 re-started the educational process.

According to the aphorism laid down in KP reader 3, for Taurus and Libra born persons, Saturn is the most beneficial planet, could be also a factor for Saturn's dictation for events in this nature.

Prof KSK was really a great prophet. KSK's method of teaching and preaching will take its growth to a larger magnitude in the years to come, and more and more Astrological practitioners will look toward KP system for effective and accurate predictions.

Various Astrologers had given date of birth of Osama Bin Laden (OBL) differently such as 30-July-1957, 10-March-1957, 27-June-1957 at Jeddah, KSA.

I have made an attempt to rectify the birth time applying KP Method of ruling planets. The time for which I sat for the judgment was on 04th Dec 2004 @20:59:57 hours at LG Hospital/ Ahmedabad, India, 23N00 72E36-Day Lord: SATURN

Body	Sign	Longitudes	Sign Lord	Star Lord	Sub Lord	Sub-Sub Lord
Asc	Can	03:02:18:24	MOO	JUP	RAHU	MER
MOON	Leo	04:14:33:35	SUN	VEN	VEN	JUP

Although Saturn is in the Ascendant, Saturn is Retro. JUP aspects SUN but Sun is in the star of retrograde MER. I do not count SAT and SUN as RP.

According to KP rule RP Asc = Birth Moon.

For Day we have to check Mon, for month we have to check Sun and for year we have to check JUP.

Now, let us take the different dates of birth known to us:--

10th March 1957 -- JUP was @3:00 AM (Jeddah)(00.00 GMT)

Body	Sign	Longitude	Sign Lord	Star Lord	Sub Lord
Jup®	Vir	05.04.42.26	Mer	Sun	Sat

27th Jun 1957 -- JUP was @3:00 AM (Jeddah)(00.00 GMT)

Body	Sign	Longitude	Sign Lord	Star Lord	Sub Lord
Jup	Vir	05.00.49.36	Mer	Sun	Rah

30th JULY 1957 -- JUP was @3:00 AM (Jeddah)(00.00 GMT)

Body	Sign	Longitude	Sign Lord	Star Lord	Sub Lord
Jup	Vir	05.05.25.29	Mer	Sun	Mer

RP Asc = MOO, JUP, RAHU, MER.

Sub lord should be treated as supreme. So please check Jupiter's sub for the all three years. In our RP Saturn is not available. So 10th March 1957 is out of question. Now both

Mercury and Rahu are in RP, but we accept only Rahu, b'coz Mercury is in Venus sub and Rahu is in Rahu sub. Venus is not in our RP (RP Asc.)

So the Year of birth is only JUN 1957 is correct.

(RASI GIVAN IN THIS POST IS AS 0=ARIES 1=TAURUS 2=GEMINI etc.)

On 27th Moon was in MAR Star and on 28th in RAHU star. On 27th Moon star MAR is not in our RP. So 28th June 1957 was correct date of birth of Osama Bin Laden

According to www.astrodata.com

"Michael Rideout: According to an interview with Bin Laden, which can be found on various web pages OBL himself had given his year of birth as 1377 Hegira. If that is so then he would have been born sometimes between 29th July 1957 and 17th July 1958 given or take a day or so far Both dates. This would mean that 10th March is out of question: April 17th 1957 and June 28th 1957 be correct AND KP PROVE IT.

Now if we go for Moon's sub division FOR 28TH JUNE 1957 MOON On 4 am: 2 14 35 41
Mer Rah Ket : ends at 04:02) (Rah-Ven 07:46) Rah-Sun 08:52)(Rah-Moo 10:41)(Rah-Mar 11:58)(Jup-Jup 14:53)(Jup-Sat 18:23)
Jup-Mer 21:30)(Times given are Jeddah time AND END TIME)
Our RP Asc is MOO , JUP , RAHU , MER

First sub is KETU ending at 04:02, which is out of question. Venus & Sun are not in RP. Moon sub is ok. Moon sub starts @ 08:52 ends @ 10:41. Now if we divide Moon sub further into sub sub level with the help of TABELS FOR ASTROLOGERS BY: Mrs. KOUSALYA SATTAI NATHAN PUBLI SHER: KRI SHNAMURTI PUBLI CATIONS as per Page no: 120:

(Rah-Moo-Moo	09:01:05)	(Rah-Moo-Mar	09:07:26)	(Rah-Moo-Rahu	09:23:47)
(Rah-Moo-Jup	09:38:19)	(Rah-Moo-Sat	09:55:35)	(Rah-Moo-Mer	10:11:02)
(Rah-Moo-Ket	10:17:23)	(Rah-Moo-Ven	10:35:34)	(Rah-Moo-Sun	10:41:01)

We have considered RP Asc Rahu as Star lord and Moon as Sub lord. So now only two sub sub Mer and Jup are to be considered. So let us select JUP as sub sub.
Moon at birth was in Rahu-Moon-Jup. Now if we further divide sub sub sub level with the help of TABELS FOR ASTROLOGERS Page no: 127:-

(Rah-Moo-Jup-Jup 09:25:43)(Rah-Moo-Jup-Sat 09:28:00)(Rah-Moo-Jup-Mer 09:30:04)
(Rah-Moo-Jup-Ket 09:30:56)(Rah-Moo-Jup-Ven 09:33:20)(Rah-Moo-Jup-Sun 09:34:05)
(Rah-Moo-Jup-Moo 09:35:18)(Rah-Moo-Jup-Mar 09:36:10)(Rah-Moo-Jup-Rahu 09:38:20)

So the birth time will be Rah-Moo-Jup-Mer 09:28:00 to 09:30:04

Now let us calculate Asc for both the times:

09:28	ASC	Leo	4 2 2 14	Sun Ket Ven Jup
09:30:04	ASC	Leo	4 2 30 20	Sun Ket Ven Sat

There is no Sub Sub between both times. According to rule RP Moon=Birth Asc. Our RP Moon is SUN, VEN, VEN, JUP all are in birth time 09:28

Ketu is in the sign of Ven so he represents Ven) THIS IS THE WONDER OF KP. MOST OF CASE WHEN YOU DIVIDE BIRTH MOON UP TO SUB SUB SUB LEVEL AND CALCULATE ASC FOR THAT TIME YOU CAN FOUND SAME AS RP MOON. In MY EXPRIYANCE ABOUT 70% YOU GAT RP MOON AS BIRTH Asc AUTOMATIC.

I am not checking his all the events of OBN's life with the chart, but only one event I have checked is that OBN married 4 times. So his 7th cusp sub lord must be Mercury and should signify 2,11 cusps. So I reduced .45 seconds from his rectified birth time of 09.27.15.

BIRTH TIME IS 09H.27M.15S (SPECIAL NOTE: GIVEN BIRTH MOON DIVISION IN TO SUB SUB SUB LEVEL HAS POSSI BILI TY FOR + /-1 MI NUTE ERROR)

Diamond ring lost and found

**By: Dr. H. S. Nagi,
9/43, Punjab agricultural university, Ludhiana,
Mob- 094177 17910**

One of my student got phone call from her relative that she had lost her diamond ring worth about 1.5 lacs. They were uncertain about its whereabouts. She gave number 7 (1-249). We calculated on the board in the class, on 21 April, 2007, at 16-13, IST. At Ludhiana

Rule

Recovery of lost property

If the significators of the houses 2-6-11 agree(counted from the house indicating the person whose property is lost with the ruling planets of the day, the property lost will be recovered. If the ruling planets are connected with 5-8-12 houses it is lost forever, (page 235, horary astrology)

Time of recovery of lost property

Work out the dasa etc.for the moment and in the conjoined periods of significator of houses 2-6-11, the lost property will be regained. To assure yourself you workout backwards. The period that would have been operating on the day of theft or lost will be the significators of the houses 5-8-12. the dasa lord in most of the cases will be the same at the time of the loss and also regaining. In such cases dasa lord will be the significators of 5-2 or 5-6or 8-11 or 11-12. if dasa lord is not connected with 2-6 or 11, in that dasa period one cannot regain as it would be the significators of 5 or 8 or 12 alone. similarly the lords of sub or sub sub period should be judged.(page 235-236, horary astrology)

Explanation

Checking 11th cusp

11th cusp sub lord is Venus. Venus is direct planet. Venus is in the star of moon. Moon is placed in 2. so Venus is strong significator of 2. it ensure that ring will be regained,

Checking the rule

At the time of judgement the rulling planets were mercury-sun-mars and Saturn.. now checking these separately. Mercury is in sub of rahu in 11. So ok.

Sun is lord of 6 in the sub of rahu in 11

Mars is in rahu star in 11 and sub of sun, lord of 6, Saturn again in sub of rahu in 11.

So all the rulling planets have connection with 11 or 6.

So it is sure that lost ring will be regained.

LET US CHECK THE DASA BHUKTI

A Dasa lord mar is in star of rahu which is in 11. So mars have a strong signification of 11. It ensures that in dasa the diamond ring will be found. The sub period is of ketu. Ketu is in star of venus. Venus is in 2. sub period also assure. Then we will come to sub sub period Venus. Venus is in star of moon, which is in 2. It also agrees fully. So I told that she will find it back before 8 may, 2007 before completion of Venus bhukti. My students agreed with me.

Result- The Diamond ring was found on may 6, 2007

A Report on KP Astrologers' International Summit, 2007

14th and 15th of July, 2007 was a historical date in the annals of Krishnamurti Paddhati (KP) astrology. The first ever international summit in the field of KP astrology was held on these dates in the Administrative Staff College of the JNT University in Hyderabad under the aegis of the KP Astrologers' Forum, India.

The KPAIS, 2007 was over subscribed in the first place, where hundreds of spot delegates' request for a seat was turned down since the hall was full to its capacity. The Summit had delegates from all parts of India and a few members from abroad too. Many of the dignitaries present in the Summit were direct disciples of late Prof. K. S. Krishnamurti who shared their beautiful experiences with the Maestro and certain secrets of prediction.

In the first day of the Summit, the delegates heard stalwarts in the field of astrology like Sri Suresh Sahasane of Mumbai on Profession and Business, MST and TSP techniques by Sri Kanak Bosmia of Ahmedabad, and 4 Step Theory by Sri Sunil Gondhalekar. But all these started with a vigorous Primer on KP by the President of KPAF, Shi Rajendra N. Nimje which was well received by one and all. The first day ended with a highly interactive panel discussion on the role of Nodes and retrograde planets in KP where the speakers of the day and the session chair persons formed the panel of experts. In the evening, a thrilling sitar performance kept all the delegates spellbound for hours, which was performed by artistes of the Dept. of Culture, AP.

The second day had more value and knowledge for the delegates than was expected by them. Sri G. V. K. Rao of Hyderabad conducted a session on medical astrology, which was an eye opener for even some professionals in the field. This was followed by a session on Educational prospects through KP by Sri Sahasane and the importance of sub-sub lords was beautifully elucidated. Thereafter, Sri Vinayak Agte of Mumbai showed all the delegates how Stock market can be predicted with the help of KP. Finally, the panel discussion focused on Ruling planets as the master key in KP.

Dignitaries and stalwarts in the field of astrology, both KP and traditional were felicitated by the KPAF. These included Sri V.B. N. Sarma, one of the direct students of Sri KSK and a patron of KPAF, Sri A. V. Sundaram, ICAS and the invited speakers. A Lifetime Achievement Award was given to Sri R. N. Acharya, Founder, Kadambi Booksellers for his lifelong support to astrology and astrologers and was conferred the title 'Jyotisha Bandhu'

It was found that all the delegates, unanimously and unequivocally were praising the efforts of the organizing committee members. But kudos is surely due to the founder members Sri Rajendra N. Nimje, President, KPAF and his friend Dr. V. V. K. Mohan, Secretary, KPAF along with the Dr. Andrew Dutta, Vice-President, KPAF who gave a historical milestone in the field of KP by organizing such international level summit. All the 50 odd regular members of the KPAF gave in the best of their efforts to pull off this event. The Summit paved the way for an international level interaction on KP astrology first time ever and was one of the most successful technical get together of the field till date.

L to R: Dr. VVK Mohan, Dr. A. Dutta, Sri. Vinayak Agte, Sri Suresh Sahasane, Sri Rajendra.N. Nimje, Sri. Sunil Gondhalekar, Sri, Kanak Bosmia and Sri. M.V. Rajaraam.

Dear all Readers,

This month I have to say something regarding KP Ezine.

1) *First, I started this magazine totally free, even in my dreams, I did not expect that nearly 750 members I got. Very first time I had to increase my web limit and pay extra for it, then my web host reminded me that my downloading limit is 100MB, The size of KP Ezine is generally around 1 MB. Now, if 750 members download it, that means at least my download usage is nearly 750 MB. So I have to pay for extra 650 MBs. Mr.Baskar from Mumbai wrote in his feedback on very first issue of KP Ezine that at least for 2-3 years do not make this magazine chargeable. I never thought to start this magazine to earn money, and at least in near future, I am not going to change it into a paid magazine. So I thought for some other way, and I found one easy way. I started to charge for old issues, to make up for downloading expenses, otherwise the cost would be up and up till one day it would be unbearable for me to pay downloading charges. This is the reason I charge for old issues—NOT TO MAKE MONEY. So please do not misunderstand me on this matter.*

2) *Articles published in KP Ezine is the property of the publisher. I found some author published his article without publisher's permission in other net, magazine, etc. This is totally illegal, and I hope no one does this again. If one does not want to accept the terms/conditions of KP Ezine, he is free not to send his/her articles; but once published in KP Ezine, this article becomes the property of KP Ezine publisher and without his written permission one cannot publish anywhere else by any means.*

3) *After starting this magazine some of my friends turned out to become enemy. I started this magazine to give some education or research based literature to KP Community. I am NOT INTERESTED IN "PREDICTION COME TRUE" TYPE CASES. Sometimes my friends send me articles and when not accepted, they consider me wrongly. For those of my friends once I wrote one article on sex change of a native. One of my clients changed sex from girl to boy. I wrote an article and understood that I was doing great work. When I sent this article to advisory board Sri Tin Win ji and Raichur ji, I got one line reply from Tin win ji "article is interesting but not chewable". I dropped the idea to publish my article in KP Ezine. This is very true and one can ask directly to Tin Win ji. If I wanted to publish it I could, but, I did not do that. I received nearly 20-25 articles but I published only 4 or 5 or 6. Other, PRIDITION COME TRUE type articles are not accepted for publication. So I strongly request the writers please do not mind if your article is not published,. Send some educative or research based ones, I shall definitely published it. But if your article is not published, please do not consider this personally.*

Dear Kanakji,

I went through the August Issue and it has come out very well.

The articles on GIGO by my friend Mr. Andrew is highly informative, educative and research oriented, And article on Job on Compassionate Grounds by Mr. Raichurji is revealing, infact judging job on compassionate ground by taking 8th house is very much convincing. These type of unique articles will add lot of reputation to your magazine.

With warm regards,

R. Balaji
Hyderabad

Dear Sir

I have been downloading E Zine issue from May. However I missed a few ones. I will be sending fees for April issue later on. Kindly send the March issue. Your magazine is a great step in clearing doubt about KP system. Its effectiveness & the procedure. Please let me know your Baroda Programme. I hope I will get answer of my question before 15.08.07.

Vikas

downloaded it and going through it it is much better than 1st issue thanks for caring
karan

Dear Kanak Ji,

August issue of KP-Ezine is fantastic. All the articles are worth praising. KP Chart setting by Mr. Tin Win is very educative and informative. A new concept of Job on Compassionate Ground (Translation) by A.R. Raichur found to be very interesting.

Balarishta Yoga by Mr. Kanak Bosmia has thrown light on this popular yoga. Mr. Vijay Kumar has used RPs very effectively to find when will the call materialise? He was wondered why his wife phoned twice? As per my little knowledge & experience, it was simply because of presence of mercury. Whenever mercury appears, event will take place more than once. I have also experienced similar type of outcomes while calculating when electricity will be restored.

I very much appreciate our dear friend Dr. Andrew Dutta for always bringing his theory on scientific basis. I am impressed the way he

had raised a valid question: "Can we depend on software based predictions? I also request to suggest all software developers to come on one stage to share info to develop reliable software on astrology.

Mr. Rangarajan Krishnamoorthy used his software skills very effectively in Analysis of Mars Dosha as per KP principals. Marriage Timing by Mr. G. Subramanian, KP Horary and Court case by Mr. Madhu N. Nair (Pranav), Astrology and education in KP method by Mr. Vishwanath Nair have explained KP principles very nicely.

Wonders of wonders is article on Birth time rectification of Osama Bin Laden by Mr. Kanak Bosmia.. it is very amazing write-up.

Last but not the least our astro-detective friend Dr. H S Nagi searched lost diamond ring and showed us how to use KP in day to day problems.

I didn't find any article on muhurata, please consider writing on muhuratas also in next issue.

Regards
Rajeev K Khattar

Dear Sir Kanak,

I enjoy your illustrated magazine.

Unfortunately I am a beginner of the KP system.

I learn yet much of your articles.

I miss monthly an article for beginners.

Go on with the magazine.

Greetings,

a.j. hoorn Netherlands

Dear Kanakji

I have gone through the August issue it is very nice, the article written by you reg. balarishta is very fine, in this you have taken the 1st csl only but not the other two relevant houses, 3rd csl and 8th csl. Which cuspal sublord is main for longevity. plz kindly enlighten.

Second Mars Dosha of Sri Rangarajan is an eye opener of mangal dosha, Diamond Ring Lost by Dr. HS Nagi is very clear accurate for making KP as a science, KP Astro on Education of Sri Nair from Hyderabad is also very relevant topic for many of the parents to know about their children's education and your article on Osama Bin Laden is excellent, I request

yourgoodself to bring some comprehensive article on birth time correction (hitherto we are having, 1 csl should have connection to Birth Moon star, 1st cuspal sublord should as per current time RPs, second by virtue of gender linked with mother father, blood relations genders. another format linked with birth stars of blood relations to the native's cuspal lord, such as 4th csl mothers birth star, 9th for father birth star, spouse 7th cuspal sublord connection. etc. As there are number methods out of your research plz indicated which is more accurate to follow.

Sri Rajender Nimje IAS has lead a KP Astro Forum in HYd. which made all of us to come to a comon platform and attended the KP International Sumit in Hyderabad wherein I had the opportunity of meeting you also along with sri phanidra. Sri Nimje has arranged the workshop on 4step theory by Sri Sunilji for the benefit of the kp followers. I am in this line since 1978 but now we are able to exchange our vievws thr this internet and able to enrich our knowledge in KP. I thank you and Sri Nimje for the yeoman services rendering to the kpastrologers group.

CHOICE OF GEMS BY KP

By: Tin Win

15209 Carrollton Road

Rockville, MD 20853

E MAIL: tw853@yahoo.com

TWO OPPOSING SCHOOLS OF THOUGHT

1. There are two opposing schools of thought (Anukul-vad v/s Pratikul-vad) in choosing gems: *1/, *2/

(a) ANUKULA-VAD (Benefic Planet Method): the gems act SAME as their planets and so the gems should be used for a native's Anukul grahas (benefic planets) to improve the performance of the benefic influence.

(b) PRATIKUL-VAD (Malefic Planet Method): the gems act OPPOSITE of their planets and so the gems should be chosen for a native's Pratikul grahas (malefic planets).

2. Both methods assume that the gems increase cosmic colors of their planets. A follower of the Benefic Planet Method believes that the gems do not act opposite of their planets, and so the magnifying of a malefic planet's color will surely increase the ill fortune. It was voted in the Planetary Gemologists Association (PGA) to follow the Benefit Planet Method, which is applied by Dr. Khilanath Bastakoty of Nepal, Gemologist Howard Beckman and Astrologer Shyamsundara of USA, Astrologer Pandit Vidyadhar Shukla of Thailand, and many others. *1/, *2/

3. However, many practicing astrologers are advising the client to wear a gem that signifies the weak planet in the astrological chart in order to propitiate planetary weaknesses. In their opinion, wearing a gem for a planet which causes suffering due to unfortunate positioning at the time of a person's birth will propitiate that planet or cause it to give less trouble.

4. Regarding the continuing debate on anukula (favorable, risk free) and pratikula (unfavorable, appeasement) gemstones, Shri Sanjay Rath, in principle, supports the use of anukula gemstones and would recommend a pratikula gemstone only if it was involved in a strong favorable yoga in a kendra (quadrant). He has advised the gemstone of lord of dharma (9th house) and lagnesha as it is a *no risk* method and enhances the good qualities and sattva guna. *3/

TEN PRIMARY GEM CHOOSING METHODS

5. The ten primary gem choosing methods compiled by Mr. Richard S. Brown of PGA are as follows: *4/

- 1) Lagna Lord's gem method
- 2) Moon Rasi Lord's gem method
- 3) Maha-dasha Lord's gem method
- 4) Weak (malefic) Planet's gem method
- 5) Strong (benefic) Planet's gem method
- 6) Fadic number method
- 7) Gem of 11th lord method
- 8) Gem of 10th lord method
- 9) Gem of 9th lord method
- 10) Gem donation method

6. It is wrong to suggest the gem governed by the malefic planet to mitigate the evil effect assuming that the planet in its period will give adverse results to a native and such chosen gem is actually doing harm to the consultant. When a house is in fire, it is to throw water and sand in stead of pouring highly inflammable ones on the fire. Therefore, the auspicious planet's gem is to be suggested. *5/

7. By having the benefic who gives the gem as the significator of 2nd house is also the significator of 11th house, the native enjoys. But those people having a gem during the sub period of the 2nd house that is also the significator of houses 8 and 12 suffer. Hence, one should select such a gem, the lord of which is the significator of house 1 or 2 or 11 and has nothing to do with house 8 or 12. (6th house is not included.) *5/

8. It has been guided to use the color or the gem or mental which is indicated by the sub-lord of house 1 or 11 or both if the sub-lords are not at all connected in any manner with house 6 or 8 or 12. If the sub-lord of the cusp 1 or 11 happens to be the significator of house 6 or 8 or 12, it is to reject the color or gem indicated by such a sub-lord. *6/

9. It has been recommended to find out the strongest significators of the houses 1, 10 and 11, when one can maintain health, come out successful in his efforts, earn a name, have outstanding report and gain his objective. Even though the 11th house is Bhadhaka for movable signs, in one's lifetime, the 11th house promises realization of ambition, success and prosperity. So the 11th house is very good. Houses 2 and 6 are good for money matters, but no good for health. The 6th house is necessary for a business man to have overdraft facilities. *7/

10. The Gems indicated by the planets are given in the Table 1.

Table 1: Choice of Gems for Favorable Planets (*6/ & others)

N	Planet	Principal Gems	Substitute Gems	Mental
1	Sun	Ruby	Red Garnet	Gold
2	Moon	Pearl	Moon Stone	Silver
3	Mars	Red Coral	Blood Stone	Gold
4	Mercury	Emerald	Green Jade	Gold
5	Jupiter	Yellow Sapphire	Yellow Topaz	Gold
6	Venus	Diamond	Opal	Silver
7	Saturn	Blue Sapphire	Amethyst	Silver
8	Rahu	Goemdak/Gomed	Hessonite	Silver
9	Ketu	Cat's Eyes	Beryl	Gold

CHOICE OF GEMS BY KP

11. In the choice of gems by KP, the preference has been given to the gems indicated by the sub-lord of house 11 or 1 or 9 or 10 in accordance to the needs of native. The gem indicated by the sub-lord of 10th house can be beneficial to the native in case it is a significator of house 2, 6, 10 and 11 but not connected with the 8th house. For a business man, the gem indicated by the sub-lord of 11th house can be beneficial in case it is connected with houses 2, 7 and 11 but not with houses 5 and 8. For a politician, 10th sub-lord's signification of houses 1, 6, 9, 10 and 11 are desirable. *8/, *9/ & *10/

AN ALTERNATIVE CHOICE

12. The KP horary chart has also been applied to choose the gems by KP principles. *9/ The alternative but not so accurate choice of gems as per rising signs of Ascendant is shown in the Table 2. The different colors of gems and houses owned by planets may be helpful in choosing the most appropriate gem.

Table 2: Choice of Gems for Rising Signs of Ascendant (*6/ & *8/)

N	Rising Sign	Gems Suggested	Planet Indicating Gems	Houses Owned by Planet
1	Aries	Amethyst	Saturn	10 & 11
2	Taurus	Emerald	Mercury	2 & 5
3	Gemini	Aquamarine	Mercury	1 & 4
4	Cancer	Ruby	Sun	2
5	Leo	Ruby Diamond	Sun Venus	1 3 & 10
6	Virgo	Sapphire(Blue) Sapphire(Yellow) Sapphire(White)	Saturn Jupiter Venus	5 & 6 4 & 7 2 & 9
7	Libra	Opal or Diamond	Venus	1 & 8
8	Scorpio	Topaz	Jupiter	2 & 5
9	Sagittarius	Turquoise	Venus Saturn	6 & 11 2 & 3
10	Capricorn	Garnet	Sun	8
11	Aquarius	Sapphire (Blue) Sapphire (Yellow) Sapphire (White) Amethyst	Saturn Jupiter Venus Saturn	1 & 12 2 & 11 4 & 9 1 & 12
12	Pisces	Aquamarine	Mercury	4 & 7

EFFECTIVENESS OF WEARING GEMS

13. According to Gururji KSK, anyone, putting on the gems of the strongest significators of the beneficial houses is lucky. Only when luck is to be enjoyed shortly, he will or she will acquire this color; we attribute the luck to the gem.*7/ Truth is this: Acquisition of any Gem is indicated mostly by a benefic. So one acquires when the period of that planet operates. So, when you put the gem, that good period operates and so you enjoy and you attribute to the gem.*5/ Only a few KP articles have been found regarding the effectiveness of wearing gems. *8/, *9/, *10 & *11/

14. Sri Yogananda has mentioned how the period of his predicted ailment was shortened by an astrological bangle suggested by his Guru, Sri Yukteswar. *12/ The wearing of gems is still very widely practiced, for instance by almost all Indian PMs. Napoleon Bonapart, Alexander and Julius Caesar were known to have intense belief and interest in gemstones.

15. In the case of Princess Diana, the Blue Sapphire was chosen for her engagement ring perhaps according to a traditional belief that it is useful to maintain harmony and good relationship among the partners. *6/ The Blue Sapphire is the gem for Saturn, which is the sub-lord of 10th and 11th cusps and a significator of houses 1,2, 3 at the planet level and houses 7, 9 at the star level in her KP chart (01-07-1961, 18:45 GMT, 52N50, 00E30). Saturn is conjoined with Jupiter which is in 2nd house and lord of 4th house. So the Blue Sapphire is supposed to be the best choice by KP. A Vedic astrologer also might advise the same because the lord of 2nd house (precious stones) Jupiter (as per Vedic chart) is

conjunct with Saturn in Saturn's own sign giving rise to Guru-Shani Yoga (bestowing wealth etc.) even though Saturn owns a Vedic natural and functional malefic 3rd and 4th houses. The results are mixed with sadness and betrayal by her loved ones and reaching to a height of fame to be declared by PM Tony Blair after her death as the People's Princess.

OBSERVATION

16. As per KP, the gem indicated by the most beneficial planet in the KP chart is to be chosen. However, this subject of two opposing methods in choosing gems and the effectiveness of wearing gems calls for an independent research.

17. Some words of caution are necessary. Firstly, by strengthening a malefic planet which is conjunct or aspecting another planet, there is danger of harming that other planet. *13/ Secondly, benefics when weak are usually safe to strengthen. *14/ Thirdly, the wearing of a gem with major flaws may be harmful. *15/ Fourthly, it is better not to use the gem when there is any doubt whether the planet is malefic or benefic. *10/ Finally, in Mr. Kanak's personal view, it is not advisable to wear any gem to any native because the success giving houses for the native may be the undesirable houses of Badhaka, Marka, Moksha, 10th (retirement from this world) and 4th (end of everything) for the native or the native's family members like parents, children and brothers etc.

During our Chennai trip, we meet Mr. Vasant. He gives us idea how to select correct fruitful RP. As per our discussion at that night I and Khattaer ji mix up to match box and divide randomly. Now we don't know how many sticks are there in the match box.

I do this work on 13/8/2007 at 14.59.59 Ahmedabad.

Asc.07.23.31.14 Mar-Mer

Moon 04.01.35.11 Sun-Ket

Day lord: Moon

To find out fruitful planets, we have to check all the nine planets.

HOW TO CHECK THE NINE PLANETS?

First we find out from all the nine planets which are in sign-star-sub within RP.

Sun is in Moon sign, Mer star, Jup sub. Moon and Mer are in RP but Jup is not in RP.

Moon is in Sun sign-ket star-Ven sub. Ven is not in RP.

Mar is in Ven sign-Moon star and sub. Ven is not in RP.

Mer is in Moon sign-Mer star-Mar sub. All three are from RP.

Jup is in Mar sign-Sat star-Jup sub. Sat and Jup not in RP.

Ven is in Sun sign-Ket star-Moon sub, all three are from RP.

Sat is in Sun sign-Ket star-Sun sub. All three are from RP.

Rah is in Sat sign-Rah star-Mer sub. Sat and Rah are not in RP.

Ket is in Sun sign-Ven star and sub. Ven is not in RP.

If we check above nine planets, we find three planets are in all the sign-star and sub of RP. And these planets are Mer-Ven-Sat. Now we have to select only one from these three. So we again check it. Moon is as a daylord. Daylord is weak RP, and Moon is in Mer and Ven so we omit these two. Now we have only one, i.e. Sat.

After this we find out the horary number where sat comes as a sub lord. But we have to keep in our mind that in this match box maximum number of sticks will be 20(match box we take was from the hotel).

In Horary number 8, 16 where Sat comes as a sub lord. So I select 16 sticks—and actually when I counted, there were 16 sticks.

While Rajeev Khattar ji's visit at my home again we try to predict on the same system. Rajeev ji wrote one number within 249 and I tried to find out what was that number; but in our work, we very badly failed. So the readers may do experiments and inform me whether this method works or not.

One of my friend, a KP enthusiast by himself, asked me to delineate, if he would gain wealth from a contract signed between himself and commonwealth college, UK for sending students from India. He gave me the horary number 96 for this question.

The chart was prepared on 18-07-2007 at 15-57-01 Hrs at Bangalore. The chart at the casting time is produced herewith.

The chart is being analysed as follows:

The Query

Look to the position of Moon, which appears in Lagna close to the cusp, indicating that the native's mind is focused on to establish himself by this career opportunity. Since, Moon falls in 3-6-10-12th cusp, it indicates his concern on the modalities of the contract (3rd cusp), gain from the party (6th cusp), career building through this proposition (10th cusp) and association with the foreign land (12th cusp). Moon is a strong planet, as there is no planet in its star; hence the concern of the native is much focused.

Take note of the sub-lord of Lagna, which is Mars, a very strong planet, as there is no planet in its star. Mars is placed in 9th house as 4th and 9th lord, indicating the activities related to the education (4th house) in the distant land (9th house). Mars falls in the star of Venus, which is 3rd and 10th lord, suggesting the scope of career activities (10th house) building through the contract agreement (3rd house).

Thus, the mental focus on the query was established in the prashna chart. Hence, it was reasonable to proceed for analyzing the query.

The co-ordinates for judgment

In the query of this nature, Lagna represents the native who raises the question and the 7th house represents the party at the other end with whom the contract is being built.

3rd and 9th house represents the contract document mutually signed between the 2 parties and its fruitfulness to meet the desired results is represented by the linkage of 3-11th cusp with the 11th house. Since, the query happens to be the gain of earning through the said contract; these houses should be usefully linked to the 2nd house.

Analysis of the chart

- Let us see, if the contract built between the native and the commonwealth college, UK is lucrative to the native.

Note that the 3rd cuspal sub-lord is Moon, which is in the sub of Rahu that being the sub-lord of the 9th cusp. Thus, the 9th cusp (contract terms of the commonwealth college) would dominate the activities of the native's activities and initiative (3rd cusp). Cuspal sub-lord of the 11th cusp is Sun, which falls in the sub of Rahu, thus the 11th cusp establishes its link with the 3rd and 9th cusp. Hence, the 3-9-11th cusps are interconnected.

Sun as the 11th cuspal sub-lord is a strong planet, as there is no planet in its star. Note that the Sun as lagna lord and the 11th cuspal sub-lord is placed in the 11th house, thus there is a fair ground to believe that the contract drawn between the native and the commonwealth college would be beneficial to the native (11th cusp), in principle, enhancing the status of the native as a lead contractor (1st house) for the commonwealth college admissions.

- Look further to the 11th sub-lord Sun. Sun is in the star of Venus placed in 12th house and lording 3rd and 10th house. Since, both 3rd and 10th houses are occupied, Venus would only be the weak significator of the houses lorded and would mainly signify the 12th house. Thus, the matters of 12th house (foreign connection) gets in force in priority by the 11th sub-lord Sun through its star lord Venus.

Now, note the sub-lord of Sun that is Rahu placed in 6th house. Rahu disposes Saturn (its sign lord) and since Saturn is the sub-lord of 2nd cusp of earnings. Note that the Saturn is in the star of Ketu that disposes Sun, which is the sub-lord of 11th cusp and placed in the 11th house. Thus, the 11th cusp gets favourably connected to the 2nd cusp.

Till now, the establishment of the mutually favourable link amongst the 11th cusp with the 2nd and 6th cusp suggests that the contract deal shall be beneficial to the native for monetary gains.

Timing the financial gains

- At the time of prashna, the native was running the dasha of Venus and bhukti of Rahu ending Jan-2009.

Venus as dasha lord is placed in the Ketu's star in 12th house bringing the focus on the activities connected with the foreign land (12th house). Since, Ketu disposes Sun placed in 11th house, the foreign land (12th house) may confer gains to him (11th house). Further, since Venus is placed in the sub of Rahu placed in 6th house, the connection is extended to the 2-11th cusps and Venus dasha may be taken as the fruitful period for the native to proceed in the proposed business venture.

- Look to the Rahu bhukti. As analysed earlier, Rahu is a very favourable planet to start the business venture as it is placed in the 6th house in own star and sub of Mercury as 2-11th lord placed in 10th house. Mercury would strongly dispose the 2nd house, as it is vacant, thereby conferring a reasonable earning out of the said business venture. Thus, Rahu bhukti is the right time to start the venture.

Thus, it was assessed and communicated to the native on the same day that he may very well proceed to take up the proposed business contract with the commonwealth colleges at UK and he has fair chances of success in gaining wealth through the proposed contract proposal.

However, the results are awaited.

The principle propounded by Guruji Prof K.S. Krishnamurthy, which is known as KP system, is a fantastic dogma by which accurate results are obtained.

Guruji has taught the world that an event will take place during the dasha, bhukti and antara of significators of a particular event when transits too agree.

Based upon this principle, the author has attempted to arrive at the exact marriage date of natiivities and two examples are given below with the analysis.

Since the subject is marriage, the marriage took place during the dasha, bhukti, antara of significators of 2,7,11 and when the planets transited in the stars of the significators of 2,7,11. Besides, for an event, Jupiter will signify year, Sun will signify month and Moon will signify the day. This means that whenever Jupiter, Sun and Moon travels on the stars of significators of 2,7,11 marriage will take place.

Now, let us examine the following natal horoscopes:--

EXAMPLE NO. 1

MARRIAGE TOOK PLACE ON 11TH APRIL 1988

WHETHER MARRIAGE PROMISED OR NOT.

If 7th CSL signifies 2,7,11 marriage will take place.

7th cusp sub lord is Ketu. Ketu signifies 2 and 7 as per the signification chart above.

Ketu is in Mars star, and Mars signify 2, 7, and 11th, Rahu is in 11th house in Ketu star and signify 11th.

Since Ketu / Mars signifies 2, 7, and 11, marriage is promised.

D / B / A

Marriage will take place during the D / B / A of significators of 2,7,11 houses.

Marriage took place in Rah VMD, Moon Bhukti, Jupiter Antara, Mercury sookshma on 11th April 1988. As per the chart of significations above, Rahu, Moon, Jupiter and mercury are significators of 11th house.

TRANSIT.

Marriage will take place during D / B / A of significators of 2,7,11 houses, and when transitory positions of planets agree.

Planet	Longitude	Star	Star lord	Houses Star lord signifies:-		
Sun	27 Pi 49	Reva	Mer			11
Mon	15 Cp 58	Srav	Moon			11
Mar	09 Cp 11	USha	Sun			11

Sat®	08 Sg 51	Mool	Ket	2	7	
Rah	28 Aq 06	PBha	Jup			11
Ket	28 Le 06	UPha	Sun			11

JUPITER SIGNIFIES YEAR OF EVENT.

Jupiter was placed in Venus Star Bharani. Venus is not signifying 11th house, but is placed in Saturn star pushya, and Saturn is signifying 11th house.

SUN SIGNIFIES MONTH OF EVENT

Sun was placed in Mercury star Revati, and Mercury signifies 11th house.

MOON SIGNIFIES DATE OF EVENT.

Moon was placed in own star shravana and Moon signifies 11th house.

The day was a Monday on 11th April 1988 ruled by Moon, who is the significator of 11th house.

EXAMPLE NO. 2

MARRIAGE

7th cusp sub lord when signifies 2,7,11, marriage will take place.

7th cusp sub lord is Sun.

02=Saturn Bhava lord in Sun's house Leo.

07=Saturn is the occupant of 7th house and is in Venus Star. Sun too is in Venus star.

11=Mars is Bhava lord. Mars is conjoined Sun in 3rd cusp. Sun is in Mars house and Mar sub.

Hence Sun signifies 2,7,11 for marriage.

Marriage took place on 07th November 1997 at 12-00 pm on a Friday during Sat VMD-Mer Bhukti-Ven Antara-Ven Skooshma period under the following transitory positions:--

IMPORTNACE OF MUHURAT AS PER KP SYSTEM

Internet Group Starting Muhurat

There is nothing more on Muhurat Chart in KP books. When I was a student of Vedic Astrology and joined the School of Astrology, in advance course, I learnt on Muhurat and specially with reference to the book "MUHURAT MARTAND".

When first time I predicted using MUHURAT chart very correctly about Discovery Shuttle Launch, my friend Sri Tin Win ji sent me a good Vedic Muhurat book "CLASSIC MUHURAT"-By Ernest Wilhelm as a gift. After reading the book I thought to do more work on muhurat chart in KP.

First let us see what is Muhurat?

An auspicious time to start any event is a Muhurat. The chart for that special moment is MUHURAT CHART. Here it should be clearly understood that **WE HAVE TO TAKE MOMENT OF STARTING, WE DO NOT CARE WHEN THE EVENT GETS FINISHED**. We take only time when we start.

In the following example I took the time Internet group was started.

Now I discuss why this group closed. Detailed analysis is as under:

Date of Joining: 29/12/2005

Time of Joining: 06.46.00AM

Place of Joining: Stevensville-Maryland-USA.

Very important point in any MUHURAT chart is, never select MESHA, KARKA, TULA AND MAKAR rasi as a Lagna. These four Rasis--MESHA, KARKA, TULA and MAKAR are CHARA Rasis and for Chara Rasi the 11th cusp is Badhaka Sthana. When we do special work we always think for long life of that work, and for long life/longevity of event we have to look at the Asc sub lord. For good longevity if we set time when Asc sub lord signifies 1,5,11 that means good longevity. And if we take Chara Lagna i.e. MESHA, KARKA, TULA AND MAKAR 11th is not good but becomes a Badhaka. So we should avoid Chara Lagna for any Muhurat.

Role of Asc. and 8th Sub lord

In this case Asc and 8th sublord is Moon. Moon is in the star of Mer and sub of Sun. moon is in 12 (Moksha), L/o 8 (Anxiety), Mer is in 12 L/o 7 (Maraka), 10, Sun is in 1 L/o 9. So it is clear that there is no long life, only 1 supports long life and rest indicate Balarishta.

Role of Running Dasa:

Running Dasa when group started was Mer-Sun-Sat

Dasanath Mer

MER is in the star of self and sub of SAT.

MER is in 12 lord of 7(Badhaka). SAT is in 8(Anxiety), lord of 2(Maraka), does not indicate good life but supports Balarishta.

Bhuktinath Sun

Bhukti lord is SUN up to 10/06,2006

SUN is in the star and sub of VEN.

SUN is in 1 lord of 9. VEN is in 1 lord of 6, 11. This bhukti is not harmful for the group

Next Bhukti Moon

Moon Bhukti starts from 10/6/2006 to 10/11/2007

Moon is in the star of Mer and sub of Sun. moon is in 12 (Moksha), L/o 8(Anxiety), Mer is in 12 L/o 7(Maraka), 10, Sun is in 1 L/o 9. So it is clear that there is no long life, only 1 supports long life and rest indicate Balarista.

Outcome: actually, this group was closed during Moon bhukti period due to Yahoo server problem. I asked group owner about closing date; but she does not know exact date. This chart is discussed here with her kind permission.

What care we have take in group muhurat chart?

- 1) If you are going to start a group for research purpose, check 9th SL must signify 9, 11. If 9th Sublord is MER or JUP it will better.
- 2) Check Longevity from asc sub lord.

How to check and what care we have to take in MUHURAT chart?

For Job:

- 1) Never consider Chara Lagna i.e. MESH, KARKA, TULA, MAKAR.
- 2) 2ND Sub lord should signify 2, 6, 11 for good earning of Money from Job and getting good chance of Promotion.
- 3) 10th /6th Sub lord should signify 2, 6, 10, and 11, for peaceful job.
- 4) Asc sub lord should signify 1, 5, and 11. For good longevity of the job.

For Marriage:

- 1) Never consider Chara Lagna i.e. MESH, KARKA, TULA, MAKAR.
- 2) 7th Sub lord should signify 2, 7, and 11. For good married life and good relations between the couple.
- 3) 2nd /11th Sub lord should signifies 2, 7, 11, for peaceful Married life
- 4) Asc sub lord should signify 1,5,11. For good longevity of marriage.
- 5) Never consider Mer as 7th Sub lord or any planet who is deposited in or in the star of Dual Rasi. Or in the star of mer.

For Launch of shuttle in space:

- 1) Never consider Chara Lagna i.e. MESH, KARKA, TULA, MAKAR.
- 2) 12th Sub lord should signify 3, 9, and 12. For good and safe journey.
- 3) 3rd/9th sub rod should signify 3, 9, 12, for peaceful Journey.

Dear Kanak Ji,

Cover page of this issue of KP Ezine is WONDRFUL

I will read the Ezine and give my feedback.

Good luck

Rajeev K Khattar

Respected Kanak ji,

The September issue of the KP Ezine is beautiful and brilliant !!. The cover design by Nair ji is very pleasant and spiritual and very innovative too.

Your editor's note is fully appreciated by me. We need to be more responsible as authors and giving permission to others. I can fully understand your position and I support it too being an Assistant Consulting Editor of IJOB.

Devaraj ji's writings will be an intellectual treat for all of us and I thank you for taking this noteworthy initiative.

May Lord Ganesha Bless you Kanak ji.

Regards and pranam,

Andrew

Dear Kanak ji,

Nameste,

I am glad to see your message.

First I want you to thank you that you offered me opportunity to contribute to KP magazine.

I could not write as I was scheduled to go for long trip to Himalayas for Jaimini learning efforts.

Just after that there was a conference at Hyderabad on KP. I had to miss it as I was tired and dates clashed.

To day I became member and got my copy of KPE Zine.

I wish to state that I found it highly enlightening effort on your part.

I read your article on OBL. (RBT)

It was educative and made me think ,That it is correct application of principals that leads to success. Your approach is excellent.

RBT (rectification of Birth time) is my favourite subject and I am working on several methods/models. If one can hit correct BT prediction are accurate. all systems included.

Dear Kanak,

I read with interest ,the latest KP-Ezine .As usual, you did a good job .

It is praiseworthy, that you have decided to give space to KB system , from next issue onwards

All the Best

Pranav

Dear Shri Kanakji,

Namaste.

Glad to see you are doing well with your great work on the e magazine. I have downloaded till today only two Copies of the magazine, because of my pre-occupation, and no other reason.

I remember, I had mentioned at the start of the issue, that You must not make the same chargeable to the readers for at least the initial couple of years.

KanakBhai, I had said so, keeping the interest and good will of your magazine in mind. But after reading this month's Editorial Note, I found that unwittingly and innocently, you have taken upon a mammoth task, and can see the Membership growing in huge numbers.

As I realised from your note, You have a membership of 750 and You are paying extra for the estimated extra limit downloaded much more than your past assumptions.

In light of above revelations, Kanak Bhai , I do not see any reason why You cannot charge for membership, now,if you are able to give quality stuff to the members, as well as your time to this work, which is finally not your time, as a grihasta , but family members time, which cannot be utilised in majority, for service to all, at neglect of others owning your time. I have done such type of work ,and spent full one year, in service to the fraternity, at loss of financial resources to my own family.

Sorry for being blunt, but You should now start with a small Fee. I suggest few options below.

1) You may fix a nominal Fee of Rs.120- to Rs.300 per annum for Annual membership.

2) This may be mandatory. Or this may be voluntary. In case this is voluntary then let the names of those who have paid , be given quarterly in your magazine, so that those who have not, would realise and remember to pay. Those who cannot pay genuinely due to
KPEzine_October_2007

their financial conditions, (which I would not believe, if they have access to net), may write to you and may be given free access, if you think right and proper.

Sir, I don't think this nominal amount cannot be paid to you, by any member, and they should do it affectionately, for your having spent time, in accumulating the best brains and putting them together with their wise astrological knowledge ,to be distributed to the members who read the same.

There should not be any second thought for demanding payment, from the the world who is too harsh, let them know that you are giving your time,energy and efforts to this work and so some considerations have to be looked into, by them too.

Magazine is just like any other business. And no harm if the profits are accrued too, you may always use them as working capital for more web features etc.

Please let me know your decision, I shall send my cheque immediately.

You may publish this mail in your magazine, if you think fit. I wish others to come forward themselves and econd my above views on the matter.

best wishes,

Bhaskar Jyotish.

My reply to Krishna ji,
Dear Krishnakumar ji,

Thanks for consider my editorial note positively.

NO I don't want to change KPEzine in to paid, at list two year I will not going to charge anything.

My, only aim is to give some educative to KP community that's all.

Many ask me that when you say it is free then why you ask charge for old issue.

Gujarati people find out any way to make money and you are doing it, so this month by force I have to published my editorial note about old issue charges.

One other way is,if I get advertisement then I will get relief from expenses. but I am not ready to ask any one for advertisement, it is opposite from my nature, so I have only one way to charge for old issue, but reader not cooperate and they ask me about old issue and when I ask charge they try to get it from other members to avoided give me charges.

You don't believe but traffic is increase by 20% per month, and I am relay afraid about it.

I am sure GOD will help me in my good work, if it is really good work.

I have decided to write a series of articles on the questions related to First Bhava. And, in this regard, this month, I have selected "BALARISHTA" as the subject and discuss two charts.

Sri KSK ji has taught us how to find out longevity.

- 1) If Asc sub lord signifies 1, 3, 5, 9, 10 then Poorna Ayushya means more than 66 Years.
- 2) If Asc sub lord signifies 1, 5, 8, 9, 10, 6, 12 + Badhaka and Maraka, then Madhya Ayushya means up to 66 Years.
- 3) If Asc sub lord signifies 6,8,12 + Badhaka and Maraka, then Alpa Ayushya means up to 33 Years.
- 4) If Asc sub lord signifies 12, 7 + Badhaka and Maraka, then Balarishta.
- 5) Death by Accident: If Asc sub lord signifies 1, 6, 8, 12, + Badhaka, native faces accident.
- 6) If Asc sub lord signifies 2, 7, 8 + Badhaka, the native will commit suicide.

I shall try to discuss all the above 6 rules each month. This month again I am going to discuss balarishta.

All the dasas indicate balarishta and even in some stage we found 5th or 9th or 11th. If other factors are stronger, the effect of balarishta wins.

PREDICTION OF PURCHASE OF LAND AND BUILDING-- KP SYSTEM -- A PERFECT SOLUTION.

By: Viswanath Nair (KP Astrologer)

Hyderabad-500 076.
Ph: Home: 040-27152868 Cell : 9440 346 285
E Mail ID: astrologervishy_nair@yahoo.co.in

One of my elder brothers, who is employed with South Central Railway at Hyderabad, was toying with the idea to buy a plot.

He called me on 20-June-2007, and wanted to know his fortune of buying a piece of land through astrological diagnosis.

Since he did not have a natal horoscope chart, I requested for a KP No. (between 1 to 249). He, without hesitation, immediately told me No.187. Having noted the time at 20-35 hours on 20-June-2007 at Hyderabad Deccan, the chart is erected as follows:--

HORARY MOON.

Moon is the significator of the mind of the querient. Moon is placed in Venus star Venus sub in 8th cusp. 8th signifies giving away money to opposite party (since 2nd to 7th). Venus signifies 7th house too, which is opposite party. Venus also is conjoined Saturn, who is the 4th CSL. Hence the nature of the query is correct.

KP RULES.

KP rules say that 4th cusp sub lord when connected to 2,4,8,11,12 and Mars, the native will buy land and building during the dasa / bhukti / antara of planets who signify these houses and when transitory positions of planets agree.

If 6th house is involved, the native will go in for a loan. If Jupiter or Mercury is involved with 6th house, loan will be from a bank or a Financial Institution (FI). If Sun is involved with 6th house the Bank or FI could be a government owned one.

2=Bank a/c, Family and Wealth, 4=land and home, Mars=land and buildings, 6=Loans, 7=Opposite party, 8=wealth for opposite party (2nd to 7th house), 11=fulfillment of desires, 12=Expenditure, loss of bank balance or issuance of cheque.

02ND & 04TH HOUSE.

In the case under consideration, 4th CSL is Saturn. Saturn, by aspecting each other with Mars, is getting connected to lands and buildings. 4th Bhava lord is also Mars. Saturn and Mars are 2nd and 4th BL respectively, and they are very well connected as said earlier.

06TH HOUSE.

Mercury and Saturn are connected with 6th house at the PCO level. Hence the querient will go in for a loan. Mercury is conjoined Sun, who signifies Government and hence the Financial Institution or Bank could be a government owned one.

07TH HOUSE.

7th CSL is Venus, who signifies the opposite party. Venus is conjoined with Saturn in 7th cusp. Hence the relationship with the opposite party is confirmed.

08TH HOUSE.

Moon is an occupant of 8th house, who is in 7th CSL Venus star Purva Phalguni. Hence the opposite party will get the money by sale.

11TH HOUSE.

11th Bhava Lord Mars is in mutual aspect with Saturn, who 4th CSL, since aspect of Saturn is very powerful.

12TH HOUSE.

12th Bhava Lord Jupiter is in Mercury star in Mars house. Saturn is in Mercury star and Jupiter sub. Hence the connection Saturn with 12th house is also established and native will lose money by paying for the cost of the land / house.

Since Saturn is 4th CSL the readings were such that the land will be smaller in size, the house will be bit dilapidated or may not be useful for housing. Since Saturn is involved, initial disappointments could be expected. There could be more than one visits for finalizing the deal or more than one party could be contacted, since Saturn is in Mercury star, as Mercury signifies duality.

WHEN WILL PURCHASE TAKE PLACE?

Currently VMD of Venus-Venus-Venus is running according to position of horary Moon. 8th house is for giving away money to the opposite party, because 8th is the 2nd house from 7th. Moon is in 8th house in Venus Star. Venus is the 7th CSL and signifies 7th and 8th. Hence deal with the opposite party as well as giving away money to them also should take place during Venus VMD itself.

At this juncture one felt that when Jupiter, who signifies 11th and 12th houses, becomes direct motion on 07-August-2007, the process of purchase should get initiated.

Moon, who signifies 8th house, is in Venus star. Hence declared that during 2nd to 3rd week of August 2007, purchase should take place during Venus-Venus-Venus-Mercury-Saturn, which of course falls between 24-Aug-2007 to 28-Aug-2007.

However, the registration took place on 20-Aug-2007 during Venus-Venus-Venus-Mercury-Jupiter period and the planetary positions are given for the day.

Body	Star	Star lord	Houses signify.		Body	Star	Star lord	Houses signify
Sun	Magh	Ketu	8		Ven	Magha	Ketu	8
Mon	Visakha	Jupiter	11		Sat	Magha	Ketu	8
Mar	Rohini	Moon	8		Rah	Satabhish	Rahu	2

Jup	Anurada	Saturn	4,7					

The querient applied for a loan with LIC Housing Finance Corporation, a government owned Financial Institute, obtained the loan by bank cheque and got it encashed on 14-Aug-07. He left by train to the opposite party's place on 15-Aug-07.

The house was a small and tiled one, which is probably of no use, and land was a plot useful for construction of a house. Querient had to make three trips to finalize the contract. He had considered more than two plots, but settled for the one, which is having a smaller house.

The KP horary system of taking a number between 1 to 249 from the querient and erecting a chart accordingly is a fool-proof system of astrological diagnosis. Probably no one has ever done such an accurate astrological research other than Prof. KSK done in his lifetime, and the solution offered is perfect in nature.

SUSPENSION / FIR/COMPROMISE AND REINSTATEMENT

By: DR. H.S.NAGI,
9/43 Punjab Agricultural University
Mob. 094177 17910,
EMAIL bkhardeep@yahoo.com

The story was started where a person beat up his colleague and was suspended. The other party lodged FIR, so he was tense to know what would happen.

The accused gave me number 245 to know whether he will be arrested or there will be compromise or he will be charged in other case or he will get bail? I calculated it at 15-55, at Ludhiana, on 16-8-2007.

Let us check what the Moon reveals.

The Moon is in the star of the Sun. The Sun is lord of 6 in 5. Establishes relationship of mind with thoughts of reinstatement.

Will he be imprisoned?

KP Rules for Jail:

1. 12th sub lord should be Rahu
2. It should not be in the star of a retro planet..
3. It should be the significator of either 2 or 3 or 8 or 12th house.

In this case, these conditions are not fulfilled as the sub lord of 12 is Sat, not Rahu.

Hence No Jail.

Rule

If the sub lord of 10th house or the sub lord of 6th house signifies 8 or 9 or 5 then the person may be suspended or dismissed.

For reinstatement 10th sub lord or 6th sub lord should be connected with 2 or 6 or 11..

Analyses

Here the 10th sub lord is Moon. Moon is in sun star. So strongly signifies 5th house. Moon is in the sub of Venus. Venus is in Ketu star. Ketu is in 6. So 10th cusp sub lord Moon assures reinstatement.

6th sub lord mercury is in its own star. So signifies 5-4-7 houses. Mercury is in sub of Saturn. Saturn has signification of 6-5-11-12. In this way mercury got signification of 6 and 11.

Dasa/bhukti analyses

At the time of judgment he was passing through Sun dasa, Venus bhukti and Saturn antara..

Let us check the Sun.

+ These planets do not have any planets in their stars.

(G) Denotes geocentric correction applied to latitude.

Dasa lord Sun is in 5 in star of Mercury. Mercury is in 5. The Sun is lord of 6 . 5th house is 12th to 6 (service). So dasa lord plays role in suspension. But sun is in sub of Saturn. Saturn is in 5 but in the star of Ketu. Ketu is in 6. So Saturn is a strong significator of 6th house. It means he will be reinstated and continue in service.

Bhukti lord is venus.

Venus is lord of 3 (compromise) and 8 (for compromise he has to apologize and in apology, he will feel humiliation). Venus is in star of Ketu. Ketu is in 6. No danger to service.

Antara lord Saturn.

Saturn is lord of 11 (fulfillment of desire) and 12 (expenditure). In the star of Ketu. Ketu is in 6. So he will continue and will be reinstated in Saturn antara itself.

How much time it will take for settlement?

If the 11th cusp sub lord is a fast moving planet and posited in a movable sign, then fructification will be quick. If it is in a common sign, it will delay. If it is in a fixed sign it will be more delayed.

If it is a slow moving planet then it will take longer time then above mentioned.

Here 11th cusp falls in movable sign. So matter will fructify early. 11th cusp sub lord is Moon. Moon is in common sign. So it will be delayed a little bit.

Actually what happened, the person who was beaten up, wanted written apology to him. But the querist had more ego, he wanted the written apology should be kept with seniors only. So due to ego clash the matter lingered on and on 26th August it was settled down.

To win in the court case I check 6th cusp sub lord. It is Mercury, lord of 4 and 7 in 5. Since mercury is in its own star, I take its sub lord Saturn as its star lord. Saturn is lord of 11 and 12 in 5, it is weak signification of 12 as there is Rahu in 12. So it signifies 5 and 11 strongly. Saturn again is in the star of ketu in 6.

Analysis

Ve, the cuspal sub lord of 7H of opponent is in retrograde mode, an indication that the opponent will retrace his steps. In other words, it means, the opponent will not proceed with the case.

The Dashalord Sun, though rules 6th house of conflict is a significator of 5 house , that doesn't promote litigation.

The sub period ruler Ve rules 3rd house of compromise .Though Ve rules 8 house of court room and to go underground, Ke is in venus star and obviously Ve cannot be deemed as a powerful significator of 8 house. Ve is posited in the 5th house. Here the positional status of Ve in the 5 house and its feeble indication of 3 house (as it is ruler) will come to the help of the querist.

The Result

The querist made compromise with the victim on 27-8-2007. He has gone to take orders for reinstatement.

Actual happening

The querist and opponent both agree for agreement outside after 2-3 denials. Finally, they gave their compromise note to the court on 6th of September, I got information that after submitting their compromise in the court now everything is settled down and he is back on his regular job.

When will my daughter come home after shopping?

On July 28, 2007, my daughter went to shopping and was scheduled to come back by evening. Being enthusiast of KP astrology, I ventured to find out when would she come home.

With this intent in mind, I casted a prashna chart at 15-12-29 Hrs IST at residence to know the outcome of my query.

The chart at the casting time is produced herewith.

The chart is being analysed by the application of ruling planets as follows:

The Query

Look to the position of Moon, which appears in 5-7th cusp indicating my concern about my daughter (5th cusp) and her being out of the house (7th cusp being 3rd from 5th cusp). Thus, the mental focus on the query was established in the prashna chart and it was reasonable to proceed for analyzing the query.

The co-ordinates of judgment

This query has been handled by the application of ruling planets and employing the transit of Lagna and Moon to handle the outcome.

Since, the query happens to be the coming home of my daughter, the 4th cusp (home), 5th house (daughter) and realization of ambition (11th cusp) was in focus.

The methodology was to note the ruling planets and validate each of them who could be useful to fructify the event. The ruling planets were validated in the shade of cuspal interlinks. I have not considered the retrogression of planets.

Analysis of the chart

- Let us note the ruling planets at the time of query.

At the time of self-query, while the Lagna was transiting in Mars sign and Mercury star, the Moon was transiting in the Jup sign and Venus star. The day was Saturday.

Thus the ruling planets were Mercury-Mars-Venus-Jupiter-Saturn.

+ These planets do not have any planets in their star.
(G) Denotes geocentric correction applied to latitude.

- Ø Mercury does not have any planet in its star, thus is a powerful planet and effectively lords the 11th house. The placement of Mercury in 4th cusp as cuspal sub-lord indicates its lead role in bringing my daughter home.

Mercury is deposited in Jupiter's star placed in 4th cusp and in the sub of Saturn taken to signify the 11th cusp, as Rahu as sub-lord of 11th cusp disposes Saturn.

Thus, Mercury has a lead role in the query.

- Ø Mars also does not have any planet in its star, hence powerful but effectively lords only the Lagna, as it is vacant. Though, Mars does not have connection to the 4th house, it gets placed in 11th cusp, hence looks useful.

Mars is placed in the star of Sun, not connected with either of the 4th or 11th cusp. Mars is placed in the sub of Rahu, which is the sub-lord of the 11th cusp.

Since, Mars does not have any connection with the 4th house, it may not indicate coming home and fructify the query.

- Ø Venus effectively lords 7th house meaning the roaming of my daughter in shopping (3rd from 5th cusp). Venus gets placed in the star of Ketu, which disposes Sun and Venus as sign and star lord. While, Sun does not support either of the 4th or 11th house, Venus falls in the sub of Jupiter placed in 4th cusp, thus, Venus could be useful to bring to fructify the query.

- Ø Jupiter effectively lords 5th house. Jupiter in the star of Saturn signifies the 4th cusp and the 11th cusp by way of being disposed by 11th cuspal sub-lord Rahu. Jupiter in its own sub signifies 4th cusp strongly.

Thus, Jupiter was rated useful to fructify the query.

- Ø Saturn lords the 4th house effectively and gets disposed by the 11th cuspal sub-lord Rahu, thus completing the 4-11th cuspal connection. Saturn is thus useful to fructify the query.

It may be noted that I have not considered the retrogression of planets in any way.

Timing of coming home

- First of all, it should be prudent to know, whether coming home of my daughter would be in time or late.

For this reason, take note of the 11th cuspal sub-lord Rahu that disposes Saturn, indicating me that her return may be late and beyond my expectation. This gave me sufficient hints to look for the lagna operative in late hours and was contended because serious shopping in Bangalore is all the way time consuming.

- In the process of timing the coming home of my daughter, I looked at the Moon.

At the time of prashna, the Moon was transiting in the sign of Jupiter, star of Venus and sub of Jupiter. Since, the Moon was to transit Venus star even after midnight and because of the fact that Venus was an useful RP, I resorted to look which sub in the Venus star could be conducive to bring her back, looking to the indications of her late coming.

- Ø Moon in Jup sub in Jup sign and Venus star was transiting till 17-03 Hrs
- Ø Moon in Saturn sub in Jup sign and Venus star was transiting between 17-03 to 20-54 Hrs
- Ø Moon was to start transiting Mercury sub in Jup sign and Venus star from 20-54 Hrs

Since, all the Jupiter, Saturn and Mercury as sub-lord of Moon were amongst the fruitful RPs, I thought it prudent to zero it down to Mercury sub, as it had the lead role in bringing back my daughter.

Thus, Moon transiting in Jup-Ven-Merc was the selected time starting from 2054 Hrs. As said already, the indicated delay as seen by the 11th cusp prompted me to reach to such conclusion.

- Next was to look at the Lagna.

I directly looked at the lagna at 2054 Hrs at the time of entry of Moon in Mercury sub.

The Lagna at that time was transiting in Aquarius sign in Saturn-Rahu-Sun-Moon. I was satisfied with Saturn as sign lord and Rahu as star lord as both signify 11th cusp.

I left at that point and decided to check the outcome in actuals, may be my patience of calculations was over. Thus, it was assessed that my daughter would come home after 2054 Hrs only.

Facts of the case

It was a pleasant surprise when the bell rang at 2056 Hrs and my daughter entered home with lot of shopped items at the time when the Lagna was transiting in Saturn-Rahu-Sun-Mercury.

Though, the lead role of Mercury as lagna's sub-sub lord was noticed, I was left perplexed why Sun as sub lord of the Lagna fructified the results.

However, I was happy to at least come closer to the timing of the event.

Introduction to K.B. System :- Part : 1

By: A. Devaraj (Jyothish Kalaa Rathna)
Sri Bruhaspati K.B. Jyothish Training School,
No, 68. P.G. Avenue, 3rd St., Kattuppakkam,
Chennai-600056, Ph.044-24765320, Cell: 9382339084.

I heartily worship and submit this article at the feet of our beloved Guruji, Jyothish Marthand Prof. K.S. Krishnamurti, the founder of the K.P. Method Astrology. He lived at Madras. He was the first man to sort out the new method of calculation in the field of astrology through scientific way. He made a very strong base for the Stellar Astrology

Before the period of K.S.K the history of astro-philosophy had lots of confusion and controversies. In my point of view, after K.S.K entered, he done away with unwanted things in the field of astrology and newly constructed astrology with scientific methodology. This methodology definitely reduced the confusions and controversies in the field of astrology. If anybody wants to develop the astrology field, first he will have to start research from K.P system only.

On the basis of our beloved Guruji K.S.K.'s principles, my Guruji Prasanna Jyothidamani. K. Baskaran, Madurai, invented and created the new methodology in astrology called the K.B .System (Krishnamurti-Baskara system). I hope, the K.B. system is the first renovated system in the history of astrology after K.P system and the Jyothish world would accept this method very soon.

Before we start to know the principles of K.B System, I want to explain the readers, how the K.B. System scientifically differs from K.P. System. Here I am not criticizing K.P system or K.P followers. Readers may please justify the difference in between the two systems.

1. K.P System: For Marriage, the 7th cuspal sub-lord should be connected with the 2, 7, 11 houses.

K.B. System: For Marriage, Lagna and 7th Cuspal sub-lord should be connected with the 5, 7, 11 bhava sub-lord.

Reason: The 1st and 7th bhava indicate the Husband and wife running the family life with the recognition by the society. 6, 12th bhava are the 12th bhava to the 1st and 7th bhava, indicating the separation of the Husband and wife relationship before the society.

5, 11th bhava is the 12th bhava to the 6, 12, indicating the thickest affection relationship between the husband and the wife.

Then, 2nd bhava is the 8th bhava to 7th bhava. So, the 2nd bhava gives opposite response to the marriage. So the 2nd bhava should not be taken for the marriage purpose in the K.B method.

2. K.P. System: In this System to predict the results of any one planet they consider by the star lord and sub-lord of the Starlord. These planets' owning houses, residing houses, aspect of the planets, aspect to bhavas, and retrogression and exaltation of the planet are taken into consideration.

K.B. System: In this System to predict the results of any one planet we consider by the star lord of the planet, sub-lord of the planet, and consider cuspal inter-links of these planets.

Reason: Approximately Two hours will take to move the Lagna from 0 degree to 30 degrees in a bhava. Some planets may be positioned in the lagna with exaltation, retrogression, aspect, conjunction, ownership of the lagna. If we give the same result to all the persons who own the same lagna within the KPEzine_October_2007

period of two hours, how can they give the same result to all the persons? Scientifically the result will not coincide with all the persons.

But the Bhava cusps move rapidly, within a minute some bhava sub-lord will change and we can find-out the differences. So the K.B system gives importance to the cusps only. Readers please think, "no two human beings are alike in lives", all human beings are different from each other in thinking, living etc...

3. K.P. System: Any bhava connected to the 11th bhava means that bhava will give good and successful result. Mostly this method is handled in the Horary method.

K.B. System: Concerned bhava's successful result will be determined by its 11 bhava. This method is also adopted in the Horary method.

Reason: For example, we will take the 4th bhava. 11th bhava is the 8th bhava to 4th bhava. For example we take the House construction which is indicated by the 4th bhava karaka. Here 11th bhava is the 12th bhava to 12th bhava. 12th bhava indicates the investment for house construction. Let us take the current dasa; bhukthi is connected with the 11th bhava.

According to 11th house, it will not give the sufficient investment to the construction work; the house work will stop with incomplete stage and failure in the construction. 2nd house is the 11th house to 4th house, refers to own money and 2nd bhava is the 3rd bhava to 12th house; indicates the investment of money for construction of the house successfully (2nd bhava connecting dasa, bhukthi)

I request the readers to think of the other houses in the same method.

4. K.P: From lagna bhava 1, 2, 3, 6, 10, 11 bhavas are considered as developing bhavas. These bhavas give benefits and 4, 5, 7, 8, 9, 12th bhavas do not give the benefits.

K.B.: From the concerned bhava 1, 2, 3, 5, 9, 11 bhavas give good and benefic results; 4, 8, 10, 12 bhavas give bad and 6, 7th bhavas give neutral effects (not good and not bad) to the concerned bhava.

Reason: For example 2, 6 bhavas are 8, 12th bhavas to 7th bhava. So the 2, 6 bhavas gives trouble to the wife in the marriage life. Like that 3, 11th bhavas are 8, 12th bhavas to 4th house. So these give trouble to properties.

In the same way 5, 9 bhava comes 8, 12 bhavas to the 10th bhava. 4th house comes 8, 12th bhava to 5th and 9th bhavas. Also 4th house comes to 3rd house to 2nd bhava. So 4th house does not give any disturbance in profession and no lack of money transaction.

Thus, each bhava rules on other 11 bhavas, and gives different results like positive for some bhavas and negative result to some bhavas.

So, in the K.B. method, each and every bhava gives the result or response according to the connection with other bhavas, counting from the particular bhava.

5. K.P System: One bhava's fate is determined on the basis of the bhava cuspal sub-lord and it's star lord positioning in the bhava: exalted, retrograde, conjunction, aspect, positions.

K.B System: One bhava's fate is determined on the basis of bhava cuspal sub lord and it's star lord and sub lord are connected with other bhavas cusps (inter-links) will determine the fate.

Reason: Example, take the Venus is the 7th bhava's sub lord. It will stand in the same position roughly about 9 minutes (that is 7th sub lord Venus). In the K.P method, in-between the period of 9 minutes (who are born they get the same effects) marriage life fate, good or bad response are the same.

But in K.B. we take care about the bhava sub lord only. If the 7th bhava sub lord is Venus, It moves in the particular sub for about 9 minutes. But within the time of a minute the sub lord Venus star lord will change and the fate response will automatically change within the one minute.

6. K.P System: 9 planets and 12 bhava karakas explained in the old pattern style.

K.B System: Planets karaka explained on the base of the bhava cuspal links. 12 bhavas and 9 planets are sorted out to modern period like lagna dependent and lagna non-dependent. Each bhava has twelve bhava karakas and they give 12 types of responses in the easy way.

Reason: K.B's important rule is each and every bhava connect with other bhava gives a different result. That is, it gives one result to the lagna bhava and other result to own bhava..

For example, in the 6th bhava disease is the lagna depended karaka, and loan is the lagna non-dependent karaka. If you want to analyze the lagna dependent karaka (disease) we should analyze from the lagna. If you want to analyze the lagna non-dependant karaka (loan) analyze from the concern bhava. Thus K.B. Methodology is a newly formed method with multiple angles to predict the results of the horoscope.

Generally, 10th bhava indicates profession. But each bhava has a karaka for profession. For example, the 4th bhava indicates the house, plot, vehicle, education related professions, 5th bhava indicates the profession of commission agent, fine art, cinema, drama, politics related professions etc. The above example is useful to analyze various charts in a new way, and with different angles it gives best individuality in results.

7. K.P System: so much confusion in handling to rectify the birth chart, so we can't follow an unanimous method to rectify the birth chart. Example, they are considering the Rahu, Ketu are the strong nodes and fix Rahu and Ketu as the Lagna sub lord mostly.

K.B. System: Each and every birth chart can be rectified easily without any controversy, confusion and all the astrologers can follow an unique method. Example, K.B. has the single rule, i.e. R.P. lagna position shows the natal chart's Moon position and R.P. moon position shows the natal chart's Lagna position.

Reason: In the K.P method to rectify the birth chart, to adjust time between 30 to 45 minutes difference and confusion to move up and down to the position of R.P of Day lord, Rasi lord, star lord, Lagna lord, Lagna star lord etc. and meanwhile the R.P connected with Rahu and Ketu means, it will give lot of confusion to rectify the birth time.

But in the K.B. method, no confusion in rectifying the birth time. 100 K.B. astrologers, seated in the hall, to rectify one birth chart, all can give the same birth time. But in K.P method, an individual chart given in the same time, even 5 genius k.p followers, that 5 person will give the different birth times.

Ref: My Guruji, Prasanna Jyothidamani K. Baskaran, Madurai, Author of the Book titled "Secrets of R.P. & The birth time" will help the readers as to how to rectify the birth time clearly

8. K.P: To confirm the result, mostly they are giving importance to the shadowy planets, Rahu and Ketu. They always believe, all the events occur in the connected period of Rahu and Ketu.

K.B ; Given same equal importance to the 7 planets, as well as Rahu and Ketu,

Reason: In the rasi chart, there is no own house to Rahu and Kethu. So these planets occupant in one rasi means they act as a representative of the rasi-lord and give the result of the bhava and rasi. Therefore, I think this is the reason only why they give more importance to rahu and kethu in k.p. system.

In the K.B. method, No importance is given to rasi lord. But we give importance to the star lord, sub lord and sub sub lord in cuspal and planet positions. So, here importance is not given to Rahu and Kethu. Why? Because Rahu and Kethu have their own stars like other planets. Please note the readers, most of the times important events happens in one's real life without connection of Rahu and Kethu period (Dasa, Bhukthi, Anthara)

9. K.P System: To find-out accuracy in prediction, they give importance to progression method for all the planets.

K.B System: Progression method is applied only for the Moon but not for other planets.

Reason: When a person is born (at the time of birth) all the planets are stationed in a star and a sub. Among the planets, we give importance to the moon and moon's star lord, and sub lord. Moon's star and sub are converted as the Dasa, Bhukthi. Dasa bhukthi will move according to the age. When the dasa bhukthi move, we can see the changes in the life events.

Based on the Moon, the dasa bhukthi will change. So the Progression calculation adopted only for the Moon. However the Moon is always in the star of running dasa lord and always in the sub of running bhukthi lord. So K.B.System applying progression only for the Moon.

10. K.P. System: In any manner Saturn connected with the Moon is called the Punarphoo dosha.

K.B system: Not to give response to the punarphoo dosha.

Reason : Punarphoo dosha.does not give individual response. For example, the Saturn is in the Cancer sign for about $2\frac{1}{2}$ years, who was born in the in this period, how can one accept the punarphoo dosha. to all the persons? More over, Saturn moves in the Moon star like Rohini, Hastham, Sravanam for about 1 year. How can one tell at the time of birth who born all the persons affected by the punarphoo dosha.? How the scientifically research oriented astrologer can accept the punarphoo dosha.?

As per K.P method, roughly 30% of people in the world are affected by the punarphoo dosam. I request, just think, how can one accept the punarphoo dosha. by the scientifically research oriented astrologers?

11. K.P System: They will give the same prediction to all the births within the period of two minutes. (Majority cases) They don't predict different result for Dasa, bhukthi, antara and transit.(because the signification of planets will not change within two minutes). Here, there is no astrological methodology to analyze the difference between those born within the interval of two minutes.

K.B System: We can give the different results for those who are born in between even one minute, in the same above mentioned dasa, bhukthi, anthra and gochara periods and we can be able to give different results about the bhava and the planets positions. (Because the signification of planets and cusp will change within 30 seconds also)

Reason: Those who are born in the shortest period, they definitely have different life events. We would try to prove the difference between them through the scientific way of approach, and then only we develop the astrological field like other department.

In K.B System we consider only the 12 cuspal positions. These cusps move very rapidly. 30 seconds of time interval also will change the cuspal positions; therefore dasa, bhukthi, anthra, transit will change and give different results for shortest period Birth Charts.

12. K.P. System: In this system, they will give different predictions for one chart. If we give the same chart to 5 Astrologers, even 20 years experienced genius in astrology, they will give different predictions for the same chart.

K.B. System: For one chart, this system definitely gives invariable prediction. For example 20 persons, who have the basic knowledge of K.B. Principles (Students since one year, followers of K.B. System). Give one chart with papers and pen (like Exam), mostly the answers will be the same for the given questions

Reason: The rules are heavy in the K.P method (lesser than traditional astrology) and incomplete methodology with lot of confusion (lesser than traditional astrology) So, the K.P. astrologers can't give the same opinion for one chart.

For example, some of the skilled astrologers give importance to the aspect, retrogression of the planets and progression; some other give importance to the Punarphoo, Fortuna, MST like this; and some astrologers give importance to planet and it's star, sub—again, sub lord's star and sub.

But in K.B method, the rules are less, regularized rules and without confusion. So, definitely all the K.B astrologers can give the same prediction for a given chart.

13. K.P. System: The K. P. astrologers are interested in making research and give preference to find out the date of the events, and not interested in making research to find out which way the matter will happen. They are trying to find out the incident, which is not logical to the real life.

For example, a boy is studying in the school, his age is 10. The K.P. astrologers are not trying to find out which way the marriage will occur? How will the child birth happen? How will he go abroad?; but they are trying to find out only the date of these events.

K.B. System: Our primary research always gives more importance to how the particular event will occur? Then only we consider the date of the events.

Reason: K.P followers are thinking that astrology is within the shortest boundary, i.e., "a certain bhava karaka always give single event". For example, they think the 7th bhava indicate the matter only about "Marriage". 5th bhava indicate only about "Child birth".

A person, age between 18 and 25 years, during that time 7th and 11th bhava dasa bhukthi will be running. In the age of 10 years, the K. P. astrologer tells that, within the period of 18 to 25 age that person will surely get married.

Generally, the age between 18 and 25 years is suitable period to involve oneself in higher education. 7th and 11th bhava are 11th, and 3rd bhava to the 9th bhava. (9th bhava indicates higher education). In this period, the person will get progress in higher education. So the 7, 11th bhava not only represent marriage, but also are favorable time for higher education. If that person is interested and involves himself in higher education, on that time the K.P. astrologers tell regarding his marriage, that prediction will give a negative result of that age from 18 to 25, during concerned dasa-bhukthi period.

If that person is interested and involves himself in the marriage related events, definitely it will give marriage life with higher education. If he does not involve in the marriage related things while running 7th and 11th bhava related Dasa bhukthi (18 to 25 years) how it is possible for marriage?

Each bhava has many karakas. K.P. followers think that "among the karakas one karaka is enough to give success and complete the event". Nowadays this crude idea will not be helpful to give prediction to the present life situation. Moreover, the K.P. System books and articles are published showing how to find the exact date and time of the event. But they do not write in their articles, how the event will occur on a particular time.

For example, a dasa, bhukthi, anthra indicate the signification 2, 7, 11th bhavas (same dasa, bhukthi, anthra indicate 6, 10, 12th bhavas also), in these period, the K.P. followers giving determined suggestion (an analysis carried out shortly after the conclusion of an event), the marriage was materialized. But, they do not think, who are born within the period of one hour in that day in the same lagna, the same dasa, bhukthi indicating the same signification, is it possible to give marriage life to all those natives on that particular day?

Suppose, if the male chart indicating 2, 7, 11th bhava means the opposite female chart dasa, bhukthi, anthra indicating the same signification or not, to marriage?. Readers just think over it.

At the same time other female also took birth. That all those female charts have the same dasa bhukthi, anthra period. Do you agree, all the females will get marriage on that particular day? and all the opposite male charts connected with the same 2, 7, 11th bhava signification?. Please just think over this fact.

We can identify our good time or bad time with the help of astrology, using this astrological theory, when bad time is running for particular event, we should wait till the bad time is over. Then we proceed to our involvement when good times start. If we tell child birth is possible only related to 5th bhava dasa, bhukthi, anthra period, all the children should get good health and alive. But some children suddenly get death after few minutes from the birth time.

On the child birth period, if the parents dasa, bhukthi, anthra connected with 4,12th bhava significations (4, 12th bhavas are the 8, 12th bhava to the 5th bhava), within a few hour, the child will die. So the questionable bhava event occurred in the unfavorable dasa, bhukthi, anthra period, the event will not materialize or get failure result.

Meanwhile, a person is involved in the questionable bhava event, if the running dasa, bhukthi, anthras are favorable significator to that event, then K.B .System definitely confirms the date of the event. Example, Chennai to Trichy road is damaged near Villuppuram. An engineer does not repair the damaged road, from chennai, without inspecting the road directly. If he sees the damaged place near Villupuram then only he will be able to give clear suggestion to repair the particular place on the road. Like that, if a person interested and involved in the particular event, then only an astrologer can give a date to success of the event.

The above point of view to predict a horoscope K.B. System approaches the following methodology:

A horoscope includes all the incidents, involvements in individual human life, from birth up to death. As astrologers, we can't explain all the events 100% bravely, what will happen in the future of the individual's life. Naturally each and every department has some rules and regulations with limitation. Like that the astrology department also formed some rules and regulations with limitations.

We can sort out the human life events into two different varieties

- 1) Often and often happening events or long time and permanent and continuous processing events.
- 2). Temporary or rarely happening events.

We can give exact forecast to the Often and often happening events or long time and permanent and continuous processing events like body health, money floating, profession, husband and wife relationship etc. For general prediction, first of all, we should consider about the permanent events and give suggestion with the Dasa support.

Temporarily events are analyzed and finalized at the time of the circumstances. Marriage, child birth, foreign travel, purchase of property, etc. are temporary events. These happen depending on the human life situation. For these temporary events, we consider the running bhukthi and anthra to find out the successive period of the events.

Moreover, the permanent bhava karaka's activities are directly executed by the permanent bhava karaka. But the temporary bhava karaka activities are executed by any bhava karaka and no condition that the related bhava karaka only will do such activities. so many chances are there, Other bhava karaka also can rule and execute the temporary bhava karaka activities.

In the K.B. System, permanent bhavas are 1, 2, 6, 7, 10 bhavas only and other bhavas are called temporary bhavas. K.B. System's important rule is "each bhava rules over other 11 bhavas, and gives different results like positive for some bhavas and negative result to some bhavas". Such law can match all 12 bhavas, and this rule is mostly applicable for temporary bhavas.

The above views tell how the K.B system differs from K.P system and which way the K.B method is scientifically improved than the K.P. System.

Thus, in the astrological field K.B. System (i.e. Bhaskara method) is one step forwarded than the K.P. System. This development is not to say failure of the K.P. System, but I think that now the K.P System is getting fantastic developed stage and revolutionary growth for the modern period through K.B.System. The K.B.System's development is making a strengthened base to K.P.

For example, Sir Isaac Newton invented the gravitation law. Everybody accepted at that time. Mr. Isaac Newton is considered as a great scientist in the world and no alternative suggestion. His invention, in the field of physics, gave name and fame to Mr. Isaac Newton and the fame will stand up to the end of the world. Later on, next generation scientist declared and found some fault in the Newton's Law and gave the alternative suggestions for development of physics field. Like that, the new invention and research happen on the base (source) of the Great Scientist Newton's law only and this way the Newton's name and fame developed as an eternal in the world.

In the Newton's period, deficiency of communication equipment and skills, the communication skills and message transfer to the world was on poor level. Now the computer and communication equipments spread the messages rapidly, research articles easily reach every corner of the world within seconds. So, all departments getting revolutionized according to modern life situation, the invention of the equipments gives nutrition to growth of knowledge.

After the 19th century, all the departments in the world modify and filter the old traditional policy and insist the new methodology for their development. But the astrological department only is rigidly holding the old patterns and policies. Only one reason is, such senior astrologers could not come forward to rectify the old pattern astrological principles and do not give enlightened scientific ideas to the astrology field.

Senior astrologers are not thinking that new methodology will improve the entire astrology field. But they think it will wound the ancestral astrologers. So the great astrologers are being idle and not ready to give the suggestion for the modern society.

In this way like Newton, Jyothish Marthand Prof. K. S. Krishnamurti bravely modified astrology through the different scientific approaches, and he took the astrology to modern revolution. Which way the Newton's law re-modified by the latest scientists and made betterment deed in the physics department, like that, my Guruji Prasanna Jyothida Mani K. Baskaran made a revolution by his hard work and insists on the scientific approaches in the astrology field with the base of K.S.K's Principles. This new invented scientific approach is called the Krishnamurti - Baskaran's System. (K.B. System)

I think, from now, the scientific astrological development and next revolution will come forward and enlighten the astrological world through my Guruji's K.B. System.

I submit this article to my beloved Guruji .K. Baskaran. Madurai.

Which One is Krishnamurti Ayanamsa?

The ayanamsa issue has been debated by astrologers for many years and there is no sign that this will end soon. The popular Swiss Ephemeris program supports over a dozen ayanamsas including Lahiri, B.V.Raman, Krishnamurti, and Fagan Bradley. Since each astrologer has his favourite ayanamsa, software developers tend to support as many as possible so that their users will be happy.

What baffles me is that there are at least four flavours of Krishnamurti ayanamsa! It is difficult for me to digest this because I feel that during all these years KP has been in existence, the correct flavour of Krishnamurti ayanamsa should have been identified and standardized. Although in various internet forums a mention is made of KP ayanamsa, the specific flavour is not often indicated. This can cause a lot of confusion because the sub lord or in many cases, the sub sub lord, can differ if an incorrect version is used. In this short article, I would like to list the four flavours and indicate what I believe is the correct KP ayanamsa (not what I believe is the correct ayanamsa - this is an open issue).

The four KP ayanamsas in use by KP followers are

- 1) KP Ayanamsa as supported in Swiss Ephemeris program
- 2) KP Straight line
- 3) KP Straight line adjusted
- 4) KP Ayanamsa (2003)

Many western and Vedic astrology software support option (1) because it is built into the Swiss Ephemeris library. I do not know the history of "KP Straight line", but in this flavour, the ayanamsa remains the same for all days in a year. As far as I know, Shri.Raichur was the first to support this in his software. I did some checking and found that this ayanamsa is just about 1 minute different from the value published in the "Universal Table of Houses" (UTOH). I know of some senior astrologers who still use this ayanamsa. The third, "KP Straight line adjusted" starts with the same value as "KP Straight line" on April 15th of each year, but instead of remaining the same over the year, varies proportionately for any other date in the year. The followers of "Krishnamurti Baskaran" (KB) system use this option in their charting.

The fourth flavour, identified as "KP Ayanamsa (2003)", was clearly formulated in an article by Shri.K.Balachandran in "K.P & Astrology" year book of 2003. The author based his article on another article by Shri.M.G.G.Nair that appeared in "Astrology & Athrishta", May 1980. A formula for calculating the ayanamsa for 15th April 5:30 am IST was given, with a note that ayanamsa for any other date in the year must be calculated proportionately. Senior KP astrologer Shri.A.R.Raichur and many others argue that this is the correct KP ayanamsa. I too believe that this is the one that all KP astrologers should be using.

Let us try to understand why there is so much confusion about Krishnamurti ayanamsa. In KP Reader-1 ("Casting the Horoscope"), Shri.K.S.Krishnamurti proposed his own ayanamsa although he was aware of other ayanamsas in use at that time, including the popular Lahiri ayanamsa. According to KSK, the date of coincidence of the Tropical and Sidereal zodiacs was 291 A.D. and the rate of precession was 50.2388475 seconds (Newcomb). In the book he promised to publish the details of his ayanamsa at a later date, but unfortunately did not do so. However in the book he published a table of his ayanamsas for the years 1840 to 2001. The values shown in the table have only degrees and minutes, no seconds. It

would appear from the table that the ayanamsa was valid for the whole year. If you read some of the old articles you will find that the same ayanamsa was used for various dates in the same calendar year. For instance, the "K.P. & Astrology" year book of 1997 mentions an ayanamsa value of 23 deg 43 min for the year 1997 along with its listing of Nirayana positions of planets for that year.

The table below shows the values of ayanamsas (1), (2) and (4) for various years, as on 15th April, 5:30 am IST. Ayanamsa (3) has been excluded because on 15th April of each year, it has the same value as that of (2). The value published by Shri. KSK in his First Reader and the value from UTOH are also included for comparison.

Year	Swiss Eph	KP St Line	KP (2003)	UTOH	KSK
1900	22-22-20	22-27-14	22-22-30	22-28-10	22-22-00
1910	22-30-12	22-35-37	22-30-53	22-36-32	22-31-00
1925	22-42-47	22-48-10	22-43-26	22-47-26	22-43-00
1940	22-55-41	23-00-44	22-56-00	23-01-40	22-55-00
1950	23-03-55	23-09-06	23-04-22	23-10-03	23-04-00
1960	23-12-18	23-17-29	23-12-45	23-18-25	23-12-00
1975	23-25-10	23-30-02	23-25-19	23-31-00	23-25-00
2000	23-45-37	23-50-58	23-46-15	23-51-56	23-46-00

You can see that KP (2003) ayanamsa is the closest to the values given by KSK.

In conclusion, I wish to state that whereas there is no immediate solution to the ayanamsa problem, a KP astrologer should be using KP (2003) ayanamsa. As the above table shows, this is probably what KSK had in mind when he published the table of ayanamsas in his book. It is also to be kept in mind that it is not correct to use the same ayanamsa throughout a year.

CAN I DIG A TUBULAR WELL ON MY LAND ? – A KP APPRAISAL

A person known to me, who was residing in the vicinity of my residence at Hyderabad, had paid a visit to me on 12-Aug-2007 at around 12.00 in the afternoon.

He had inherited from his father, land of around 6 acres in the Andhra Pradesh-Karnataka bordering area.

He wanted to commence some agricultural activities for which a bore-well was to be dug for irrigation purpose. Since the involvement of money was more than 1 Lakh Rupees, he thought of approaching an astrologer for guidance.

When he narrated me the purpose of his visit, I immediately asked him "What is the time now?". He replied, "it is 12-05 p.m".

A Chart was drawn based on the time of the query, as per KP system, which is as follows:--

System: Krishnamurthy, A/y: 23°51'55" Place: Hyderabad, Date: 12-08-2007, Sunday, Time: 12-05-00 Longitude: 78-27-00 East Latitude: 17-26-00 North Zone: IST 5.5 Settings: Universal Time Sid. KP Reader 3, states that If the 11th CSL signifies a barren sign, then there will not be water in the well. If the sub lord is deposited in the constellation of Moon or Venus or Mercury, one will get water quickly.

In the horary chart under consideration, the 11th CSL is Saturn. Saturn is placed in Leo, which is a barren sign. Hence the chart does not promise water. Saturn will make him do lot of labour, and throw interruption, difficulties, and disappointment.

Upon not satisfied with this quick analytical reply, the consultant wanted me to have a second look at the situation.

This prompted me to ask him for a number between 1-249. He, after pondering over for few seconds, gave me No. 179. Upon erecting the chart, Asc as per KP No. 179 and 11th Cusps are as follow:

The sub lord of 11th cusp, Ketu, is placed in a barren sign Leo.

In both the cases i.e., the chart drawn at the time of arrival of the person and the chart taken as per the KP No. given by him, indicated same result.

Upon verifying the natal chart of the querient, which he had in possession, for DOB 02-Sept-1961 at 9-15 pm. (approx), the operating period indicated was Saturn-Ketu, which shall end approx. by June 2008. Thereafter Saturn-Venus period will commence.

It was advised to the consultant to wait till some more time before commencing the tubular-well digging work, preferably in Saturn-Venus period, since 4th CSL is Venus in the horary chart erected based on the arrival time of the consultant as well as Venus was occupant of 4th house in the natal chart in Cancer.

His decision of consulting a KP Astrologer before proceeding with the investment and the digging of the bore well has to be termed as really wise, as the KP analysis showed the result by its index finger at the paragraphs above.

IMPORTNACE OF MUHURAT AS PER KP SYSTEM

There is nothing more on Muhurat chart in KP books. When I was a student of Vedic astrology and joined the School of Astrology, in advance course, I learnt on Muhurat and specially with reference to the book "MUHURAT MARTAND".

When first time I predicted using MUHURAT chart very correctly about Discovery Shuttle Launch, my friend Sri Tin Win ji sent me a good Vedic Muhurat book "CLASSIC MUHURAT"-By Ernest Wilhelm as a gift. After reading the book I thought to do more work on muhurat chart in KP.

First let us see what is Muhurat?

An auspicious time to start any event is a Muhurat. The chart for that special moment is MUHURAT CHART. Here it should be clearly understood that WE HAVE TO TAKE THE MOMENT OF STARTING, WE DO NOT CARE WHEN THE EVENT GETS FINISHED. We take only time when we start.

In the following example I took the time of Launching of Barbie Doll.

Now I discuss why this product is still a hot selling toy today. Detailed analysis is as under:

Date of Launching: 09 March 1959

Time of Launching: 10.00.00 AM

Place of Launching: Manhattan- New York -USA.

Long/Lat: 40 N 46, 73 W 59

Very important point in any MUHURAT chart is, never select MESHA, KARKA, TULA AND MAKAR rasi as a Lagna. These four Rasis--MESHA, KARKA, TULA AND MAKAR are CHARA Rasis and for Chara Rasi the 11th cusp is Badhaka Sthana. When we do special work we always think for long life of that work, and for long life/longevity of the event we have to look Asc sub lord. For good longevity if we set time when Asc sub lord signifies 1, 5, 11 that means good longevity. And if we take Chara Lagna i.e. MESHA, KARKA, TULA AND MAKAR 11th is not good but becomes a Badhaka. So we should avoid Chara Lagna for any Muhurat.

Role of Asc. Sub lord

In this case Asc Rasi is Vrishbha, so badhaka sthana is 9th. Sub lord of Asc is Sat. Sat is in the star of Ket and sub of Mer.

Sat is in 8, lord of 10, 11. Ket is in 11, Ket Conj with Mer and Ven and Jup.. Mer is in 11 lord of 2(Maraka), 3. Ven is in 11 Lord of 1, 6. Jup is in 6, lord of 8, 9(Badhaka). So it is clear that there is long life, 1, 11 supports long life and 2, 9 indicate some danger to this product; but only in unfavorable DBA only.

Dear all Readers,

**VERY HAPPY DEEPAWALI
AND
PROSPECTIVE NEW YEAR
TO ALL THE READERS OF KP E-ZINE.**

This month I got some advertisements. So I decided to give old issues of KP E-Zine at Rs 50 per month, but this rate is for this November month only. Next month onwards rate will be again Rs 200, but if I get again advertisements I will announce new rate.

Here is good news for you. I am going to start the printed copy of KP E-zine. This printed version will be on A4 size paper, and printed in laser printer and Spiral bound.

The price for this copy will be Rs. 100 with postage/courier. Outside India the price will be US\$ 10 with postage (by Registered Book Post).

Also three months' payment will have to be paid at once in advance.

I had sent mail to all registered members about it, and I received only reply from 25 members. So it is not possible to publish for 25 members. Meantime by end of this month, if I get more requests, I will think to publish printed copy, and also after I know number of requests, I will decide as to what is actual price of copy. May be, if I get response from good number of members then the price will be reduced.

Those who are interested may please send me mail at kpezine@kpastrologer.com or kpezine@yahoo.com

Please do not send money now. *I will start this only if I get at least 100 members, so only inform me if you are interested. I shall inform you if I get sufficient members.*

Good Luck.

Dear Rangarajan, Kanak,

Regarding the KP Ayanamsa, Mr. Rangarajan's opinion in his conclusion is practical for KP astrologers. For information, the Lahiri Ayanamsa was adopted in the UTOH while the controversy of the correct Ayanamsa was going on. Mr. Khullar has used the KP Straight Line (Adjusted) ayanamsa in his cuspal interlinks books.

Regards,

Tin Win

Dear Shri Bosmia saab

It was heartening to know that KP E Zine magazine had new articles and new writers with subjects as KB.

It is equally heartening to know that many an astro-analysts are concentrating on research work, and they are publishing them in KP E Zine.

I wish KP E Zine magazine a very prosperous future.

Meantime, the page no. promised by you is still not appearing in the Magazine.

Each page may be having a title at the top right side like " KP E ZINE : ISSUE : NOVEMBER 2007" and so on.

The significations and KP rules given by Shri Tin Win ji was fantastic, but it did not have an introductory wordings of a paragraph or two.

I am sure these things are under your kind consideration, in order to boost up the image of KP E Zine magazine.

Regards
MK Viswanath

Dear Kanak Ji,

I am quite impressed with the October e-Zine issue. I want to congratulate you for publishing article on cuspal interlinks. Though , you follow MST and TSP regularly you are open to new ideas and theories. Only one small rider, pl. don't allow the author to criticize any other theory and try to prove that his method is only correct.

Wishing you all the best!

Regards,

Rajendra Nimje

Dear Shri Bosmia Saab

I have been thinking in terms of understanding the mundane aspect in KP. I have not come across any article in mundane writing in KP, whereas Astrological magazine, Starteller, etc. usually come up with many mundane readings.

During the period of Dr. BV Raman there were mundane readings. I have also seen some writings in Starteller. KN Rao is one of the leading writer now on Mundane matters.

Is it possible for you to throw some light on this through KP.

Regards
MK Viswanath

Dear Shri Kanakji

I hail your yeoman service to propagate K.P.Astrology thro' modern IT way 'E zine' and wish you to continue to bring out all hidden treasures of the K.P.system. In October 2007 issue, I read with interest the "Introduction to K.B. (Baskara) system by Mr.A. Devaraj, wherein, he has brought out the differences between K.P. System and that of K.B.

While the author has every right to defend his own liking of K.B.System, I don't find that it is developed one, to side line the K.P.

system. Cuspal inter-link method has been amply described in K.P.Text and as well as several articles published in K.P. Magazines. For example, Father's/Mother's demise is explained through the respective Bhavas (9th/4th) and their Marakas/Bhadrakas through their Bhavas 2nd cusp and Marakas according to their position of such Bhavas in movable, fixed and common signs. Re-union with husband is judged from the 7th Bhava of the lady whose husband is desired to re-unite to the family and in Horary, the very existence of his life (whether he is dead or alive) is also judged from the position of his longevity from his lagna in the querent's chart. 11th house from 7th is treated as profit to the partner. No service is indicated by 9th and 5th S/L. (12th Bhavam to 10th and 6th). Thus interlink of cusps are certainly considered in K.P.System. It is only for the native whose 11th is benefic including the connected planets/Bhavas. This for him alone and not for others. In K.P. while judging the chart both cuspal and planets concerned are taken into account upto SS level. As regards few hours, minutes or seconds difference in birth and the prediction to all such position at birth, the same result in K.P. I think, it is not correct. With the use of sub lord, Sub-sub lord and further minute point upto swara lord, there cannot be any different results. Regarding the importance given to the nodes Rahu/Kethu, Dr.K.R.Khar of Bolani has beautifully introduced the Theory of Substitution, as they are also star lords, sub lords for some planets and cusps. Again regarding the importance given to Punarphoo dosha in K.P. system. It certainly plays vital role in marriage and other important events. Cancellation of PP Dosha, as envisaged by Dr.Khar of Bolani is also very much correct as per my own experience. Our Guruji K.S.K has analysed a Boy's chart for his behaviour of stealing foot wears of others and forgery very correctly and admirably in 4th Reader under the caption "Your son is not Robert Clive".

I end this letter with no criticism to K.B.Theory, but to emphasise that all the differences pointed out by the author regarding K.P.System are all answered in KP books and magazines at different places.

However. I wish the author to continue his series further with examples for his K.B. system. I would also request him to explain the method of Moon's progression as emphasized by him for judging the future events.

Sincy, yours,

(K.S.V.Ramani)

Dear Ramani ji,

Thanks for your valuable feed back on KPEzine.

I totally agree with you.

When I received article from Author I am not well also article I received at end time, so without checking I published it, but after uploading this month's KP Ezine and when I feel well I read this article, during I also received mail from Rajendra Nimaje ji referring same subject(Nimaje ji's feedback also publish in Feed Back page), I call to author and told him to do not write any article with Criticism on any system, and Mr Deavraj totally agree with me, you can see change in this month's article on KB system by Mr.Devaraj.

I give you promises in future I will be very careful about this issue.

With best regard

Reason of going to jail is also clearly shown. Rah signifies 7, so for criminal act.

When?

Significators of 2, 3, 8, 12 are: SUN, MER, RAH, MOO, SAT, JUP, KET, RAHU.

RP are: MOON, MER, SAT, VEN, KETU, RAHU

Ven is not in significator.

Runing dasa is SAT-MER up to 14 11 2006. Both are from RP and signifcators.

Sat is in his own star of and sub of Moon.

Sat is lord of 2nd, Moon is in 7.

Bhukti-lord is Mer .

I do not choose MER bhukti because, next bhukti is that of Ket and Ket is in the sign of Mer. So ket is stronger then Mer.

Ket bhukti is up to 23 12 2007.

Ket is in the star of Moon and sub of Mar.

Ket is in 8, aspected by Sat Lord of 2nd, in the sign of Mer in 2nd. Moon is in 7, Mar is in 5 lord of 4, 11.

As per my prediction Manu Sharma was found guilty. 17 Dec 2006.

Antra and sookshma are Ven and Moon.

Ven is in the star and sub of Moon.

Ven is in 1 lord of 5, 10. Moon is in 7.

Moon is in the star of Sat and sub of Mer.

Sat is lord of 2nd, Mer is in 2nd.

Point to be noted

In this case 12th sub lord Rah is in the star of retro Sat. Even then, I predicted Jail and the result came correct. I repeatedly write that without checking retro effect we can predict the event correctly, this is live case and predicted in k-p-system group well in advance.

PREDITION RULES IN K.B SYSTEM

Part: 2

By: A. Devaraj (Jyothish Kalaa Rathna)
Sri Bruhaspati K.B. Jyothish Training School,
No, 68. P.G. Avenue, 3rd St., Kattuppakkam,
Chennai-600056, Ph.044-24765320, Cell: 9382339084

In K.B.system i.e.Baskaran method, the starting point of a bhava cusp is the main entrance of the bhava. Like that, the cusp starting point determines fate of the bhava or the whole result is being fixed at the starting point itself.

A bhava cusp starting point is, a rasi lord, star lord, sub lord, sub-sub lord etc, are functioning like a minute fraction.

The prediction is determined according the ratio of the planet is, rasi lord 20%, star lord 40%, sub lord 80%, sub sub lord 100%. In case of cuspal sub sub lord it will changes its position within few seconds. so, if we use only this, it is practically difficult to find out the result.for this we need accurate time.

So, in the K.B.system, it is advised that the cuspal sub lord is enough to determine the result. Why because, only the cuspal sub lord itself can give different results who born within one minute different. So, cuspal sub lord is more than enough to determine the fate or result.

Finally, in a cusp, Starlord is more strengthen than Rasilord, and Sublord is more strengthen than starlord.

How the cuspal sub lords determine the prediction?

We have to consider that the bhava cuspal sub lord is a planet. It stands in a star and sub. This star & sub links to some bhava (cuspal sublord or starlord or subsub lord) and it gives the good or bad results to the particular bhava. That is the fate of that bhava. This is called cuspal linterlinks in KB system.

For prediction technique in KB system, we have some importance rules and regulations.

Rule-1:

From the concerned or questionable bhava 1,2,3,5,9,11 bhavas gives good and benefits, 4,8,10,12 bhavas gives bad and 6,7th bhavas gives good and bad mixed neutral result according to of the circumstances.

Explanation:

Now, take the 2nd bhava as the questionable bhava. The 2nd bhava has so many karaka; among these money is the one of the karaka of the 2nd bhava. Here, 1,2,3,5,9,11 bhavas from 2nd bhava called 2, 3, 4, 6, 10,12th bhavas. When 2nd bhava connected with 2, 3, 4, 6, 10,12th bhavas, the 2nd bhava gets strengthened and the person's finance position will develop day by day. Thus, we determine the result to 2nd house.

In the same method, when 2nd bhava is connected from its 4, 8, 10,12th bhava, called 5, 9, 11,1st bhava. Here, the 2nd house loses its strength and the person's finance position will

decrease day by day. Thus, 2nd bhava connected from its 6,7th bhava called the 7,8th bhavas, when a person's finance position will be up and down, as well as neutral.

Rule-2:

Every bhava (Planet), with its links gives results in two ways. It gives results (good or bad) to its own bhava and it gives results to other 11 bhavas.

Explanation:

For example, take a chart, 10th bhava connecting with 5th bhava. . This 5th bhava is 8th bhava for 10th bhava (To calculate from 10th). So the 10th bhava loses its strength and the native cannot continue his business for long time. This is the fate of 10th bhava in K.B system.

In the same time, the 10th bhava connection with fifth bhava gives 8th bhava to the 10th bhava only. The 5th bhava from the lagna comes only the 5th bhava gives the good health and happiness to the individual (Because of no work). From 2nd bhava to 5th bhava comes 4th bhava, gives the money demand will happen. From 6th bhava to 5th bhava comes 12th bhava; gives the cure from the disease and can't get the loan. (6th bhava indicates disease and loan) thus, the 5th bhava rule on other bhavas.

Here, the 10th bhava directly link to the 5th bhava called Fate(vidhi) to the 10th bhava. Here fate means the total life's result. The 5th bhava indirectly rule on other bhava gives some result to them called Mathi , it will work in the period of dada, bhukthi In this way, the K.B. system gives different result to Vidhi and Mathi.

Rule-3.

A planet stands in a star & sub. The star lord of a planet, connected with some bhava cusp, it gives the involvement and the same planet sub lord gives the good or bad to the star lord bhava's result. In easy terms the star involves in the matter and the sublord gives the result

At the same time that planet being the bhava's cuspal sub lord, the results will be happens as follows.

The planet sub lord will give the good or bad results to the both above-mentioned planet connected bhava, and its star lord of that planet-connected bhava.

Explanation:

For example, take the Jupiter in the chart. The Jupiter is in the star lord of mercury and the sub lord of sun. Mean while we take, mercury is the 10th bhava sub lord and sun is the 6th bhava sub lord. (But the jupiter is not the sub lord of any bhava cuspal)

Jupiter's star lord mercury connecting with the 10th bhava indicates that, the person starts the profession or job. Here star indicates the matter. Jupiter sub lord Sun identifying the 6th sub lord, is the favorable bhava to 10th house (As per 1st rule, 6th bhava is the 9th bhava to the 10th bhava).

Therefore, that person gets development in the profession or job in the period of Jupiter period (dasa, bhukthi).

For research, in the chart, take the Jupiter is the second bhava sub lord. The Jupiter sub lord sun (which is 6th bhava sub lord) will give good or bad results to Jupiter (2nd sub lord) and Jupiter's star mercury (10th sub lord).

Therefore, 6th bhava comes 5th bhava to the 2nd bhava; so benefit results will give to the 2nd bhava. The 6th bhava comes 9th bhava from the 10th bhava, so this 6th bhava will give favourable results to 10th bhava. In Jupiter dasa bhukthi period, this person gets more benefits. i.e., in this period the native will enjoy sufficient money transactions (2nd bhava), development in the profession field. (10th bhava).

Perhaps the Jupiter's sub lord Sun may be 9th bhava sub lord, the results will modify and the modified results is given under the para.

Jupiter is the 2nd bhava sub lord. From 2nd bhava to 9th bhava comes 8th bhava. So, bad result to the 2nd bhava and the Jupiter's star lord Mercury is the 10th bhava sub lord. From 10th bhava to 9th bhava comes 12th bhava. Therefore, in the Jupiter dasa, bhukthi period, the person will enjoy insufficient money transactions and problem in the professional field. The native can face only bad results in 2nd & 10th house matters.

Jupiter's star lord Mercury when connected with the 10th bhava, it indicates a person's activities related to start the profession (This is involvement). Even though, the Jupiter's sub lord Sun is connected with 9th bhava, i.e., 12th bhava to 10th bhava, indicates the result that person comes to close the profession (This is result).

Meanwhile, the Jupiter which is 2nd bhava sub lord linked with 9th bhava through its sub lord Sun comes 8th bhava to 2nd house. So, a person meets with heavy loss of money.

Rule-4:

A particular bhava's result (given by fate) can develop maximum level or temporarily can decrease the result by running dasa, bhukthi period. i.e. the dasa, bhukthi has a power to modify the fate to good or bad result temporarily.

Explanation:

Just imagine, Saturn is the 10th bhava sub lord. Saturn is in the star of Jupiter and sub of Venus. Jupiter is the 6th bhava sub lord. Venus is the 2nd bhava sub lord. Therefore, 10th house connected with the 2nd and 6th bhava.

The above-mentioned 2,6 bhavas is 5,9 bhavas to 10th bhava. Here 10th bhava fate is very good. This combination gives more advantage result to the profession. So, that person can fully involve in his profession on long term. The person can earn much money (2nd house) and get success in his profession with individuality (6th bhava indicate success).

Again just come to the chart, here 6th cuspal sub lord is Jupiter. The Jupiter through its star lord and sub lord is connected with the 5,9 bhava. The 6th bhava connected with 12th, 4th bhava to its 6th bhavam. Hence sixth bhava results collapses. So 5,9 bhava are getting more strength.

Suppose, when the Jupiter dasa is running for the native. The 5, 9 bhava's response or result will be acts forcedly. This 5, 9 bhavas are comes out as 8,12 bhava to the 10th bhava and dominant on the 10th bhava and gives the backward position in the profession. So the whole guru dasa period gives the opposition result to the profession.

Next in the Saturn dasa period, if the dasa lord Saturn connecting (through its star lord, sub lord) favorable significance to the 10th bhava will gives favorable results to a person (up to not objects by the bukthi).

Moreover, in the chart, Saturn is the cuspal sub lord of the 10th bhava. So the Saturn dasa strongly support to the 10th bhava and a person can enjoy good profession with more income i.e the full result (given by fate), in the Saturn period.

Rule-5:

A bhava cuspal sub lord has a power to do or run the activities of the particular bhava. But moreover, the planets in the star of the cuspal sublord and the planets in the sub-lord of the cuspal sub-lord, has more power than the particular bhava sub-lord.

If the above referred bhava sub-lord of the planet gets connection (through its star & sub lords) with its favourable bhava, it will give favourable result to its and the bhava sub lord is also a good significant to its own bhava

At the same time, a particular bhava sublord of the planet gets connection (through its star lord and the sub-lord) with its un-favourable bhava, it will give unfavourable result and loss its bhava's results and it is a bad significant to its own bhava.

Explanation:

For example, take the 2nd bhava . Saturn is the sub-lord of the 2nd bhava. Rahu and Jupiter is position in the Saturn's star and the Saturn's sub. The native will get more money turnover in the Rahu and Jupiter dasa, bhukthi, anthra period.

General Law is every planet give result through its star lord and sub lord of the planet. In this way, the Rahu and Jupiter are in the star lord and sub-lord of the 2nd bhava sub-lord Saturn. Therefore, Rahu and Jupiter gives the same result behalf of Saturn and the heavy money transaction will happen in the Rahu, Jupiter dasa, bhukthi period.

The 2nd bhava will get strong position according to fate of law, if the Saturn connected to 6,10 bhavas (through its star lord or sub-lord) , at that time the 2nd bhava get strengthen . Therefore, a person can earn much money in the period of Saturn dasa than the period of rahu and Jupiter dasa.

If the Saturn is linked to 9th bhava through its star lord and sub lord, the 2nd bhava's potential has become weak(9th house is 8th to 2nd house).Therefore he will loose the earned money (rahu & jupiter periods) in saturn period.

Rule-6:

A particular bhava cuspal planet, through its star lord, sub lord, while gets connection with other bhavas, gives two different effect or results to its own bhava . i.e., one effect given to its lagna dependant karaka and other effect to its lagna non-dependant karaka.

Explanation:

For example, take the 5th bhava. In the 5th bhava, love, attraction, happiness are related to lagna i.e native. In K.B system, these are called lagna dependant karaka in fifth house. In the 5th bhava, child, get income through without physical hard work, like commission,

profession related with art are called non-dependant lagna karaka. These are not related to lagna.

In the horoscope, 5th cuspal sub lord, gets connection to the 9th bhava through its star lord and the sub lord means, it gives the favorable results to the 5th bhava's lagna dependent karakas like love, attraction, jolly, happiness etc. So, this person can enjoy the above-mentioned result with satisfaction.

Next, this 9th bhava is not good for income (commission), and profession related with out physical work like the fine arts profession. So, a person cannot earn in the 5th bhava's karakas.

The commission is 2nd bhava karaka and it is in the 5th bhava. Same method, the fine arts profession is the 10th bhava karaka and it is in the 5th bhava. The 9th bhava becomes 8, 12 bhava to 2nd, 10th bhavas, so the 2,10 karaka results decreased.

It may just give confusion to the readers to sort out the karakas within the one bhava. Because, initially I explained about the 5th bhava's lagna dependant karakas and lagna non-dependant karakas. Particularly, non-dependant karaka of commission, fine arts related professions etc. are 2,10th bhava karakas within the 5th bhava karaka.

I will give the example as follows.

The 12 bhavas, 9 planets has included lagna dependent karakas and lagna non-dependent karakas, permanently. These karakas are functioning within the lagna(native) as internal and outer to the lagna. i.e., which karakas directly affect a person by the way of physically, mentally are called as the lagna dependent karakas.

But some of the karakas do not affect a person directly by the way of physically or mentally are called the lagna non dependent karakas. These karakas, not only enjoy by the particular person, but other person also can enjoy the result or benefit (after the death of that particular person also). I will explain with the example as follows.

Education is within the karaka of the 4th bhava, i.e. education fully owned to the particular person only and that person only can enjoy the result through the education. The education is come to close with his death.

At the same time, the 4th bhava related karakas like, house, plot, vehicle, are lagna non dependent karakas. These karakas are not only enjoyed by the particular person, but also enjoy the above referred karaka materials, after death of a person, by the other family member and the legal heirs. The repair accord to the vehicle, house means, it will not affect to a persons physical body.

The same manner, every bhava have the 12-bhava karakas in it. Example, take 2nd bhava and this bhava has so many karakas. In this karaka, we will take only the karaka about the money. In the karaka of money have 12 bhava's karkam and gives the result as follows.

1st bhava karakam: The money gets through the self efforts.

2nd bhava karakam : Money gets through the gold, material and minerals.

3rd bhava karakam : In-come through the stamp paper and documents, agreement, brothers.

4th bhava karakam : Money comes through the house, plot, vehicle, education.

5th bhava karakam : Earn money through the commission, fine arts, child, lovers.

6th bhava karakam : Get money through the rent, debt, physical work, service.

7th bhava karakam : Money comes through the wife, customer, profession partner.

8th bhava karakam : Money comes through the Insurance bribe, malpractice, threatening

9th bhava karakam : Money comes by the way of foreign affair, service to god, father.
10th bhava karakam : Earn money through the profession, sacrifice the needs.
11th bhava karakam : Money comes through the friends, son in-law, daughter in-law, societies.
12th bhava karakam : Earn money by the way of secret way action, investment.

So, a person can earn money through the 12 bhaves. Which bhava connects with the 2nd bhava, that bhava karaka rule over on the 2nd bhava and through the bhava karaka, show the way, a person can get the money.

Rule 7:

In a chart, all the planet's position in star lord and the sub-lord never change up to the end. However, the planet Moon will change its position often and often according to the changed period of the dasa bhukthi, anthra.

Explanation:

At the birth time, the planet moon's star lord indicates the dasa, sub-lord indicates bhukthi. This is the dasa balance of a person. We, accumulating the dasa bhukthi, according the age, in the base of the dasa bhukthi balance of the birth time chart.

The K.B. system considered that the planet moon also moving simultaneously according with the dasa bhukthi. i.e., the other astrologers thinking that the planet moon stands permanently in a rasi of the birth chart.

In the K.B. system gives more important to the moon because the dasa bhukthi calculates, basically, according the position of the moon and the dasa bhukthi is changing simultaneously with the age. While change of the each and every dasa, the planet moon changing its star lord and while change of the bhukthi the moon changing its sub-lord.i.e moon will not be in same place.

The ancestral people told that "if the fate is not good -you see the moon". i.e., while a birth the moon in a particular star and sub and this position indicates the dasa bhukthi of the birth time. After a few years, the dasa bhukthi will change. At that time the moon position, also change according with the dasa bhukthi. So, the ancestors told that the result is changing the position of the moon according with the dasa bhukthi.

In a chart, a particulars bhava giving bad result, while current dasa bhukthi will stop the bad events temporarily. Therefore, ancestors told that "while fate is not good -you see the moon' (Dasa Bhukthi) and the "Fate is over rule by the moon".

The, now a days astrologers wrongly understood the above mentioned pro-verb, which was told by the ancestors. I.e., now a day's astrologers wrongly understood the verb "You see the Moon". They are thinking about the birth chart moon position, i.e called the Chandra lagnam and giving the low-level ideology about the pro-verb. Even though, they are not thinking that, the moon moves 2 ¼ days in a rasi.

Up to this we saw, these are the basic fundamental rules in K.B System. Further, K.B. system philosophy books like "Principles of cuspal interlinks" and "Applications of cuspal interlinks", which was written by my guruji, K. Baskaran, Madurai, explain briefly to the readers.

In the future articles, I will explain "How to judge the result of a horoscope through the K.B. system "and I submit this article to my beloved guruji K.Baskaran, Madurai.

Shri Ganeshaya Namaha!

The issue came up for the discussion during the KP astrologers forum meeting on 23rd of September and it was decided that members will take up prediction for India Pakistan World Cup match which will be held on 24th at South Africa. I and OVN Murthy ji attempted it separately and my analysis is as below.

I made an attempt on 24th morning and I got results by different methods which I am sharing with you. I uploaded the chart and the numerological interpretation based on Ruling Planets on kpastrologers@yahooogroups.com on 24th morning and many members had an opportunity to look at it much before the results.

First Method: KP Horary

I took a KP horary number from my box and number came out was 15. The date was 24th September 2007 and time 8:51 a.m. in the morning the place was Hyderabad, India.

Moon Connection:

Let us see if there is a moon connection. We are analyzing houses 6 and 11 in India's favor and houses 5 and 12 for Pakistan. Moon is in the constellation of Mars which is deposited in second house and aspecting sixth. Moon is in sub of Mercury which owns sixth house and deposited also in sixth house. It is an indication to proceed further.

Ascendant: Question is taken as whether India can win the tournament. Hence Ascendant represents India.

For India the Ascendant sublord' is Jupiter. Though it is in 12th house, it is in the star of Mercury which is in sixth. Jupiter in sub of Venus is in fourth house opposing 11th house for the opponent Pakistan.

Let us see the chances of India in this match:

6th cuspal sublord is Rahu deposited in 11th house is in self constellation strongly indicating favorable results for India. Rahu is in sub of Saturn deposited in fourth (i.e. opposing Opponents Labhasthana) aspecting 7(8th from opponents 6th). Saturn aspecting seven and 10 will certainly make it difficult for India however its aspects on the Labhasthana ensure victory for India.

For Pakistan's point of view: (The chart is rotated)

Ascendant sub is Jupiter. It owns sixth house but in constellation of Mercury which is in 12th house. It is in sub of Venus which is in 10th house opposing the winning chances.

Let us examine the sixth house sub Lord for Pakistan. Sixth house sub Lord is Rahu in self constellation which is deposited in fifth house opposing the chances and in sub of Saturn which is deposited in 10th house clearly opposing the winning chances for Pakistan.

Analysis of the Dasa/Bhukti/Antara:

Mars Dasa is running for this chart, bhukti and antara is of Mercury.

Mars is in second house in self constellation aspects sixth house and its sublord Venus is in fourth house opposing Pakistan. bhukti and antara Lord Mercury owning sixth and in sixth house in the constellation of Mars who will give the results as above and in sub of Ketu which in self constellation and in sub of Mercury in sixth house. The Dasha, bhukti and antara is favorable to India than Pakistan.

Conclusion:

India is going to win this 20-20 world championship.

Alternative Methods:

I) Ruling Plants - Numerological use

There are two choices 1. India will win. 2. Pakistan will win. I did not take the third possibility of draw because the match will have some outcome on the basis of free hits etc.

1. INDIA will win
2. PAKISTAN will win

According to the ruling planets at 8:51 a.m. on 24th of September at Hyderabad are ascendant Lord is Venus, moon's star Lord is Mars, moon's rasi Lord is Saturn, and day Lord is moon itself.

In order to take the numerological solution we do not take lagna constellation Lord into account and further take the sum total of rasi numbers represented by a particular ruling planet.

The sum of these rasis:

Lagna Lord Venus: $2+7=9$

Moon starlord Mars: $1+8=9$

Moon sign lord Saturn: $10+11=21$

Day lord Moon : 4

Total = 43

Making it into a single digit as the choices are only within single digit number: $4+3=7$

Total choices are only two and the answer is seven we need to deduct multiples of choices from this number to arrive at the remainder choice. Deducting No. 2 three times from seven the remainder is 1 and hence the first choice that is India will win is indicated very clearly

II) Cuspal Interlinks:

I have taken the event being dependent on self efforts and accordingly analyzed the ascendant for India and Pakistan.

The ascendant sublord for India is Jupiter which is in the constellation of Mercury. Mercury is found as sublord for second and third house. Jupiter is found sublord for 1, 7 and 11th house.

(On level 2) Hence the ascendant sublord is cuspally interlinked with 1,2,3, 7 and 11 houses. According to the KB theory 1, 2, 3, 5, 9 and 11 houses are favorable from the house of consideration. Hence as per this theory the situation is clearly favorable to India.

The ascendant sublord for Pakistan is also Jupiter. It is in constellation of Mercury which is sublord for eighth and ninth house and Jupiter is sublord for 1, 7 and 5 house is. The seventh house is neutral, 1, 5 and 9 are favorable to Pakistan but the eighth house is detrimental to its chances of winning the match. Hence the situation is favorable to India.

The readers are aware about the result of the match. India won it by a narrow margin of five runs.

It looks surprising that after trying different routes the result is same. I strongly believe that you can try any route and any method but if you follow it correctly, you will get the right results.

I conclude this article by offering my players to Lord Ganesha and Guruji K. S. Krishnamurti Ji.

Good Luck!

When will I get a job?

One of my known candidate asked me a question 'when will I get a job?' and supplied horary number 56 on request. By immediate motivation, I started calculating on Aug 10, 2007 at 18-30-24 Hrs IST at Bangalore. The candidate was technically qualified and was searching a job.

The chart at the casting time is produced herewith.

The chart is being analysed as follows:

The Query

Look to the position of Moon, which appeared in Lagna showing the concern for self. The appearance of Moon in 2-4-8-12th cusp indicated the concern for income, difficulties faced in searching for a job and the frustration.

Thus, the mental focus on the query was established in the prashna chart and it was reasonable to proceed for analyzing the query.

The co-ordinates of judgment

The prashna dealing with the profession has a primary focus on the 10th house indicating the karmic profile.

In order that the profession points to the salaried job, the focus gets on the 6th house. 2nd house indicates the salaried earning and overall fructification of the ambition of getting a job is seen through the 11th house. Thus, an amicable connection amongst 2-6-10-11th houses is necessary for the acquisition of a suitable job.

Analysis of the chart

- Let us note the indications of the Lagna.

Lagna sub-lord is Jupiter, which owns 10th house and is placed in 5th house, though close to the 6th cusp within 5 degrees. On the face value, this is not a healthy disposition of Jupiter, as it causes ripples by signifying 5th house, though causing hopes of getting it as well as 10th lord.

Jupiter signifies 2nd house, as the Jupiter's star lord-Saturn gets placed in 2nd house. Since, the Saturn happens to be the 8-9th lord, the Lagna gets further weak for indicating a job strongly due to Saturn owning the 8th house. Jupiter in its own sub placed in 5th house does not portend well.

Since, the 10th cuspal sub-lord is also Jupiter, the same applies to the primary house of profession.

- Look at the 6th cusp of a salaried job.

Venus is the sub-lord of the 6th cusp lording the 12th house and is retro, causing the disappointments at the first place. Even though, Venus is retro, it signifies the 2nd house by its star-lord Ketu placed in 2nd house. Venus falls in the sub of Mars, which gets placed in the 11th house as 6th lord.

Thus, in spite of the retrogression of Venus, Venus was taken to indicate a job.

- Look at the 11th cusp.

The 11th cuspal sub-lord is Rahu, which is placed in 8th house indicating frustration in the process of getting a job. Rahu is not very strong; as there are planets in its star and the hurdles indicated by Rahu gets eased out. Rahu disposes Saturn, which falls in the star of Ketu placed in 2nd house, thus the 11th cusp is taken to signify the 2nd house and taken to signify a job. The Mercury as the sub-lord of Rahu is close to the 2nd cusp, strongly signifying the 2nd house. Thus, the 11th cusp is taken to signify the fructification of ambition of getting a job.

- It may be noted that all the relevant cusps (2—6-10-11) signify the 2nd house, though there were a few negativities indicated as well, as described above.

Thus, I concluded that the native should get a job.

Timing of getting job

- First of all, it should be prudent to know, whether getting a job would be early or late.

For this reason, take note of the 11th cuspal sub-lord Rahu that disposes Saturn, indicating that the job may not be obtained at an early date.

- After having done the above analysis, the ruling planets were taken at 18-50-36 Hrs, with the intent to identify the dasha spread, which came out to be Mars-Saturn-Jupiter-Mercury and Venus.

- Ø Mars does not have any planet in its star and is thus strong and strongly lords the 6th house. Mars is placed in 11th house and signifies 2nd house. Thus, Mars was taken to be a prime significator of 2-6-11th houses and was considered most useful for the acquisition of the job.
- Ø Saturn signifies 2nd house through its star lord Ketu. Saturn also lords 8th house and is close to the 9th cusp within a degree. Thus, Saturn is not very conducive to signify a job. Thus, Saturn's involved to get a job could be at a secondary level.
- Ø As Jupiter was 10th lord, placed close to 6th cusp (from behind) and signified 2nd house, it was taken to indicate the acquisition of job.
- Ø Mercury signifies the 2nd house and thus considered useful.
- Ø Venus is retro but signifies the 2nd house. Venus is in the sub of Mars (a very useful planet), thus Venus is considered useful to the query after it gets direct.

Thus, the planets Mars-Jupiter-Mercury were taken as useful planets in addition of the Venus, which was to become useful for the fructification of the query after it becomes direct.

- Now look to the dasha details as follows.

- Ø At the time of prashna, the native was running the dasha of Jupiter-Mercury-Mercury, which was to run till 17-10-2007.
- Ø After this period, Ketu antara was to run upto Dec 04, 2007. Since, Ketu does not fall as RPs, it is difficult to have hopes on Ketu antara.
- Ø Now, the Jupiter-Mercury-Venus period starts operating from Dec 04, 2007 and this seemed useful period for the fructification of the query and getting a job. This was communicated to the querent.

Facts of the case

- In contrast to the findings, the native was selected for a job in MNC on 10-09-2007 and was assured to join by Oct 01, 2007. It was expected to receive the offer letter by then. Somehow, the appointment letter was not issued, though the company persisted the candidate to wait and called the selection as valid. Till today (Oct 22, 2007), the letter was not received.
 - Ø Astrologically, the dasha of Jupiter-Mercury-Jupiter was running at the time of selection. Jupiter was not that strong enough to give a job, though it was 10th lord. The next antara of Saturn also did not make it happen, as it was signifying 9th house more than the 2nd house.
- The candidate tried for another job and got it on Oct 04, 2007 and joined on Oct 08, 2007. Somehow, after a few days of working there, the candidate was not satisfied by the job definition and is now on leave as soon as Ketu antara started from Oct 17, 2007.
 - Ø Astrologically, Ketu falls in the star/sub of retro Venus signifying 2nd house and in the sub-sub of Mars, a useful planet for job. Since, Venus was direct then, it did offer a job. The Ketu signifying the 12th house through star lord did force the candidate to away from attending the job and be on leave.

Conclusion

Even though, some breakthrough happened to get a job, the things did not materialize to satisfaction, as explained above. Perhaps, a good hope rests on Venus antara to give the job in Jupiter-Mercury-Venus period starting from Dec 02, 2007.

There has been some efforts endeavored by some of us to bring about mundane astrological predictions into the foray KP E Zine magazine for quite some time now.

The Editor, Mr. Kanak Bosmia has been very innovative and amenable with reference to introducing all branches of astrology such as stock market, medical, mundane, natal, etc. in KP method, TSP method, 4th Step theory, KB, etc.

The political turmoil in Pakistan has been brewing for quite some time now, and it has been catching the headlines in Television Channels and Print Media.

The below subject came to my mind.

WILL FORMER PAKISTAN PRIME MINISTER NAWAZ SHARIF BE INCARCERATED?

Meantime there was news as follows:

QUOTE

Wednesday, August 29, 2007 (Washington)

Exiled former Pakistani Prime minister, Nawaz Sharif, has said he may return home in two or three weeks.

It is despite the threat of being thrown in jail by President Pervez Musharraf, and warned of "chaos" and even civil war if the General imposed Emergency in the country.

"If he (Musharraf) wants to put me in the jail, let him put me in the jail. I'm not scared of these things at all, Mr. Sharif said. So, I will go. And if he does that, I will face that," he said.

Note: Subsequent news also gave indication that Mr. Nawaz Sharif will reach Islamabad on 10 Sept 2007 and will leave for Lahore by road.

UNQUOTE.

I was trying to follow the political developments, and got curious that if Mr. Nawaz Sharif comes to Pakistan, will he be again arrested and put behind the bars? As we know that he was de-throned from the power and was imprisoned before being sent to Saudi Arabia in exile. The Supreme Court of Pakistan has allowed his return to the Country, but has not given any directions to the authorities with reference to his arrest, etc. This has prompted me to do an astro-diagnosis.

As per the directions given by Prof KSK in his reader 6, I have told a colleague of me about this news item and possible arrest of Mr. Sharif. Then I asked her for a number between 1--249. She, without pausing or hesitating, gave no. 68.

Query: Will former Prime Minister of Pakistan, Nawaz Sharif go to Jail or not, when he reaches Pakistan in Sept 2007?

KP Horary No. 68

Date: 29-8-2007,

Time:16-43-00,

(Acronyms: CU-cusp, CSL-Cusp sub lord, PCO-Planets in star of occupant, OCC-Occupant, PCBL-Planets in star of Bhava lord, BL-Bhava lord, asp-aspect.)

In KP Astrology, as per Reader 6, "Horary Astrology", on page no. 313, the rule for imprisonment is given as follows:

1. 12th cusp sub lord (CSL) should be Rahu.
2. 12th CSL should not in a constellation, whose star-lord, which is not retrogression.
3. 12th CSL should be the significator of either 2 or 3 or 8 or 12th house.

If these conditions are fulfilled in a horary chart, there will be imprisonment.

1) In the horary chart under consideration, 12th CSL is Rahu. Condition no.1 is fulfilled.

2) 12th CSL Rahu is in own star, Satabhisha. Rahu is never retrograde, though moves backward. Condition no.2 is fulfilled.

3) Rahu signifies:

	2 nd at aspect level. Rahu (shadowy plant), whose aspect is more powerful than planets.
	3 rd BL Mercury gets aspect of Rahu.
	8 th at PCO and OCC level.
	12 th BL Mercury gets aspect of Rahu.

All the conditions are fulfilled.

Since Rahu and Mars are significators of 8th cusp, Police will arrest Mr. Sharif. Current VMD is Jupiter who signifies 12th. Mercury Bhukti is upto 09-Oct-2007. Mercury too signifies 12th. Since 12th is house of the imprisonment, he will be arrested during Mercury Bhukti itself.

The prediction was made on 31-Aug-2007. When the former Prime Minister, Mr. Nawaz Shariff arrived in Islamabad on 10-Sept-2007, he was immediately arrested and deported to Saudi Arabia.

IS UPA GOVERNMENT IN DANGER ?

By: Dr.H.S.Nagi, Ph. D.

The present UPA government is in crises over nuke deal and Left parties again made it clear that they would withdraw support if the government proceeded with operationalising the agreement. Now the question is whether Left will pull off its support.

Let us try with swearing in ceremony time chart of UPA govt. UPA government swear in at 17-34 IST, at new delhi on 22-5-2004. at this time it was Libra ascendant rising in the east. Usually in muhurta charts moveable signs should be avoided, and Libra is a moveable sign.

In kp stellar system of predictions, emphasis is given to planetary stellar signification. The present UPA govt. is depending upon the LEFT parties support to remain in power. Let us analyse their alliance. It is like a partnership or contract between two parties. viewing it as an angle of will this partnership will go on or it will break down?

Rule

If 7th cusp sub lord signify 6 or 12 then the partnership will break. If it signify 5-8 12 houses then there will be differences, strong disagreements, uncertainty etc., if it signify 5 and 11 then there will be harmony.

In swearing in chart of sh. Manmohan Singh Ji,

7th cusp sub lord is rahu. Rahu is posited in 6, but in conjunction to 7th cusp also that's why there alliance came in existence. Since Rahu is a node, it gives result of the planet with which it is conjoined, and planets which aspect it and its own star lord and of that sign lord in which sign it is posited.

Here in the chart

- 1- Rahu is conjoined with mercury (lord of 12 in 6 separation) so alliance party (left) will always threat to pull off.
- 2- Rahu is aspected by Jupiter (lord of 3-support, and 6-separation)
- 3- Rahu is in star of venus, lord of 1 and 8 in 8 (there will be always threat to withdraw the support, stress and disagreement)
- 4- Rahu is aries, mars is lord of aries. Mars is posited in 8th, tension and disagreement in relations.

Rahu is in sub of Moon. moon is lord of 10 (government) in 8 (on slippery road) in star of Rahu in 6, separation.

All these significations tell us that this alliance will break.

Checking longevity

Rule

Rule for longevity is lagna cusp sub lord should not have signification of marka(2-7) and badhka here it is 11th, houses.

The Lagna Sublord is Moon. Moon is in 8th lord of 10th bhava. Moon is in Rahu Star. Rahu in 6th bhava but in 7th CUSPI Rahu represents mars in 8th bhava. But moon is in the sub of Mercury, a significator of 8th bhava. Mercury is in 6th house. Mercury is sub lord of 2 (Maraka), 5, 8, 11 (Badhaka) and no planet in the star of mercury, and mercury is in 6th house as lord of 12. there is no planet in 12th so mercury fully signify 6 and 12 (trouble)

As per cuspal sublord theory, the lagna sublord Moon having no planets in her stars gets full signification of ascendant Moon is lord of 10th (govt) and there is no planets in 10th house also. So the longevity and performance of the New Govt..

Here moon have another role to play, that it is in conjunction with Mars, Mars is posited in 8 (danger, uncertainty) and Mars is lord of 2 and 7 that is marka houses.

So through conjunction Moon shows medium longevity. Moon is in sub of mercury

But the dasa lord though connected to 8th house indicates obstacles and delays and dejections. Rahu as a node has to give results of 2 and 7th also (Maraka). There is no planet in mercury star. This shows lagna cusp sub lord does not promise full term.

IMPORTNACE OF MUHURAT AS PER KP SYSTEM

This Month I have very good news for KP Lovers. In response to the April 2006 issue of AM, wherein Smt. Gayatridevi Vasudev's analyzes of swearing in chart of former Karnataka Chief Minister, Shri H.D. Kumaraswami's Govt, I decided to check it with KP system and I found opposite result what written by Smt Gayatridevi Vasudev. I wrote a mail to her with my finding but she never published it. In her article she gives more importance on ABHIJIT MUHURAT and SUN in 10th house. With this point she predicted long life of Karnataka Govt, as per my finding this swearing chart shows short life as per KP rules, and now we know this Govt. is not in power.

I wrote in my message in KP system group (Now I am silent member of that group) http://groups.yahoo.com/group/k_p_system/message/7525 and prediction come very correct.

I don't want to compare both systems, i.e., Vedic astrology and KP astrology, but my humble attempt is to find out difference between the both. We have to always remember that basis of KP is only on Vedic astrology.

First let us see what is Muhurat?

An auspicious time to start any event is a Muhurat. The chart for that auspicious moment is MUHURAT CHART. Here it should be clearly understood that WE HAVE TO TAKE THE MOMENT OF STARTING THE EVENT, WE DO NOT TAKE INTO CONSIDERATION WHEN THE EVENT GETS FINISHED.

Now I shall discuss Shri Kumaraswami's Govt's swearing in chart.

Date of Swearing: 03 Februray 2006

Time: 12.21 PM

Place: Vidhana souda- Bangalore- Karnataka

Lat/Long: 12 N 59, 77 E 35

Very important point in any MUHURAT chart is, never select MESHA, KARKA, TULA AND MAKAR rasi as a Lagna. These four Rasis--MESHA, KARKA, TULA AND MAKAR are CHARA Rasis and for Chara Rasi the 11th cusp is Badhaka Sthana. When we do auspicious work we always think for long and prosperous life of that work, and for long life / longevity of the event we have to look Asc cusp sub lord. For good longevity if we set time when Asc sub lord signifies 1, 5, 11 which means good longevity. And if we take Chara Lagna i.e. MESHA, KARKA, TULA AND MAKAR 11th is not good but becomes a Badhaka. So we should avoid Chara Lagna for any Muhurat.

In this chart lagna is Mesh, the selection of this Lagna is that at this time SUN comes in 10th and time of swearing in is in Abhijit Muhurat. As per Vedic system of astrology Muhurat, Abhijit Muhurat with Sun in 10th house is the best for RAJYABHI SHEK Muhurat.

Let us see what is Abhijit Muhurat first:

It is a puranic (Old) name 'Abhijit Muhurat'. This election (Muhurat) is also called in Gujarat as 'Vijay Muhurat'. In Gujarat generally people use 12.39 pm as a Vijay Muhurat, and in such case they need not need to ask any astrologer to fix a muhurt. It is a pre-determined fixed time. But it is not true and if we take in all the 365 days, 12.39 pm as Vijay muhurt is wrong thinking,

It has power to annihilate / destroy numerous malevolent influences in elections. Abhijit Muhurat is that Muhurat prevailing when the Sun is at the zenith or the midheaven. (In 10th House).

Calculation of Abhijit (Vijay) muhurt is as below: I take example of same Swearing chart:

For calculating Vijay (Abhijit) Muhurat we need duration of Day (Sun rise to Sun set) and 8th Muhurat of day duration is Abhijit Muhurat. If we calculate Madhyahna it shows us 7½th muhurt.

I guess every reader of KP-Ezine knows how to calculate Sun rise and Sun set or you can use any software for ready timing of Sun rise and Sun set, besides you can get it from Local Panchanga.

Sunrise for Bangalore on 03/02/2006 was 06.45.38 (as per KPastro2.7)

Sunset for Bangalore on 03/02/2006 was 18.21.26

Duration was: 11Hrs.35 Mnt.48Sec.

$11\text{Hrs.}35\text{Mnt}14\text{Sec} \div 2 = 5\text{Hrs } 47\text{ Minutes } 54\text{ Sec}$

Sunrise for Bangalore on 03/02/2006 was 06.45.38 + 5Hrs 47 Minutes 54 Sec = 12Hrs 33Mnt 32 Sec

During day time we have 15 muhurt so we divide day duration by 15 to get timing of one muhurt.

$11\text{Hrs.}35\text{Mnt}14\text{Sec} \div 15 = 0\text{Hrs } 46\text{Mnt } 20.9.3\text{ Sec}$. Madhyahna means 7½ muhurt Pass. Now we add ½ of Muhurat duration in Madhyahna to get starting time of 8th Abhijit muhurt. $0\text{Hrs } 46\text{Mnt } 20.9.3\text{ Sec} \div 2 = 0\text{Hrs } 23\text{ Minutes } 10\text{ Sec}$, so we add this Value in madhyahna time. $12\text{Hrs } 33\text{Mnt } 32\text{ Sec} + 0\text{Hrs } 23\text{ Minutes } 10\text{ Sec} = 12\text{Hrs } 56\text{ Mnt } 42\text{Sec}$ This is starting time of Abhijit muhurt and duration is $12\text{Hrs } 56\text{ Mnt } 42\text{Sec} + 0\text{Hrs } 23\text{ Minutes } 10\text{ Sec} = 13\text{Hrs } 19\text{ Mnt } 45\text{Sec}$. so Abhijit Muhurat time is 12Hrs 56 Mnt 42Sec To 13Hrs 19 Mnt 45Sec Starting time of Swearing in is 12.21PM which is not in Abhijit Muhurat only Sun is in 10th. I don't know how she mentions this Swearing chart shows Abhijit Muhurat.

Role of Asc. Sub lord

I always give importance to Asc sublord in Muhurat (Electional chart), because longevity of auspicious event is a must. In this case Asc sub lord (some takes 12.21PM, some takes 12.22PM and some takes 12.15PM but I check it with RP and found that Ketu as a sublord is right time, I don't have now RP details.)

Main point in this chart is lagna is Mesha, as per me "Never select Chara lagna in KP Muhurat chart". Also when we select Abhijit muhurt or Sun in 10th, approximately 13th January to 13th Feb or 13th May to 13th June or 13th July to 13th August or 13th October to 13th November, we get Chara lagna as Asc. So during these months or when Sun is in Chara Rasi MESA, KARKA, TULA AND MAKAR does not select Abhijit Muhurat as per KP. Because at the same time we get Chara lagna. In any chart we found same Swabhava (Nature) in Kendra, so when we select SUN in char rasi in 10 (Kendra) we found lagna is also Chara.

Asc sub lord Ketu is in 5. No planet in the star of Ket and Ketu is sub lord of 1,7(Maraka), Ket Aspected by Saturn by 3rd Hindu aspect, Saturn is in 3, Lord of 10-11 (Badhaka), in the star of Moon in 12(Moksha), 4(End), in the sub of Rahu 11(Badhaka). Rahu is conjoined with Moon in 12 (Moksha) , 4(End).

In this Swearing in chart show we short longevity.

Planets in the Star and sub of signficatore of badhaka:

In this chart Planets Moon, Mercury ,Saturn, Rahu, Ketu are in the Sub of Rah which is in 11 being Badhaka sthana and planets Saturn and Rahu are in the star of Saturn and Jupiter and Venus are in the sub of Sat lord of 11(badhaka).

Seven Planets such as Moon, Mercury, Saturn, Rahu, Ketu, Jupiter and Venus, out of nine, signify Badhaka sthan, which is not good for this event swearing in of Kumaraswami Govt.

Role of Running Dasa:

I am not sure which dasa we have to use for Swearing in chart. Some advocate about 5-year political Vimshotary dasa; some advocate 120-year Vimshotary dasa. Generally I prefer to look from 5-year dasa because logically I like it, but I am not sure about which dasa gives us perfect result.

In this swearing in chart we found that seven planets out of nine involve with badhaka sthan. So I leave it to reader to analyze dasa your self.

Dear Kanak Ji,

Thanks for publishing the article and my views on KB in Diwali Issue of e-Zine.

I must convey my thanks to you for taking quick action on the KB first part immediately, communicating it to me as well as publishing it boldly in the e-Zine. Surely, you are on right track and I wish the KP e-Zine will accomodate all views and theories and offshoots of KP in future with open eyes under your stewardship.

Wishing all the readers of e-Zine a very Happy Diwali!

Regards,
Rajendra

Dear Shri Bosmia saab

Thanks for sending me the Nov 2007 issue of KP E Zine magazine. The magazine has definitely touched new heights with the introduction of new themes and reputed writers.

Regards
MK Viswanath

Dear Kanak Bhai,
Congratulations on first Diwali issue of our KP-Ezine. May you n our KP-Ezine live long .
I must write that Mr.Devaraja is doing great work by writing articles on KB regularly. Your article on Swearing in Chart of Kumaraswami's Karnataka Govt.is very thought provoking .Kindly keep writing on muhurata topics which are very much needed e.g. when to buy car / jewellery and when to sell the product to get maximum gains.when to meet a client to sell him the items ? when to start higher learning ? when to buy software so that we can use it to get gains ,profits and name-fame. ? when to undertake small/long business journey to yield profits ? etc etc. Calculation of Abhijit Muhurat and Reference Corner - KP House Grouping-Part:2 by Mr. Tin Win will be found very useful to the readers. Articles by Mr.Nimje , Mr H S Nagi ,Mr.Vijay Kumar and Mr.Vishwanath Nair are very interesting to read. I request these learned and experienced astrologers to contribute by way of predicting

on sensex / any particular scrip. May be Mr Tin Win can also throw some light on this matter.

Dear Shri Kanakji,

Many thanks for publishing my letter of feed back in November 2007 E-Zine. Here Is another feed back and suggestion for E-zine. Yours (as well as Mr.Rangarajan Krishnamurthy) article on Mars Dosha and 11 Rules was very impressive and perhaps, it was first time to broach on Mars Dosha, from the point of view of marriage matching.So far KPDVP (Dasa Vidha Porutham) by Shri Kuppu Ganapathy only was available for matching the charts.There is no mention regarding matching the charts of Boy and Girl having Doshas like Mars or other malefics. In Hindu Astrology, not only Mars but Saturn, Sun, Rahu & Kethu also cause Doshas and various astrologers have given hints to compute the total Doshas, some using Units and some others using Points. These Doshas have been classified according to the intensity of their position viz. Dosha causing Planets in 7th and 8th as severe with high points of Dosha and in other positions such as 1,2,4,12 as less intensity and less points and again they have been classified according to their awasthas (positional strength) viz.Exaltation, Debilation, in Friendly, Enemy and neutral houses. I don't know what is the criteria adopted in KP System how to evaluate doshas to find out whether Dosha Samyam exists in Boy' & Girl's charts and how to find out whether the chart agrees from the point of view of Doshas. I request you and Shri Rangarajan Krishnamurthy to elicit more on this subject with few examples in E-Zine. This will be a boon to KP followers.

With very best wishes,

Sincerely yours,

K.S.V.Ramani

Dear Mr Kanak

I managed to download the KPEcine and find it very interesting. Thank you very much. I look forward to read it soon. Is it possible to send me back issues of the same?

One comment. I think constructive criticism is good because we can learn of it.

Best Regards
Cristian

hellow dear kanak sir,
my name is nayan. i am doing my mba from ICFAI, Hyderabad. I've done my graduation in Physics. KP astrology is the only one which i have found very logical and scientific. i am very proude of this kp organization organised by you. the e zine magazine is really a valuable asset for us. the way of presenting each and every article is wonderful. i 've read many magazines of B V Raman and also different books written by him but unfortunately many confusions and doubts are there. Any way we should take the initiative to spread this wonderful method of astrology to every where. i've some suggestions to develop our magazine such as:

1. if possible pls introduce a question answer session. like the members have some questions or doubts rgarding the KP astrology that part should be answered.
2. if posible pls include the monthly transit result for each rasi. (like in traditional vedic astrology what they usually do.)
3. some quizzes related to kp astrology and the answer will be in the next magazine.

thanks
nayan

Dear Kanak Bosmia,

first of all I want to thank you for the work you are doing to promote KP through your excellent KP magazine. I really love to read all the brilliant articles every month.

Please go on with you work. I wish you all the best!

SAIAMAN

My reply:

Dear Saiman ji,

Thanks for your mail.

If you believe that KB system is most perfect system, any have no problem, but in first article of Devaraj ji, he mention compression btwin KP and KB, that is wrong. If KB system is perfect not need to compare with any system, bcoze KB system self prove it.

I meet Deavraj ji personally at chennai and take lesson about KB system, when first article published, I talk to him and he is also agree with me and promises me to not camper any system with KB.

I well come your article on Kb system in KP ezine, not your but all the student to Kb system can send his/her article for KPEzine, if advisory board pass it definitely published in KP Ezine.

There is nothing written in any KP literature about mundane astrology, or there is no clear cut rule for mundane prediction.

This is my humble try on mundane, rules I have fix as per my little understanding, maybe I am wrong in my understanding, so all are most welcome with views / criticism / comments.

Rules for Election:

If 3rd (Election, view of people) Signifies 3 (Election, view of people), 9(people who think for opposite view), 11 (FoD) Election will be held.

What will be the outcome of Election?

There are many outcomes possible in election, so I fix some rules for outcomes of election which are as under.

Thought One

- 1) If Asc Sub lord (Tendency of people of country) signifies 6(Military Dictatorship) ,11(gain) then power come in hand of Military or dictator.
- 2) If Asc Sub lord (Tendency of people of country) signifies 4(Democracies, Democratic Government and movements), 11(gain) then power come in hand of Democratic Government.
- 3) If Asc Sub lord (Tendency of people of country) signifies 9(Religious leader), 11(gain) then power come in hand of Religious leaders.

Thought Two

- 1) If 10th (outcome of election and referendum) signifies 4(Democracies, Democratic Government and movements), 11(gain) then power come in hand of Democratic Government.
- 2) If 10th (outcome of election and referendum) signifies 6(Military Dictatorship), 11(gain) then power come in hand of Military or dictator.
- 3) If 10th (outcome of election and referendum) signifies 9(Religious leader), 11(gain) then power come in hand of Religious leaders.

Question: Will there be any Election in Pakistan? If so when?

Horary number: 87 (random generated by software)

Date: 9/11/2007

Time: 23.33.07

Place: L.G. Hospital- Ahmedabad 23 N 00, 72 E 36

Is there any election?

3rd (Election, view of people) sub lord is Mer, Mer is in the star of Mar and sub of Ven.

Mer is in 3 lord of 2,11. Mar is in 11 lord of 4,9. Ven is in 2 lord of 3,10 no planet in the star of Ven and Ven is sub lord of 7,9,11.

In this horary 3rd sub lord strongly indicate 3,9,11, so election is conform

When?

Significator of 3,9,11 are:

3 A Ven, Jup B: Sun, Moon, Mer C: Nil D: Ven.

9: A: Nil, B: Nil, C: Mer D: Mar

11: A: Mer B: Mar C: Jup D: Mer

Total Significator are:

Ven, Jup, Sun, Moon, Mer, Mar

RP are Moon, Sat, Ven, Jup.

Running dasa is Jup up to 18/11/2022. Jup is in both significatore and RP.

Running Bhukti is Jup up to 5/1/2009. Jup is in both significatore and RP.

Running Antra is Ket up to 8/12/2007, Ket is Conj with sat so Ket give result of SAT but Sat is not in significtore.

Next Antra is Ven up to 16/4/2008, Ven is in both so during 8/12/2007 to 16/4/2008 will be the period for election in Pakistan.

Thought One:

Asc sub lord is Moon. Moon is in the star and sub of JUP.

Moon is in 3 and lord of 12 No planet in the star of Moon and Moon is sub lord of cusp 1,5. JUP is in 4, lord of 5,8. We do not found 6 (Military Dictatorship) but Moon aspect on 9th Cusp, so chance is Democratic and Religious Party firm Government as a alliance Government.

Thought Two:

10th (outcome of election and referendum) sub lord is Jup, in the star of Mer and sub of Own.

JUP is in 4, lord of 5, 8. Mer is in 3 lord of 2, 11. Mer aspect on 9th cusp.

This thought indicates same result as chance is Democratic and Religious Party form Government as an alliance Government.

This is totally new idea, so take me in that angle. I always welcome healthy criticisms and discussion.

How to predict horoscope for wealth Through K.B system

By: A. Devaraj (Jyothish Kalaa Rathna)

Sri Bruhaspati K.B. Jyothish Training School,
No, 68. P.G. Avenue, 3rd St., Kattuppakkam,

Ph.044-24765320, Cell: 9382339084

Now a days in human life, we can involve in all the activities, the money is the more important. The Thiruvalluvar also quote the importance of wealth in his Thirukkural. i.e. one who have all the good qualities and good characters, but if he has no wealth, the society will not give a proper response to him. But the people give response and obedience, one who have a good wealth.

In the modern cultural world, so-called wealth like money, jewels and other materials, are more important to a man. A true is that a man, even though who is in the old age, edge of the life, also having greediness to make the money.

This article explained through the astrological way, who will get the much money, jewels, house, land and vehicle in his life through the best way.

A Horoscope has 12 bhavas and the 12 bhavas sorted out two parts as 6 odd number bhavas and 6 even number bhavas. These two sorts of bhavs play on the one's life and conduct his life up to last. In the K.B System, all karakas in the world are divided into two categories. In this, the odd numbers bhavas are called "Soul dependent bhava" and the even number bhavas are called "Material dependant bhavas".

First of all, I wish to explain briefly, which way the soul dependent bhava karakas and material dependant bhava karakas, are run the human life.

Soul dependent bhava Karakas:

The soul dependent bhava karakas indicate the love, obedience, sharing with other, dependent with each other, sharing and understanding the sensitive feeling with other, move with other without any material expectation, Love affair with another, good healthy without any disease, creates happy situation ever, Understanding with other's love feelings. These karakas are not related with economic, so these are called the Sole dependent bhava karakas.

In the horoscope, one can enjoy peaceful and pleasure full benefits of the sole dependent bhava karakas, when the odd number bhavas of 1,3,5,7,9,11, are very strong and powerful.

If the sole dependent bhavas, (i.e. 1,3,5,7,9,11, bhavas) are inter-linked with their group bhavas, the sole dependent bhava karakas will get strengthened. i.e., 1,3,5,7,9,11 bhava cuspal sub lord, inter-linked with its own groups through its star lord and sub lord. The above interlinks determines the fate or potential of the soul dependent bhavas. Here the fate donates in the beneficiary to the odd number bhavas. Therefore the person will enjoy soul dependent bhava karakas up-to his end of the life (if dasa, bhukthi not to oppose the bhavas)

Material dependent bhava karakas:

Material dependent means, who is make movement with another with the idea of money, not control to others, have not give and take policy, not obey to attraction and feelings, not

interest in the love affairs, always not satisfy in all the matters, competitive, jealousy, gambling, greedy sense, and always thinking to earn Gold, material, money, property etc.,

In a horoscope, Even number bhavas like 2, 4,6,8,10,12 bhavas gets strengthen, that such person will be a wealthy person.

The material dependent karaka will strengthen, while the bhava inter-related with the same material dependent bhavas.

The material dependent bhava , (i.e. 2,4,6,8,10,12 bhavas) are inter-linked with the same group bhavas, i.e., 2,4,6,8,10,12 bhava cuspal sub lord, inter-linked with its own groups through its star lord and its sub lord. The above interlinks determines the fate or potential of the material dependent bhavas. Here the fate donate in the beneficiary to the even number bhavas. There fore the person will enjoy material dependent bhava karakas up-to his end of the life (if dasa, bhukthi not to oppose the bhavas)

I hope that all are understood about the above explained the soul dependent and material dependent karaka and I continue this article.

So, in a horoscope the material dependent bhavas, 2,4,6,10 bhavas, inter-linked with the same material dependent bhavas, while such a person economic back-ground will be very good. Even though the 8, 12 bhavas also material dependent bhavas, but these will give disturbance to the lagna (Native) .So, the 8,12 bhavas will not give such a benefit to the lagna.

I.e. The 8,12 bhavas are favorable bhavas to the 2,4,6,10 bhavas and at the same time, this 8,12 bhavas gives unfavorable results to the lagna. So, if the 2,4,6,10 bhavas connected with 8,12 bhavas, such connection give trouble to the lagna and as well as, the 2,4,6,10, bhava karakas also not to give benefit and give disturbance to the lagna. I request the readers to think over it.

I explain through the K.B.'s important rule to understand more about the above explained matters. i.e., a particular bhava cuspal sub-lord (or planet) in the star-lord and its sub-lord inter-linked with other bhavas and the inter-linked combination result will be good or bad to the particular bhava and at the same time it will give a good or bad result to the other bhavas also. Particularly it will give good or bad to lagna.

So, any bhava connected with un-favorable to lagna, i.e., 8,12 bhavas, that 8,12 bhavas gives favorable result to the other connected, even number, bhavas. But this result will not give a good result to the lagna and any way it will give unfavorable result to the individual.

I will explain with a small example the above referred matter. For example, we will take the 4th cuspal sub-lord connected with 8,12th bhava through its star lord and its sub-lord. The 8,12 bhavas is tri-angle bhavas to 4th bhava and this 8,12 bhavas not to give bad effect to the 4th bhava and gives good result to the 4th bhava. So, through its bhava inter-links a man can get a fine house, vehicle and a land. (4th bhava indicates house, vehicle land etc.,)

The 4th bhava inter-linked with the 8,12 bhavas is un-favorable to the lagna (8, 12) and a particular person can't enjoy, the house, vehicle or the land. At the same time, I hope and perhaps the 4,8,12 bhavas gives an accident to that person through the vehicle. Perhaps the lagna bhava may be weak in the horoscope and here has a majority chance to loss his life through the vehicle.

i.e. The 12 bhavas cuspal sub-lords not only favorable to their bhavas through their star lord and sub-lord and it should favorable or shouldn't unfavorable to lagna to some extents. Then only the individual can enjoys such bhava karakas with pleasure.

So, if any one can develop economically in his life, in its horoscope 2,4,6,10th bhavas inter-links with 2,4,6,10th bhavas, while the material bhavas can strengthen. This kind of horoscope man can be an economically rich and wealthy position for long period. We can accept this as a general rule. If dasa, bhukthi also support and favorable to its bhava, the general rule diverted to individual rule and the fate will give benefic result and develop the individual to the economically higher position.

Meanwhile, Material dependent bhavas (2,4,6,10 bhava's) sub lord connected with the odd number bhavas through it's starlord and sub lord, the material dependent bhavas will lose its power. Particularly material dependent bhavas (2,4,6,10 bhavas)connected with its 4,8,12 bhavas(i.e odd number bhavas), while lose its majority strength.

Up to this, while the even number bhavas strengthen, a person can develop his economic position and gets gold, materials, house, land, vehicle (not oppose by the dasa, bhukthi) etc, are through the favorable fate.

In the same method, odd number bhavas, 1,3,5,7,9,11th bhavas cusp sub-lord through it's star lord and sub lord are connect with the dual number bhavas (except 8,12 bhavas), the odd number bhavas, through it's bhava, move with 2,4,6,10 bhavas and gives the economic development to the person. These connection coincide with the running dasa, bhukthi

Even though the even number bhavas, 2,4,6,10 bhavas, are material dependent bhavas and don't think that these bhavas only give a gold, materials, house, land, vehicle etc. will give to anybody and don't get the urgent result that the "other bhavas never give the such favorable result". These decisions will not, any way, coincide with scientifically.

Why because, in the astrological field any bhava or any planet not move independently. A bhava or a planet get connection with other bhavas through its star lord or sub lord and these bhava karakas make diversion by the way to the concern bhava karaka or the planet karaka. This is the one of the basic rule in the K.B. system.

If explain the above mentioned rule by the various method, that every bhavas, not only having with its karakas, but it has within the other 11 bhavas karakas. That is, if the odd number bhavas having within much more sole dependent karaka and it having within the material dependent karaka also. Such as if the even number bhavas has within much more material dependent karaka and it having within the sole dependent karaka also.

The above explained suggestion may be just different to the readers. i.e. 2nd bhava indicates the individual's gold, jewels, other materials and identify the cash on hand. such as, other 11 bhavas also have 2nd house karakas. In the K.B method sorted out that the money, gold etc are the general karaka of the 2nd bhava's and within the other 11 bhava's referred money and jewels and materials are the independent karaka.

If you go through above mentioned matters, we can understand about the fate and bhava responsibility in the K.B. method. Which way and when we can get the fate response through connection with the running Dasa bhukthi period.

Such a way, the following bhavas cuspal sub lords are inter-linked with the 2,4,6,10 bhava through its star lord and sub lord a person can get the gold, materials, house land, vehicle etc.,. The abstract result follows.

1st bhava :

A man can get the wealth through the Self thought and its individual effort, prestige,

2nd Bhava :

The wealth can develop through his oratory, good speech and own money.

3rd bhava :

The wealth can develop through his writing, communication, contract or agreement, self confident, braveness.

4th bhava:

Improve the wealth through his education, the education related, material, production , cultivable land, , form, and the vehicle.

5th bhava :

Wealth comes through the fine arts, sport, commission, political, Talent, prostitute, self attraction physical body, and children.

6th bhava :

Wealth can develop through the Physical work, Loan give and take; get money by the way of service, food and cloth, medical dept., rent.

7th bhava :

The wealth comes through the social contact, life partner, customers, cheating the tax,

8th bhava :

Develop the wealth through the activities against the law, bribe, burglar, old used materials, insurance, will, cheating the way of faith.

9th bhava :

Earn the wealth by the way of religious contact, ancestral property, trust, foreign link, export or import, research, illegal love,

10th bhava :

Wealth comes through the prestigious post and profession, Chief of the Dept., administration ability,

11th bhava :

A man can earn wealth through the societies, friends, son-in-law, daughter-in-law, achievements, luck, entertainments and jolly way.

12th bhava :

Earn the wealth by the way of give the money to others, secret activities, hidden materials, investment, saving money,

Up this, we analyzed the relation of the material dependent bhava. We can't fabricate the planets as a soul dependent karaka and material dependent karaka.

Why because, the soul dependent karaka, and the material dependent karaka are inter-linked in the each planet. Each planet has within 12 bhava karakas. Within the 12 bhava karakas, a planet have a connection with the such bhava through its star lord and sub lord and the planet gives the result of the above connected bhava karaka through its planet karaka.

Further, I reveal message to the readers that the economical development process is much in the material development karaka than the soul dependent karaka. In the mean time, we can't come to conclusion that there is no such economic development process in the, odd number bhavas of the soul development bhavas.

The readers should understand that the economical related material karakas somewhat less in the odd number bhavas and such level increase the soul dependent karakas. Like that the

economical related material karakas somewhat increase in the even number bhavas and such level less in the soul dependent karakas.

The planet karakas of 9 planets are in the same basic method. i.e., the 9 planets have within 12 bhava karakas and have few bhava karakas at the some extent above and few bhava karakas some extent less.

The Jupiter and Venus is the karka for the wealth. But among the planet's, according the K.B. method, the Venus is the powerful planet, than the Jupiter, for the wealth. The explanation follows according the, Kaala chakra.

All are knows, according the kaala chakra, the Venus is the lord of 2 and 7. The Venus, 2nd bhava lord, indicates the wealth karaka and 7th lord indicates the Kalathra karaka. So the above explained 2 and 7 bhavas supported bhavas to 2nd bhava.

In a life, the economical background is the most important role to enjoy the luxury, pleasure and joyful life. So, such reason, we calling the Venus is the karaka for the wealth.

At the same time, as per the kaala chakra the Jupiter is the lord of 9 and 12th bhavas. The 9th bhava indicates the government treasury and indicates the high level jewels and materials, which is not to be individual materials, and it is common to world.

Such a way, the Dhana karakas planets of Venus and Jupiter are interlinks favorable bhavas to the 2nd bhavas and if the 2nd bhava should be a strong position, such a person could be a high level wealthy person. Moreover, most of the planets inter-link with the 2,4,6,10th bhavas and this interlinks shows a such a way to the economical develop in the life.

Up to this, we explained briefly about the fate. The dasa, bhukthi (mathi) also the main role to run the fate. If the fate is also the favorable to the material dependent bhava, at the important life period of from 30 to 55 age, while running the 5th and 9th bhava dasa, bhukthi, such period the fate power will suspended or decrease the fixed fate.

So, we ought to think and calculate the (math) dasa, bhukthi, when calculate fate response.

In next articles, I will explain "How to judge the result of a horoscope through the K.B. system "and I submit this article to my beloved guruji K. Baskaran, Madurai.

This case study analyses my recent travel from Bangalore to Allahabad and back. The travel was initiated on Nov 15, 2007 at 0717 Hrs and got concluded when I reached back home on Nov 21, 2007 at 1434 Hrs IST. This travel program was intended to discuss some important matters with someone known to me.

Since, I had to write for the Dec-2007 issue of KP-ezine, I thought it prudent to write about the travel muhurta co-relating the incidents that took place during the journey. By this exercise, I wish to bring the importance of KP styled delineation in muhurta charts.

The chart at the commencement of travel time is produced herewith.

This write-up is prepared after the travel is made. An effort is made to study the various incidents during the travel and stay which does show a strong co-relation with the planetary configuration at the time of travel muhurta.

The chart is being analysed as follows:

The co-ordinates of judgment

In a muhurta chart for travel, we may look into various aspects of travel as follows.

- a. The Lagna signifies the person who travels. Lagna also indicates the focus with which the travel is undertaken.
- b. Moon signifies the purpose of travel.
- c. The 7th cusp/house is the final destination of travel.
- d. The quality of forward travel is signified by the 3rd cusp/house.
- e. The quality of return travel is signified by the 9th cusp/house.
- f. The person with whom we need to interact at the destination is signified by the 9th or 11th cusp/house depending on whether the person is unknown/known one.
- g. The 4th cusp/house indicate the vehicle with which the forward travel is made, while the 10th cusp/house signify the same in return journey.
- h. The 6th house from 3/9th cusp/houses indicates the odds/difficulties of the forward/return travel as the case may be. Thus, the 8th cusp indicates the odds for forward travel and 2nd cusp/house for return travel.
- i. The quality of stay arrangements at the destination may be seen from the 10th cusp/house (4th from 7th).
- j. Dasha and sub-dasha lords during the travel period dictate the events as per their significations. For a successful travel, the dasha should be generally favorable while the bhukti must be necessarily favorable to realize the fruits of travel and that of ambitions for which the travel is made. For finer timing of events, the prana dasha (5th level of dasha) may be looked into which may decide the fructification of events as per its flavor.

The purpose of travel

Incidentally, the Lagna sub-lord is Moon itself, thus looking from the Moon would indicate the focus and purpose of travel.

Moon falls in the 2nd house indicating the matter connected to my family. Moon falls in the star of Venus as 7th lord placed in 10th house close to 11th cusp. At stellar level, the matter pertained to relationship/marriage (7th house), my assertions (10th house) and interaction with the known set of people (11th house). Moon falls in the sub of Mercury, which is 11th lord placed in 11th house, assuring the fruitfulness of the indications.

Thus, the focus of travel was aptly clear and it was comfortable to proceed further.

Analysis of the chart

Here are the details of the various events and its astrological connection with the muhurta chart.

1. Note the dasha indications.

For the travel period, the dasha lord is Venus, bhukti lord is Mercury, antara lord is Moon and pratyantara lord is Saturn. The period of Venus-Mercury-Moon-Saturn runs between Nov 11, 2007 to Nov 24, 2007 and hence covers the entire travel period.

- Ø Dasha-lord Venus falls close to the 11th cusp. Venus falls in the star of Moon, which governs the 7-11th cusps and as lord of 9th house falls in the 2nd house. Thus, Dasha-lord Venus is largely helpful.
- Ø Mercury as bhukti lord is a strong lord of 11th house, placed in 11th house. Mercury falls in the star of Rahu placed in 3rd house, making the journey fruitful to achieve the desired purpose.
- Ø Moon as antara lord is already analysed to signify 10th house close to 11th cusp, thus useful.
- Ø Pratyantara lord Saturn is the lord of 4th house, placed in 10th house. Since, Saturn is a planet that distracts us from the point of our mission, it was destined to misfire the discussions at times. Saturn in the star of Venus as 7th lord placed close to 11th cusp was yet a good indication to discuss matters to sufficient details, if not upto full (Saturn).
- Ø The prana dasha spread within the span of Saturn's pratyantara dasha during the travel time are as follows.

Venus-Mercury-Moon-Saturn-Ketu:	15-11-2007
Venus-Mercury-Moon-Saturn-Venus:	16-11-2007 to 17-11-2007
Venus-Mercury-Moon-Saturn-Sun:	18-11-2007
Venus-Mercury-Moon-Saturn-Moon:	19-11-2007
Venus-Mercury-Moon-Saturn-Mars:	20-11-2007
Venus-Mercury-Moon-Saturn-Rahu:	21-11-2007

2. The forward journey was very comfortable and the gentry around were very co-operative.

Ø The 3rd cuspal sub-lord is Moon, which connects 10th and 11th houses as said earlier. Since, Moon falls in the star of Venus, which owns the 6th cusp (4th from 3rd cusp), the travel was very comfortable.

Ø My whole of forward travel was in the prana dasha of Venus, which made it comfortable, as said.

3. I stayed in my departmental Inspection Quarter at Allahabad, which was very comfortable.

Ø Look to the 10th cusp indicating the place of stay at the destination. 10th cuspal sub-lord is Mercury. As Mercury strongly signifies the 11th house, the stay was purposeful and comfortable.

Ø My stay at Allahabad was from the morning of 17-11-2007 to 19-11-2007 afternoon.

The first day of stay at the destination on 17-11-2007 had the prana dasha of Venus, which kept me comfortable. The benefits of Venus are already discussed.

On the morning of 18-11-2007, some confusion crept in my booking request for the IQ and it was anticipated for me to vacate. I talked to the relevant officials and clarified my travel details, which were sent in advance by FAX. Thereafter, I was given green signal to stay on.

On Nov 18, 2007 the prana dasha of Sun was ruling. Sun as 10th lord (lord of accommodation at the destination) was placed in 12th house, causing me to get in trouble. However, Sun in the star of Jupiter placed in Lagna helped me to prevail upon the officials (lagna) and seek continued staying there comfortably. Venus, as sub-lord of Sun signifying 10-11th house did help me to retain the accommodation with strong assertion.

4. My meeting with the party's side on Nov 17-19, 2007 was very good and fruitful.

Ø Note that Lagna indicates me. The 11th cusp indicated the party with whom I was to interact. 3rd cusps from my side (Lagna) and 3rd cusp from the 11th cusp (party's side) signified our mutual deliberations. Thus, the 3rd-1st cusps were to be delineated signifying our mutual dialogues.

Ø Note that Moon was the sub-lord of 1-3rd cusps and as discussed earlier, Moon was placed very favourably both through stellar and sub level. Mercury as the sub of Moon favoured the talks to our mutual benefit, as it strongly signified the 11th house.

Ø During the meeting with the party's side from Nov 17-19, 2007, the prana dasha of Venus, Sun and Moon were running.

Venus prana dasha on 17-11-2007 helped me to initially discuss the matter and come to mutual agreements to my benefit. Venus close to 11th cusp helped the discussions to be purposeful.

Sun prana dasha on 18-11-2007 helped me to assert a few things as Sun signified Lagna.

Moon prana dasha helped me to arrive at the working modalities of the discussions/agreements as Moon signified 7-10-11th houses.

5. I took the return journey on Nov 19, 2007 evening. The train was late and was un-clean and full of disorderliness.

Ø The 9th cusp and its sub-lord Sun may be analysed, which indicate the return travel.

As Sun falls in the 12th house, it disturbed me a lot due to un-cleanliness of the train and made me change myself to a higher class on Nov 20, 2007 morning causing me to spend un-necessarily (12th house causing expenditure). However, the sub-lord Venus did help me to assert myself to get the required reservation in the higher class and be comfortable thereafter.

On 20-11-2007, the Mars prana dasha was running. Mars is a strong planet as there is no planet in its star. Its lordship of 6th house and occupation of 8th house did cause frustration to me and caused me to spend un-necessarily to get over it, in line with the indications of the 9th cuspal sub-lord Sun, as detailed above.

6. I entered home at 1434 Hrs IST on 21-11-2007 after concluding the travel.

Ø At the time of starting for the travel, the RPs were Saturn-Mars-Venus-Jupiter.

Ø At the time, when I entered home at 1434 Hrs on 21-11-2007 (Wednesday), the Pisces lagna was rising at 10-26 deg with the Moon transiting in Pisces at 19-13 deg. The ruling planets at that moment were Saturn-Jupiter-Mercury.

Out of the RPs (Saturn-Jupiter-Mercury) at the time of entering home, Saturn and Jupiter were the same as the RPs at the time of starting the journey, leaving Mercury. However, we found that at the time of entering home, Mercury was transiting in the Venus sign-Jupiter star-Jupiter sub and since Venus & Jupiter were amongst the RPs at the starting of the travel, the Mercury is taken to conform the RPs at the starting of travel.

Ø Thus, a golden principle of KP was proved which states that the planets governing the beginning of an event are the same as the one, which end the event.

Here, the RPs were same when the travel was started and concluded.

Conclusion

This write-up makes an effort to highlight the role of KP styled delineation applied to muhurtas charts, where the events unfold as per the dictate of the cuspal/house interlinks and the linkage of dasha/sub-dasha lords.

This exercise furnishes good clues and encourages us to select the muhurtas for various purposes as per KP styled delineation.

Music is a divine gift. From the ancient times there has been music, both vocal and instrumental practiced, exhibited and imparted training in a scientific way, especially in India. Both carnatic and Hindustani versions had versatile singers and instrument players from centuries in its pages.

In the 20th Century, Cinema also became a medium in which music has been taking part. Astrology is a divine subject through which an attempt has been made to analyze the natal horoscope charts and to see whether the chart promises Sangita Vidya or not.

Late Prof. K.S. Krishnamurti had also advocated astro-combinations for Sangita Vidya. A celebrity natal chart has been examined based upon the birth details available that of Late MS Subbulakshmi of Carnatic music fame.

MS SUBBULAKSHMI-- RENOWNED EXPONENT OF CARNATIC MUSIC.

Late Madurai Shanmukhavadi Subbulakshmi, Bharata Ratna, popularly known as M.S (16-Sept-1916 to 11-Dec-2004) was legendary Carnatic singer.

M.S.Subbulakshmi was born into a musical family, in the temple town of Madurai, situated in the state of Tamil Nadu in South India. M.S. started learning Carnatic music from a very early age and released her first recording at the age of 10. Since then, she performed countless musical forms in different languages of India. She was the first musician ever to be awarded the Bharat Ratna, India's highest civilian honor.

M.S. became famous as a film actress. Her most memorable role was *Bhaktha Meera* in *Meera* (1945). The movie had M.S. sing the famous *Meera bhajans*, which continue to enthrall listeners till date.

She travelled to London, New York, Canada, the Far East, and other places as India's cultural ambassador. Her concerts at Carnegie Hall, New York; the UN General Assembly on UN day in 1966; the Royal Albert Hall, London in 1982; and at the Festival of India in Moscow in 1987 were significant milestones in her career.

She gave the inaugural concert at the India Festival, London in 1982, and has also performed in Tokyo, Bangkok, Hong Kong, Manila, Singapore and Malaysia. She introduced Carnatic music to the West at the Edinburgh Festival (1963) and at the United Nations (1966). A first-time foreign listener once opined, "M.S. does not sing; She makes divinity manifest."

Mahatma Gandhi was so charmed of her *Meera bhajans* that he had requested her to sing the song *Hari Tum haro Jan ki bheer* (Lord, please dispel the fear in mankind).

MS SUBBULAKSHMI

GENUINNESS OF THE CHART.

Based upon the KP dogma that ruling planets at the time of birth and at the time of judgement shall be one and the same, though the order may vary, an attempt has been made to see if the birth chart and transit chart has any connection or not. The readings for this go on like this:

Jupiter signifies year of the event, while Sun - the month and Moon - the date. Date of judgement is on, Tuesday, 28th August 2007 at Hyderabad. On this day the planetary positions are given below:--

Body	Longitude	Star	Star lord
Sun	10 Le 40'	Magha	Ketu
Moon	09 Aq 02'	Satabhish	Rahu
Mars	19 Ta 10'	Rohini	Moon
Mercury	22 Le 21'	PPhalguni	Venus
Jupiter	16 Sc 39'	Anuradha	Saturn
Venus(R)	25 Cn 11'	Aslesha	Mercury
Saturn	05 Le 22'	Magha	Ketu
Rahu	13 Aq 01'	Satabhisha	Rahu
Ketu	13 Le 01'	Magha	Ketu
Uranus (R)	23 Aq 14'	Pbhadrapad	Jupiter
Neptune(R)	26 Cp 16'	Dhanishta	Mars
Pluto (R)	02 Sg 21'	Moola	Ketu

JUPITER.

Jupiter signifies the year of event. On 16-Sept-1916 Jupiter was in Mars sign and Ketu star. Ketu was conjoined with Saturn in Saturn star. On 28-Aug-2007, Jupiter was in Mars sign and Saturn star. Since Jupiter is very well connected with Saturn on both the dates, the year of birth is correct.

SUN

Sun signifies month of event. On 16-Sept-1916 Sun was in Mercury sign and Sun star in Virgo, duly aspected by Saturn. On 28-Aug-2007 Sun was in Sun sign, Ketu star in Leo. Sun is conjoined Mercury and Saturn. Sun is connected with Mercury and Saturn as seen in both dates.

MOON

Moon signifies date of event. On 16-Sept-1916 Moon was in Mars sign, Venus star in Aries aspected by Saturn. On 28-Aug-2007 Moon was in Saturn sign, Rahu star. Saturn is connected with Moon by aspect. On 28-Aug-2007 Venus, being star lord of Moon in natal chart, is placed in Mercury star and Mercury in turn is conjoined Saturn in Leo. Hence connection for Moon is established for both dates.

Hence the genuineness of the date of birth is established.

In order to establish the time of birth and the connection for purva-punya, let us check the Ascendant cusp sub lord and 9th cusp sub lord. 9th Cusp sub lord is Sun while Asc. cusp sub lord is Mars. Sun is placed in Sun star, Rahu sub. Mars is placed in Rahu star, Saturn sub. Rahu is placed in Sun star. Hence the connection is established between Asc cusp sub lord and the 9th cusp sub lord.

SANGI TA VIDYA.

In the KP method, following are the rules laid down for music.

1) If 5th CSL is deposited in star of a planet situated in Leo or Aquarius, one will be a popular musician. Venus will also contribute for one's grand success in field of music.

In the case of MS the 5th Cusp sub lord is Moon, who is not deposited either in Leo or in Aquarius. However, 5th CSL Moon is placed in Venus star Bharani and Venus in turn is placed in Saturn star Pushya along with Saturn and Ketu. The question of creativity and connection with Venus is established for Moon, who is the concerned CSL.

2) If lord of a star in which 5th CSL is deposited, if connected with Moon and Venus, one will have taste for improving his talent for music. If it is connected with Venus and Mercury, one will be supremely intelligent even to compose songs for musicians. If it is also connected with Mars (i.e., if these planets are significator of 5th house) one will be bold and never he or she will have stage fear. Much of harmony is indicated by Neptune.

Yet if a planet, the significator of 5th house, is conjoined with Neptune, then fine notes will be prepared by native. For thalam, rhythm, Mercury should be pre-dominant.

3) If lord of a star in which sub lord of 5th house is posited, occupies either Gemini or Sagittarius, one can render the music to appeal to the series of audience.

5th CSL is Moon, who is in Mars sign, Venus star. Venus is conjoined Saturn and Ketu in 9th Cusp and they all are in Saturn star Pushya. Saturn is the lord of 5th house as well as Aquarius. Rahu, who is placed in Saturn sign and Sun star in Capricorn as well signify both Saturn (Aquarius and airy sign) and Sun (Leo).

However, one gets the feeling as to how could a singer's chart analyzed without considering 2nd cusp, since it stands for speech.

2nd CSL is Ketu, who is conjoined Venus and Saturn in Saturn star pushya. Mars is lord of 2nd cusp signifying speech is in Rahu star. Rahu is in Capricorn, signifying Saturn. Both Rahu and Mars are in Saturn sub, who is lord of 5th being creativity.

Hence Ketu, Rahu and Mars are connected with speech and creativity along with Moon, Saturn and Venus.

For harmony, Neptune is very well connected with Saturn and Venus and is conjoined with them in Saturn star Pushya and Moon sub. Moon in turn is placed in Venus star Bharani.

As Guruji KSK advocated, these combinations made MS, a very popular musician.

RHYTHM AND THALAM.

Mercury will give rhythm and thalam. Mercury is placed in Moon star and Rahu sub. Both Moon and Venus are connected with creativity.

DEVOTIONAL SONGS (PRAYERS).

When Jupiter is connected with such an above combination, the native will sing devotional songs. In the case of MS, Jupiter is conjoined Moon in Aries and Jupiter is in Ketu star. Ketu is conjoined both Saturn and Venus.

The release of her recordings at the age of 10 would have taken place in Moon VMD, since Moon is connected with singing and creativity.

PROFESSION & CREATIVITY

5th CSL signifies creativity. Moon is the 5th CSL who is in Venus star and signifies Venus. Venus is connected to 5th house and well as stands for creativity.

10th CSL is Rahu. Moon is Venus star and signifies Venus. Rahu is in Capricorn and signifies Saturn. Venus is aspected by Rahu. Both Rahu and Venus signify Saturn. 10th Bhava Lord Moon is in Venus star and 5th Bhava Lord Saturn is conjunct Venus. Hence a relation between 5th and 10th is established, which probably taken MS to a career in singing.

KP principals are the fool-proof astrological principals and they are here to stay. Long live KP.

The 'Rule of Origin': Ascertaining the Correctness of Birth Time

OM GANESHAYA NAMAHA

Introduction

Even though there are a number of birth time rectification techniques available in the astrological literature, there is no method or technique available to us as of today that can guarantee us the accuracy of the reported or rectified birth time. In other words, we still do not have any technique, system or method available to us with the help of which we can assure ourselves that the birth time that we have received from our clients, friends or relatives is indeed correct beyond doubt. Neither do we have any means to ascertain that after the laborious exercise of birth time rectification the time that we have arrived at is fully correct or not.

In Dutta (2008), I have provided a very novel, accurate and practically effective technique of birth time rectification. Many professional astrologers have given me their valued feedback about the efficacy of my method of birth time rectification. However, in this article instead of writing on my technique of birth time rectification I will rather elaborate on my Rule of Origin and its basic applicability with the help of a few AA rated birth charts. The Rule of Origin is a technique devised by me which helps you to know exactly whether the reported birth time or the rectified birth time is truly correct or not. Detailed elaborations are found in Dutta (2008).

The 'Rule of Origin'

Elaborate description and numerous examples have been provided on Rule of Origin in Dutta (2008). The Rule of Origin is a technique that is based on Krishnamurti Paddhati (KP) though with certain modifications this technique can be used for ascertaining correctness birth time in Vedic astrology. In this article I restrict myself to KP only and show how my Rule of Origin is applicable to birth charts that are based on Krishnamurti Paddhati.

The logic and rationale behind my Rule of Origin is found in the ancient texts of astrology. According to the classical tenets of astrology, the birth of a native happens due to his past Karma, Purva Punya (good deeds in past life) and the father (who is the giver of the Beeja). The mother is only a bearer of the child (Kshetra) but the seed of life comes from the father. Thus, the 9th house of a birth chart shows the 'origin' of the native. So, if the given or the rectified birth time is truly correct, then the Ascendant/Lagna must be linked with the 9th cusp.

In my Rule of Origin, the original/rectified birth time is considered to be indeed correct, if the following are observed:

1. The original/rectified Lagna Starlord connected with the 9th cusp directly.
2. The original/rectified Lagna sublord is connected with the 9th cusp directly
3. The original/rectified lagna starlord or sublord is connected with the 9th cusp indirectly.

This therefore, means that if the lagna cusp star lord or sub lord is linked with the 9th cusp sub lord or star lord respectively either 'directly' or linked 'indirectly' (through a third planet) then the birth time is fully correct. For in depth illustrations and examples see Dutta (2008).

Case Studies

I now provide a few case studies to illustrate the utility of my Rule of Origin technique through a few AA rated birth charts obtained from Astrodatabank. AA rated birth charts mean that the birth time mentioned in these birth charts have been certified as accurate and authentic. Moreover, various astrologers have rectified the birth time of these charts at different points of time and have arrived at the same final birth time. In simple words, AA rated birth charts provide authentic, reliable and validated data.

Chart 1 belongs to famous actor Marlon Brando born on 3rd April 1924 at 11:00 pm in 41N15(G), 95W56. The cuspal and planetary chart at the noted birth time is provided below.

12	Visakha(1)	Ve	Ju	Ju	Mo	Ke							

Observe how in the cuspal and planetary charts we find that the reported birth time of Marlon Brando is indeed correct.

1. Lagna cusp sign lord Mars and 9th cusp sign lord Moon are related to each other through a third planet Venus since Venus is sublord of Moon and starlord of Mars.
2. Lagna starlord Saturn is not connected with 9th cusp starlord Mercury and/or sub lord Venus. But Lagna sub lord Moon is connected with 9th star lord Mercury. This is because Moon is in star of Mercury.
3. *Though this is enough evidence for Rule of Origin*, we can still go on to find out that the Lagna cusp sublord Moon is directly connected with 9th cusp sub lord Venus because Moon is in sub of Venus.
4. Those who consider themselves to be advanced learners of KP and swear by sub-sub lords can also find that the Lagna sub-sub lord Mars is connected with the 9th sublord Venus.

Chart 2 belongs to famous American futurist author Michael Crichton born on 23rd October 1942 at 11:55 pm in 41N52(G) and 87W39. The cuspal and planetary chart at the noted birth time is provided below.

Observe how my Rule of Origin is satisfied in the AA rated birth chart of Crichton proving beyond doubt that the reported birth time is fully accurate.

1. Lagna cusp sign lord Moon and 9th cusp sign lord Saturn are connected with each other since Saturn is in star of Moon. So, the Lagna sign Cancer is correct.
2. Lagna star lord Saturn is connected with 9th cusp sub lord Mercury as Mercury is the sub lord of Saturn. This proves that the reported birth time is totally correct though we can go on further.
3. Lagna sublord Sun is connected with the 9th star lord Jupiter through a third planet Rahu. This is a double proof that the birth time is correct.
4. Even at the level of sub-sub we find that the Lagna sub-sub lord Venus is connected with 9th sub lord Mercury directly.

Chart 3 belongs to the world famous scientist Albert Einstein born on 14th March 1879 at 11:30 am in 48N24 (G) and 10E00. The cuspal and planetary chart at the noted birth time is provided below.

Here also we find compelling evidence that the birth time of Einstein as reported to us is absolutely accurate. Once again it proves to us that my Rule of Origin helps to ascertain beyond doubt whether a reported (as well as a rectified) birth time is truly correct or not. As we can see below:

1. Lagna cusp sign lord Mercury and 9th cusp sign lord Saturn are related with each other directly indicating that the Lagna of Einstein, Gemini, is correct.
2. Lagna star lord Rahu and Lagna sub lord Mars have juxtaposed themselves in the 9th cusp indicating that the birth time is correct beyond doubt
3. At the sub-sub level, the connection between Lagna sub-sub lord Jupiter and 9th cusp sub lord Rahu is evident through Sun.

Chart 4 belongs to former Miss World Aishwarya Rai Bachchan born on 01st November 1973 at 4:05 am in 12N46 (G) and 74E 52. The cuspal and planetary position charts are provided below to find whether the reported birth time is correct or not according to my Rule of Origin.

It is easy to observe how with the help of my Rule of Origin we can find the uncanny connection at the level of Lagna cusp star and sub lords with that of 9th cusp star and sublords. They are all Moon. Even the Lagna sub-sub lord Rahu is connected with 9th sub lord Moon and 9th sub-sub lord Saturn.

Chart 5 belongs to the famous CEO of GE, Jack Welch who showed the entire world how a conglomerate can be effectively managed. He is also the author of the international management bestseller 'Jack- Straight from the Gut'. He is born on 19th November 1935 at 10:30 am in 42N31 (G) and 70W55. the planetary and cuspal charts are given below.

My Rule of Origin once again illuminates us by providing evidence that Welch's reported birth time is fully accurate.

1. His Lagna cusp sign lord Jupiter is connected to 9th cusp sign lord Mercury through Saturn. So, his Lagna is correct as Sagittarius.
2. Lagna star lord Venus and 9th cusp sublord Mercury is also indirectly connected indicating that his birth time is fully accurate.
3. For those who are ambitious, the Lagna sub-sub lord Venus and 9th cusp sublord Mercury are also indirectly related to indicate that the birth time is correct upto the nearest second.

Conclusion

It is therefore, clear how the new verification technique, my Rule of Origin, can help the users of KP based astrological analysis of natal horoscopes by indicating whether a birth time is correct or not. Rule of Origin is applicable in all KP birth charts based on Placidus House Division. It is also applicable for birth charts based on Vedic astrology but I will write about it in some later article.

I would like to conclude this article by urging all readers to look up their own charts and seek the connection between 1st cusp and the 9th cusp and find out for themselves whether their birth time is truly correct or not. They can also find out the correctness of the reported birth time of their clients, friends and relatives by using my Rule of Origin technique. I can assure that they will come to know the truth about birth time.

PROMOTION OR RETIREMENT ?

By: Dr. H.S. Nagi,

One of my colleagues was waiting promotion; it was in the air that she will be promoted to the post of principal before retirement. She was also curious and was expecting promotion. But in govt. departments everybody knows how file moves. Knowing her eagerness which she pretends to hide I asked her horary number between 1 - 249 for astrological calculations. I was also eager to know astrologically.

She gave horary number 108 , I calculated on July 18, 2007, at 8-5 AM, at Ludhiana. If she doesn't promoted then her date of retirement was September 30, 2007. knowing this date I calculate and my focus was whether she will get promotion before her retirement?

Rule for promotion

- 1- if 10th cusp sub lord signify 2 or 6 or 10 or 11, then one will be promoted. If it is retrograde then wait till it become direct. But if it is deposited in star of retrograde planet then there will be no promotion.

Analysis

In the example chart 10th cusp sub lord is Venus. Now we have to look does Venus signify 2 or 6 or 10 or 11 houses? Venus is in star of ketu. Ketu is in 12th house. Now we should not make haste and say here no for promotion. We have to analyse ketu.

BASIC RAHU/KETU RULES *(Compiled by Tin Win)*

1.1. Origin of Rahu/Ketu Rules (KP Reader II, 1983, page 315)

Rahu or Ketu will act as a strong agent to the planets to which they are conjoined. If they are not conjoined with any planet, then they give the results of the planet which aspects them. Only when they are neither conjoined with, nor aspected by any planet, they represent the lord of the house. (Uthrakalamrita -- Khanda VI Sloka 14 onwards)

1.2. Rahu/Ketu Rules by Guruji KSK (KP Reader III, Old Edition/OE/, Part 1, page 123/New Edition /NE/ page 130; KP Reader V, 1983, page 123)

- 1) Rahu or Kethu indicates the results of planet which it is conjoined;
- 2) If no planet in conjunction, the results of planets aspecting it;
- 3) If neither conjoined nor aspected, the results of the constellation in which it is deposited;
- 4) Lastly the result of the sign in which it is deposited.

In example chart ketu is in conjunction with moon, Saturn and venus.

Moon is lord of 11 , it shows gains, by promotion or retirement? Moon is in 12 in star of ketu in 12. so it will be only after retirement gains. Saturn is in 11 as lord of 5 and 6, but in star of ketu in 12. 5-12 retirement. 6-11 gains with delay due to slow nature of Saturn.

Venus is lord of 2 and 9 in 12 in star of ketu in 12. 9-12 retirement 2 is for gain of pension etc.

Fulfillment of desire

11th cusp shows whether ones desire will be fulfilled or not. Here 11th cusp sub lord is Saturn in star of ketu in 12. so desire will not be fulfilled.

WHY RETIREMENT?

Dasa and bhukti lord is Venus, which is strong significator of 12. antra and sookshma lord mercury is not in ruling planets, though it is in 10th house and is in star of rahu which is in 6th it indicates she will other job after retirement.

But I didn't have courage to tell her that she will not get promotion in government college. I console her that she will be principal, if not in govt college then it may be some other pvt college. Fate is inevitable, we are actors in this world drama, and everybody have its fixed part.

Actual result

She was retired but her desire to get govt orders for promotion in govt. college was not fulfilled.

FOUR STEP THEORY

By: Tin Win

E MAIL: tw853@yahoo.com

I. INTRODUCTION

1. With the objective of providing an easy presentation of the Four Step Theory for enthusiasts, this study article has been prepared according to the rules and views expressed in the currently available references of this theory.

II. SIGNIFICATORS

2. A planet signifies the event through the following four steps:

- 1) The Planet itself
- 2) The Star Lord of the Planet
- 3) The Sub Lord of the Planet
- 4) The Star Lord of this Sub Lord

3. The 4th step is an extension of the KP 3 steps on the basis of the 'Sub Lord Speaks' articles by Shri K.M. Subramaniam. The 3rd and 4th steps are given more importance in using them as significators like the first 2 steps.

4. In each step of the 4 steps, the houses signified by the planet are the house occupied and the houses owned by the planet. All the houses indicated in the 4 steps are basically the 'secondary' significators of the 'main' planet in the step 1. Out of them the strong or 'primary' significators are chosen by the basic and special rules, which are crucial in this theory.

5. 'Only the primary significators' are considered in this theory and the 'secondary' significators are 'not' taken into consideration. In judging whether an event is promised for the native in life and when it can happen, the relevant cusp sub-lord and the DBA lords are considered whether they are the primary significators of the required houses under consideration in all the 4 steps.

III. PRIMARY SIGNIFICATORS

III.1. 'Basic' Primary Significators

6. The 'basic' primary significators are chosen according to the following basic rules:

- 1) Star Lord, and
- 2) Star position.

III.1.1. Rule 1 of Star Lord, ie. Planet being a Star Lord

7. A planet acting as the starlord of another planet, i.e. a planet in the step 2 or 4, is a primary signifier of the house occupied and the houses owned by this planet, provided they are empty (not occupied by Sun to Ketu, without taking into consideration of Fortuna, Uranus, Neptune and

Pluto). These houses of the primary signifiers are the KP grade 'A' signifiers and grade 'C' signifiers, which become grade 'A' signifiers when the relevant houses are empty.

8. In the 'attached' example chart 1, the empty houses, '1, 2, 6, 8, 11, 12' are to be noted down. Sun occupies house 7 and owns house 1. When Sun is the star-lord of Venus in the steps 2 and 4 of Venus, house 7 is the KP grade 'A' signifier and house 1 is the grade 'C' signifier for Venus. The grade 'A' signifier of house 7 is a strong or 'primary' signifier by Rule 1 in this theory. Since house 1 is empty, there is no grade 'A' or 'B' signifier for house 1, and thus the grade 'C' signifier becomes a grade 'A' signifier and consequently a primary signifier of house 1.

III.1.2. Rule 2 of Star Position, ie. Planet with no Planet in its Star or Planet in its own Star

9. A planet with no planet in its star or a planet in its own star is the primary signifier of the house it occupies and the houses it owns, only if the houses are empty. Otherwise the planets in the 1st step and 3rd step are the 'secondary' signifiers only, which are not considered in this theory. The planets in the 2nd step and 4th step are always the 'primary' signifiers by the above Rule 1. These houses of the primary signifiers by Rule 2 are the 'upgraded' KP grade 'B' signifiers for the planets with no planet in their stars and in their own stars and the 'upgraded' grade 'D' signifiers, when the relevant houses are empty.

10. In the example chart '1', the planets with no planet in their stars 'Mo, Me, Ju, Sa', are to be marked by "+", and the planets in their own stars, 'Ra, Ke', by "*". All these planets, 'Mo, Me, Ju, Sa, Ra, Ke', are the 'primary' signifiers in 'any' step of the 4 steps. But Venus, having Mars in its star, not in its own star, is a primary signifier in the 2nd step of Mars only but not in the 1st step of Venus and 3rd step of Venus, Sun and Saturn, except being a primary signifier of 6 by the Rule 4 of Conjunction with the Cusp in the point 16. In the 'attached' example chart '2', Saturn occupies house 5 (KP grade 'B' signifier) and owns houses 11, 12 (KP grade 'D' signifiers). Since there is no planet in Saturn star, these grade 'B' and 'D' signifiers become the grade 'A' and 'C' signifiers respectively, ie. there is no other planet for the grade 'A' signifier of house 5 and for the grade 'C' signifier of houses 11, 12. Consequently as explained in the point 8, the grade 'B' signifier, upgraded to 'A' signifier of house 5, becomes a primary signifier, and the grade 'D' signifier, upgraded to 'C' signifier of house 12 (empty), becomes a primary signifier in the 1st step of Saturn. But house 11 does not become a primary signifier because it is occupied by Moon.

11. When a planet is in its own star, the house occupied by this planet is the KP signifier of grade 'B' as well as 'A', for instance in the example chart 1, Rahu in its own star, in house 3 (grade 'B') and its star-lord Rahu is also in house 3 (grade 'A'), and so Rahu is a primary signifier of house 3 in any step of the 4 steps, ie. in the 1st step of Rahu, 2nd step of Sun, Rahu, Jupiter and Mercury, 3rd step of Jupiter, and 4th step of Moon, Mars, Jupiter and Mercury. Similarly the houses owned by a planet in its own star are the KP signifier of grade 'D' as well as 'C' and they become the primary signifiers when these houses are empty as explained above.

12. The Four Step primary signifiers are useful in choosing the 'strong' signifiers in KP as the primary signifiers of this theory are equivalent to the KP grade 'A' signifiers.

III.2. Rule 3 of Primary Signifiers through Rahu/Ketu

13.1. The above two rules (Rule 1 and 2) apply to Rahu/Ketu, which gives the results of the conjoined and aspecting planets within the 3d:20m orb, its star-lord and its sign-lord in the ascending order. As a practical starting point, the house occupied by Rahu/Ketu,

and the house occupied and the houses owned by its sign-lord are usually taken into consideration. Rahu/Ketu's aspect on each other or another planet is not applicable but its aspect on the opposite cusp by 7th aspect is considered in this theory.

13.2. Only if Rahu/Ketu is itself the 'primary' significator (as per Rule 1 and 2), then the house occupied, the planets in conjunction or aspecting, star-lord and sign-lord also will become the 'primary' significators. If Rahu/Ketu is itself the 'secondary' significator only, then they also will be the 'secondary' significators even though they are by themselves the 'primary' significators. In the example chart '1', since Rahu in its own star is a primary significator in any step of the 4 steps by Rule 2, its '3 Occupied', Cnj Ju(3-8, Asp Mo[10-12], Asp 7,9,11, Cnj 3), 'Asp 9', and 'Sgl Ve(5,12,6)' also become the primary significators in 1st step of Rahu, 2nd step of Sun, Rahu, Jupiter and Mercury, 3rd step of Jupiter and 4th step of Moon, Mars, Jupiter and Mercury. In the 'attached' example chart '2', Rahu with Moon in its star and not in its own star is a primary significator in the steps 2 and 4 only by Rule 1, ie. in the 2nd step of Sun and 4th step of Saturn only, ie. '7 Occupied', 'Asp by Ju(3-10)', 'Stl Ma(2-9)' and 'Sgl Me(4)' but it is not a primary significator in the 1st step of itself Rahu. (R 1, pages 30, 41-42, R 2, R 5) (R 1 and R 2 represent the Reference item no. 1 and no. 2 respectively)

13.3. There is an emphasis to take into consideration of the house occupied and the houses owned by the star-lord of Rahu/Ketu when it is the star-lord of another planet, ie. Rahu/Ketu is in the step 2 or 4. The house occupied and the houses owned by the star-lord are considered. The star-lord gives the stronger results than the sign-lord of Rahu/Ketu. The primary significators of the conjoined and aspecting planets are also to be considered when they are relevant. The results of the conjoined or aspecting planets or star-lord (when Rahu/Ketu is a primary significator) should be given first priority, then the sign-lord cannot give its results. In the example chart '2', among the primary significators of Rahu in the 2nd step of Sun and 4th step of Saturn, '7 Occupied', 'Asp by Ju(3,10)' and 'Stl Mo(2,7)' are supposed to be stronger than 'Sgl Me(4)', which is assumed not to give its results in such a case. The 'star-lord' of Rahu is taken into consideration when it is in the '2nd' step of Sun and '4th' step of Saturn. But the 'star-lord' of Ketu in the '3rd' step of Mars is not considered because the star-lord is to be considered, only if Rahu/Ketu is in the '2nd or 4th step'. (R 1, pages 28, 30, 41-42, 61, 77, 79, R 3. R 14)

14. Rahu is called as a blemish planet, which creates problems and does not give the results effectively to the native when it is in the DBA. If Rahu is a strong significator of the improving houses in all 4 steps, which is not found in most cases, then it won't create problems. Ketu does not create problems if it is supporting the favorable houses.

II.3. 'Additional' Primary Significators from the KP 'E' Grade Significators

15. The special rules of upgrading the weak KP 'E' grade significators to the primary significators in this theory are as follows:

- 1) Conjunction with the Cusps,
- 2) Conjunction between the Planets,
- 3) Aspect on the Cusps, and
- 4) Aspect between the Planets.

II.3.1. Rule 4 of Conjunction with the Cusps

16. If a planet is in conjunction with a cusp within the prescribed 3d:20m orb, behind (before) the cusp or ahead (after) the cusp, the planet 'automatically' becomes a 'primary' significator of this cusp in 'any' step of the 4 steps, 'irrespective' of other planets 'being' in the house whose cusp is conjoined by the planet or the planet 'not being' a primary significator. conjunction before the cusp, the physically occupied house is basically considered as a 'secondary' significator, and it will become a 'primary' significator when the relevant planet is a 'primary' significator. The 3d:20m orb can be increased up to 4-5 degree especially for the very fast moving Moon and the fast moving planets (Sun, Mars, Mercury and Venus). (R 1, pages 20-24, 27, 49, 53, 57, 61, 67, 91; R 5, Part- 4 & 5)

17. In the example chart 1, 'Ven Cnj 6' is a conjunction 'before' the 6th cusp, and 'Me Cnj 7, Ju Cnj 3, Ra Cnj 3, Ke Cnj 9' are the conjunctions 'after' the cusps. In the case of 'Ven Cnj 6' before the cusp, the physically occupied 5th house is also considered as a 'secondary' significator. When Venus is a primary significator in the 2nd step of Mars, it becomes the 'primary' significators of 'both' 5 (12 to 6) and 6 houses. In addition, while 'Ve Cnj 6', consequently 'Ve Asp 12', as per Rule 6 of aspect on the cusp and so Venus becomes the primary significator of opposing houses 6 and 12, gain and loss.

18. Moreover, in this chart 1, 'Ra Cnj Ju' and consequently 'Ju Asp Ke' by 7th aspect. Thus both Rahu and Ketu are the agents of Jupiter. Here is a difference of opinion 'not' to consider Jupiter's 7th aspect on Ketu or other planets or cusps since such aspect is conducive to the primary signification of opposite houses, and it is to apply 'conjunction only' in such a case (R 14)

II.3.2. Rule 5 of Conjunction of the Planets

19. If a planet is conjoined with another planet within 3d:20m orb, the planet becomes a 'primary' significator of another planet, only if the original planet itself is a primary significator (as per Rule 1 and 2). These two planets (excluding Rahu/Ketu) in conjunction will offer the results to each other vice versa. However, in the case of 'Ra/Ke Cnj a planet', it is only 'one way' for Rahu/Ketu to offer the results of the conjoined planet as an agent of this planet, and the conjoined planet 'not' to offer the results of Rahu/Ketu vice versa. Rahu/Ketu is an agent of the conjoined and aspecting planets and its sign-lord but it does not act as an agent of its star-lord. As an agent, Rahu/Ketu will give whatever the planet is to give but the planet 'cannot' offer the results of Rahu/Ketu vice versa. (R 1, pages 27-28, 41-42, 51-53, R 5-Part 4 & 5)

20. In the example chart 1, in the case of 'Su Cnj Me', Sun will give the results of Mercury(7-2-11, Asp 1, Cnj 7) when Sun is a primary significator in the 2nd and 4th steps of Venus by Rule 1. On the other side, Mercury, having no planet in its star, a primary significator in any step of the 4 steps by Rule 2, will offer the results of Sun(7-1) in the 1st step of Mercury and 3rd steps of Mars and Mercury. However, in the case of 'Ra Cnj Ju', 'only' Rahu, in its own star, a primary significator by Rule 2, will offer the results of Ju(3-8, Asp Mo[10-12], Asp 7,9,11, Cnj 3) in 1st step of Rahu, 2nd step of Sun, Rahu, Jupiter and Mercury, 3rd step of Jupiter and 4th step of Moon, Mars, Jupiter and Mercury. On the other side, as per only 'one way' of giving results by Rahu/Ketu, Jupiter 'cannot' give the results of Rahu vice versa although Rahu is an agent of Jupiter.

II.3.3. Rule 6 of Aspect on the Cusps

21. If a planet throws the Hindu aspects on the cusps (not houses) within the 3d:20m orb, the planet becomes a 'primary' significator of these houses whose cusps are aspected, only if the 'original' planet itself is a 'primary' significator (as per Rule 1 and 2), 'irrespective' of other planets 'being' in these houses. Ketu's 7th aspect on the 'cusp' within 30d:20m orb is taken into consideration, implying to consider Rahu's similar aspect on the opposite cusp. Nevertheless, Rahu/Ketu's aspect on each other or any other planet is not considered. Any aspect of Rahu/Ketu is not applicable in KP. (R 1, pages 28, 34, 70, 87, R 14)

22. In the example chart '1', Jupiter aspects the 7, 9, 11 cusps within 3d:20m. Since Jupiter with no planet in its star is a 'primary' significator by Rule 2, it becomes a 'primary' significator

of the 7, 9, 11 houses by Rule 6. In the example chart '2', Saturn aspects the 2nd cusp only within prescribed 3d:20m orb but its aspect on the 7 and 11 cusps are beyond the prescribed 3d:20m orb. As a 'primary' significator by Rule 2, Saturn with no planet in its star also becomes a 'primary' significator of the 2nd house by Rule 6 but not 7 and 11 houses. 'Me Asp 1, Ju Asp 9, Ve Asp 12, Ra Asp 9, Ke Asp 3' are all the '7th' aspects, and consequently at the same time 'Me Cnj 7, Ju Cnj 3, Ve Cnj 6, Ra Cnj 3, Ke Cnj 9'. Thus these planets become the primary significators of the opposite houses, ie. 'Me for 1 & 7 houses; Ju for 3 & 9; Ve for 6 & 12; Ra for 3 & 9; Ke for 9 & 3', indicating opposite matters, such as sickness and cure, loss and gain. So there is a difference of opinion 'not to consider' the '7th' aspect on the cusps or planets and to consider 'conjunction only'. Depending on which option (with or without 7th aspect) is applied, the result can be entirely different in some cases; for instance, in the case of the actual marriage on 25-12-2005 (Me-Sa-Ve DBA dasa) in a male chart, 09-09-1978, 06:32 AM, Belgaum, Karnataka, India, 15N52, 74E30, New KPA 23:28:10, Asc Le 24:38:40, by KPAstro 3.0. Mercury Dasa and Saturn Bhukti are justified for marriage. But the Antara lord Venus is capable of giving marriage, if 'Su Asp 7' by 7th aspect is considered in the 4th step of Venus, otherwise marriage is denied by the only primary significator of the 'totally negative' houses 1, 12 for marriage in the 4th step of Venus as shown under.

1) Primary Significators 'with' 7th Aspect (as in R1)

Planet Ve:

Starlord of Ve is Ra: 1; Sgl Me(12); Stl Su(12, Asp 7, Cnj 1)

Sublord of Ve is Ra:

Starlord of Ra is Su: 12; Asp 7; Cnj 1

2) Primary Significators 'without' 7th Aspect

Planet Ve:

Starlord of Ve is Ra: 1; Sgl Me(12); Stl Su(12, Cnj 1)

Sublord of Ve is Ra:

Starlord of Ra is Su: 12; Cnj 1

II.3.4. Rule 7 of Aspect between the Planets

23. If a planet has the Hindu aspect (throwing or receiving) with another planet within the prescribed 3d:20m orb, the planet becomes a 'primary' significator of another planet, provided the 'original' planet itself is a 'primary' significator (as per Rule 1 and 2). Aspects on each other of two planets in the opposite signs are also considered. However, Rahu/Ketu's aspect on each other or another planet is not applicable but its 7th aspect on the opposite cusp is considered. (R 1, pages 28, 30, 54, 57, 70, 75, R 14)

24. In the example chart 1, regarding 'Mo Asp by Ju', on the side of receiving aspect, Moon with no planet in its star, a primary significator by Rule 2, will offer the results of Jupiter(3-8, Asp Mo[10-12], Asp 7,9,11, Cnj 3) in any step of the 4 steps, ie. 1st step of Moon. On the other side of throwing aspect, Jupiter with no planet in its star, a primary significator by Rule 2, will give the results of Moon(10-2) in any step, ie. 1st step of Jupiter. In the case of 'Ket Asp by Ju', Ketu in its own star, a primary significator by Rule 2, will give the results of Ju(3-8, Asp Mo[10-12], Asp 7,9,11, Cnj 3) in 1st step of Ketu, 2nd step of Ketu and Saturn and 4th step of Ketu and Rahu. Since there is only 'one way' of giving results by Rahu/Ketu, Jupiter 'cannot' give the results of Ketu vice versa although Ketu is an agent of Jupiter. In the example chart of a male, 09-04-1958, 04:25 AM, Indore, MP, India, 22N43, 75E50, New KPA 23:11:03, Asc Aq 18:41:01, the aspects of Mercury in Aries and Jupiter in Libra on each other by 7th aspect within the prescribed orb are to be considered, ie. Mercury giving the results of Jupiter(8-11) and Jupiter offering the results of Mercury(2-5), like in the example chart no. 14 in page 56 of R1, where Jupiter and Moon aspecting on each other by 7th aspect, Jupiter giving the results of Moon(2, etc) and Moon offering the results of Jupiter(8, etc)..

IV. RULING PLANETS

25. The RPs of only 4 items applied in this theory are in the following order. (R1, pages 2, 32, 34, 40-42, 81-83, 88, 91, R 2, R 5- Part 5)

- 1) Lagna Lord,
- 2) Moon's Starlord,
- 3) Moon's Sign Lord, and
- 4) Day Lord.

26. The Rahu/Ketu is to be taken as the RPs, only if it 'directly' appears in the RPs and not to take it while appearing as the 'agents' of the RPs.

27. The 'main essence' or 'advancement' of this theory is to judge the timing of events without the help of the RPs, which are not used in fixing the DBA. The RPs are used 'only' to confirm or correct the sub-lord of the relevant cusp under consideration before the prediction of a natal chart, as if there is some change in the birth time. But the horoscope is not recasted. If the sub-lord is among the RPs, it is supposed to be correct. If it does not appear in the RPs, the RP (planet), which is ahead or behind the original sub-lord is to be taken as the corrected sub-lord of the relevant cusp. The preference is given to the RP as per the above given order of priority, if both planets ahead and behind the original sub-lord appear in the RPs.

28. The RPs will vary from person to person, depending on the place and time of the query without giving support or help to everybody at every time. (R1, page 2, R 14)

29. For the example chart 1, the RPs at the time of judgment, at 22:03:27 PM, TZ (GMT-5) on 08-10-2007 at Rockville, MD, USA, 39N05, 77W09 are as follows:

- 1) Lagna Lord = Venus
- 2) Moon's Star Lord = Venus
- 3) Moon's Star Lord = Sun
- 4) Day Lord = Moon

30. In this example chart 1, for a foreign visit, the 12th cusp sub-lord Moon is in the RPs, and so it is supposed to be a correct sub-lord. For a case where the relevant sub-lord is not in the RPs, suppose the Day Lord is Mars, then the sub-lord Moon is not in the RPs. So Moon is to be corrected to Sun (before Moon) or Mars (after Moon), which are in the RPs, and the preference should be given to Sun as per the above given priority order of the RPs.

V. PROMISE OF AN EVENT

31. If the sub-lord of the cusp governing the event under consideration is a primary significator of any or more of the required 'positive' houses (2, 7, 11 and 5, 8 for marriage) in any or more of the 4 steps, then the event is promised to happen unless there are only the primary significators of totally 'negative' houses (1, 6, 10, 12 for marriage) in the 'more important' steps 3 and 4. Whatever it may be or even though there are only the primary significators of the totally 'negative' houses in the steps 1 and 2, any primary significator of the required 'positive' houses or a 'mixture' of positive houses and negative houses in the steps 3 and 4, will give the 'positive' result. The event will not be promised, only if the primary significators of totally 'negative' houses appear in the steps 3 and 4. A caution is needed in taking '12th to any house' as a 'negative house' for this house, for instance the 1st house, though 12th to the 2nd, is not held as a negative house for 2nd, but considered as a primary house to get money as it represents

the native and his efforts etc; 10th is not considered as a negative house to 11th but it is not applicable in marriage matters. (R1, page 41-42, R 3, R14)

32. In the example chart 1, the 12th cusp sub-lord is Moon, which is a primary significator of the required 'positive' houses 12, 3, 7, 9, 5 in the steps 1 and 2, and 3, 5, 12, 7, 9 houses in the steps 3 and 4. So foreign going is definitely promised. It will be denied, only if Moon is a primary significator of totally 'negative' houses 2, 8, 11 and 4, 6 in the steps 3 and 4, without any primary significator of 'positive' houses. Moreover, since Moon is a primary significator of 11 in the 1st step and most importantly 6 and 11 houses in the 3rd step, it is possible for a monetary gain to 'some extent' through foreign visit during the jointly favorable DBA for getting money, even though the primary significator of 1, 2, two main houses for getting money, is missing. If the 12th cuspal sub-lord signifies 2, 3, 6, 10, 11, the fortune and success can be expected in the foreign land.

VI. CHOICE OF DBA

33. The DBA lords are to be judged by the above same approach in considering when an event can happen. The event will fructify only when the DBA lords are jointly the primary significators of all the required 3 houses (2, 7, 11 for marriage), signifying at least one different house each. Suppose the Dasa lord is the primary significator of the house 2 and the Bhukti lord is a primary significator of the house 5 or 11, then the Antara lord should be the primary significator of the remaining house 7 to make the chain of DBA complete for fructification of the event. The event will not materialize, if there are only the primary significators of totally 'adverse or negative' houses in the 'more important' steps 3 and 4 of the DBA lords. (R 1, pages 31-32, 39, 41-42, 75-76; R 4, R 5- Part5; R 8, R 14)

34. In fixing the DBA, firstly it is to check whether the running Dasa lord is a primary significator of at least one of the required houses (2, 7, 11 for marriage). If it does, then take it and repeat the same to check the running Bhukti lord. If it does not, leave this Dasa and go to the next Dasa, till finding the Dasa lord, which is a primary significator of any of the required houses. Secondly it is to repeat the same to choose a Bhukti lord, which is a primary significator of any of the required houses other than already signified by the chosen Dasa lord. Thirdly it is to choose the Antara lord, which is a primary significator of the missing house to make the DBA chain (2, 7, 11 for marriage) complete. The 3 required houses must be found in the DBA lords.

35. A fruitful Antara can be chosen out of many primary significators of the required houses as given under: (R 1, pages 37-38, 46-47, 68, 80)

1) the priority is given to (a) the earliest Antara, at the time of question, if the Lagna is in a movable sign; (b) the next Antara, if the Lagna is in a fixed sign; and (c) the following Antara of the last priority, if the Lagna is in a common sign;

2) if it is still doubtful, Rahu/Ketu Antara can be chosen, as the nodes are stronger than the planets.

3) When a main house of the required houses (2 for marriage) is primarily signified by a planet only, a primary significator of a supportive house (5 or 8 for marriage) can be chosen to make the DBA chain complete.

4) If there is not any planet, which is a primary significator of the required houses, the sub-lord of a cusp under consideration (4th in buying a house) can be taken into consideration with giving preference to the cusp sub-lord, which is also a primary significator of the required houses (4, 11, 1 in buying a house).

5) Another practical way is to choose the Antara, of which lord signifies the required houses in the 'more important or stronger' steps 3 and 4. (R 14)

36. In the example chart 1, a monetary gain through foreign visit can be expected during the DBA chain jointly signifying 3, 9, 12 and 5, 7 along with 1, 2, 6, 11. A lot of combination of DBA is generally possible according to the very wide range of primary significators as summarized below from the details attached.

- 1) Su/Ma/Me/Sa are the primary significators of all houses except 4th house.
- 2) Ra/Ke are the primary significators of all houses except 1-2 houses.
- 3) Mo/Ju are the primary significators of all houses except 1-2-4 houses.
- 4) Ve is the primary significator of 1-2-6-7-11 houses.

37. The primary significators of 1, 2 houses in the steps 3 and 4 are preferable for a monetary gain. A similar chart to this example chart 1 of a very comprehensive significators, conducive to easily making the DBA chain complete for such major events of 10-09-1988 (Ju-Mo-Ju DBA) joining a Govt. job as lecturer; 27-10-1991 (Ju-Ra-Ke) marriage; 14-09-1992 (Ju-Ra-Ma) birth of a son; 29-05-2007 to 05-07-2007 (Sa-Ra-Sa) last time foreign visit; Nov. to end of Dec. 2007 (Sa-Ra-Me) planning to go abroad, is the 2nd example chart in the "Sub Lord Speaks" LVIII (Male, 28-10-1962, 11-20 AM, Madaras, India, 13N40, 80E17), New KPA 23:19:36, Asc Sg 23:38:47. (R 14)

38. On the contrary to the example chart '1', in the example chart '2', the DBA chain cannot be fully complete for such major events of June 1999 (Ra-Ju-Ra DBA) finishing engineering; August 2002 (Ra-Me-Me) joining 1st job; April 2004 (Ra-Me-Ju) paper marriage; August 15th 2005 (Ra-Ke-Ju) going to USA for study and August 30th 2006 (Ra-Ve-Su) divorce due to a 'very limited' number of primary significators, which are also the same for some planets, for instance the current running Dasa lord Rahu and the next Dasa lord Jupiter are the primary significators of the exactly the same houses 2, 9 only. Similarly George W. Bush's chart, 06-07-1946, 07:26 DST (GMT - 4), New Haven, Connecticut, 41N18m 72W56, New KPA 23-01-13, Asc Cn 14:04:59; 05-11-1977 (Ju-Me-Ju) marriage; 25-11-1981 (Ju-Su-Mo) twin daughters born; 20-01-2001 (Sa-Ra-Ra) 1st time president; 02-11-2004 (Sa-Ju-Me) reelected for 2nd term, has also a very limited number of primary significators, making impossible to have the complete DBA chain.

39. In the example chart 1, the Sa-Ra-Me DBA at the time of planned foreign visit is easily found to be a complete chain of BDA for a monetary gain through foreign visit, as shown under.

- 1) Dasa lord Saturn is a primary significators of houses 9, 5, 3, 12, 7 and 6, 11 in the steps 1 and 2 respectively; and houses 7 and 6, 1, 2, 11 in the steps 3 and 4 respectively.
- 2) Bhukti lord Rahu is a primary significator of houses 3, 5, 12, 7, 9 and 6, 11 in the steps 1 and 2 respectively; and houses 9, 5, 3, 12, 7 and 6, 11 in the steps 3 and 4 respectively.
- 3) Antara lord Mercury is a primary significator of houses 7, 3, 5, 12, 9 and 2, 11, 1, 6 in the steps 1 and 2 respectively; and houses 7, 3, 5, 12, 9 and 2, 11, 1, 6 in the steps 3 and 4 respectively.

VII. TRANSIT

40. A near timing of event can be fixed by the transits of the DBA lords. Here it is to check the star-lord of the fast moving planets (Sun, Mars, Mercury and Venus) and the sub-lord of the slow moving planets (Jupiter, Saturn, Rahu and Ketu) in the 'first 2 steps only', without taking into consideration of the more important steps 3 and 4. The event 'will fructify', if these star-lord and sub-lord are the primary significators of any or more of the required houses (2, 7, 11 and 5, 8 for marriage) in the first 2 steps, without taking into consideration of 'negative houses'. The event 'will not happen' during the period while the transit does 'not agree' with DBA, ie. if there are only the primary significators of the totally negative houses (1, 6, 10, 12 for marriage) in the first 2 steps even when the DBA lords are favorable. Moreover, the event will 'not' materialize while the star-lord or sub-lord, in which the DBA lords are transiting, is 'in

retrograde'. In such a case, the next transit is to be considered. (R1, pages 49, 52-54, 71-72, 76-77; R 5-Part 5, R 14)

41. For the example chart 1, around the planned timing of foreign visit, Nov - Dec 2007:

- 1) Dasa lord Saturn (slow moving planet) will be transiting in the Mercury 'sub' till 9-11-2007, and then in the Venus sub.
- 2) Bhukti lord Rahu (slow moving planet) will be transiting in the Jupiter 'sub' till 20-11-2007, in the Rahu sub till 27-12-2007 and then in the Moon sub.
- 3) Antara lord Mercury (fast moving planet) will be transiting in the 'star' of Mars till 11-11-2007, then in Rahu star till 20-11-2007, Jupiter till 29-11-2007, Saturn till 8-12-2007, Mercury till 16-12-2007, Ketu till 24-12-2007, Venus till 02-01-2008.
- 4) No star-lord or sub-lord will be in 'retrograde' to negate the positive results of favorable DBA.

42. The primary significators of the above star-lords and sub-lords in the first 2 steps (1st and 2nd) are as given under.

- 1) Ketu: 9, 5, 3, 12, 7 and 11 houses
- 2) Venus: 7 and 6, 1, 2, 11 houses
- 3) Moon: 12, 3, 7, 9, 5 and 11 houses
- 4) Mars: 5, 12 and 6 houses
- 5) Rahu: 3, 5, 12, 9 and 11, 6 houses
- 6) Jupiter: 3, 12, 7, 9, 5 and 11, 6 houses
- 7) Saturn: 9, 5, 3, 12, 7 and 6, 11 houses
- 8) Mercury: 7, 3, 5, 12, 9 and 2, 11, 1, 6 houses

43. Since every star-lord or sub-lord, in which the DBA lords will be transiting, is a primary significator of one or more of the required houses in the first 2 steps, the transit agrees with the favorable DBA. The most beneficial time for a monetary gain through foreign visit is expected, firstly from 9-12-2007 to 16-12-2007 while Dasa lord Saturn will be transiting in the Venus sub, Bhukti lord Rahu in its own Rahu sub and Antara lord Mercury in its own Mercury star, and secondly from 25-12-2007 to 02-01-2007 while Dasa lord Saturn will be transiting in the Venus sub, Bhukti lord Rahu in Rahu/Moon sub and Antara lord Mercury in Venus star.

VIII. RETROGRESSION

44. In this theory, the retrogression is not applied in the horary as well as natal prediction. It is used 'only' in considering the transits of DBA lords in fixing the near timing of an event. The transiting DBA lords should not be in the relevant sub and star of retrograde planets for the materialization of an event. (R1, pages 54, 75, R 14)

IX. URANUS, NEPTUNE AND PLUTO

45. These three planets are also taken into consideration to avoid the mistakes in prediction. In an example chart of a sports match (R1, page 63-64), Mars aspecting Pluto within the 3d:20m orb gives the result of Pluto, unexpectedly losing the match, reversing Mars' primary signification of winning houses 1, 6. In an example chart of child birth (R 6), the prediction of child sex is reversed due to the conjunction of the star-lord of the 5th cuspal sub-lord Jupiter with Neptune in retrograde. However, the negative affects of Neptune and Pluto are not yet conclusive. Pluto was found no more a planet in 2006. Moreover, to make or break a rule, a study or one's experience of 'at least' 100 cases with around 70-75% favorable results is supposed to be a standard requirement.

X. HOUSE GROUPING

46. The available basic house grouping is as given under.

TABLE OF HOUSE GROUPING

S N O	Event	C U P	Houses to be signified	Remark and Reference
1	Purchase of house	4	4,11,12	9,6 supportive for getting loan; 8= delay, difficulties; One can't have his own house in his life, if 4th sub-lord is Ra/Ke. (R 1, pages 77-80)
2	Child birth	5 S u b l o r d	2,5,11 & supportive 9	For female 5th for 1st child, 7th for 2nd etc; for male to consider '5th for all children'. For long term investment to check 12th cusp sublord; 1,2= benefit in short/long term; Promise of gain in natal chart is also to be checked. (R3, R14)
5	Share market movement	5	1,2,3,6, 10,11 (good prospect)	By applying Horary with consideration of dasa ending at market hr. Also by considering Jupiter & Mercury transit in all the 4 steps and effects of Saturn, Rahu, Mars & retrograde etc. Saturn= fall, Ra= volatility; 7th indicates a slide down. (R 14)
6	Wining a match	6	6,10,11 & 1,2,3	By applying Horary, if answer is doubtful, to cross check 11th Sbl; For a more clear answer also to check 12th & 5th sblords for opponent, for whom 5,7,9,12 are favorable; 8,9,12 = tough fight; 6,11,10= clear cut victory; no signification of them indicates loss; Also by taking a Horary no. for all matches of a series, to check results from Moon's star at starting (& ending) time of match by all the 4 steps; For other nations without India, 6 & 11 from 9th to be considered; Current running DBA are not applied for one day match. (R 1, page 60-61, R 14)

14	Death		Maraka, Badhaka, 12	(R 1, pages 88-89, 92); Maraka= 2,7; Badhaka= 11th for Ascendents in Movable signs; 9th for Ascs in Fixed signs; 7th for Ascs in Common signs.

XI. OBSERVATION

47. Once the primary significators are ready in hand, for example by a SW like KPAstro 3.0, the prediction is theoretically easy by choosing the DBA chain and checking transit. However, practically it may not be so as per a post mortem review of 61 major events of the 14 charts from the 4 diversified sources of birth data, in which the complete chain of DBA or the transit agreeing with the DBA has not been found in the significant majority of events. Subject: few suggestions

Hellow dear Kanak sir,

My name is nayan. i am doing my mba from ICFAI, Hyderabad. I've done my graduation in Physics. KP astrology is the only one which i have found very logical and scientific. i am very proude of this kp organization organised by you. the e zine magazine is really a valuable asset for us. the way of presenting each and every article is wonderful. i 've read many magazines of B V Raman and also different books written by him but unfortunately many confusions and doubts are there. Any way we should take the initiative to spread this wonderful method of astrology to every where. i've some suggestions to develop our magazine such as:

1. if possible pls introduce a question answer session. like the members have some questions or doubts rgarding the KP astrology that part should be answered.
2. if posible pls include the monthly transit result for each rasi. (like in traditional vedic astrology what they usually do.)
3. some quizzes related to kp astrology and the answer will be in the next magazine.

now i've a question. if possibe pls reply it.

birth date 26 sep 1983

birth time 10.10 AM

birth place santiniketan (87 E 43 and 23 N 35)

Now according to my calculation the 5th cuspal is Ke and 7 th cuspal is Mo. now nither Ke is signifying 7th house nor Mo is signifying 5th house. for love marraige 5-7-11 connection is required. so is there any possibility for love marraige if not why? my prediction is that no love marraige will be there. for your information i want to let you know that the girl is in love with a man who is 13 years elder than she. again since Mo is the 7th cuspal the age difference between the girl and her husband should be very low. pls explain this points. some gap is there between the theory and the practice.

I'll be thankful to you if you kindly reply me and clear my doubts.

thanks

Nayan

Reply from A.R.Raichiur

Dear Nayan

Assuming that the TOB is correct, your conclusion that Love Marriage is not foreseen is correct. The girl may be in love with a person, but has the marriage taken place?

The 5th sub-lord Ketu thru his star lord Merc is connected to the 11th House, so a love affair is indicated. But since this Ketu is not connected to 7th, Marriage as such is not foreseen.

I am not in favour of Transit Results for each Rasi. The actual results will depend upon the Chart of the person, not just the position of the Moon only.

A quiz may be introduced, but it will increase the size of the magazine and costs.

Good luck

Dear all Readers,

Wish you A very Happy and Prosperous New Year 2008

12th issue of KP Ezine is in your hand. February 2008 Issue shall be the first anniversary of KPEzine, and the Editorial Board have decided to publish February 2008 KPEzine Issue, as a KPEzine Annual. All the members are welcome with their articles to make Annual issue more successful one.

Old issues of KP E-Zine at Rs 50 per month is also available But this rate is for this January Month only. Next month onwards rate will be again Rs 200, but if I get again advertisements, I will announce new rate.

My prediction based on KP Muhurat about Rahul Mahajan come very correct. In February 2007 Issue I had published the article regarding this celebrity marriage. This is one more proof of KP Muhurat rules work properly.

One non astrological thing is, in Gujarat assembly election was over and on 23-Dec-2007 results will be declared. All Gujaratis know that Sri Narendra Modi will win and again take oath as CM. But during the election days, media played a very negative role and presented Gujarat as the most backward State. In reality, this is very wrong propaganda of media with cooperation of the Congress party. But, till this KP Ezine is published, we all will know how people of Gujarat voted for Sri Narendra Modi, and how public of Gujarat do not believe all the fallacy propaganda of Media. Its projection that this election was Modi vs all other political parties, and after all efforts of other parties, Sri Narendra Modi kept his popularity in Gujarati people with his clean and Noble image. Earlier, about two years ago, I had predicted that Narendra Modi will be the Prime Minister of India one day. Whereas during this election, all the political parties tried to defeat Modi, but Modi is out with more popularity and strength. It is clear that after watching many years of politics, this is the politician who alone able to win his party. Don't you think it will help to Modi for PM seat?

Good Luck.

hellow sir

i'm really glad to get ur reply in the december issue. It proves that you give respect to all of ur members whether he/she is a professional astrologer or student or a simple common person. i wish a very long and healthy life of our kp organization. In january issue if possible pls give an article about share market. i want to predict the share market with the help of k p astrology. becoz without that no other method can give the result. i don't want to know the personal analysis i.e. whether a person can gain through share market or not. suppose today the sensx is 19993 so what will it be tomorrow.

good luck
nayan

Dear Shri Bosmiaji

I am going through the December issue of KPE-Zine and am very much interested to subscribe the printed copy of the same. Also let me know the cost of the Annual issue and mode of payment.

Also I want OLD ISSUE of KP ezine OCTOBER-2007. Can you inform me the mode of payment.

Kind Regards

S.Raman.

Dear Tin Win,

Your article on four step theory appearing in the KPEzine of the current month is very clear and presented in an orderly way from step to step, so that a student can understand better.

You have refered to some R1 ... R14 pages .Are these books or articles that appeared in the computer. How can I get these references.

Please oblige,
shan

Om Gurave Namah

Namaste Kanak Bhai and Sri Kuppu Ganapathi Ji,

Finally, I was able to get some free time for the past few days and this will last till 2nd week of Jan 2008. So I thought of using this time to my pending KP e-zine readings from the first issue. I have found every issue till June 2007 are very good and its coverage and quality of articles are great.

Particularly, I liked Sri Kuppu Ganapathi Ji's article(s) on the "Matters controlled by Bhavas" published in Mar / April 2007. As they are so fundamental to Jyotish. So may I request Sri Kuppu Ganapathi to write two more articles covering the similar details pertaining to the "Rasis" and "Grahas".

As always dictator or military ruler's end with death, there are many examples in history, in this line I will try to give my thought on this subject.

Rules:

- 1) If 8th Sublord (Secret work of enemy (in this case we can say opposition party), signifies 5 (12th from 6 Dictator), 9th (12th from 10-Those in Power), 12th (loss) Ruler face trouble and end of his govt. or ruling.
- 2) If 10th (Ruler) Signifies 2(Maraka), 7(Maraka), 12(Moksha) and Badhaka, rules will end with death.(2,7,12 from 10th)

On Above my thought I cast horary chart and Number taken by randomly by Software generated.

Horary no: 4

Date: 10/11/2007

Time: 13.54.49

Place: L.G. Hospital-Ahmedabad 23 N 00, 72 E 37

Rules:

- 1) If 8th Sublord(Secret work of enemy (in this case we can say opposition party), signifies 5 (12th from 6 Dictator), 9th (12th from 10-Those in Power), 12th (loss) Ruler face trouble and end of his govt. or ruling.

8th SL is Sat, in the star of Ket and sub of Mer.

Sat is in 5 lord of 11, 12. Ket is in 5 Conj with sat. Mer is in 7 lord of 3, 4.

In this horary chart 8th SL indicate 5 and 12 means Gen. Musharf get trouble and lost power.

- 2) If 10th (Ruler) Signifies 2(Maraka), 7(Maraka), 12(Moksha) and Badhaka, rules will end with death.(2,7,12 from 10th)

10th sublord is Mer.in the star of Mar and sub of Sun.

Mer is in 10 lord of 6,7(Maraka and badhaka). Mar is in 6 lord of 4,11. Sun is in 10 lord of 10.

10th SL does not indicate any danger to Gen. Musharaf. Off course he will lose power but, there is no harm to his longevity.

If we check 2,7,12 from Asc we found same result.

So in my opinion he lost power but, live respectful life.

When I will be able to publish a book?

By: Prof. Vaikari Ramamurthy

A Quarry has been raised to predict the time of publication of a book by giving a Horary No: 222(1 To 249) to be solved through KP Horary Principles.

The Quarry was taken up to judgment up to 21/10/2007 Sunday at 11.55 AM, at Chennai.

Analysis

Book & publication are comes under the preview of house 3 i.e. 3rd bhava which tells about writing, contacts, communication etc. 3rd house also memory and thinking. The planet mercury is a karaka planet for writing speech & imagination.

11th cusp indicate success and fulfillment of desires etc. so, mainly the cuspal sublord of 3rd should be signifies the houses 3rd and 11th or lord of 3rd & 11th also should be well placed in a chart then only he will be able to write or publish a book successfully. 9th which stand for higher education, deep knowledge and research study also should be examined for writing and publishing a book. 6th cusp indicate success in the attempts.

In the above example horary chart, the sublord of 3rd cusp is Ketu. Ketu is in 6th bhava and signifies 6th bhava. Ketu is in the sub of Saturn as lord of 1,12 and in 6th cusp. The sublord of 3rd cusp ketu though not clearly indicate 3rd cusp, we shall also discuss sub sublord of 3rd cusp. It is Mercury. Mercury is karka planet of writing & speaking etc. Mercury in 8 as lord of 5th indicates some initial delay and obstacles but as mercury is in the sub of Jup a full significatore of 11th bhava is good. Mer indicates Astrology so the subject may be connected to astrology or occult science. 12th cusp indicates occult science.

The lord of 3rd bhava is Mars. No planet in 3rd thus mars signifies 3rd bhava.the 11th cusp sublord Rahu in the sub of jup. A significatore of 11 and 10. The lord of 11th (fulfillment of desires) is Jup, Jup A significatore of 11 & 10 is good. So, I come to the conclusion that the queerest will be able to write and publish a book. The subject may be connected to occult science, Astrology etc.

WHEN:

Significatore of 3rd and 11th (By star) are Moon, Sun, Mars and Jupiter.

Significatore of 3 and 11th (by sub lord) are Ven, Rah, Moon.

No planet in Sun, Moon, Jup, Ven star.

At the time of Judgment then ruling planets are Jup, Ven, mars, Sat and Rahu, common ruling planets are Mars, Jupiter, Venus, and Rahu. Venus lagna Star is a strong R.P.

At the time of judgment, Mars dasa Jup Bhukti operates till 11/06/2008, both Mars and Jup are good, so before this period the queerest will be able to publish a book.

How to predict horoscope Through K.B system-4

By: A. Devaraj (Jyothish Kalaa Rathna)

No, 68. P.G. Avenue, 3rd St., Kattuppakkam,
Chennai-600056, Ph.044-24765320, Cell: 9382339084

We will get more experience, when try to analyze a chart by the way of various angles and we will become an expert to predict in horoscope, while we applied the previous experience in the various chart. So, I analyzed the chart of my best friend, Mr. sivadhasan Ravi who expert in the Nadi astrology, by the way of so many angles and wish to share my experienced result with the readers.

Mr. Sivadhasan Ravi's chart is calculated in the K.B. method and given below. Further, the 12 bhavas and 9 planets interlinks tables are given here to the readers, to understand easily.

Now, we try to analyze the chart according the base of the various questions.

1. How is the Health?

Lagna bhava sub lord is Saturn. Saturn is in the Kethu star and Venus sub lord. Kethu is the sub lord of 3, 9 bhavas. Venus is the 11th bhava sub lord. Moreover, the Lagna sub lord Saturn is the sub lord of 4, 7, 10th bhava also.

Here the Saturn's sub lord is having favorable bhavas (Venus 11th) to its star lord (i.e 3 and 9th bhavas). So, the 3, 9 bhavas gets strengthen and make weaken the Saturn's 4 and 10th bhavas. So, the lagna bhava strongly inter-linked with the 3, 7, 9 and 11th bhavas. The above indicates bhavas are good to the lagna bhavas and gives good health to the lagna. So, his physical body, mostly, is in the healthy condition. So, the lagna bhava Fate supports to be a healthy physical body.

A person often and often may affect by the disease (6th bhava) if the lagna bhava connecting with the 6, 8, and 12th bhavas. Through the disease, a person may get the pain and disturbance (8th bhava) and the 12th bhava indicates that the physical part will affect and inactivate by the disease. These incident happen to the lagna,

Here, the lagna bhava is not connected to the 6, 8, 12 bhava. So in any manner, the person can't affect any long time disease in his life.

Particularly in Saturn dasa, bhukthi and anthra period (which is lagna sub lord) this person health condition will be so good. Moreover, this person will be in good healthy condition in the period of lagna bhava and the 5th bhava inter-linked dasa bhukthi period (5 bhava is 12th bhava to 6 bhava and gives favorable to health)

Please see the table 2. Mars, mercury, Jupiter, Saturn planets are indicating and interlinks strongly 3, 7, 11 bhavas and these bhavas are favorable bhavas to the 1, 5 bhavas. So, in these Dasa, bhukthi period, disease will not attack and he will be in the healthy condition.

But, which planets are connected with the 6, 8, 12 bhavas, these planets related period, a person health will suffer. In this horoscope, Rahu is the 6, 12 bhava sub lord. The moon is the 8th bhava sub lord. So, this person will affect with disease in the period of planets which is connected with the Rahu and Moon.

I.e., planets in the star and sub lord of Rahu and Moon are give the 6, 8, 12 bhava result and the result will be very strongly than the rahu and moon. As per table 2, Venus, Rahu, kethu

planets are connected with the 6, 8, 12th bhavas. (I left the moon, because the moon will change its position according to the dasa and bhukthi)

The health condition becomes worse in the dasa, bhukthi period of Venus, Rahu and Ketu. But in this chart, the Lagna bhava is strongly favored to the health condition. So, the 6, 8, 12th bhava planets dasa, bhukthi period will not so much health trouble to this person and always he will be at the normal healthy condition.

2. Which way this person will think?

The Lagna bhava indicates the individual thinking ideology. Lagna bhava indicates the head of the human body and particularly referred to the brain. So, a person always thinks about the particular bhava karakas which are interlinked to Lagna bhava. (i.e. Lagna bhava sub lord, connects through its star lord and sub lord.)

Here, Lagna bhava sub lord is interlinked with the 3, 7, 9, 11 bhavas of the soul related bhavas. So, this person always thinks about the soul related bhavas (less material related). So, he thinks, mostly in his life about the writing matter and communication, (3rd bhava), outside society of the people (7th bhava), higher education, Research, activities of the hereditary (9th bhava), friends, society and meetings (11th bhava)

However, the above mentioned thinking ideology just varies up and down according to the change of the dasa, bhukthi. Particularly, the thought is just over in the dasa bhukthi period of Mars, Mercury and Saturn.

But, this person's ideology will change, from the above referred matter, in the dasa, bhukthi period of Venus, Rahu and Ketu.

3. Is this person always will be at the prestigious position?

Lagna bhava indicates one's prestige life. A person can't live as a prestigious position among the people, while the Lagna sub lord connected 8, 12 bhavas through its star lord and its sub lord, in any manner..

Here, the Lagna bhava is interlinked with the 3, 7, 9, 11th bhava. So, the fate result is strongly identified, that this person always will be at the prestigious position.

So, this person will be with the prestigious position in the dasa bhukthi period of Mars, Jupiter, Saturn and Mercury (which are favorable to Lagna) and will be just less prestige in the dasa bhukthi period of Venus, Rahu and Ketu.

4. Is he resides at the birth native place?

A person may live in the birth native place, while the Lagna bhava connects with the 4th bhava or favorable related bhavas to 4th bhava. (4th bhava indicates the native place). 3rd bhava is the 12th bhava to the 4th bhava and the 3rd bhava indicates that a person not living in the native place and migrated from the native place to other place. 9th bhava indicates that a person migrated and living far away from his birth native place. (3rd bhava indicates the short distance and 9th bhava indicates the long distance).

In this chart, the Lagna cusp is interlinked with the 3, 7, 9, 11th bhavas. So, this gentleman residing far away from the birth native place. Surely, this person living outside from the native place from the past 15 years.

In next articles, I will explain the same horoscope for analyze, marriage life, profession, education, etc through the K.B. system. I submit this article to my beloved guruji K. Baskaran, Madurai.

This case study analyses my daughter's sickness who was down with viral fever recently. On the third day of the sickness when the condition was worsening, I had the anxiety to find out with the question "When will my daughter recover from fever?"

In pursuance of the above, a prashna chart was casted on Dec 15, 2007 at 18-41-57 Hrs at Bangalore. Since, the query was related to my daughter, the chart was rotated to 5th house.

The rotated chart is produced herewith.

The chart is being analysed as follows:

The co-ordinates of judgment

In reference to the patient, treatment, recovery and the doctor, there are some houses that become important for the patient as follows.

- The patient and his scope of longevity is indicated by lagna and in case if the dangers are seen ahead, the 8-3H of longevity need be examined vis-à-vis the 2-7H (maraka houses) with badhaka connection.
- While, the diagnosis of the disease requires the scrutiny of 6H, the 8th house sees the possibilities of the complications.
- The recovery is judged by the scrutiny of 5H, whereas the 11H could be assessed for the discharge from the hospital.
- On the side of doctor, the 7H indicate the attending doctor. The professional competence of the doctor is assessed by the 4H (10th from 7th) whereas the doctor's prescriptions are represented by 9H (3rd from 7th).
- The mutual disposition of Lagna and 7th cusp decide about the manner in which the patient-doctor interaction would sail.
- The disposition of 7th sub-lord decides about the usefulness of the doctor for the patient. If the doctor is able to give cure to the patient, 7th sub-lord must have some link with the 5-11H.

If the patient has to suffer in the hands of the doctor, the 7th sub-lord must find link with the 6-8H. If the patient has to succumb to the prescriptions of treatment process, the 9th sub-lord (3rd from 7th) must find linkage to the maraka houses such as 2-7-12th houses having connection with badhaka-lord.

- Dasha, sub-dasha and finer periods lords during the disease dictate the events as per their significations.

The query

Look for the Moon, which gets placed in 5th house, indicating my worries about her recovery. Since, Moon falls in the 8th cusp, the apprehension of the fever getting chronic was looking as a possibility because of her being in critical condition. My worries on this account were aptly indicated by the position of Moon.

The query was reasonably indicating my anxiety, thus it was safe to proceed ahead.

Analysis of the chart

The chart is analysed as follows.

1. Lagna sub-lord Rahu falls in the 5th house showing the possibility of recovery. Rahu falls in its own star, thus it confirms the signification of the 5th house strongly.
2. Both 3rd and 9th cuspal sub-lord are Saturn and since, Venus as Saturn's star lord gets placed in lagna, there was no threat of longevity.
3. The disease takes shape when the 6th cusp connects to the lagna and disease gets complicated, if 8th house gets connected thereby.

6th cuspal sub-lord Saturn falls in the star of Venus that as 8th lord falls in Lagna, thus connecting Lagna - 6th and 8th houses. As Saturn does not have any planet in its star, it is strong and its placement in 11th house indicated delayed cure and its conjunction with Ketu indicated complications in achieving cure.

Thus, the disease looked to be complicated and indicated late recovery.

4. Look at the 11th cuspal sub-lord Moon that again is a strong planet, as there is no planet in its star. Because of Moon being a fast planet and placed in 5th house, it suggested a fast recovery. This seemed in contradiction to the late recovery as indicated in #2 above.
5. Jupiter was the cuspal sub-lord of the 7th cusp (doctors), which as 3rd and 6th lord was placed in 2nd house in the star of Ketu placed in 11th house. Thus, the doctors were not to boost the courage of the patient for recovery (2nd house negated 3rd house indicating the courage of the disease fighting capacity of the patient) and were not helpful to her.
6. Moon is well placed in 5th house and also lords as the 11th cuspal sub-lord. Thus, it was anticipated that the day when the Moon transits in Rohini star (Venus sign and Moon star), the full recovery could be possible, as Venus gets placed in lagna supports health and Moon supports as stated above.

The sookshma dasha was also checked and Mars-Moon-Sat-Moon was found to run from Dec 20, 2007 till Dec 23, 2007. Within this period, Moon was to transit the Rohini star on Dec 22, 2007.

Thus, Dec 22, 2007 was fixed as the target date for the patient's recovery.

The facts of the case

1. The patient was taken to the emergency ward of hospital on the late evening of Dec 14, 2007 but the doctors were not able to reach any conclusion and said to watch for some time and prescribed the palliative doses of crocin.

On Dec 14, 2007, Moon was transiting in the sravana star lorded by Moon itself. Since, Moon is placed in the star of retro Mars placed in 9th house, that was sufficient to suggest that the doctors (7H) were not able to diagnose the problem (retro Mars in 9H).

2. After returning from the hospital, the patient started her own treatment (note that the patient is himself a doctor).

The 5th cusp whose sub-lord is Venus represents the recovery. Note that Venus falls in the star of Rahu (the Lagna sub-lord), perhaps suggesting that the patient himself may be useful to herself for recovery. Rahu's placement in the 5th house, further affirms it.

3. The fever took the shape of malaria, remained very unstable and caused a lot of weakness.
4. The patient recovered after struggling with fever for about 10 days and got fully cured on Dec 21, 2007 without any complication. She took bath on Dec 22, 2007 and got fit for work.

Short life: An example chart

By: DR. H.S. NAGI,
9/43, PUNJAB AGRICULTURAL UNIVERSITY
LUDHIANA.
MB. 09417717910

Rule

- 1- For long life, Ascendant sub lord should signify houses 1-3-5-8-10
- 2- For short life Ascendant sub lord should be connected 2-7 and badhak stan (for common sign 7th, for moveable signs 11th and for fixed signs 9th house is badhak stan.)
- 3- The badhaka houses are houses that are harmful to life, and badhaka houses are considered to be more harmful for life than maraka houses. The badhaka houses are the 11th for those born in Cardinal (moveable) signs, the 9th for those born in fixed signs, and the 7th for those born in Mutable (dual) signs.
- 4- For death, first consider the badhaka houses, and then the maraka houses as dangerous times for the native, as there is danger to life during the joint period (dasha/bhukti) of the significators of the badhaka and maraka houses, whose lords respectively are Ju/Ve. The chart significators for the 7th are Jupiter, Rahu and Sun. Chart significators for the 2nd are Me/Ve/Ra/Ju/Ma/Su/Sa.

Analyses

When assessing death in a KP chart and according to KP dictum, the first consideration is the *badhaka*, followed secondly by *marakas*. Bahkahasthanas and marakasthanas for Virgo lagna are 7th, 2nd, and 7th respectively: badhaka/maraka Jupiter, in addition to maraka Venus. Her natal 7th falls in the star and sub of bhukti lord, Mercury (who is sub lord of lagna) and in the sub sub of natural lord of death, Saturn.

Here in this chart ascendant falls in Virgo, common sign, so 7th house is badhak to this sign. It falls under mercury-moon and mercury.

Sub lord of ascendant is mercury.

Now we have to see what signification mercury holds. Mercury is lord of 1-10, in rapt conjunction with 2 H. this shows the native will live life of status. But mercury has mars in its constellation. So mercury becomes weak to offer results of 2-1-10.

Next step is to look into star lord of mercury.

Mercury is deposited in star of Rahu. Rahu is in 2 H. it is maraka house. Rahu is a node. Nodes give results of planets to whom they are conjoined, then act as agent of those planets who aspect them, then their star lord and then their sign lord.

Here rahu is in conjunction with mercury and Venus, both are in rahu star, so signify house 2 (maraka) strongly.

+ These planets do not have any planets in their stars.

Rahu is aspected by Moon. Moon has positional status in 7th house (marka and badhka sthan for virgo born) it gave full power of marka and badhka to rahu. And so transmigrated into mercury and venus, because both are in star of Rahu.

Here it can be concluded that since lagna sub lord mercury has full signification of marka and badhka, the life of native is short.

Here one should be alert and careful about 8th house sub lord's signification. 8th house is a house of longevity that's why 7th house known as marka house because it is 12th to 8th.

For long life 8th sub lord should signify 8-5-10-3-1.

For short life 8th sub lord should signify 2-7 and badhka sthan.

Here in this example 8th sub lord is moon. Moon is in rapt conjunction with 8 H. No planet is in star of moon. Moon has full signification of 8 H house, it gives longevity but at stellar level. Moon is in star of venus, lord of 2. venus has already signification of 2 and 7. as a result 8th sub lord is also not giving green signal for long life. We can conclude that native will have short life.

Dasa bhukti analyses

The native is running through Venus dasa from 21 - 1 - 1991 TO 21 - 1 - 2011

Let us check Venus

Venus is lord of 2 and 9 in 1.

But there are planets in venus star . so venus is weak to offer results of houses 1-2-9.

Now look star of venus. Venus is in Rahu star. Rahu is in 2 (marka) and strong significator of 7th (marka and badhka). So through stellar level venus signify 2-7 strongly. But end result will be decided by sub lord of venus.

Venus is in sub of Jupiter. Jupiter is in 2 as lord of 7. There are planets in star of Jupiter. But Jupiter is posited in its own star, in this way got positional full signification of 2 and 7 and 4.

Dasa lord venus became malefic for longevity by signification of 2-7 through stellar level and 2-7 through sub level. So dasa lord venus itself may be end of natives life.

Let us analyze bhukti lords

Sun. Bhk. 21 05 1994 TO 21 05 1995

Sun is in star of Jupiter. Jupiter is in 2 as lord of 7. So sun signifies 2 and 7 at stellar level. But sun is in sub of moon, moon in 8 as lord of 11. At sub level sun signifies 8 and 11. Both are good for longevity. So sun is not harmful.

Moon Bhk. 21 05 1995 TO 20 01 1997

Moon is in 8. no planet in moon star so moon fully signify 8, but in star of venus. Venus is in 1 as lord of 2 and 9. No harm to longevity.

Mars Bhk. 20 01 1997 TO 20 05 1998

Mars is in star of mercury. Mercury is in 2 as lord of 1-10. 1-10 are good houses for longevity. So mars can't harm.

Rahu Bhk. 20 05 1998 TO 20 05 2001

Rahu is in star and sub of Jupiter. Jupiter is in its own star signify 2-7 strongly. Will it end life? Sub lord will decide. Jupiter is in sub of mars. Mars is a significator of 1-10-2, due to stellar signification of 2-7, rahu can give serious disease or sickness but at sub level, it is not bad for life.

Jup. Bhk. 20 05 2001 TO 20 11 2003

Jupiter signify 2-7 at stellar level, but at sub level it is in sub of mars, due to mar signification of favorable houses 1-10 it will not end life.

Sat. Bhk. 20 11 2003 TO 20 01 2007

Saturn is in star of rahu. Rahu signify 2-7 strongly. But Saturn is in its own sub. No planet is in Saturn star. Saturn is lord of 5 and 6 in 5. Saturn signifies 5 and 6 fully. It will give sickness but not death.

Merc Bhk. 20 02 2007 TO 20 11 2009

We have already discussed mercury, having signification of 2 and 7 strongly. At stellar and sub level also. It can be dangerous period.

She died on 22-10-2007 in the morning.

Badhaka Jupiter was transiting (at the time of death) in the star of bhukti lord, Mercury and sub of Mars. Mars is natally posited in the star of Mercury (sub lord of lagna) and sub of Jupiter - 7th lord badhaka - or significator for death.

Rahu is the natural significator for the disease of cancer, and proxies for Moon, Mars, Mercury, and Venus. Marakasthan's are 7th and 2nd, (Jupiter and Venus respectively). MD and AD lord Venus is natally posited in the star of Rahu (cancer) and sub of Jupiter (badhaka), and transiting her own star, in the sub of Rahu. MD of Venus can give death. Mercury is sub lord of lagna, and was transiting in the star and sub of Rahu on the date of her death. Rahu proxies for both Mercury and Venus, and is significator for both the 7th and 2nd. Mercury can also give death. At the time of her death, she was running a DBAS of Ve/Me/Ve/Ra.

06TH HOUSE

CSL Ketu is occupant of Sagittarius. Lord Jupiter is aspected by Ketu.

6th lord Jupiter is in the sub of Saturn, and Saturn is 2nd cuspal sub lord who signifies speech.

08TH HOUSE

CSL Saturn is Lord of 8th house and hence signifies.

2nd Cuspal sub lord (signifying speech) is Saturn. Saturn is lord of 8th house. Hence Saturn is connected to speech.

12TH HOUSE

CSL is Ketu. Ketu signifies 6th Lord Jupiter. Jupiter is aspecting 12th Bhava lord Mercury.

Mercury is lord of 3rd and 12th houses and is connected with the illness. Mercury is conjoined with 2nd lord Sun, who is in 6th lord Jupiter star.

Hence all the rules specified above are connected for the native to have speech and hearing problems.

CURE FROM HEARING PROBLEM

If the sub lord of 6,8,12 are signifying of 1,5,11 person will be cured during the D / B / A of 1,5,11.

While on evaluation it is found that Sa, Ma, Mo, Ke, Ra, Ju, Me, Ve are signifying of 1,5,11. Out of these planets except Ketu, all the planets do signify either 6 or 8 or 12. Ketu is in 5th cusp in Mars sub. Mars is Lord of 5th.

Moon, Mars and Jupiter are the lords of Mute signs such as Cancer, Scorpio and Pisces, respectively. All of them are signifying either 6,8, or 12.

5th and 11th cuspal sub lord is Jupiter, who is in 11th cusp in own star and Saturn sub. Since the result will be given by sub lord, who is Saturn, the same will be slow.

Native is running Ketu VMD. Ketu strongly signifies 5th house and hence during Ketu VMD there will be progress towards cure. Periods such as Ketu-Venus, Ketu-Sun, Ketu-Mars will be ideal for the native to recover, but the process is expected to be slower than expectation due to connection of Saturn, who is in Mercury sub and Mercury is Bhava lord of 12th.

Note: This article deals with only illness connected with speech and hearing, and no other topic is considered.

Second Marriage

By: G. Subramanian

Marriage is an important landmark in the life of an individual. But unfortunately, in some cases the first marriage gets annulled on account of divorce or the death of the first wife and the concerned person goes in for a second marriage. I am presenting a study of one such case for the benefit of the readers.

Attached herewith is the horoscope of the gentleman who married a second time after the demise of his first wife after prolonged illness.

The rules laid down in K.P for second marriage are set out below:

Rule-1 (as given in Reader VI)

Second marriage is indicated if the following two conditions are simultaneously satisfied:

- i) The sub-lord of the 7th cusp is deposited in a dual sign or in the constellation of a planet in or owning a dual sign or if the sub-lord of the cusp is Mercury.)
- ii) The sub-lord of the 7th cusp is also a significator of either of the houses 2 or 11.

If any of the above two conditions is not satisfied, then second marriage is denied.

As per K.P. the dual signs are Gemini, Sagittarius and Pisces only. Our editor Kanak Bossmia has undertaken a thorough research on this particular question and has arrived at the result that Jupiter, a planet owning two dual houses can also be considered along with Mercury for the above rule.

Rule-2 (as per Reader IV)

Just as we judge the first marriage by looking into the 7th cusp, second marriage is to be predicted from an analysis of the 2nd cusp. If the sub-lord of the 2nd cusp is connected in any manner to the seventh, then second marriage in that particular case is a certainty.

Rule-3

As stated already our respected Editor has researched into the question of multiple marriages by studying a large number of charts and has given his findings elaborately in his messages in the KPsystem group. His view is that the second wife may also be considered as the sister of the first wife and so second marriage is indicated if the sub-lord of the 9th cusp is a significator of 2 or 9 or 11.

Let us now proceed to study the above case to see how far the above rules hold good in this case. The seventh sub-lord, MARS, is not a dual planet by itself and it is not also posited in a dual sign.. Its starlord, Rahu is also not in a dual sign. Hence rule 1 fails in this case.

Let us examine the sublord of the 2nd cusp. It is Rahu. Rahu is in 8, its starlord Mars is in 4, lord of 5 and 6 and its sublord is Kethu in 2. Even if we take Rahu as representing its signlord, Saturn, the houses signified by Saturn are 3, 8 and 9. It is thus evident that the sublord of the 2nd cusp is not connected to 7 in any manner. Thus as per this rule also, there is no second marriage to the native.

Then how is it that the second marriage took place?

It is in this crucial context that the principle enunciated by Shr.Kanak comes to our rescue. The sub-lord of the 9th cusp is Kethu. Kethu is in 2 and therefore becomes a strong significator of the house. If we proceed on the basis that Kethu represents its signlord Sun, Sun is in the 11th another eligible house. Thus the third rule based on Kanak's experience is fully substantiated in this case.

This example moreover stresses the need for examining cases on the basis of all the three rules instead of arriving at our prediction relying on one rule only.

Another interesting offshoot of this horoscope is that the lady who married this gentleman has obviously married a widower. What are the rules for marrying a widow/widower? This will be dealt with in a subsequent article citing some examples.

I am extremely thankful to Shri.Kanak for providing some space in his esteemed KPEzine for this article.

Editor's note: This is an exceptional 2nd marriage case without meeting the KP rules

In KP we don't found any clear-cut rules for mundane astrology. I have tried to fix some rules and one of them is about Assassination.

In this article I want to discuss case of Benazir Bhutto a Former Pakistan Prime Minister. When she comes back to Pakistan, she suspects that some retired military officers have aligned to Islamic extremists who could be plotting her assassination on her return to the country.

I try to check her suspect, and I cast horary chart, details as bellow:

Dear all Readers,

This is FIRST ANNUAL ISSUE OF KP Ezine. We have completed one year with the co-operation of readers, authors, friends and specially those who helps us from behind the curtains, Advisory board member Sri Raichur ji, Sri Tin Win ji, Software support by Sri Rangarajan Krishnamoorthy, spelling and grammatical checking of article by sri Hasmukhbhai Mehta and Sri Vishwanath Nair. I am very thankful from the bottom of my heart to all of them. Now number of KPEzine readers touched nearly 900 and hope to see the readers up to 1000 very soon.

Why I started this magazine? We found many literatures in Krishnamutry system but I found mostly Prediction-come-true type articles published. I always wanted to read some educative articles, but they are in very low in numbers. So I thought of starting the magazine on KP but didn't want to publish Prediction- come true-type articles. It is very difficult in getting educative articles and not good for commercial way, but I don't want to start any commercial magazine, and there is no purpose to earn money through this magazine, or anyhow no hidden intention to earn money from this magazine. So I discussed with some of my near and dear and after some months of discussions, I decided to start E-magazine, and for that I needed first a website. So I started the website and after launching web in December 2006, I started KPEzine WROLD'S FIRST ELECTRONIC MAGAZINE ON KRISHNAMUTRY SYSTEM on February 2007. I wish to thank Sri Kuppu Ganpati- Delhi, Sri, A.R.Raichur - Mumbai, Sri Tin Win - USA, Sri Rangarajan Krishnamoorthy- Chennai to encourage me and help in to start this magazine. As we know now I am successful in my thinking and getting educative articles, and I want to give you assurance that in future I will try to select only and only educative articles only.

The authors, whose article rejected, please do not take it personally; This is only due to not finding the articles in compliance with publishing criteria of KPEzine or KP System by advisory board. When we wrote any article we thought we have done great job, but we have to accept decision of advisory board, and take it in the right spirit.

Now Old issue of KPEzine will available on CD only. From February to December 2007 and price is Rs 500 + Postage 50 Rs. Total 550Rs in India, For foreign country price is US \$ 50 + Postage(By Reg. post) US \$ 5 Total 55 US \$. Separate issue for 2007 not available now.

Form 2008 January, Old issue price will be Rs 100 per issue.

Dear Kanakbhai,

Best Wishes for 2008. May this New Year bring you greater peace, harmony and prosperity in your life, family-wise and professionally.

I have a small suggestion. Soon you will be completing One Year for your magazine, which is always wonderful in content. Several subjects were discussed. Can you separate them subject wise into separate folders. One for each subject, so that all material relating to a specific subject is kept together.

Second, if a member wants to download some pages only, there is no easy method. At least I do not know.

You are doing a wonderful job, please keep it up. Any help required from me please feel free to ask, available 24/7 for you.

God Bless!!

Satish

My reply:

Dear Satish ji,

It is not possible to download some page. But I will try to keep it in subject wise in CD, also want to publish CD for first 12th issue, in reasonable rate, if member interested for it. So they can read and keep KPEzine always with him.

I am nothing if I do not get support from all KP Community, what I am able to do is only I get co operation from all friends and good wisher only. So credit goes to all of you, I am only mediator, nothing more. Now we have 850+ members.

Thanks for kind word who busts me new energy, Thanks.

Leukemia and Stem Cell Donation

By: Ilona Hellmann

HellmannC200@t-online.de

Woman, 30.1.1961, 3:05 AM, (GMT +1), 7E50, 50N26, Germany
AC 2°23 Scorpio, New KP Ayanamsha 23:13:25

Her ascendant sublord Rahu and 6th cusp sublord Venus signifying Badhaka, Maraka 12th house have proved to be very difficult for her health and this woman was subjected to acute meningitis already shortly before the age of two. Until now she experienced several dangerous diseases including also blood poisoning in her Ketu-Rahu DB period.

This woman developed acute leukemia some time after a breast cancer treatment. She had to undergo two bone marrow stem cell donations to save her life. The first unsuccessful one took place on 6th December 1999 and the second happened on 30th May 2001. Miraculously the woman is still alive thanks to her ascendant sublord Rahu's signification of 1,5,11 on the other side.

I will now try to explain some astrological reasons for both, the failed and for the lucky stem cell donation.

We have to concentrate strongly on the 3rd house in this topic because this natural house of communication rules also our body's energy depending on the exchange with disease causing agents.

The 3rd house rules power and immunity. Stem cell donations can only be successful if a person's immunity is nearly completely driven down before the cure starts because otherwise a body will as soon as possible try to reject the donated stem cells. The body's own bone marrow must be destroyed with X-rays and chemotherapy during a difficult procedure of several weeks or months.

Bone marrow can be found especially in the vertebrae, shoulders, hips and thighs. It is astrologically represented by Capricorn, Saturn, the 10th house, Mars (red blood cells) and also by Jupiter (growth of cells), Moon and Venus. For my observation bone marrow is well represented by the Mars star Dhanishta.

The connection of the 3rd house of energies with the above mentioned astrological symbols for bone marrow can be clearly discovered in this example chart. The 3rd cusp expands between 14°39 Capricorn and 23°54 Aquarius including completely Dhanishta star.

Running DBAS on 6th December 1999: Mercury-Jupiter- Mars-Ketu.
(unsuccessful first bone marrow stem cell donation)

A fruitful planetary combination should activate the houses 1,3,5 and 11.

For my opinion also the 2nd and the 4th house could play a role in the sense to balance the loss of immunity and its further regain.

+ These planets do not have any planets in their stars.

Dasa lord Mercury

Dasa lord Mercury signifies 1,3,4,6,8 and 11 houses, combining thus danger and cure to this native. Stem cell donation is without any doubt a very tough process. Mercury is also the only significator of the woman's 11th house and therefore most essential to support recovery.

Natal Mercury occupies 2°32 Aquarius in Dhanishta star, the possible nakshatra for bone marrow.

Mercury in Aquarius indicates unusual treatments. Mercury's relationship with the AC is stressed by an exact square aspect, reminding us that Mercury's understanding of healing will be troublesome.

On the day of first stem cell donation (6th December 1999), transit Mercury had just reached Scorpio in Jupiter's Vishakha star. This placement was probably not harshly enough, to bring the woman's immunity completely down. Instead of it her bone marrow could not have been destroyed before the first transfusion took place, because the woman's catastrophic health state did not allow it at that time.

Bhukti lord Jupiter

Two planets, namely Jupiter and Saturn are the main significators for the woman's 3rd house. Both are placed in the star of 10th house ruler Sun. The 10th house rules the back in medical astrology but also tissues in general and it is of course the 12th of the 11th house. Though it is difficult to believe, patients can only recover from leukemia by the help of stem cell donation while doctors at first treat a patient nearly to death, destroying all his own bone marrow. The activated 10th house is therefore justified in our case, especially because Dasa lord Mercury cares already for the 11th house of recovery. We have only to weigh up which planet would give the better result during his period. Is it Jupiter, the planet of growth or Saturn the planet of restriction? But it is also a matter of their sublords as explained below.

Jupiter could not in full support the bone marrow destruction due to several reasons: Transiting Jupiter was in retrograde, indicating already a possible repetition of the whole process later on. Transiting Jupiter acted for Ketu's star Ashwini, who himself did not tolerate the new bone marrow because of this shadowy planet's reducing character.

(Rejections are to be observed even in the actually running Ketu Dasa, though they could be controlled by the help of strong medicaments until now.)

Unfortunately Ketu's transit in Moon's star Shravana worsened the acute leukemia and doctors could not risk to wait any longer. So they decided to enforce a stem cell donation without destroying the woman's immune system before.

During that time transiting Jupiter in Aries threw no favorable aspect to support the AC or the 11th house but instead of it transiting Jupiter's 6th house placement in Ashwini star in fact supported this 6th house, inclining the body to reject the donated stem cells.

Anthara Lord Mars

Transiting Mars has just escaped Ketu's mouth in Shravana star. This could indicate that the woman's immunity had still enough energy to reject the donated stem cells. Her own bone marrow was still active as we already know. Instead of its placement in the 3rd house Mars should have better aspected his own first house.

Transiting Mars in Capricorn was also unfavorable because the planet aspected her 6th house strengthening the woman's immunity.

It is interesting to mention that this woman has at first also been homeopathically treated by a colleague but due to Mars' sublordship of her 5th and 11th houses this was not successful and quite ironically she will never more be allowed to take homeopathic medicaments because this would activate the new bone marrow to reject her own body. This can be clearly understood if we imagine the nature of Mars.

Sookshma lord Ketu

Ketu signifies the 3rd and 9th houses. Transiting Ketu in Shravana star weakened the woman's body, worsening her leukemia and making her even more anemic. This resulted in the doctor's over hasty reaction mentioned above.

Running DBAS on 30th May 2001: Mercury- Saturn-Venus-Moon
(successful second bone marrow stem cell donation)

Mercury was still Dasa lord.

Spleen was removed in August 2000 to initiate the cure. Afterwards the procedure of bone marrow destruction started.

Just look at the conjunction of transiting Saturn, Sun and Jupiter in her 7th house Taurus on the day of second bone marrow stem cell donation (30th May 2001) and you can imagine the dangerous treatment consisting in radiation (Sun) and chemotherapy (Saturn). Jupiter supported both, doctors and the woman's life.

This time Saturn instead of Jupiter became Bhukti lord, controlling transiting Jupiter and transiting Moon, the two planets of growth and fruitfulness by his obstructing rays.

In addition to his 3rd house signification by being in the star of Sun in 3, Saturn is also owner of this 3rd house, making him stronger and more restrictive than Jupiter. Saturn's sublord Rahu seems to reflect the situation much better than Jupiter's sublord Moon during the first try. Transiting Rahu in connection with transiting Mercury in Gemini represents the strange stem cells, aspecting the transiting Ketu/Mars conjunction in Sagittarius.

Transiting Rahu/Ketu's axis forming the exact harmonic aspects to the woman's natal nodes symbolizes an important change of life.

Transiting Mars can be found "neglected" in Mula star. Mula's symbol, a root reflects the preparation of the AC ruler to create a new part in the woman's life.

Uranus' station on May 29th, 2001 happened exactly on the 3rd cusp in Capricorn, indicating a kind of break and the transformed bone marrow.

Anthra lord Venus

Venus, who has to care for Saturn and his houses by being in the star and sub of Saturn, has nearly finished her transit in Pisces, exactly squaring natal Saturn to mark the end of an exhausting cure. Venus' following transit in Aries can be regarded as a new setting because this planet represents connections in general. It is her task to care for the process of the new stem cells' fruitful implantation and growth in the hope to have got rid of leukemia and the sick "old blood".

Sookshma lord Moon

Transiting Moon in Purva Phalguni star acts as an agent for Venus and her above explained work.
KPEzine February 2008

As already mentioned, the badhakesh Moon behaves dual sided for Scorpio natives and his 5th house signification is not at all smooth which can be seen by his sublord, the 7th and 12th house lord Venus. Moon represents the pale blood and its conjunction with Mars in the woman's 8th house of natal cart explains her leukemia. Moon rules the 9th house in Cancer, representing liver, hips, thighs included the herein placed bone marrow.

The planetary conjunction of Moon and Mars will thus offer health obstructions to the native even if help is required. On one hand Moon signifies the 5th house of recovery in this chart but on the other hand natal Moon occupies the difficult 8th house together with AC ruler and owner of the 6th house, retrograde Mars. It is therefore easily to be seen that "health" can be only achieved in combination with danger and obstruction: As soon as the new stem cells took up their work, they tried to reject the woman's own body, its cells and organs and she has to take strong medicaments like corticosteroids to keep these new aggressors under control.

Natal Moon in Punarvasu star, "the nakshatra of repetition" indicates that two tries will be necessary to achieve one's goal, as it can be seen so obviously in our case.

We will get more experience, when try to analyze a chart by the way of various angles and we will become an expert to predict in horoscope, while we applied the previous experience in the various chart.

This month again I analyzed the chart of my best friend, Mr. sivadhasan Ravi who expert in the Nadi astrology, by the way of so many angles and wish to share my experienced result with the readers(which was not discussed last month).

Mr. Sivadhasan Ravi's chart is calculated in the K.B. method and given on next page.

Now, we try to analyze the chart according the base of the various questions

5. How is the finance position?

2nd bhava indicates the own finance position. In this chart sun is the 2nd bhava sublord. Sun is in the Saturn star and moon sub. Saturn is the 1,4,7,10th bhava sub lord. Moon is the 8th bhava sub lord.

The sub lord (moon) is not opposing the star lord Saturn, which signifies 1, 4, 7,10th bhava. So here, the 2nd bhava connected with 1, 4, 7, 10th bhava. The above bhavas are favorable bhava to the 2nd bhava. So the 2nd bhava fate is favorable.

At the same time, no other planet in the star and sub of the 2nd bhava sub lord (sun). So, sun only has a sole power to give the 2nd bhava's benefits. Sun only strongly connected with the 2, 4,10th bhavas. (See the table -2).

The economical position would be developing in the period of sun dasa, bhukthi and anthra period. But the sun dasa closed in the age of 19th. This person is economically neutral position because most of the planets are connected with soul dependent karaka.

At the same time the Venus, raghu and kethu are linked with the material dependent bhavas. But these planets are not linked with the 2, 10 bhavas and such way they are linked with the 6, 8,12th bhavas. So, the whole money will be refund, if he get or earn the money in the period of the Venus, raghu and kethu,

Totally, this man in his whole life can't worry about the money because the 2nd bhava fate is very strong and favorable position. In this chart, if many planets are connected with the 2, 10 bhavas and these dasa, bhukthies will be gives high finance flow to him in these periods.

But here, Sun only interlinked with the 2, 10 bhavas and other planets are not strongly connected with 2nd bhavas. So fate is only strong to give the money.

6. Is this person has an eye disease or any defect in the eye sight?

2nd bhava indicate the eye sight. There is a chance, the eye defect or eye disease will come, If the 2nd bhava sub lord also the sub lord of the 2,6,8,12 bhavas or through its star lord and sub lord interlinked with the 6,8,12 bhavas.

The 6th bhava indicates the eye diseases, however occur in the eye (cure by the medicine), 8th bhava indicates the defect of the eye sight and the 12th bhava indicates the failure of the eye nerves.

In this chart, the 2nd bhava sub lord sun is not connects with 6, 8,12th bhava through its star lord or sub lord. Readers please note that the moon, sub lord of the sun, even though connected with the 8th bhava, the sun's star lord Saturn's 7th bhava connection doesn't allow the 8th bhava activities.

So, this gentleman never faces the related of the eye disease.

7. Is this gentleman service under the others or own profession?

6th bhavan indicates the physical work and service under others. 7th bhava referred outside social contacts and the customers, who are connects by the way of the profession and the own profession. In these 6th and 7th bhavas, which bhava connects with the 2, 6,10th bhava or favorable to the 2, 6,10th bhava, the profession may be occur on the basis of the related karaka. This is the general rule. (Variable according to the dasa).

In this chart 6th bhava cusp sub lord is Rahu. Rahu is in the mercury star and the venus sub lord. Mercury is the 4,8,12 bhava sub lord. Venus is 11th bhava sub lord. Rahu is also 12th bhava sub lord.

Here, the star lord identity 4, 8,12th bhava, the sub lord venus make weakened the 4 and 12 bhava and activate its 11th bhava. So, the 6th bhava, here, strongly connected with the 8 and 11th bhava. The 8,11th bhava are favorable to the 6th bhava and also to the 2,10th bhava. So, this chart fate is strongly indicates with favorably that this person will do the long service under the others.

Nest, we can analyze the 7th bhava. In this the 7th bhava sub lord is Saturn. Saturn is in the star of Kethu and the sub lord is the Venus. Saturn is the sub lord of the 1,4,7,10th bhava. Kethu is the 3rd and 9th bhava sub lord. The Venus is the 11th bhava sub lord.

The sub lord, Venus, develop the star lord's (kethu) 3, 9 bhavas. In the Saturn's indicates of 1, 4,7,10 bhavas, the 4 and 10th bhava strength will be decreased by the 3, 9 bhvas of the kethu star. So; the 7th bhava sub lord Saturn strongly interlinked with 1,3,9, 11 bhavas.

1, 3,9,11 bhavas are the soul dependent (non-material) karakas and these are unfavorable to the 2 and 10 bhavas. So, this person can't expect the huge amount of money from the customers. So, his fate is not strong and not favorable to his own business.

So, mostly in his life, he may work or service, under the others than his own profession.

8. Is he work under the government or earn money through the government?

A person may service under the government, when the 6th bhava may be strong and the sun may be interlinked with the 2, 6,10th bhavas.

A person can't involve in any professional work and can't get any economical benefit from the government, if the 6th bhava is in a weak position i.e 6 bhava interlinked with the 1,5,9th bhava,(i.e.,8th and 12th bhava to the 6th and 10th bhava) and sun also connects with the 1,5,9th bhava, (i.e. 12th bhava to the 2,6,10th bhava).

KPEzine February 2008

When the 6th bhava is in the weak position in the chart and Sun interlinked with the 2, 4, 6, 10th bhava. The person will not get government job and it will deny. But he will get only money through the sun karaka of father, government, political etc.

Here, we will analyze this chart with the above explained matter. In this chart, the readers can understand through the table 1, that the 6th bhava is not linked with the 1, 5, 9th bhava, i.e. the unfavorable bhava to the 2, 6, 10th bhava. We already know that the 6th bhava strongly interlinked with the 8th and 11th bhava. So, his fate is determined that this gentleman do the work under the other, for a long time.

Take the sun to analyze about the job. Is it related with the government? Readers see the table-2. The sun is strongly connected with the 2, 4, 10th bhavas. The sun is the 2nd bhava sub lord and interlinked with the 4 and 10th bhava and at the same time no other planet in the star and sub of the sun. So, the sun only strongly connected with the 2, 4, 10th bhava.

This person may develop the economic background through the government only because the sun's karaka is very strong and 2nd bhava fate is very favorable because the sun is the 2nd bhava sub lord and interlinked with the 4, 10th bhavas (than the other karakas). So, he will get a permanent profession in the government. (This person is working under the central government service from the past 15 years)

9. How is the marriage life?

The 7th bhava determine the marriage life. Here, the Saturn is the 7th bhava sub lord. The Saturn is in the kethu star and venus sub lord. The Saturn is not only to the 7th bhava sub lord, but also the sub lord to the 1, 4, 10th bhava. Kethu is the sub lord of the 3 and 9th bhava. The venus is the 11th bhava sub lord.

In the above inter-links the 1, 3, 9, 11th bhava may be gets so strong. The above referred bhavas favorable to the lagna and to the 7th bhava and these bhavas are favorable to the marriage life, with joyful, to him and his wife. The 1, 11th bhava indicates his happy life through the marriage and 3, 9th bhava referred the same ideology and mutual understanding in between to him and his wife.

Further, the 7th bhavam is not connected with the material Bhavas. So; this person can't get the particular economical development through his wife.

10. Is he has an opportunity to the child birth?

The 5th bhava determine the fate of the child birth. Here 5th bhava sub lord is the mars. The mars in the star of Jupiter and in the sub of mars. Jupiter is the sub lord of the 3, 7, 11th sub lord and mars is the only sub lord of 5th bhava.

So: the 5th bhavam inter-linked with 3, 5, 7, 11th bhava. The readers can already know that the above interlinked bhavas are favour to the 5th bhava. So: this person has a strong fate to get the child.

Next the planet karaka also play a main role like bhava karaka (5th bhava Fate), to determine the fate of the child birth. The Jupiter (karaka of the child) will determine fate of the child birth.

The Jupiter is in the venus star and venus sub. Jupiter is the 3, 7, 11th bhava star lord and venus is the 11th bhava sub lord. So Jupiter is strongly interlinked with the 3, 7, 11th bhava.

The above referred 3, 7, 11th bhavas are favorable to the 5th bhava and the planet karaka also very supported to the child birth in this chart.

This gentleman get married on 8-6-1997 and he get the first child on 3-8-1998 and 2nd child on 26-8-1999. He gets the two children within two years.

In this period, running dasa is mars, which is 5th bhava sub lord. The 5th bhava sub lord mars gives full result in its dasa periode.

(I request the readers, to analyze this chart through the old (traditional) method and K.P method, to find out the different result.)

11. Is he gets disturbance by the enemy?

The 7th bhava referred that one who contacts this natal, like customers, competitor and the enemies. A person may get disturbance from them, when the 7th bhava connects with the 8th bhava. A person may get defeat while the 7th bhava connects with the 12th bhava and a person may get the victory, while the 7th bhava connect with the 6th bhava.

The above mentioned indication is not involved in this example chart. The 7th sub lord is Saturn and it is interlinked with the 1, 3, 9, 11th bhava through its star and sub lord. So; this person can't face the problem by the way of his contact person or by his opposite person. He always moves with other in the peaceful way.

12. Is he gets the trouble by the friends?

The 11th bhava indicates the friends and the well-wishers. The 7th bhava referred the ordinary contact person and the 11th bhava indicates the persons, those who are move with very closely (involve in the period of joy and sorrow) and move the person with happiness (11th indicates the joyfulness).

In this chart, 11th sub lord Venus. The venus in the mercury star and moon sub. The mercury is the 4, 8, 12th bhava sub lord and the moon is the 8th bhava sub lord.

The 4, 8, 12th bhava gives trouble to the lagna. Particularly, the 8, 12th bhava gives tension, pain and spoil his prestige. This person can enjoy this 8, 12th bhava karaka response through his friends.

This gentleman can enjoy the 8, 12th bhava karaka by the ladies (venus karaka), cine field related persons, wealthy person if they friends. In the venus dasa bukthi period, coincide with the fate, gives trouble his peace of mind. This person enjoyed the venus dasa in his child-hood period and he enjoyed the trouble life in his early period.

This person can't face the problem by his friends, when planets are strongly connects with 3, 7, 11th bhava; i.e., 12th bhava to the 4, 8, 12th bhava. These planets karaka related people will not give problem to him.

In this chart the mars, mercury and Jupiter are interlinked 3, 7, 11th bhava through its star and sub lord. (See table- 2). He can't face the problem from these planets karaka persons.

I.e., physically gigantic and brave men are indicated by the mars; Holy person, one who servicing to god, and praising the gods are indicated by the Jupiter and one who create a book or article, communication skills and astrology are indicated by the Mercury. He can't face the problem while he move with the above referred quality person as a friend relationship.

In next articles, I will explain the same horoscope for analyze , love, property ,education, loan etc through the K.B. system.

FATE CANNOT BE ALTERED

By K.S.V.Ramani

E-mail: kadavasalramani@gmail.com

In this Article, I have analysed a chart of my friend's second son, Mr.Sundar, strictly under K.P.Rules.

In early 1996 my friend and father of the native approached me to find out the marriage prospects of his son and he was anxious to know whether it would be materialised in the nearest future. He was much worried about his son of 28 years age with good personality, well settled and with sound financial back ground but no suitable alliance is forthcoming. I too know his son personally and I was also wondering about the delay in the settlement of marriage. I prepared a fresh chart under K.P.system from the traditional one brought by him, which is given below.

After examining the chart, I found that marriage is promised, as 7th CSL is Kethu. who is in the star of Moon at 7. But the Bhukthi of Saturn, which is to commence shortly tends to delay the event. Dasa lord Jupiter is also in the sub of Saturn, planet of delay. 7th Bhava and Moon therein is aspected by Saturn by 10th aspect (Hindu Asp.) Further I noticed that the boy is prone to some vehicle accident during the Bhukthi period of Saturn, because Saturn is Strong significator for 8th house, house of accident, danger and difficulties. Again Saturn is in the sub of Venus, Karaka for vehicle, attained Strong signification for IVth, VIIIth & XIIth cusps, having no other planet in its 3 stars and is posited in 12th strongly. 12th is for hospitalisation. Saturn has square aspect on him too. All these planetary position made me puzzled. According to me, Saturn sookshma period upto Novr. 1996 in Saturn Bhukthi will be crucial period for accident. Marriage may not take place before 22/12/1998 i.e. till the end of Saturn Bhukthi. Due to PP Dosha, Saturn will allow only such planetary period which is connected to him. As marriage is not likely to be delayed beyond the reasonable period of age, I felt that the Mercury Bhukthi will offer the marriage because it is the earliest period of planet, connected to Saturn, (i) Merc. being aspected by Saturn by 3rd asp. (ii) Merc. in the sub of Moon at 7, who is also aspected by Saturn.

I informed my friend that the marriage of his son is promised, but with delay and he has to wait till the beginning of 1999 for the arrival of Mercury Bhukthi, as present Saturn Bhukthi is not very favourable. I also told him that his son is prone to accident during the Saturn Bhukthi and asked him to advise his son to be careful in vehicle driving during this Saturn Bhukthi period, to avoid any possible accidents, I cautioned the boy also, when I met him later and advised him to take care while riding a vehicle to avoid accident. The father told me that he had consulted 2 or 3 professional astrologers, who had not told him anything about the accident affair. It seems that both the father & son took my advice very casually & did not bother much on my advice regarding accident matter, as noticed from the subsequent events that had happened which is narrated here.

Actual incident : On 8-10-1996, Tuesday, day ruled by mars Karaka for accident, the native met with a fatal road accident, while he was riding on his new bike. It was mid-day, when he was nearing a 4 way junction, he rode fast to turn right side of the road without waiting for the green signal for him. At the same time, a speeding car from opposite direction, dashed against his bike, throwing him away, resulting in sustaining severe head and body injuries (No helmet rule at that time.). Some good Samaritans there got him admitted in the nearby hospital for first aid & informed his employer from the visiting card in his possession. Subsequently, the employer got him re- admitted in a reputed Hospital for further treatment. It was another fate that his parents left India for U.S. just only few days before the event, to be with their eldest son and family for few months. The native was alone here at that time. The employer somehow got in touch with his local relative, who informed his parents of the incident & they rushed back to Chennai on the next day of accident. The unfortunate Boy expired on 12-10-1996, without regaining conscience, though medically alive but physically dead state in coma during the 4 days time. The day was Saturday, ruled by Bhukthi & Anthara lord Saturn. There is also a saying that Amavasya day is critical for the person in death bed to survive. This is the fate which could not be altered inspite of the astrological clue to them. Alas, the parents, who were anxious to see him with wedding garland, had to see his dead body with garland at his last rites by fate. The father at a later date remembered my caution both to him & to his son and repented much for ignoring the same and also for the careless driving by his son resulting in such a heavy loss of life of precious life of the promising youth. After these incidents, I was curious to further analyse deeply the chart and one by one event, whether they corroborate with astrological position and I was surprised that each and every event exactly tallied with the planetary, cuspal Bhava position and the Dasa, Bhukthi, Anthara & Sookshma periods and also the role played by the Transit of Planets (Gochar) at that time. I am sharing the same with readers here.

The native was running Jupiter Dasa. Saturn Bhukthi, Saturn Antharam and Rahu Sookshmam at the time of accident & death. First of all, the correctness of the chart was verified & found to be correct (1) thro' R.P at that time.(2) Now on reverification of the same with his 9th house, Poorvapunya, which has relevance to his birth in this Janma i.e. 9th house and lagna house. (a) 9th house lord Juptr. and Lagna lord Moon are friendly. (b) 9th house star lord Juptr. is in the sub of Satn., who is star lord of Lagna.. (c) Saturn Lagna star lord is strongly placed in 9th, and the Jupiter sign & Star lord of 9th is in the sub of Kethu, Lagna sub-lord. (d) Both Lagna Star lord Saturn & 9th star lord Jupiter are in the same Kethu's star, who is Lagna CSL with common signfns.(e) Both lagna S/L Kethu and 9th S/L Saturn are in the sub of Venus strong with positional strength and with common signfns. ("Rule of Origin" theory by Dr.Andrew Dutta). Thus I took the chart prepared under K.P.System is quite correct.

Verification of events one by one with astrological facts :

- (I) Longevity : Strength of the star lord in which the S/L of Lagna is situated. Lagna, IIIrd & VIIIth houses give good longevity. IInd, VIIth, Bhadhaka are death inflicting houses. (11th is Bhadhak sthan for this native of Cancer lagna, a chara rasi) Xth house takes lead in the direction of retirement from the world. In this case Lagna S/L is Kethu signifying Moon at 7 (marak sthan) and in the sub of S/L Venus signf. of IInd Marak sthan & he is also Bhadhakadhipathy. Keth is full signfr. of his sign lord Mercury at XIth Bhadhak sthanam and also XIIth strongly -Moksha. House. incidentally it is worth to note that Kethu is sub-lord for Lagna, VIIth and XIth, thus Kethu is interlinked with VIIth & XIIth houses, with Lagna signifying both Marak & Bhadhak position for the native. IIIrd House S/L is Jupiter in the star of

Kethu, afflicted by Mars is a Strong signfr. of BS, VIIIth house S/L is strong Venus who is Bhadhakadhipathi. So Longevity is found to be weak..

- (II) Short life: (Madhyayu upto 33 years) : VIth, VIIIth & XIIth houses and Maraka & Bhadhaka effects - Scrutiny reveals that VIth house S/L Jupiter is Strong signfr. As per 4step Jup signifys:

Planet Ju:

Starlord of Ju is Ke: 3; Sgl Me(11, Asp 6, Cnj 12); Stl Mo(7, 1, Asp by Ma[12, 5-10])

Sublord of Ju is Sa+: 9; 8

Starlord of Sa is Ke: 3; Sgl Me(11, Asp 6, Cnj 12); Stl Mo(7, 1, Asp by Ma[12, 5-10])

for IIIrd; XIth, XIIth, VIth & VIIIth houses as may be seen under 4 steps theory for Jupiter above. IIIrd for short journey, XIth Bhadhakasthan. , XIIth hospitalisation and Moksha sthan . VIth for Roga & VIIIth for accident and danger.

VIIIth S/L Venus . as per 4step signfication are under:

Planet Ve+: 12; 4

Starlord of Ve is Ju: 2; 6; Asp 6

Sublord of Ve is Ra+: 9; Sgl Ju(2, 6, Asp 6)

Starlord of Ra is Me: 11; Asp 6; Cnj 12

Venus is Strong signfr. for XIIth, IInd, VIth and XIth whose results have already been explained. above. IVth & XIIth combination obtained by Venus complets full circle for vehicle accident & hospitalisation IV & XIIth signfn.. Venus is karaka for vehicle and she is also Bhadhak sthan adhipathi. IXth & XIIth CSL is Rahu, who is Strong signfr.

Rahu as per 4step signfication are under:

Planet Ra+: 9; Sgl Ju(2, 6, Asp 6)

Starlord of Ra is Me: 11; Asp 6; Cnj 12

Sublord of Ra is Ve+: 12; 4

Starlord of Ve is Ju: 2; 6; Asp 6

for IInd, VIth, XIth, XIIth & IVth houses All have been discussed above. Rahu is agent for Jupiter, Dasa lord and he is to follow suit of his sign lord. Strangely, the accident and death took place in Rahu Sookshma period.

- (III) Vehicle accident on short journey : Saturn is full significator owning VIIIth house, which is vacant.& in the sub of Venus (Karaka for Vehicle & also is strong S/L for VIIIth, sign lord of IVth, as discussed above). Jupiter Dasa lord is for IIIrd short travel, who is also in the sub of Saturn VIIIth lord.
- (IV) Fall from speedy vehicle : VIIIth house is for "fall" from height. C S/L is Venus strong for VIIIth cusp (both vehicle and fall signfn.)
- (V) The native was alone without his parents at the time of event : For this Lagna & XIIth house (seperation) was scrutinized. Lagna cuspal S/L Kethu is strong signfr. for XIIth (house of seperation). 12th CSL Rahu (Sookshma lord) too is strong signfr. for XIIth thro' his sign lord. Lagna CSL Kethu and XIIth CSL Rahu both are signfr. for Mercury, Kethu thro' his sign lord and Rahu thro' his star lord.
- (VI) How parents were involved in seperation? : Sun is karaka for father and Moon for mother. Both are connected to XIIth house of the native. Strong Sun is placed directly in XIIth & Moon thro' her S/L Venus, who is strong

for XIIth by its direct placement in XIIth.. This explains that the parents were separated from native thro' his chart.

Thus every incident is indicated by the Planetary position, Bhava position. DBA and Transit very correctly indicated astrologically as seen from the chart.

Transit of Planets on 8-10-1996 (day of accident) and 12-10-1996 (day of death) are shown below and explained how it exactly agree with the DBAS period. As the exact time of accident & death is not known, I could not pin point the events with the help of Sub (Anthara & Sookshma) time.

8-10-1996, day of accident was Tuesday, day ruled by Mars, karak for injuries, accident etc. and 12-10-1996 day of death was Saturday and ruler Saturn gets Strong signfn.. of XIth Bhadhak Sthan and IInd house signfn. thro' his S/L Venus by stellar.

All the planets fully co-operated with DBA by their transit in relevent Bhavas, star. Etc. As I was not knowing the time of events exactly, I am not in a position to pin point the transit time thro' sub positions.

Thus every incident is indicated by the planetary position, Bhava position, DBA, Transit etc. astrologically. This Horoscope proves K.P.System is a most scientific and reliable system to predict successfully. My Pranams to revered late Guruji Shri KSKji. Kudo to K.P.System.

May the soul of the promising youth rest in peace.

Note : DBAS = Dasa, Bhukthi, Anthara & Sookshma; BS = Bhadhakasthan; MS= Marak sthan. BSA, MSA = Bhadhaka/Maraka Sthana Adhipathi.S/L=Sublord.

Note: As the exact time of event was not known, except that both the events were sometime in mid0day,the planetary signfn.of their sub lord's (sookshma) position .could not be analysed with accuracy. However, it may be seen from the above Transit visa-vis of Natal position agrees in full. Same with Dasa Bhukthi & Anthara agree with Transit.

This case study is in sequence to the analysis made and published in Ezine of January-2008 regarding my daughter's sickness with viral fever.

After a few days of recovering from the viral fever, she developed acute tonsillitis, which turned to be serious. She was shown in the hospital and even after careful examination and strong doses of antibiotics, she did not get even the slightest of relief and the tonsillitis was worsening to the stage of diphtheria choking the throat fully.

I got the news of her deterioration and extreme concern of my wife in the office and I was to reach home to take necessary steps for her relief. In such a helpless situation, I resorted to receive help from horary astrology and it occurred to me to find "Which planet should be propitiated for the cure of my daughter's tonsillitis?". In pursuance to this query, I took horary number 167 and analysed it in the office itself before starting for home on Dec 28, 2007 at 19-02-42 Hrs at Bangalore.

Since, the query was related to my daughter, the chart was rotated to 5th house.

The rotated chart is produced herewith.

The chart is being analysed as follows:

The co-ordinates of judgment

In a question regarding the involvement of the planet causing disease to the native and the necessity of its propitiation towards bringing the cure to the native, the following approach occurred to me to be followed.

- The native is represented by the lagna. Since, the disease manifests on the native, hence the planet controlling the lagna as its sub-lord has to have the say on the native on the whole.
- In such a question, the necessary condition is that the lagna sub-lord must signify the part of the body, which is affected by the disease. This also verifies the question.
- The lagna sub-lord and the sub-lord of 6th cusp must have connectivity for the disease, which has manifested. In case, if the 6th cuspal sub-lord also gets linked with the 8th house, the disease is chronic and is difficult to cure.
- In view of the above, the lagna sub-lord need be propitiated for bringing the cure. If lagna sub-lord signifies the 5th and 11th house, it indicates the cure and the propitiation would be successful. In case, if lagna sub-lord does not signify 5th and 11th house, the propitiation of the planet may not help.
- Dasha, sub-dasha and finer period lords during the disease dictate the events as per their significations.

The query

In the un-rotated chart, Moon appeared as the cuspal sub-lord of the 8th cusp and falling in the 9th house. The Moon's cuspal lordship of 8th cusp indicated my severe worries and my perturbed mental state.

In the rotated chart belonging to my daughter, Moon was placed in 5th house and was significantly strong, indicating possibility of the native's recovery.

My worries and my daughter's recovery were aptly indicated by the position of Moon, hence it was safe to proceed ahead.

Analysis of the chart

The chart is analysed as follows.

1. It is noted that Lagna sub-lord is Rahu, which falls in the star of Mars placed in 3rd house showing the location of disease in the region of throat (3rd house) and as inflamed tonsils (Mars). Thus, Rahu seemed to have represented the problem.
2. Rahu disposes Saturn by way of being in Saturn's house. Saturn is the cuspal sub-lord of 2-6-8-12th cusps indicating an obstinate disease in hand. Saturn falls in the star of Venus placed close to 8th cusp from behind which caused the case un-manageable by the hospital's management.
3. Looking towards the possibility of cure, the connectivity of lagna sub-lord with the 5th and 11th house is required to be looked at.

Lagna sub-lord Rahu in the star of Mars placed in 3rd house did give the problem but the placement of Rahu's sub-lord Moon in the 5th house did indicate the possibility of recovery as well. Similarly, the 5th cuspal sub-lord Venus in the star and sub of Saturn placed in the 5th house did indicate the recovery. Thus, the connectivity of lagna sub-lord with the 5th house is well indicated. Rahu's placement in the 11th house indicates its connectivity with the 11th house as well.

Based on the above observations, I decided to propitiate Rahu.

The facts of the case

By the time I analysed the case, it was 730 pm in the office. I mentally prayed to Rahu graha and determined to constantly recite Rahu's graha mantra while traveling in the car from office to home and sincerely prayed Rahu to give me the help.

I immediately left the office and during the travel time of about 45 minutes, I kept the recitation of Rahu's graha mantra.

I reached home and was informed that at about 730 pm, my daughter's throat pain was suddenly relieved and she took food after 2 days and slept. On the next day morning and thereafter, the tonsils kept subsiding and she was all right in next 2 days without any administration of medicine other than hot water gargling.

I thanked Rahu graha and the KP astrology to show me the right direction.

Introduction

Recently, Sri Kanakkumar Bosmia's prediction about the assassination of former Prime Minister of Pakistan Ms. Benazir Bhutto's came true. Out of his many new ideas and research works for further development of KP, He used a very simple and common logic in KP which showed all of us that the science of KP astrology can still be amenable to research and we can go to the point of near perfection. As a tribute to a man who truly cares about the development of his society, science and his fraternity, I considered it as a privilege to write about the new rule that Sri Bosmia enunciated in his prediction of Benazir Bhutto's assassination. This article is an exploration of the new rule given by Sri Bosmia as applied to a few people who were assassinated.

In line with Sri Bosmia's thinking, I would like to take this opportunity to urge all KP astrologers, and learners to take up further research work on systematic guidelines in various fields of human activities. On this occasion of the First Anniversary of KP EZine, I wish Sri Bosmia and his EZine good luck and long life.

The New Rule

Traditionally the term assassination means "to kill for political or religious motives". Today we find that many celebrities get killed due to reasons other than political or religious reasons. Though we may not be able to strictly categorize them as 'assassinations', we may still be able to locate the linkages and connections through the principles of KP astrology.

We are all aware that the 8th House shows Infamy, accidental death, death through executions, and misery among other things. The 12th house shows crimes, assassinations, anxieties, blackmailing, cheating, clandestine associates, exiled persons, misery, misfortune, and moksha.

According to the rule enunciated by Sri Bosmia, if 8 or 12th sublord signifies 8, 12 then one can be assassinated in the Dasha, Bhukti and Anthra of the significators of 8th and 12th house. Sri Bosmia applied this rule to a horary chart for Benazir's mode of death and its timing which gave astoundingly correct result.

This article applies this rule for a few noted personalities who were assassinated as political leaders during their time.

I have taken the birth charts of the following political leaders:

Name	Birth Details
JOHN F. KENNEDY	Born May 29, 1917 at 3:00 PM in Brookline (MA) 42N13, 71W01
ABRAHAM LINCOLN	Born February 12, 1809 at 6:50 AM in Hodgenville, (KY) 37N38, 85W38
JAMES A. GARFIELD	Born November 19, 1831 at 1:59 AM in Orangeville, (OH) 41N14, 80W25
INDIRA GANDHI	Born November 19, 1917 at 11:11 PM in Allahabad (India) 25N57, 81E50
MAHATMA GANDHI	Born October 2, 1869 at 7:12 AM in Porbandar (India) 21N40, 69E40
RAJIV GANDHI	Born August 20, 1944 at 8:11 AM in Bombay (India) 18N58, 72E50
BOB WOOLMER	Born May 14, 1948 at 2:15 AM in Kanpur (Indian) 26N28, 80E21

All the above birth details have been obtained from authentic international databases, re-verified through The Astrological Magazine past issues. Even though the birth details are accurate, yet birth time verification was undertaken using the Rule of Origin (Dutta, 2008) and all the charts connected with the 1st and the 9th house proving beyond doubt that the birth time provided are accurate.

Bob Woolmer mentioned above is not a political leader. But I have included him in the list since the world is still not clear whether he committed a suicide or was he murdered. I have tried to go beyond the definition of assassination in letter and have accepted the meaning in spirit. Therefore, we may be able to find out whether his is a case of suicide or homicide.

For brevity of space in this Anniversary Issue of KPEZine, I am restricting myself from providing the birth charts. Instead, I am providing a summary table of associations of the 8th and 12th sublords. The readers may use the birth data provided above to cast the horoscopes using the Placidus House Division with KP Old Ayanamsa.

Summary Table of Analysis

Name	8 th Sublord	12 th Sublord	8 th Sublord Signifies	12 th Sublord Signifies	Significators of 8 th and 12 th House (Level I)	Death during D-B-A

BOB WOOLMER	MOO	VEN	8 in Level I through Starlord JUP	12 in Level IV	MAR, JUP, KET, RAH, VEN, SAT	Found dead during Ven- Sat- Sat

Observations

After tabulating the results a number of revealing linkages emerged that I present below here. I would like to urge the readers to take up further research on these lines and enrich the science of KP astrology.

1. The Dasa, Bhukti and Anthra were all in the star and/or sub of the significators of 8th and 12th and also Maraka and Badhaka.
2. A large majority of deaths occurred during the main or sub periods of either Saturn or Rahu.
3. Periods of death was also linked to Maraka and Badhaka significators inter-alia the significators of 8th and 12th.
4. Cross-linkages of 8th sublord with the 12th house and/or 12th sublord with the 8th house existed for all cases.

Conclusion

Mr. Rahul Gandhi, born on 19th June, 1970 at 12:00 pm (IST) in 28N40 and 77E13 has his 8th sublord as Jupiter signifying 8th and 12th sublord Venus signifying very strongly 8th. Secretive planet Ketu is strongly signifying 12th and two female planets Moon and Venus are the strongest significators of 8th and 12th. He needs to take particular care about his longevity from secretive attacks during 10th November 2008 to 23rd January 2009.

To conclude, I would like to say that this exploratory research is only an eye opener. It shows that the rule given by our editor of this magazine held true for all the unnatural deaths of the people whose charts were taken up. All we now need is to take up further research and consolidate our findings.

(A) - Planets in Occupant's stars

(B) - Occupant of house

(C) - Planets in Owner's stars

(D) - House Owner

+ These planets do not have any planets in their stars.

5) Lagna lord Ma+ is in 12 and in star Ju(3,2,5).

5. House 1,6,10,11 (except 9/ Badhaka) signification by 1st, 5th, 6th, 10th & 11th cusps sublords and connection among these cusps indicate success in politics. Mercury and Saturn are strong for political success by their signification and Mars and Jupiter are mixed in this regard.

6. As per analysis of 1st cuspal sublord signification (above point 3.2) and Lagna lord location (above point 3.5) according to Sri M.P. Shanmugam's rules (Astrosecrerts & KP, Part I), Lagna may not be strong enough to reach to the highest position of PM of India. However, it is not so conclusive that time will tell us what is the truth.

7. An interesting point in his chart is that the 7th cuspal sublord is Mercury indicating second marriage. But 2nd cuspal sublord Rahu does not signify 7th house, and so it cannot be concluded that second marriage is promised.

Another interesting point is that his chart is overwhelmed by 10th signification of name, fame and authority, which is also good for his health and longevity by negating 11th Badhaka, but other desires in life may not be fulfilled, for instance his financial status may not be satisfactory as indicated by the 2nd cuspal sublord Rahu's signification of 10,4,3,8,11,2,5 without 6 for gain and weakened 11th also by sub Saturn of 10.

PRESENT AND NEAR FUTURE

8. His unstoppable landslide victory to become 3rd time CM of Gujarat in Su-Sa-Su-Ra DBAS is astrologically very clear like an elephant going in the open field. Signification of DBA lords Sun and Saturn can be seen in the above points 4.1 and 4.3 respectively. Sookshma lord Rahu's signification is given below.

9. His peak of Sun Dasa up to August 14, 2010 surprisingly coincides with the timing of his leading role in transforming milestones into milestones, step by step and marching towards the goal to celebrate the golden jubilee of the state in 2010, when Gujarat will proudly stand among developed economies of the world.

10. The swearing in chart of CM is Dec 25, 2007, 13:48:50 PM, Ahmedabad, 23N02, 72E34, New KPA 23:52:42, Asc Ar 03:20:17 and it is attached. In this chart, there is no harm to the life of his Government as the most important Asc sublord for longevity does not signify Maraka, and Badhaka (11) is not effective due to the Ju sub's signification of 10th house. Other supplementary 3rd and 8th sublords indicate some difficulties to be faced. Here the exact time of swearing in is used. It is to note that if the swearing time of announced 13:50 PM is used, the chart would indicate the short life of his Government.

1) Asc sublord Su +(9,6) is in star Ke(5,11,12,9,10,6) and sub Ju(9,10).

2) 3th cuspal sublord Me+(9,3,4) is in star Ve(7,2) and sub Ve(7,2).

3) 8th cuspal sublord Sa+(5,11,12) is in star Ve(7,2) and sub Ve(7,2).

CONCLUSION

11. Since the Swearing in chart is also in line with the peak period of the clear cut favorable Sun Dasa, Shri Narendra Modi can survive the full term of his Government with some difficulties.

He is indeed a very interesting, perhaps also controversial, figure of our time.

My daughter was very eager to know will Sachin win in Jjhoom India singing competition. She asked me question "Will Sachin Win Jjhoom India singing Competition on 18th Jan 2008?"

She gave me number 30, I cast a horary chart on 12th January 2008 at 22.09.55 L.G. Hospital - Ahmedabad 23 N 00, 72 E 36.

In this chart 6th Sub lord is Sun in own star and Moon sub. Sun is in 9 lord 5 (Opponent 11), sub lord Moon is in 10 lord of 3, 4. This sub lord don't signifies 6 and 11.

11th Sl is Ven in Mer start and Sun sub. Ven is in 7 lord of 1, 6. Mer is in 9 lord of 2. Sun is in 9 lord of 5 (Opponent 11).

So 6th and 11th Sl show us both 6 good for himself and 5th good for opponent. By this both Sub lord we can't come to any conclusion clearly.

New we check opponent's view by rotated chart 7th as a lagna.

6th and 11th sub lord Mar (Retro) in the star of Own and sub of Ket. Mar (retro) is in 7 lord of 1, 6. Ket is in 10 conj with Sat and aspected by Jupiter. Sat is in 10 lord of 3, 4, 5 (Opponent 11), Jupiter is in 2 lord 2. No planet in the star of Jupiter and Jupiter is sub lord of 4, 10. This sublord also indicates both 6 and 5 (Opponent 11).

Here I want to clear one point; I never consider retro plant in my horary (Or any) analysis. What we look retro planet is actually not retro, only we feel as a retrograde. I personally like this argument of Dr.Kar and further I do not check retro cancellation of Dr.Kar and take planet as a planet even retro. I don't want to say every one should agree with my view but I strongly request all to check without retro effect and inform me result.

We use rule same even any kind of Competition, if it is cricket, if it is singing, of it is car race etc. I think this is not right, we have to think some more point in Competition chart, and by this example I want to give you new idea about Competition chart.

This chart is for singing competition. Means only a competitor win who have good quality of knowledge of Singing. For Singing we consider 5th cusp, If 5th cusp sublord signifies 5, 6, 10, 11 one become good singer, if Ven connected with 5th sub it is good. Also Vrishbha Rasi and Vayu rasi play big roll for singing.

Now we analyze chart with this new angle, 5th Sublord is Mar (Retro) in the star of Own and sub of Ket. Mar (retro) is in 1 lord of 7, 12. Ket is in 4 conj with Sat and Aspected by Jup. Sat is in 4 lord of 9, 10, 11,

We found 10 and 11. Mar is in Mithuna Vayu Rasi. Indicate good bhava for native.

Comparison to both 5th Sub lord of Native is more power full so; In my opinion Sachin will win this Competition.

Sachin win this competition, as I predicted.

Battle of elections in Gujarat

By: C. Ramamurthy

Hyderabad-500 044

The political contest between rival BJP and Congress was brewing too bitterly in Gujarat and the battle of elections has got rings thrown in by both the parties. Trading accusations at each other and trying to influence the voters, both parties were in fact flexing their muscles.

The question crossed my mind was "Will BJP win in the Gujarat Elections and form Government?"

According to KP in a horoscope whether in birth or horary chart, 6th house controls the matter of elections, competitions, litigation, winning games / races, etc. Along with 6th house, 11th house is also to be verified, since it is a house of fulfillment of desires.

The houses 6 and 11 of querient will become 12 and 5th from the opponent (7th house as lagna) point of view to analyze.

I have taken KP horary no.93 on behalf of BJP for judging the query.

Date of judgment : 16-Dec-2007
TOJ : Sunday 10-16-45 AM.
Placement of Jud : Hyderabad 78 28 E 17- 22 N

To know whether one (individual / party) will win or not the following rules are to be kept in mind before arriving at the judgment.

- 1) The 6th and 11th cusp sub lords should not be retrograde. Planets and also they should not be deposited in the constellation of retrograde planets.
- 2) The 6th cusp sub lord should strongly signify 6 and 11 and at the same time it should not be the strong significator of 12 or 5th.
- 3) The 11th cusp sub lord should strongly signify 6 and 11 at the same time it should not be the strong significator of 12 or 5th.
- 4) If 12 CSL signifies 6 or 11 strongly the querient will win and if signifies 12 or 5 the querient will lose.
- 5) The strength of lagna and its position also determines the result. If the result is favorable the lagna of the querient will be well placed and invariably strong. If the result is unfavorable the lagna of the opponent i.e., 7th house will be strong.
- 6) We observe some times 6th cusp sub lord is connected to 1 or 10 in addition to 6 or 11 or 7 or 4 in addition to 5 or 12.
- 7) Before pronouncing the judgment we have to verify it from the opponent point of view for its correctness.

ANALYSIS OF THE QUERY

- 1) 6th CSL Rahu is deposited in 6th house and in own. Though Rahu is feeble significator of 7th house it is not all signifying 12 or 5th houses, which are favorable for opponent Rahu is aspected by Saturn, who is lord of 6th and is posited in Asc. Hence Rahu is strongly signify 6th house, which indicate winning of election outright.
- 2) 11th CSL Mer, lord of 11 and 2, is posited in 4th. Mercury is posited in own star and in the sub of Saturn, who is lord of 6th and is posited in Asc. So 11th sub lord Mercury signifies 11th and connected to 6th. This is favorable for winning.

OPPONENT POINT OF VIEW.

The 12th sub lord Rahu happens to be incidentally the sublord of 6th and 11th houses of querient, which is favorable to the opponent as already discussed above. However, 5th cusp sublord Venus, lord of 3,10, is posited in 3rd, and in the star of Rahu in 6, and decisively in the sub of Moon, which is lord of 12th and posited in 7th.

RESULT

As we all aware the predication came true as BJP party came out with grand success. The position of 6th and 11th cusp sub lords in the chart are indicating 6th and 11th house is the testimony of victory BJP without any iota of doubt.

Thus KP proved once again its great infallible prediction.

EDITOR'S NOTE

Dear KP Lovers,

*I started this KPE-Zine Magazine because we do not have any monthly magazine on the KP System. In my opinion, the only Annual Magazine published by others till date, does not meet the expected requirements of quality and accuracy of articles. I do take personal care about checking all details of the horoscope whether the write-ups tally or not with the chart cast by KPAstro 3.0 or Raichur's software or Jyotishya Deepika 2.0. Articles which do not measure up to the prescribed requirements of KPEzine, editor or advisory board, are not accepted. . **WE DON'T WANT quantity but quality articles.** We need only educative, research-based articles.*

*I've found that many of the authors of KP articles, whose papers are rejected, feel an ego-hurt and take it personally, and due to this, they target me directly or indirectly in public forum. This is not professional ethics. The authors have to accept the Advisory board's decision and the board or editor of KPEzine is not bound to reply the reasons about any rejected article. Here are some reasons for rejecting of the articles. An article is rejected, if it is against or not properly applied the established K.P. principles. If a modification of the K.P. principles is suggested, it should state the authority, or be based on research of at least 50/100 charts. Some authors use the Vedic rules. Here no objections provided at least 25 charts are examined and proved. The clear presentation is required and the conclusion drawn must be logical. These are the main points for acceptance of the articles. Articles on KP subjects, although very good in your opinion, may suffer rejection if so warranted by the magazine editorial board on the basis of the article. Our advisory board members **Shri A.R.Raichur - Mumbai and Shri Tin Win - USA** are very eminent astrologers, with high professional values and decades of experience in astrology, **I am not ready to publish "anything" in the name of KP, even if it means the closure of this magazine.***

This may be the last time I can discuss about acceptance or rejection of the astrology articles. This subject stands closed.

Now for something positive:

I have good news for readers, now we have crossed the magic figure 1000+ in the number of members. Besides, the number of members who download regularly KPEzine also has crossed 1000+. I have great expectations, that very soon we will cross 1500. Your feedback, which is wonderful and appreciated, gives great energy to KP Ezine, and all the authors. Hence, I earnestly request you, our well-wishers, to send you feedback, suggestions and comments every month. This is your magazine.

With warm regards,

Kanak Bosmia

Dear Kanak,

The Feb issue is wonderfully done.

I did not find the page nos, headers and footers. If they are removed intentionally, then OK otherwise they are needed.

Rest is well.

Dear Mr Kanak Bosmia,

I had missed or forgot to download the December 2007 issue of the KPEzine issue. How can I get hold of the December 2007 issue? Thanks for the excellent KP magazine. I am in the midst of writing an article entitled "timing of marriage" for your esteemed magazine.

Respected Shri Kanak ji

It gives me immense pleasure to congratulate you for completing a year of your E-Zine with Annual issue "Feb 2008". Really a fantastic journey. In Feb 2008 issue your efforts regarding result of planet 'Sun' will really increase the knowledge of a learner.

Sir, Shri Tin Win ji also deserves to be appreciated for his providing assistance in learning as to how a house and planet will react.

Sir if you don't mind, I would like to request both of you to describe the step for learners like me, as to how result of a planet will flourish.

at the end today, kindly accept my greetings from the core of my heart to both of you.

with regards.
yours

Shivendra Tiwari [shivendra56@yahoo.co.in]

Dear Sri Kanakji:

Namaskar.

I am a follower of KP system and using KPAs-tro software developed by Dr K Rangarajan, Ph.D., who has given an impetus to KP astrology by simplifying generation of natal chart and other tables in his great offering, KPAstro software, with its rich features.

Dr KR suggested to me to visit your website from where I can get plethora of info on KP system and also to enhance my knowledge since seeking knowledge is a never ending process.

I really appreciate your initiative of launching a website and eZine for KPsystem and to bring under its wing all KP scholars, users, novice to share / gather / enhance rich info on KP system. I pray to Sri Uchista Ganapathy and our great Guruji Sri KSK to bless you with longlife, insight, good health and prosperity.

Glad to note from your Feb. 2008 issue that already the website generated 700+ users and soon it will cross multi thousands.

I have few suggestions which if you think appropriate, you may implement, which will benefit all of us:

1] Thanks for your language preference as English since thousands of people all over the globe can be benefitted; but when you present it to readers at global level, it should be free of any English grammar and spelling mistakes. I am sure that this would have been brought to your attention and hope you would have taken the necessary initiative.

2] Topics presented in each issue is really interesting and this can be made more attractive by covering topics in 3 segments - 1) individual matters covered in all 12 bhavas, 2) national matters right from RamSethu to atomic power, what is there in store for our motherland India and matters specific to each state in India, 3) international matters - economic, political, nuclear and war threat issues; since astrology is an universal subject.

3] Since KPeZine has already became popular and soon it will be an international topic, if it can be presented with an elegant layout with a professional magazine look it would be more

attractive. I presume that you are using Word application to generate the document and later convert it into PDF format; if you use PageMaker or QuarkXpress + Photoshop, it can be presented with rich look. If any help required in this area, please let me know so that I can contribute whatever is possible by me in technical aspects as a service to our great Guruji Sri KSK, his innovative KP system and as a well wisher of Kanakji.

4] You will agree that all we get in our life is only through divine grace and guru's blessings; since KPeZine is exclusive speciality magazine for KP system, it would be appropriate to insert photo of our great guruji Sri KSK, his upasana murthy Sri Uchchista Ganapathy (since uchchista ganapathy is in tantric form, Vallabha Ganapathy picture can be inserted) in 2nd inner page of all future issues. This would be a great honour to our Guruji Sri KSK in a humble way.

5] Our Guruji Sri KSK sparked the brilliance of many people, who have further did appreciable research based on KP doctrine, developed, new scientific, accurate systems and contributed their findings for the benefit of the society. One among such development is the KB system, developed by Sri K Bhaskaran, further fine tuned by Sri Devaraj. In your KPeZine you may introduce a section for introducing such concepts not as separate topic but along with KP doctrine so that the reader would be able to understand foundation of KP along with KB and KB+.

6] India's population is exploding and now it has touched 100 crore people; each one having distinct horoscope. If a question and answer section is introduced in KPeZine, offering solution in the range of 5 to 10 horoscope, in each issue, (without disclosing the name, address of the person who shoots out the question) it would further enhance the knowledge of the reader and a scientific solution can be offered in KPsystem. This would further accelerate the growth of KPeZine in a short span of time. Since you have panel of scholars who regularly contribute articles to your eZine, it would be a welcome suggestion if you can offer solution not as a individual scholar's opinion but as a collective opinion by a group of scholars. This will further enlighten

the approach of many possibilities of analysing a horoscope.

7] The best that we can do in our life is to promote the KP system through a scientific digital coaching method and your website can be the launch pad to introduce this novel concept. Again each topic / lesson / article should be a collective contribution by great scholars of KP and this can be offered for a reasonable service charge.

I would like to get, back issues by sending a dd for Rs. 550/-. Please let me know in whose favour the demand draft should be obtained and sent.

My grateful thanks to Dr KR for introducing me to kpastrologer.com and to Mr Devaraj for his highest regards for you. Mr Devaraj met me recently and allotted more than 5 hours amongst his busy schedule, on discussing KP related matters, developments. Really very simple man with pleasing manners, with in-depth knowledge in KP as well as KB. We should encourage such a well read personalities of KP, KB by projecting them through your media and your great contribution through KPeZine really deserves all appreciation. Good initiative with great efforts. Good luck to you.

KP Analysis

4. Nomination of Democratic Presidential Candidate on 25-08-2008 (Su-Ra-Ve-Me)

Su(5,4) is in star Ra(12,6,7,8,11,5,4) & sub Ju(6,7,8,11), (ie., Ju is in 6, lord of 7,8,11)
 Ra(12,6,7,8,11,5,4) is in star Su(5,4) & sub Ju(6,7,8,11)
 Ve+(5,6+) is in star Ju(6,7,8,11) & sub Sa(3,9,10), (+ no planet in its star)
 Me(6,1,2,5) is in star Ju(6,7,8,11) & sub Ve+(5,6+), (+ no planet in its star)

5. Dasa lord Sun is a strong (grade A) significator of house 5 in the planet and star levels, house 12 in star level and houses 6,8,11 in the star and sub levels. 12 in the star is opposed by 11 in the sub. Bhukti lord Ra is a strong significator of 5 in the planet and star levels, 12 in the planet level and 6,8,11 in the sub level. Since both losing houses 5,12 and winning houses 6,11 are signified, she may be nominated as a presidential candidate, only if the sub-lord signification of the DB lords is capable of giving her victory. With the support of the favorable and strong Antara lord Venus and Sookshma lord Mercury, it is hard to see her coming away as defeated.

6. Transit on 25-08-2008 at Washington, DC. is not encouraging for her except Jupiter and Saturn.

Su in Li is in star Ke+(6,7,8,11,3,12,+2) and sub Ju(6,7,8,11).
 Ra in Cp is in star Ma+(3,12) and sub Ma+(3,12).
 Ve in Vi is in star Su(5,4) and sub Ra(12,6,7,8,11,5,4).
 Me in Vi is in star Su(5,4) and sub Ra(12,6,7,8,11,5,4).
 Mo in Ge is in star Ma+(3,12) and sub Me(6,1,2,5).
 Ma in Vi is in star Mo+(10,3,12+) and sub Mo+(10,3,12+).
 Ju(R) in Sg is in star Ve+(5,6+) and sub Ra(12,6,7,8,11,5,4).
 Sa in Le is in star Ve+(5,6+) and sub Mo+(10,3,12+).

7. Presidential Election on 04-11-2008 (Su-Ra-Ma-Ve) (if nominated as a candidate)

Su(5,4) is in star Ra(12,6,7,8,11,5,4) & sub Ju(6,7,8,11)
 Ra(12,6,7,8,11,5,4) is in star Su(5,4) & sub Ju(6,7,8,11)
 Ma+(3,12) is in star Me(6,1,2,5) & sub Ve+(5,6+), (+ no planet in its star)
 Ve+(5,6+) is in star Ju(6,7,8,11) & sub Sa(3,9,10), (+ no planet in its star)

8. As mentioned above, if the sub-lord signification of the same Dasa and Bhukti lords could support her to be nominated as a candidate, it could also help her win the presidential election. Sookshma lord Venus is more favorable than Antara lord Mars.

9. Transit on 4-11-2008 at Washington, DC. is also not much favorable for her except Jupiter and Saturn.

Su in Li is in star Ra(12,6,7,8,11,5,4) and sub Mo+(10,3,12+).
 Ra in Cp is in star Mo+(10,3,12+) and sub Ke+(6,7,8,11,3,12,+2).
 Ma in Li is in star Ju(6,7,8,11) and sub Ve+(5,6+).
 Ve in Sc is in star Me(6,1,2,5) and sub Ju(6,7,8,11).
 Mo in Cp is in star Su(5,4) and sub Ju(6,7,8,11).
 Me in Li is in star Ma+(3,12) and sub Mo+(10,3,12+).
 Ju in Sg is in star Ve+(5,6+) and sub Sa(3,9,10).
 Sa in Le is in star Ve+(5,6+) and sub Me(6,1,2,5).

10. Swearing in as President on 20-01-2009 (Su-Ju-Sa-Ra) (if elected as president)

Su(5,4) is in star Ra(12,6,7,8,11,5,4) & sub Ju(6,7,8,11)
 Ju(6,7,8,11) is in star Sa(3,9,10) & sub Ke+(6,7,8,11,3,12,+2)
 Sa(3,9,10) is in star Me(6,1,2,5) & sub Sa(3,9,10)
 Ra(12,6,7,8,11,5,4) is in star Su(5,4) & sub Ju(6,7,8,11)

11. It is just to check the trend of DBAS and found to be a better time for her.

TSP Analysis by Mr. Kanak Bosmia

12. On June 7, 2007, Tin Win ji asked me whether Hillary Clinton would become the US President in 2009 by giving Horary No. 1339.

TSP Details

Query: Will Hillary Clinton become the US President in 2009?
 Horary No: 1339
 Date and Time used for TSP analysis: Jun 7, 2007 [5:30:0 AM IST/ 00:00 GMT]
 Place of Judgment: L.G.Hospital-Ahmedabad, Gujarat, 23 N 00, 72 E 36

ASC.... 8 10 25 20 Mar Sat Sun Mar (ie., Rasi, D:M:S, Sgl, Stl, Sbl, Ssl)
 SUN.... 2 22 1 47 Ven Moo Ven Sat
 MOO...11 3 4 29 Sat Mar Ven Sun
 MARS 12 22 59 0 Jup Mer Moo Mer
 MERC.. 3 14 41 49 Mer Rah Ket Moo
 JUP.-R.. 8 20 54 6 Mar Mer Ven Sat
 VEN.... 4 7 21 5 Moo Sat Ket Ket
 SAT.... 4 26 14 36 Moo Mer Jup Jup
 RAHU 11 17 28 58 Sat Rah Sun Moo
 KETU.. 5 17 28 58 Sun Ven Mar Rah

Saturn's effect is considered for the analysis.

ASC lords are Ma-Sa-Su-Ma. (ie., Sgl, Stl, Sbl, Ssl)
 MOON lords are Sa-Ma-Ve-Su.

Rule - 1

SS lord of Asc SS lord is Me. (SS = Sub Sub)

Rule is NOT satisfied (as Me is not found in the lords of both ASC and MOON.)

Rule - 2

Star lord of Asc SS lord is Me.

Rule is NOT satisfied.

Rule - 3

Star lord of SS lord of Asc SS lord is Ra.

Ra is an agent of Mo, Sa.

Sa is ASC star lord.

So Rule is satisfied.

Only 1 rule out of 3 rules is satisfied.

Hence according to TSP, the answer is NO.

In my opinion she will not be elected as president of USA.

KP Horary Analysis by Mr. Kanak Bosmia

13. My sister is in US, and interested to know who will be selected as a presidential candidate, Hillary Clinton or Barack Obama? She gave me a Horary number 123.

Horary Details:

Quarry: Who will be selected as a presidential candidate, Hillary Clinton or Barack Obama?

Horary No: 123

Date: Feb 10, 2008

Time: 05.32.51 PM IST

Place: L.G.Hospital-Ahmedabad, Gujarat, 23 N 00, 72 E 36

When I calculate this horary chart both candidates are very close in the RCP Poll average, Barack Obama 42% and Hillary Clinton 45%. (<http://news.yahoo.com/election/2008/dashboard>)

14. This time I will analyze this chart with the different view and rules of my own thinking as given under:

Rule-1

One can be selected as a candidate for election, if Asc (tendency of people of country) sub-lord signifies 6 (victory), 11 (gain). For the opponent candidate Asc (tendency of people of country) sub-lord should signify 12 (victory of opponent), 5 (gain of opponent).

When my sister asked me who will be selected as a presidential candidate, Hillary Clinton was mentioned first. So I select Asc for Hillary Clinton and 7th house for Barack Obama.

Asc sub-lord Jup is in the star of Ven and sub of Mar.

Jup is in 3, lord of 4,7. Ven is in 4, lord of 2,9. Mar is in 9, lord of 3,8. In this case we do not find out 6,11 or 5,12. So we check the Vedic(Rasi to Rasi) aspects of the above planets. Jup aspects on 8,10,12 houses. Ven aspects on 10 and Mar aspects on 1,4,5. Asc sub-lord signifies 5 and 12 but not 6,11 anyhow. So Rule-1 clearly indicates victory of Barack Obama. But before we give any opinion we have to check the second rule:

Rule-2

One can be selected as a candidate for election if 3rd (view of people) sub-lord signifies 1 (self), 6 (victory), 11 (gain). But if 9th (opposite view of people) sub-lord signifies 7 (opponent), 12 (victory of opponent), 5 (gain of opponent), the opponent will be selected as a candidate.

3rd and 9th sub-lord Rahu is in the star of Mar and sub of Ven.

Rahu is in 5, no planet in the star of Rahu, which is sub-lord of 3,9. Rahu is in the sign of Sat, which in 11, lord of 5,6. Mar is in 9, lord of 3,8. Ven is in 4, lord of 2,9.

Rrule-2 indicates 6,11 for Hillary and 5 for Obama, but Rule-1 clearly indicates Obama's victory. So in my opinion after a tuff fight, Barack Obama will be selected as a presidential candidate. (No retro effect is considered in my analysis.)

16. Since the Dasa and Bhukti lords are the primary significators of loosing houses 5,11 without any indication of winning houses 6,11, she can not be selected as a candidate, even though the Antara lord Venus is favorable.

17. Presidential Election on 04-11-2008 (Su-Ra-Ma-Ve) (if nominated as a candidate)

4 Step Primary Significators of Antara Lord (for DB lords as mentioned above)

Planet Ma+: 3; Asp Ve(5)

Starlord of Ma is Me: 6; 1-2; Asp 12; Cnj 6

Sublord of Ma is Ve+: 5; Asp by Ma(3)

Starlord of Ve is Ju: 6; 7-8-11; Asp Mo(10)

18. In fact this step is not necessary since no chance is indicated above to be selected as a presidential candidate. It is just to check the trend of timing, which is found still unfavorable.

KB Review

19. Nomination of Democratic Presidential Candidate on 25-08-2008 (Su-Ra-Ve-Me)

Su(12) is in star Ra(1,7) & sub Ju(5,11);.. Effective links 1,5,7,11

Ra(1,7) is in star Su(12) & sub Ju(5,11); ..Effective links 1,5,7,11

Ve+(6) is in star Ju(5,11) & sub Sa(9,10);.Effective links 5,9,11

Me(3,4) is in star Ju(5,11) & sub Ve+(6); .Effective links 4,10

20. It seems inconclusive for her to be nominated as a presidential candidate as both losing house and winning house are indicated by the DBAS lords, ie., 5 and 11 in DBA lords and 4 and 10 by the Sookshma lord. House 1 signified by the BA lords could be a plus for her to clinch the nomination.

21. Presidential Election on 04-11-2008 (Su-Ra-Ma-Ve) (if nominated as a candidate)

Su(12) is in star Ra(1,7) & sub Ju(5,11);.. Effective links 1,5,7,11

Ra(1,7) is in star Su(12) & sub Ju(5,11); ..Effective links 1,5,7,11

Ma+(3) is in star Me(3,4) & sub Ve+(6); .Effective links 4,6

Ve+(6) is in star Ju(5,11) & sub Sa(9,10);.Effective links 5,9,11

22. Since it has been found exactly the same as above, it can be concluded that it would be a very close race and she could have prospects for success.

Vedic View

23. The DBA lords, Sun, Rahu and Venus, at the time of nomination of the presidential candidate on 25-08-2008 are generally favorable for her. Sun in the fallen sign falls under the great exception given by Sage Parashara and is conjoined with strong Venus. Rahu is aspected by 10th lord Jupiter and its sign-lord is Venus. Venus is strong and a benefic for Gemini Ascendant. However, it is doubtful whether they will work together for her as Sun and Rahu are 8/6 axis and Rahu and Venus are 6/8 axis. In transit on 25-08-2008, 10th lord Jupiter aspects Ascendant only and none of DBA lords. Saturn aspects all DBA lords. So it seems the timing is not on her side to be nominated as a presidential candidate.

Conclusion

24. In line with most predictions, momentum has clearly shifted towards Barack Obama with eleven consecutive wins in the last couple of weeks and some are already writing off her chances. However, in my opinion, Hillary is not yet astrologically finished, and a fierce coordinated fight of trio, Hillary, Bill and Chelsea, is to be seen with Hillary's endurance given by her Uttarabhadra Nakshtra like Bill Gates.

This is my Second try in examining a case of assassination of a key Political Leader. Today, I read News about warning from IB to Shri Advaniji, Senior BJP Leader.

"Concerns over the security of BJP leader L K Advani has been raised in the wake of an Intelligence Bureau report warning of a possible fidayeen attack on him."

I try to check Sri Advani's susceptibility to assassination attempt, and I cast a Horary chart, details are as below:

Horary No: 91/249
Question: Will L.K. Advani face assassination by Fidayeen Attack?
Date: 05/02/2008
Time: 16.42.01hrs
Place: L.G. Hospital- Ahmedabad . Lat/Long 23 N 00, 72 E 36

Rule for Assassination:

8th House : Infamy, accidental death, executions, Misery,
12th House: Crimes, Assassinations, Anxieties, Blackmail, Cheating, Clandestine Associates, Exiled persons, Misery, Misfortune, Moksha.

Rule:1

If 8 or 12th sub lord signifies 8, 12 one can be Assassinated in the DBA of 8,12 and Badhaka, Maraka.

Rule:2

If 8 or 12th Sublord signifies 1,5,11 one can escape from fatal attack.

Analysis:

8th Sublord is Mer(retro). In the star of Mar and sub of Rah.
Mer is in 6, lord of 2,11. No planet in the star of Mer and Mer is sublord of 2,8. Mar is in 10 lord of 4,9.
Rahu is in 6. No planet in the star of Rahu and Rahu is sublord of 3,9(badhaka).Rahu is in the sign of Sat, in 1 lord of 6,7. No planet in the star of Sat and sublord of 1 and 5.

8th Sublord signifies 1,5,11 and 8 too.

12th Sublord is Ven in the star of Own and sub of Jup.
Ven is in 5 lord of 3,10. Jup is in 5 lord of 5,8. No planet in the star of Jup and Jup is sublord of 7(Maraka) and 11.
12th Sublord also signifies 5, 11 and 8 too.

But in general, we find 1,5,11 are strong, because both 8 and 12 Sublords does not signify 12.

Conclusion:

It could be said that maybe there is a chance of Fidayeen attack but Sri Advaniji will Escape.

Running DASA

Running Mahadasa is Sun. Sun is in the star of Moon and sub of Ven.
Sun is in 6, lord of 1. Moon is in 5, lord of 12, Ven is in 5, lord of 3,10.
Sun dasa signifies 1,5 and also 12.

Bhukti lord is Jup. Jup is in the star of Ven and sub of Moon,
Jup is in 5 lord of 5,8. No planet in the star of Jup and Jup is sublord of 7 (Maraka) and 11. Ven is in 5 lord of 3, 10. Moon is in 5 lord of 12.
Bhukt lord Jup also indicate 5, 11 and also 8th and 12th.

This Bhukti continues up to 14/8/2008 and during this time there is a **chance** of Fidayeen attack and will **escape** from it because Sun dasa does not signify Badhaka, Maraka.

I strongly pray to God Almighty for Long life to Sri Advaniji.

Kidney Transplantation Failed

by

Ilona Hellmann

Mainzer Str. 22

Germany

HellmannC200@t-online.de

To improve the understanding of vitality and immunity in astrodiagnosis, let us have a look at another transplantation case:

Man, born 22. May 1943, TOB 8:00 AM in Unna, Germany (7E41 51 N32)

Venus, Libra and the 7th house are the main significators for kidneys. Asc sublord Ven is Lord of 12th, and the connection of Asc sublord Venus with the man's 12th house indicates already a long lasting kidney problem.

This man suffered from kidney disorders since he received a medical treatment against tetanus when he was young. The problem worsened during his military service where he became cold and wet several times leading to repeated inflammations of the urinary system.

Just keep in mind that Ketu's placement in a certain sign signifies the area where a native is very sensitive to catch a cold. Ketu in Capricorn, the man's 8th sign in this case, shows thus a delicate back region and sleeping or lying on wet or cold places afflicted his kidneys severely. Furthermore the Moon, representing bladder and urine can be found in Ketustar Mula in the 6(Diseases) in Sagittarius, the man's badhak sign. Moon's sublord Saturn shows the obstruction and retention of urine.

Moon dasa start from 1 June 1971, Moon is in the star of Ket and sub of Sat. Moon is in 6(Diseases), Lord of 2,3. Moon aspect on Ven (karaka of kidney) Starlord Ket is karaka of kidney in 9, and in the sign of Sat, in 12 lord of 8,9,10. Moon strongly signifies 6,8,12 but not signifies 1,5,11 at all. During the Moon dasa his kidneys refused to work. He had to undergo dialysis and finally received a home kidney machine (Libra, Moon, Venus) to be able to spend more time with his family.

Some time the Doctors recommended the husband and father of two children a kidney donation to improve this threatening life situation and the man agreed though organ transplantations were still in their beginnings in those years.

Doctors are represented by the 7th house and it is doubtful whether badhaka Jupiter gave the best advice to this man because Jup is in the star of Own and sub of Sun. Jup is in 2 lord of 7, (Badhaka, Kidney), 11. Sun is in 12 lord of 4. Jupiter's sublord Sun does not favour the matters of the 1st house. Infact Jupiter signifies the 11th house of healing but Jupiter was no DBA ruler when the surgery took place and it is doubtful if Jupiter would have improved the outcome anyhow.

Asc lord Mer is in the star of Sun and sub of Ven. Mer is in 12 lord of 1,5, Mer is in Taurus (Karaka of Kidney) Sun is in 12 lord of 4. Ven (karaka of kidney) is in 1 lord of 12. Asc ruler Mercury occupies the 12th house in Taurus, Kritika star, Venus sub. The 1st house connection with the kidney signifying planet Venus is thus obvious. Mercury conjoins Sun, and Saturn.

Asc starlord is Rahu and sublord is Ven. Rahu is in the star of Mer and sub of Jup. Rahu is in 5, Aspected by sat, in 12 lord of 8,9,10. Mer is in 12 lord of 1,5. Jup (Badhaka) in 2 lord of 7 (Kidney), 11. Ven is in the star of Rah and sub of Moon. Ven (karaka of kidney) is in 1 lord of 12. Rahu is in 5, Aspected by sat, in 12 lord of 8,9,10, Moon is in 6 (Diseases), Lord of 2,3. The ascendant in Rahu star Ardra and Venus sub conjoins the 5th and 12th house ruler Venus and badhaka Jupiter. Venus signifies houses 1, 3 and 12 to this native.

(It might be worth to mention, that the native's AC is identical with the 6th bhava cusp of K.S. Krishnamurti, who himself suffered severe kidney troubles. Just read page 176 in Subramaniam's book „Medical Astrology For All“.)

The native's 6th house in the sign of Scorpio shows again problems with damp and cold places. Scorpio is the natural sign for excretory organs, being in this case connected with the house of disease. Lord Mars is in the star of Jup and sub of Rah. Mar is in 10, Lord of 6 (Diseases), Jup (Badhaka) in 2 lord of 7 (Kidney), 11. Rahu is in 5, Aspected by sat, in 12 lord of 8,9,10, Ruler Mars indicates that diseases will present themselves through inflammation and bleeding.

Star lord and sublord of 6th cusp is Sat. Sat is in the star of Moon and sub of Ven. Sat is in 12 lord of 8,9,10, Moon is in 6 (Diseases), Lord of 2,3. Ven (karaka of kidney) is in 1 lord of 12. Starlord Saturn connects the 6th bhava with the 8th house of danger and surgery.

Kidney donation started in the forenoon of 25. July 1979 in Essen, Germany 51N28/7E01 during his Moon Venus Sun Jup DBAS. (May be There was a change in his sookshma period and either Jupiter or Saturn could have been sookshma ruler on that day Due to defferant software calculations. as per KPAstro3.0 and using Aynamsha KPNA was Jup.)

Like in my recently published stem-cell-donation case I want to concentrate mainly on the fruitful combination of houses 1,5 and 11. The 2nd house (gifts) can be observed.

It might be discussed, wether also the difficult 3rd house of energy and/or the 7th house for the donated kidney should be included but hence the immune system must not be destroyed for a kidney donation, we can probably leave the 3rd house out this time.

The 7th house is a maraka and could thus awake sleeping dogs. So I would neglect it too. Further cases and comparisons might show the best astrological ongoing in transplantation matters. The 6th house should not be activated because this would strengthen a person's immune system, leading to the rejection of the new organ.

Dasa lord Moon. Moon is in the star of Ket and sub of Sat. Moon is in 6 (Diseases), Lord of 2,3. Moon aspect on Ven (karaka of kidney) Starlord Ket is karaka of kidney in 9, and in the sign of sat, in 12 lord of 8,9,10. Moon strongly signifies 6,8,12 but not signfies 1,5,11 at all.

Unfortunately Moon, the dasalord is a strong significator of the 6th bhava. Taking also the Moon's problematic maraka state and her position in rejecting Ketu star Mula and in the sign of maraka and badhaka Jupiter into account, this dasa does not promise a positive outcome.

Hence it follows that the second-rate bhuktilord Venus can not overrule but only modify the result to a slightly better one, if Venus would be a real benefic and fruitful to the 5th and 11th house. Ven is in the star of Rah and sub of Moon. Ven (karaka of kidney) is in 1 lord of 12. Moon is in 6 (Diseases), Lord of 2,3. Rahu is in 5, Aspected by sat, in 12 lord of 8,9,10. Moon is in 6 (Diseases), Lord of 2,3. This is obviously not the case because Venus strongly signifies the man's 3rd and 1st house and on a weaker level also the 12th. Venu's sublord Moon is not fruitful to the matter and Venus' starlord Rahu is mainly a 12th house significator.

T-Venus exactly conjoined natal Jupiter that day, being a bad sign because of Jupiter's badhaka state and leading to severe bleedings in the abdomen later on. We can therefore already assume an unsuccessful transplantation on DB level.

Antralord Sun is in the star of Own and sub of Ket. Sun is in 12 lord of 4. Ket is karaka of kidney in 9, and in the sign of sat, in 12 lord of 8,9,10. The Sun anthra looks even worse and can only confirm our findings because Sun signifies house 12 and 4 matters which is detrimental to the 5th house of recovery. Sun in his own star and in Ketu sub contributes to the rejection of the man's new kidney and it is thus absolutely useless to reflect if a possible sookshma ruler, be it Jupiter or Saturn could turn the whole case to the good.

6th and 11th ruler Mars occupied the 12th house in Taurus in his own star Mrigashira and aspected the 6th and the 7th house on the day of surgery. This 6th house activation improved the man's immunity and the case can be compared with the first part of my february KPe-zine article regarding the unsuccessful stem cell donation.

Looking at the man's significators, no possible planetary combination might have been able to allow a successful transplantation. It is always difficult for Gemini borns to achieve the effects of fruitful significators and transits because nearly every planet rules a good and a difficult house either. Though all seemed to develop rather well during the first weeks - which was for my opinion also the effect of Neptune's veiling station in the 6th house - and though the man could leave hospital in August, he began to feel uneasy in the beginning of September 1979 and went back into the hospital by train!

He died in the night of 8th September at 3:23 AM in consequence of massive bleedings and kidney rejection. DBA: Moon Venus Moon.

Moon transited her own sign Cancer, when the transplantation started. The 2nd and 3rd cusp are in Cancer and the Moon, significator of the 6th house connected them with immune defence. Moon's position in Mercury's star Ashlesha on the 25. July was a very bad nakshatra for implantations because Ashlesha favours the matters of „fighting against one's enemies“. The new kidney was regarded as an enemy by the Moon.

It was very probably Mars, sublording T-Moon that time, who supported the immune reaction and the running AC, occupying this crucial place when the man died, seems to verify this observation. Just remember again that natal Moon is placed in Ketustar Mula and that Ketu is the main planet to cause rejections of donated organs. At death T-Moon had reached the 11th cusp in Pisces and in Saturn's constellation. Saturn is another rejecting planet, leading to the deathly cure.

T-Mars conjoined natal Jupiter in the ascendant, Jupiter star, Ketu sub and aspected his own radix position in the 7th house. T-Jupiter was like Mars posited in a Ketu constellation. Jupiter and Mars are the main planets to cause bleedings.

The Sun had been anthra ruler when the donation took place and Sun brought a severe 12th house effect of loss into the matter. Just see, what happened in Leo, the man's 3rd sign at the time of death:

Six planets, namely Jupiter, Rahu, Mercury, Sun, Saturn and Venus can be found there and all except of Jupiter were placed in the star of bukti ruler Venus (representing the kidney) in Purva Phalguni, whose symbol is a bed. It's name „The former reddish one“ reminds me in red color and therefore in blood. The statement that illnesses which start at this time, are hardly to overcome has therefore been verified through KP in this case.

Editor's Note: in this case author mentions Badhaka & Maraka role in Disease, which is author's experince, readers may send his/her experince about badhaka & Maraka rolein disease case.

When will my daughter get a job?

My daughter was searching a job after completing B.Tech and was pestering me to tell when will she get a job. On repeated insistence, I got motivated to calculate for answer and I myself took horary number 23 with an query "when will my daughter get a job?". The calculations were done on Oct 23, 2007 at 17-44-36 Hrs IST at Bangalore. Since, the question pertained to my daughter; the chart was rotated with respect to the 5th house.

The rotated chart at the casting time is produced on next page..

The chart is being analysed as follows:

The Query

In the un-rotated chart, Moon falls in the 10th cusp, which is 6th to the 5th cusp, thus indicating my mental focus on my daughter's (5th cusp) job (6th cusp therefrom). Thus, the mental focus on the query was established in the prashna chart and it was reasonable to proceed for analyzing the query.

The co-ordinates of judgment

The prashna dealing with the profession has a primary focus on the 10th house indicating the karmic profile. In order that the profession points to the salaried job, the focus gets on the 6th house. 2nd house indicates the salaried earning and overall fructification of the ambition of getting a job is seen through the 11th house. Thus, an amicable connection amongst 2-6-10-11th houses is necessary for the acquisition of a suitable job.

Analysis of the chart

The rotated chart is being analyzed herewith.

- Let us note the indications of the Lagna.
- Lagna sub-lord is Jupiter, which owns 5th and 8th house and is placed in 3rd house close to the 4th cusp. It indicated the futile efforts, which the subject was undergoing in searching a job.

Jupiter falls in the star of Mercury placed in 2nd house. Since, Mercury owns 2-11th houses, the stellar disposition of Jupiter does signify the acquisition of a job. The acquisition of a job gets more confirmed when we look at the Mars (sub-lord of Jupiter) placed in the 10th house.

Thus, lagna usefully signifies required houses for the job through its cuspal sub-lord Jupiter.

+ These planets do not have any planets in their stars

- Look at the 10th cusp.

The 10th cusp is the primary cusp signifying karmasthana and its judgment has perennial importance.

Incidentally, 10th cuspal sub-lord is Jupiter and the analysis given above points good significations towards getting a job.

- Look at the 6th cusp for a salaried job.

Venus is the sub-lord of the 6th cusp lording the 9th and 10th house. Venus falls in its own star placed close to ascendant from behind, perhaps meaning that her own efforts shall be useful in getting a job. Since, Venus falls in the sub of Rahu placed in 6th house, it points Venus helping to get a job.

- Look at the 11th cusp.

Saturn is the cuspal sub-lord of the 11th cusp. Saturn falls in the star of Ketu placed in 12th house but it disposes 6th lord Saturn because of being too closely conjunct to it. Saturn falls in the sub of Mercury (2-11th lord) placed in the 2nd house.

Thus, Saturn favours the acquisition of the job without any doubt.

Thus, I concluded that my daughter is destined to get a job.

Timing of getting job

- First of all, it was assessed whether getting a job would be early or late.

For this reason, take note of the 11th cuspal sub-lord Saturn. By way of Saturn being the cuspal sub-lord of the 11th cusp, it was inferred that the acquisition of a job was to happen late.

- Now look to the dasha details as follows.

At the time of prashna, the native was running the dasha of Jupiter-Venus-Saturn, which was to run till Feb 07, 2008. Dasha lord Jupiter, as analyzed earlier promotes acquisition of the job. Bhukti lord Venus, as analyzed earlier also promote it. Saturn as antar-dasha lord as analyzed earlier clearly indicates the acquisition of the job. Thus, Dasha-Bhukti-Antara lords fully protect the interest of acquisition of the job.

Now, the pending sookshma dashas within the Saturn's period which were to operate were noted as follows.

Venus sookshma:	29-10-2007 to 25-11-2007
Sun sookshma :	25-11-2007 to 02-12-2007
Moon sookshma:	02-12-2007 to 15-12-2007
Mars sookshma:	15-12-2007 to 25-12-2007
Rahu sookshma :	25-12-2007 to 17-01-2008
Jupiter sookshma:	17-01-2008 to 07-02-2008

- * Each sookshma lord was assessed as follows.
 - * Venus sookshma was not considered, as there was no hope of getting the job immediately, as dictated by the 11th sub-lord Saturn.
 - * Sun as sookshma lord was strong, as it did not have any planet in its star. Sun's lordship of lagna and its placement in 12th house did not point to its usefulness in getting the job.
 - * Moon as sookshma lord was also strong, as there was no planet in its star. The placement of Moon in 7th house and its sub-lord Venus's placement in 12th house were not conducive to its fruitfulness towards acquisition of the job.
 - * Look to the Mars sookshma lord. Mars is placed in Rahu star and Rahu's placement in 6th house does indicate hopes towards getting the job. However, the Mars's sub-lord Venus gets placed in 12th house, thus the indications of Rahu get nullified and Mars was also not considered useful in affecting the job acquisition.
 - * Now, assess Rahu sookshma lord. Rahu falls in its own star placed in 6th house create good hopes but its sub-lord Jupiter as 3-8th lord placed in 3rd house does not guarantee much.
- Rahu strongly disposes Saturn as its sign lord of its placement in Aquarius and since Saturn poses good significations as analyzed earlier, Rahu may be taken to create an environment of some useful groundwork towards job acquisition.
- * The last sookshma lord Jupiter in Saturn's antara was considered useful for realizing the results. The usefulness of Jupiter is already explained in earlier paras.
- Thus, it was identified that my daughter could acquire the job in Jupiter-Venus-Saturn-Jupiter dasha running from 17-01-2008 to 07-02-2008.

Facts of the case

- * My daughter came across some vacancies in an MNC somewhere towards the end of 2007 when Jupiter-Venus-Saturn-Mars dasha was running. She submitted the profile with relevant certificates and started waiting for the acceptance and call for interview.
- * She received the call for an interview in 1st week of Jan-2008 when Rahu sookshma was operating. The interview went on for 3 sessions with different departments and the result was to be declared and communicated subsequently.
- * On 11-01-2008 (Saturday), she received confirmation of the selection in the job through e-mail and thereafter by phone, but was put on hold for joining. Rahu sookshma dasha was yet operating.
- * On 18-01-2008 (Friday) she was asked to report to the corporate office for some formalities, which was done. Jupiter sookshma dasha had just started operating.
- * Finally she joined the job on 24-01-2008 (Thursday) and settled in the new assignment.

Conclusion

I thank KP way of delineation for me to come to some realistic conclusions on timing the job.

The role of Sub-lord in KP

by

Tin Win

tw853@yahoo.com

1. A planet signifies the matters through the following three levels:

- 1) The Planet itself
- 2) The Star Lord of the Planet
- 3) The Sub Lord of the Planet

2. In order to get the better prediction results, all the houses signified at the planet level, star level and sub level are to be jointly considered, keeping in mind that the houses signified in the first two levels opposed by the sub-lord signification cannot give the desired results and the houses strongly signified at the sub level, even though not signified in the first two levels, can give the desired results. This approach has been practiced by Shri C. R. Bhatt and followed by Mr. Kanak Bosmia with success, and it has been found that sometimes the events happen by the sub signification only.

3. In addition, a cuspal sub-lords becomes the strong signifiers of houses for which a planet is the cuspal sub-lords, if that planet has no planet in its star. Moreover, if a planet is deposited close to the next cusp within 3deg:20min orb, its signification of the next house is also to be considered.

4. The sub-lord of a planet decides whether that planet is auspicious or inauspicious for the house signified by that planet. Sri K.M. Subramaniam has also reminded in his last 'Sub Lord Speaks' article LX 'that the sub-lord of a planet tells the fructification of certain matters, shown by the sub-lord and the result of either good or bad in terms of the signification of the sub-lord. In judging the signification of the sub-lord, he used to consider the star-lord of the sub-lord.

5. The sub-lord gives the decision in selecting the fruitful signifiers whose sub-lords are the signifiers of the required houses in such cases when a planet is the signifier of many or almost all houses. In a theory which takes the sub-lord as a signifier, not a decider, the sub-lord is no more helpful for selection of fruitful signifiers in such cases.

6. The cuspal sub-lord is also a planet and considering its star-lord is the second level but not the fourth level judgement. Just as the favorable or unfavorable effect of a planet in DBA analysis is controlled by its sub, an examination of the cuspal sub-lord of a house enables to decide finally and clearly, whether the matter denoted by that house in question is promised or not.

7. During the same dasa level, the sub-lords of the dasa lords indicate marriage in a sub dasa level and divorce in another sub dasa level and the same for sickness and cure etc., for which KP is capable to provide a clear prediction.

8 The application of only the first 'two levels' of planet and star-lord has been done since 'Shri Satyacharya's Dhruvanadi' of about 2000 years ago to Dr. B.V. Raman's 'How to Judge a Horoscope and Notable Horoscopes'. Without applying the sub-lord in prediction and the Placidus house system in casting a horoscope, it is not KP.

9. As Shri Kuppu Ganapathi has mentioned, KP is the sub-lord theory, nothing else and the discovery of the systematic sub application in methods of prediction has crowned KP with success.

10. The following theories have been invented on the basis of KP principles but by changing the role of the sub-lord as per KP:

- 1) Sub Sub Theory by Dr. Pt. K. R. Kar applying the sub-sub-lords
- 2) Cuspal Interlinks Theory by Mr. K. Basakaran (KB) applying interlinks of sub- lords.
- 3) Four Step Theory by Mr. Sunil Gondhalekar applying the star-lord of the sub-lord as 4th step

11. These theories are to be applied by their own names, without mixing with KP because they use the principles and methods of prediction different from KP, not traditional KP, only one KP, which is invented by Guruji KSK only.

12. As Shri Raichur has mentioned, please do not mix up KP and 4 Step Method. Though 4 Step Method is based on the KP principles, its methods of predictions and steps are not identical to KP methods. It is better to keep them separate, just as we keep Vedic methods separate from KP, though KP is based on Vedic Principles

13. The bottom line is to apply KP or any other theory separately on its own principles and methods of prediction in order to avoid the confusion. Astrology is not a monopoly but to maintain and develop KP principles as guided by Guruji KSK is, in my personal opinion, a duty of all KP lovers.

JAI MA KALI

Now days, regarding Birth Time rectification, there are so many methods coming out. It is good that the KP followers are doing research on this and I think personally the Rectification of Time is very important for the astrologers. Because we know that for KP System Sub lord is very important, and if the Sub Lord is not correct then we will not get the right answer regarding the person.

Lots of learned Astrologers are doing research on KP and develop new methods to make KP system more perfect and accurate. I congratulate them. One of our learned KP followers Mr. K. Baskaran from Madurai, who is doing lots research on KP system and present us some valuable books. He has developed a system regarding the Birth Time Rectification. I personally follow his system and getting very good results also. Mr. Kanak Bosmia helps me a lot regarding this matter and also inspires me to write an article in his E- Magazine. Again Mr. Bosmia's request I'm writing about the details of the Rectification.

According to the rule **RP Lag = Birth Mon and RP Mon = Birth Lag.**

But how we do the rectification? --- Before going to the details of it let us check some points:-

1. Which Software you are using? --- If you ask me then my answer is KP Astro2.7 or latest KP Astro3.
2. Are you taking the exact Latitude and Longitude of the place where you are doing the analysis? If not then please go to the Google Earth or Wikimapia (<http://wikimapia.org/>) and get the correct Lat., Long., of your place. Long. Lat of place is very important in horary work.
3. Is your computer giving you the exact time? - Please confirms it from the telephone exchange and corrects your computer watch up to the second. {You can check time with help of Phone number 174(All over India same number)}.

These are very important but generally we neglect these points.

Now we are ready. The moment you sit for to do the rectifications of a person, please check the time chart of that moment. If Moon signifies 6th, 8th & 12th houses then don't do the rectification on that time, stop your calculation, do it any other time or any other day. Because that calculation, what you have started, does not give you the right answers. So wait for the right moment.

Now note down the RP of the Lagna or Ascendant, Moon & day lord & also note down the position of the planets (which planets are together, the aspects of the planets (**Vedic aspects, Rasi to Rasi**), representatives of the Nodes etc) then go for the rectification analysis. Let me give an example:-

Date of Birth of a Female- 26th Mar. 1975.

Given Time - Between 10:00 - 10:15 AM.

Place - Dhaka, Gazipur, Bangladesh.

At 10:00 AM

Lag = Ve - Mo - Ve - Ju - Ra.

Mon = Sn - Ve - St - Ma - Sn.

Time of Calculation:- 11th Jan 2008. at 13:51:30 hour. Place - Mira Road. Lat - 19:16 Long - 72:51.

Using geocentric correction I'm getting - Lat - 19:08 Long - 72:51.

RP Lag = Ma - Ve - St - Sn.
RP Mon = St - Ma - Me - Ve.
Day Lord = Ven.

Sat & Ket, Jup & Sun, Mon & Rah --- are together.

Sat aspect on Mo, Ra.

Mar aspect on Ju, Sn, Me. Sun aspect. on Ma.

Jup aspect on Ma, Ke, St. Mon aspect on St, Ke.

Rah = St, Ma. & Ket = Ke.

The Lady told me she is not sure about her birth date; it may be 25th, 26th or 27th. But her mother told her most probably the day was Wednesday. According to that first I got the date 26th which is Wednesday, and then finally yes from the RP I got the confirmation.

On 26th Mar 1975 Mon was in Ven constellation. During the time of my calculation, i.e., on 11th Jan 2008 at 13:51:30 hour, in the RP -- Ven is repeated 3times (as RP Lag constellation Lord, RP Mon Sub-Sub Lord and Day lord also). On 25th Mar Mon was in Ket constellation, but Ket was not in the RP and also 25th was not Wednesday so, it was confirmed that she born in 26th Mar 1975.

Mon is in 10th House, lord of 4th House, under the constellation of Mars. Mar is in 2nd bhava and the Lord of 1st & 8th. Mon is aspects by Sat who is in 5th House and the lord of 10th & 11th Houses. So the time is suitable for the calculation.

Now apply the Rule: - **Birth Mon = RP Lag. = Ma - Ve - St - Sn.**

According the Birth time we are getting Mon = Sn - Ve - St - Ma - Sn. That means Mon is in Sun house (Leo) ,under Ven constellation, Sat Sub , Mar sub-sub & Sun sub-sub-sub.

During analyze we will not take House lord. So we are getting -- Mon is in under Ven constellation, Sat Sub, Mar sub-sub & Sun sub-sub-sub.

From RP Lag we are getting **Ma - Ve - St - Sn.** (Mar is the House lord, Ven is the constellation lord , Sat is the Sub Lord & Sun is the Sub- Sub lord).

So, as per Rule Birth Mon = RP Lagna. = Ma - Ve - St - Sn.

Birth Mon is under Ven star. Ven is also the Star Lord of RP Lag.

So, Ven as Star Lord is OK.

Sub Lord of Mon is Sat. Sat is also the sub lord in RP Lag..

So, Sat as Sub lord is OK..

Sub- Sub Lord of Mon is Mar. Mar is in RP as Sign lord.

Sub- Sub- Sub lord of Mon is Sun. Sun is also the Sub -Sub lord in RP Lag..

That means the Birth Mon we are getting - Ve - St - Ma - Sn Whose starting time is - 09:59:45 Hour

& End time is -10:00:19 Hour.

Now, Birth Lagna. **As per Rule Birth Lagna = RP Mon = St - Ma - Me - Ve.**

In Birth Lagna Rasi pati is Ven. And in RP Mon Ven as Sub- Sub Lord.

In Birth Lag Star Lord is Mon , Mon is not in RP , but Sat as Sign lord in RP Mon aspects on Mon. Mon also aspects on Sat. So, we can take Mon instead of Sat.

In Birth Lag Sub lord is Ven, Here Ven is the Sub- Sub lord in RP Mon.

In Birth lag SSLord is Jup, here Jup is not in the RP but Mar the Star lord in RP aspects on Jup. So, we can take Mar instead of Jup.

So, we are getting the **Lagna = Ve - Mo - Ve - Ju** , whose Starting time is - 09:58:50 Hour..

And the End time is - 09:59:59 Hour.

Between these time periods we are getting the nine planets as SSS Lord. But we have to choose one. But here we are getting the time is - 09:59:45 - to - 09:59:59 Hour. If we go beyond of this time then the Lag Sub-Sub lord **Jup** will change and if we go before 09:59:45 hour then **Sun** the sub-sub-sub lord of Mon will change.

So, during this time frame we are getting **Mar** as SSS lord of the Lagna.

That means we are getting

Lag :- Ve - Mo - Ve - Ju - Ma = Time - 09:59:47 Hour and the degree- 021:48:32

Now main question, Is there any proof that this rectified time is the Correct Birth Time?

Yes I checked that whether this rectified time is correct or not.

First I checked her educational background.

For Junior label Education (that is up to Secondary label) - I check 4th Sub lord that is according to her horoscope- Jup who is in 10th house but within 3 degree of 11th cusp, also the lord of 8th & 11th, under the constellation of Sat who is in 2nd house and the lord of 9th & 10. Sat aspects on 4th & Jup also. So, 4th House Sub lord Jup signifying the houses - **2, 11, 9, 10 & 8th and through Sat 4th also**. So, regarding junior level education She should not face any problem. That should be smooth and she score good.

For Higher Education - 9th Sub lord - Mon, who is in 4th House and the lord of 3rd, Now Mon is under the constellation of Ven, who is in 11th house but within the 3degree of 12th cusp and also lord of the 1st & 6th . Mon is aspects by Sat & Mar also. Mar is in 9th house & lord of 12th & 7th. So, 9th House Sub lord Mon signifies- 12,4,9,6 & 3rd. So, it will not be possible for her to complete the higher education.

When I asked whether I am right or wrong? She told me I am absolutely right. Up to Secondary education she doesn't face any problem and her results were good, but she could not complete her Graduation due to lots of disturbance.

Readers' Views

Dear Sri Kanakji,

Series of articles scripted by select Pundits of KP system have been published in KP-Ezine e.g. Matters controlled by grahas - in part 2 you have covered elaborately on Moon and article on Sun was published earlier. After all the articles are published for 9 planets, if you can organize to compile all the 9 articles and publish into a separate eBook it will serve as a reference eManual.

Similarly you can publish matters related to all the 12 bhavas, 12 zodiac signs etc into a separate eBook, after they are first released in KP-Ezine. This can further be expanded into compilation of series of articles on a specific topic into a separate eBook. e.g. finance, wealth, properties, education, ailments, debt, spiritual progress, marriage, legal battle, overseas opportunities, profession - detailed articles on each profession etc. You may discuss with the scholars / seek the views of readers and if you find this interesting and useful, you may include this suggestion in your agenda and give it a shape when time materialises. These reference eManual books can be released as a affordable priced edition so that kpastrologer.com can be supported through financial contribution by selling eBooks.

A question may arise that one person who buys an eBook, by paying money, may pass it on to his friends / relatives / others as free, to save on cost of purchase. This menace will prevent many publishers not to opt for digital publication since their great efforts becomes mockery. But in my opinion TRUE KP lover, as a respect to our great Guruji Sri KSK will not indulge in such practices, if the eBook is priced affordably. Alternatively you can maintain an eLibrary in your website, publish individual topic eBooks; users who are interested to read eBooks from your eLibrary have to pay monthly subscription, login to eLibrary through permitted user ID, password and read the eBooks online only (eBook download to be denied). You may seek the opinion / guidance of Dr K Rangarajan, a genius in infotech industry. Many people have expressed their willingness to purchase back issues of KP-Ezine by paying the cost fixed by the publisher and their letters have been published in the magazine. This is a proof that true KP lovers will patronage eBook purchase.

Wish you good luck.

Dear Sir

thank you verymuch for the information and I want to express my thanks for the valuable book. Kindly give some article about the ruling-planets

Dear Sir

Thank you very much for your humble reply. I am also a student of astrology learning it since i was in college. Your magazine is very informative and useful. But i will request you to keep all the previous magazines in archive folder so that any one who forgot to download the same can access it any time if your only motto is spreading the knowledge of astrology and not earning money.

Thanks & Reagards

Dear Shri Bosmia Saab

I have seen the March 2008 issue of KP E Zine published under your respected Editorship.

Your article on Matters concerning Moon is like Himalaya; so huge that no one can really go himself up to such an acute, accurate and immaculate level.

Your other article on the possible attack on the life of Shri LK Advani is born without any fear, and your courage is appreciable.

There is no need to mention about the scientific approach by Mr. Tin Win. It is simply adorable.

The most perplexing challenge for an Astro-Analyst is the correct birth time. Medical professionals may not report correct birth time or not aware of the necessity of reporting the correct birth time as wanted by Astrologers. But Mr. Abhijit Lahiri has made a good article on BTR using KP techniques and it requires appreciation.

The E Zine has gone international when respected personalities like Madam Ilona Hellmann writes in KP-Medical from Germany.

In the present days when the aim of every Government to reach education to one and all, getting a job is also equally a challenging task. Mr. Vijay Kumar has dealt with the profession aspect quite well and the necessity of rotating the chart is explained.

I am still going through the E Zine, but cannot resist writing to you an interim mail.

Wishing you all success in the future to come.

Yours affectionately
MK Viswanat

Dear Sir,
Good Afternoon. My name is M. Thiyagarajan and attached to a manufacturing industry. Astrology is my hobby for the past 5 years and now am interested in the KP system of Astrology. I have read your KP E-zine, Mar issue and find them very interesting. If possible, here I would like to request for articles on the judgment of the timing of marriage and cases of No Marriage. I hope to receive a favorable reply from you, Sir.
Thanks & Regards
Thiyagarajan

KP for Beginners- Part 1 **Casting a Horoscope Manually**

by
Tin Win

tw853@yahoo.com

There is nothing in the world like a horoscope to help a man in the acquisition of wealth, to save him like a boat in a sea of troubles and to save him as a guide in his journey.

--Vaidyanatha Dikshita in Jatakaparijata

Horoscope

1. The starting point in astrological prognostications is the horoscope or astrological chart which shows the positions of the planets and the Lagna or the Ascendant and other cusps in rasis or signs. To avoid faulty judgments and pronouncements it is necessary to correctly and properly cast the horoscope with the accuracy. These days, computer horoscopes are very common and they are prone to errors. This article is supposed to be helpful in the use of the astrological SWs and to compare the results of manual calculation with the accuracy of computer SW.

2. To cast a horoscope, three essential birth data are required - time of birth, date of birth and place of birth. The standard ephemeris and the Tables of Houses of Placidus System are also essential. To find the longitude and latitude of the birth place and the correct TZ, the www.astro.com website and the SWs using ACS Atlas like KPAstro 3.0 are helpful.

Standard Time and GMT

3. Generally the TOB is given in the Standard Time (ST), i.e., time by the clock, used in each country. In India, the ST was chosen with Time Zone (TZ) $5\frac{1}{2}$ hours in advance of Greenwich Mean Time (GMT) or Universal Time (UT) at the meridian of 82°30' East of GMT.

4. In using the Western ephemeris like Raphael in old days and Swiss in these days, we need GMT of birth as the positions of planets are provided at 12 noon GMT in Raphael and at 00:00 UT midnight in Swiss. To get GMT or UT we add the Time Zone to the Standard Time of birth, if the birth was West of Greenwich, or subtract the Time Zone from the Standard Time of birth, if the birth was East of Greenwich. If the time of birth is Summer Time or Daylight Saving Time (DST), generally 1 hour should be deducted from the Standard Time of birth. The DST is generally the adjusting of clocks or ST forward one hour near the start of spring and backward in autumn or fall. The details vary by country and change occasionally.

5. For the Example Chart-1, May 15, 1963, 12:05 PM IST, (-5:30), Ahmedabad, 72°37' E, 23°02' N, the Indian Standard Time (IST) of birth was 12:05 PM and Time Zone is - 5:30, East of Greenwich. So the GMT of birth was 12:05 PM minus 5:30, which was equal to 6:35 AM GMT.

Local Mean Time

6. One rotation of the earth in 24 hours is equivalent to 360° of longitude. Thus each degree of longitude corresponds to 4 minutes of time. The Local Mean Time (LMT) is computed from the exact longitude of birth and not the time zone. The GMT is used to calculate the position of the planets and the LMT is used to calculate the ascendant and the cusps of the houses. The LMT can be arrived at by multiplying the longitude of the birth place by 4 min. for each deg. by taking Greenwich as the place of reference. In the example chart-1, for 72°38' E, the difference of time from GMT is $(72+38/60) \times 4 \text{ min} = 4\text{h}:50\text{m}:28\text{s}$, which is to be added to 6:35 AM GMT of birth to get LMT 11:25:28. If the longitude of birth is West of Greenwich, such calculated time difference is to be subtracted from the GMT of birth.

7. GMT is the LMT for zero degree of longitude at Greenwich. The IST is the LMT for 82E30, ie., $82.5 \times 4 = 5\text{h}:30\text{m}$ time zone. So another method of calculating the LMT is to add 4 min. for each degree of difference of longitude between the place of birth and the reference point of time zone to the ST of birth, if the place of birth is West of the reference point of time. In the example chart-1, the difference between the place of birth 72:37 and the reference point of IST 82:30 is 9:53. The difference in time is $(9+53/60) \times 4 \text{ min.} = 39\text{m}:32\text{s}$, which is to be subtracted from 12:05 PM IST to get LMT 11:25:28. Such calculated difference in time is to be added to the ST of birth, if the place of birth is West of the reference point of time.

Ayanamsa

8. The zodiac that corresponds to the actual constellations or the fixed stars is called the sidereal or nirayana or Hindu zodiac. Around two thousand years ago, the two zodiacs coincided. Since then, along with the precession or ayanamsa, the two zodiacs have been slowly moving apart. The tropical or sayana or Western zodiac shows the astrological positions of some two thousand years ago. Thus the Hindus use the real zodiac and the Westerners a symbolic one. The sayana positions are converted to nirayana position by subtracting the ayanamsa value from the sayana positions. In this regards, the great scientist Albert Einstein has said, "We owe a lot to Indians who taught us how to count without which no worthwhile discovery could have been made". In casting a KP horoscope the KP ayanamsa is to be used. It has been found in Mr. Kanak's research that the New KP Ayanamsa works better than Lahiri Ayanamsa in the KP dasa analysis, especially in the Sookshma dasa level.

9. The three differences in around 30 ayanamsas in use are the year of coincidence of two sayana or year of zero ayanamsa and nirayana zodiacs, the annual precession rate and its adjustment rate. The New KP Ayanamsa (2003) formula is as given under and the year of zero ayanamsa is 285 AD. (The NKPA values and the Ayanamsa adjustment for any Day of the Year are given in the Table 11 and 12.)

NKPA = $B + [T^* P + (T^* T^* A)] / 3600$ where,

B = Base = $22+1350/3600 = 22-22-30$ @ 15 Apr 1900

T = Y-1900, Y= Calendar year for which ayanamsa is required

P = 50.2388475 (Newcomb's annual precession rate)

A = 0.000111 sec per year (Adjustment rate of the annual precession rate)

Sidereal Time

10. Referring the Swiss 6000 years Ephemeris (www.astro.com) and the Raphael Ephemeris, the Sidereal Time (SidT) for the example chart- 1 is calculated as show in the Table 1 and 2. (The KPAstro 3.0 gives the Sid. Time 02-54-33.)

By adding 180 deg. to these cusps, the other 4th, 7th, 5th, 8th and 9th cusps are obtained and the calculated positions of all cusps are shown in the Table 9.

Comparison of the Results

13. The manually calculated results for the example chart-1 are compared with the computer SW results in the Table 9 and 10, and it has been observed that:

1) The manual calculation cannot give the same accurate result as provided by the SW due to rounding in the given values of the ephemeris and table of houses, especially the rounded values to degrees in Raphael Tables of Houses.

2) The discrepancies of the example charts in the KP Readers from the SW results seem due to rounding and some differences in the values of the ephemeris and table of houses used and also taking approximate values in the manual calculation other than the difference in the old and new KP ayanamsas.

Successful Kidney Transplantation

by

Ilona Hellmann

Mainzer Str. 22

56154 Boppard

Germany

HellmannC200@t-online.de

This case should be compared with my former article: „Failed kidney transplantation“.

Boy, 6th June 1988 16:04 PM in Boppard, Germany (50N14/7E35)

AC 23°24 Virgo, Mars star, Mars sub.

ayanamsha 23°36' 19``

DBA Rahu Mercury Mars

Please be aware that a slight changing on ayanamsha or TOB(Mars sub start at 16.03.33) even could shift the AC back to Hasta star.

A Time horary chart (R.P), calculated on 16. October 2002, 10:42:33 AM in Boppard confirmed the Mars star Chitra.

This boy fell ill with scarlatina during his Rahu Venus DB (24/9/1990 To 24/9/1993) at the age of five and he developed a kind of immunological inflammation (called Purpura Schoenlein-Henoch) afterwards, will mean that a person's defences do not work in the right way, leading to intestinal and skin bleedings due to porous blood vessels. Nephritis can be observed too in some few cases and unfortunately this native became affected to it.

Venus, Libra and the 7th house are the main symbols for kidneys. In this case the 7th house is ruled by Jupiter. Like in our last kidney case (failed transplantation) Jupiter is a natural benefic but at the same time this planet is a badhaka to Gemini and Virgo births and can thus cause restriction or danger to the native's kidneys. In our actual case Jupiter occupies the 8th house in Bharani star. This nakshatra rules borderline experiences like birth and death.

Moon represents urine and bladder and Moon in Rahu star is badly afflicted by Saturn(Moon aspected by Sat), Mars (Moon Conj with Mars) and Rahu itself, causing defective urinary organs and uraemia. The connection between scarlatina and nephritis can be explained via the boy's 2nd cusp (throat) in Libra, Swati star, Mars sub: Rahu acts like Mars and causes chronic focuses of inflammation during his dasa period.

Rahu is also responsible for the kidney problem and also sublord of 6th bhava:

The shadowy planet is in the star of Jup and sub of Mer. Rahu is in 5, conj with Moon and Mars and aspected by Jup. Moon is in 5, Mars is in 5 lord of 3,8. Jup in 8 lord of 4,6,7(Badhaka)Mer is in 9 lord of 1,10,12. Rahu signifies the 5th and the 6th bhava but is not fruitful to the matters of those houses sublord wise. I would diagnose that Rahu's attempts to heal this boy from scarlatina activated a kind of chronic immune defence and the toxins overtaxed the boy's kidneys for many years.

Asc ruler Mercury and kidney ruler Venus in Rahu star Andra are highly afflicted by Saturn, Uranus and Neptune, being all in retrograde motion in the sign of badhaka Jupiter. All these heavy influences might have produced a long lasting unnoticed „stop and go“ process in the boy's kidneys. It's hidden character can be further explained by the fact that Ketu sublords Mercury and Venus.

Kidney failure occurred suddenly in spring 1998 during his Jupiter Jupiter Venus DBA and the native was at once bound to dialysis. Since then he waited for a kidney donation. Jupiter was retrograde in Pisces, closely to the native's 6th cusp and aspecting his 12th when the kidney failure occurred. Venus transited probably his 8th house in that days.

Asc starlord Mars in the 5th cusp shows recovery through surgery. Mars signifies houses 3, 5 and 8. The planet occupies Rahu star, Venus sub. Rahu sublords the boy's 6th cusp in Pisces. Rahu might indicate a strange and dangerous healing process as already mentioned.

Houses 1,5 and 11 can be taken for recovery and as we discuss above 6th sublord Rahu signifies 1 and 5. The boy's family was informed of a donor kidney on 11th November 1998 during his Jupiter Jupiter Moon Sun DBAS.

Dasa/Bhukti lord Jup is in the star and sub of Sun. Jup is in 8 lord of 4,6,7, star and sublord Sun is in 9 lord of 11. So dasa lord favourable.

Anthralord Moon is in the star of Rahu and sub of Mer. Rahu is in 5, conj with Moon and Mars and aspected by Jup. Moon is in 5, Mars is in 5 lord of 3,8. Jup in 8 lord of 4,6,7(Badhaka) Mer is in 9 lord of 1,10,12. though being a strong significator of the 1st and 5th house could only promise the healing by announcing the new kidney as per his sublord Mercury. Jupiter signifies the important 11th house but also the difficult 6th, 7th and 8th, indicating now the surgery and a long lasting remedial therapy to prevent the body rejecting the new kidney. Jupiter was stationary in the 5th bhava Mercury sub, Venus sub sub on 13th November and aspected the important 11th bhava. Moon and Mars aspected the 7th bhava (kidney) from the 11th in Leo. Venus in Visakha star, whose symbol is a decorated arch, changed to Scorpio, promising a new - though fragile quality of life to the native. The young man is still alive.

13. Does he fail in Love or Dishonour thru' failure in Love.

The 5th Bhava indicates the Lovers. i.e., indicates Love. The 'failure' in Love will be happen when the 5th Bhava sub-lord inter-linked with the 4, 12th Bhava through its star and sub lord(i.e., 8, and 12th Bhava to the 5th bhava). A person may get 'shame' and lose his prestige, when the 5th sub lord connects with the 8, 12 (to Lagna Bhava) .

In this chart 5th Bhava sub lord is Mars. This gentleman cannot succeed in the love, because Mars is interlinked with 3, 7, 11th Bhava through its star and sub lord and this significance is the 12th bhava to the 4, 8, 12th bhava.

The 11th Bhava indicates, a person one who loves him. i.e., the 7th Bhava indicates the opposite side lover. The 5th bhava (11th bhava to the 7th) indicates the lover to the opposite person, friends or well-wishers. The readers can think that the love comes after friendship.

The lover (opposite gender) can face the dishonor, if the 11th bhava interlinks with its 8, 12 Bhavas (i.e 6, 10th bhava). A person (native) may get shame and tension through the lover, if the 11th bhava connects with the 8, 12th Bhava.

As per the chart, the 11th Bhava sub lord is Venus. Venus indicates 4, 8, 12th Bhava through its star and sub lord. The above significantor mostly affects the Lagna and does not much affect the 11th Bhava. So; a person get the tension, shame and lose his prestige by his lover. We will take this as a General Rule.

Venus refers to the ladies and Mars refers to the gents. The 5th Bhava indicates the native's lover and 11th bhava indicates the opposite gender's lover (i.e native). If 5, 11th sub lord connects with Venus and Mars, the General Rule gets strengthened and it will modify as a Special Rule.

In this chart, Venus is the 11th Bhava sub lord. So, the above mentioned unfavorable results will happen to a person according to the Fate also. This person will, however, will not face so much trouble, later, because the Venus Dasa comes to close in the 13th age, child-hood period.

(Ref: 5, 11 Bhava indicates the love affair. The 4, 10th Bhava will give love "failure" because it is the 12th Bhava to the 5th and 11th Bhavas. The lovers will not face much tension and dishonor in the matters of love. Because the 4, 10th Bhava is not the 8, 12th Bhava to the Lagna and the 7th Bhava. Dissatisfaction will come to one person because of the other. On account of this reason, it will give love' failure. because the 10th Bhava is the 12th Bhava to the 11th (Joyful, satisfaction)

14. How is the Education Status?

The 4th Bhava sub lord is determining the one's Lower(Basic) Education and the 9th Bhava indicates Higher Education and research -oriented Education. Education is a Lagna- dependent Karaka. So, the Education will stop or have no interest in education, while the above referred 4, 9th Bhavas are interlinked with the unfavourable Bhavas to the Lagna(i.e 8,12 bhavas). So, the 4, 9th Bhavas interlinked with favorable Bhavas to the Lagna ,gives the best education.

But also in the early period (study period), the Dasa/Bhukthi are also favorable to education and then only a person can get education in the child-hood period. Here, the 4th sub lord is the Saturn. The Saturn is interlinking 3, 9, 11th Bhavas through its star and sub. So, the lower education is good because these Bhavas are favorable to the Lagna.

In the young age from 4 to 12th yrs, when one studied Lower Education, Venus Dasa was running and it is interlinked with the 8, 12th Bhavas. But most of the bhukthis signify the 3, 7, 11th Bhavas and this significancation oppose the Dasa and coincide with the fate and support to education. The Venus Dasa come to end at the age of 13. So, he got a good Basic Education in the early period. Now we will analyze the Higher Education.

The 9th bhava sub lord is Kethu. Kethu is in the Moon star and Mercury sub. Moon is the 8th Bhava sub lord and Mercury is the sub lord of 4, 8, & 12th Bhavas. So, these significators are un-favorable to the Lagna and do not to give a chance to the higher education.

Further, the Moon Dasa was running from 19 to 29 yrs and this is the age for Higher Education period. The Moon is the 8th Bhava sub lord. Please remember, the Moon always in the star of Dasa lord and sub of Bhukthi lord. i.e The moon is not always in its star and sub lord during birth time and it will change according to Dasa and Bhukthi.

In the base of above referred matters, Moon would be in the same star significance up to the Moon Dasa. But, it will change its significance, while moving according the sub lord. The 8th Bhava significance may be strongly indicating the whole Moon Dasa. The 8th Bhava is the 12th Bhava to the 9th Bhava and as well as unfavourable to the Lagna. So the entire Moon Dasa was not favorable towards a good higher education. But, the same result will not happen in the entire Moon Dasa because the Bhukthi and Anthara will change and also the Dasa result also changes according the Bhukthi and Anthara period.

So, this gentleman completed higher education in the period from 1991 to 1995 and in this period are Jupiter, Saturn and Mercury Bhukthies in the Moon Dasa. Thus Jupiter, Saturn and Mercury are inter linked with the 3, 7, 11th Bhavas and these significancations oppose and make weak the Moon's 8th Bhava significance. So, in these period it gives a chance for higher education.

Particularly, the Jupiter bhukthi in the Moon Dasa totally change the result of the Moon Dasa from 21-9-1990 to 2-01-1992 period. At that time Moon stands in its own star and Jupiter's sub. The Jupiter interlinked with the 3, 7, 11th Bhavas.

So; the Moon's sub lord's (Jupiter) 3, 7, 11th Bhavas make weaken the Moon's star lord (moon) 8th bhava significance. The Bhukthi lord Jupiter signifying 3, 7, 11 weakens the Dasa lord Moon's 8th Bhava significance. The Jupiter Bhukthi in the Moon Dasa gave the opportunity to join for higher education. But, he can't continue the higher education from 21-01-1995 to 20-04-1997, in the Kethu and Venus Bhukthies. Particularly he discontinued his higher education from 21-08-1995 to 20-04-1997, in the Venus Bhukthi of the Moon Dasa period.

The fate is already waiting and ready to spoil his education and the Venus Bhukthi also coincides with the fate and fully spoilt his education. These incidents was quoted by the ancestral people like "the fate is playing and the Dasa is struggling" and the "vithi goes and the mathi follows".

15. Does he has an interest in the spiritual line?

Generally, the Lagna Bhava indicates the self thinking, 5, 9 Bhavas refer to Manthra pronunciation, worship God and interest in the spiritual path. So, the ancestral people called the 1, 5, 9 Bhavas as "Dharmasthanam". The 4, 8, 12th Bhavas are the 12th Bhava to the 1, 5, 9 Bhavas and give the opposite result. If, the sub lord of the 1, 5, 9th Bhavas are interlinked with its favorable Bhavas, the fate also give support to be involved in spiritual life. A person acts against the social law, involve in the bad habits and thinking against spiritual way, when the 1, 5, 9th Bhavas sub lords are interlinked with the 4, 8, & 12th Bhavas. The planet Jupiter is the karaka to the spiritual related matters. So, a person can have deep interest in the spiritual way, when a Jupiter should favor the 5, 9 Bhavas and not related to the 8, 12 Bhavas.

In this chart, Lagna sub lord, Saturn, inter linked with 3,9,11 Bhavas and 5th sub lord inter linked with the 3, 5, 7, 11 Bhavas. Generally the 1, 5 Bhavas respond favourably to spiritual matters. Further, the karaka of Jupiter is inter linked with the 3, 7, 11th Bhavas and it is favourable to the 9th Bhava and unfavorable to the 4, 8, 12 Bhavas. So Jupiter, is favorable to spiritual thinking and involvement in the spiritual path.

However, the 9th Bhava sub lord Ketu is inter linked with the 4, 8, 12 Bhavas. So, the 9th Bhava response is not favourable to spiritual attachment. But Ketu is also the 3rd Bhava sub lord and make weak the 4, 8, 12 Bhavas. The 8, 12 Bhava to the 9th Bhava are 4 and 8th Bhavas. The 3rd Bhava opposes the 4, 8 Bhavas and make weak the 4, 8 Bhavas. Why? Because, the 3rd Bhava is the 8, 12 Bhava to the 4 and 8th Bhavas. (Ref: - The readers requested to see the Planets and Bhava inter-link table- 1 and 2)

The above details are gives a result that this gentleman has a spiritual mind. Truly, Mr. Sivadhasan Ravi has spiritual mind and also is skilled in the Astrology field. Those, who are interested to know the fate response of his involvement about in the field of astrology, please read the book name is called the "K.B. Jyothida muraiyil vidhiyum mathiyum", which was written by me and published by the Karpagam Puththagalayam. I analyzed his chart in the 14th chapter.

A person has a decrease the spiritual interest in the inter-linked period of the 4, 8, 12th Bhavas period, which is the 12th bhavam to the 1, 5, 9 Bhavas. As the same law, this person can't give interest to the spiritual field in the periods of Ketu, Venus, and Moon (these planets are connected with 4,8,12 Bhavas). The spiritual consciousness increases according to the support of mathi through the fate in the period of Saturn, Mars, Jupiter. The spiritual consciousness had 'heavily' occurred in the period of Mercury and in the common period of the Rahu and Sun.

The 1, 5, 9th Bhava sub lord and Jupiter are not linter linked any manner with the 2, 6, 10th. Bhavas. So, this gentleman can't earn much income through the spiritual field. But this fate gives to this person happiness, satisfaction in the field of spirituality because the above mentioned planets are connected with the 11th Bhava.

16. Does he get Income through commission or without the physical work field?

The 6th Bhava indicates physical work and its 12th Bhava is the 5th Bhava is called the non- physical work. i.e. I request the readers to think that the 5th bhava is the trikona bhava to Lagna and gives the (Physically) pleasure to the body (without physical work)

So, a person can earn money, If the 5th sub lord through its star and sub lord get interlinked with the 2, 6, 10 Bhavas. 2, 6,10th Bhavas are favorable to the 10th Bhava and the fate gives to this person ability to earn money through the full time commission job. At the same time, a person can't earn money through the commission job or without physical work, when a 5th sub lord interlinked with the 1, 5, 9th Bhavas, which is the 12th Bhava to the 2, 6, 10th Bhavas or 4,12th Bhavas (8, 12 th Bhavam to the 5th Bhavas) In this chart, the 5th sub lord through its star and sub lord get inter linked with 3, 5, 7, 11th Bhavas. So, the 5th Bhavam only gets strengthened but does not get connection with the 2, 6, 10th Bhavas. So, the fate is not favorable and here there is no particular opportunity to earn money through commission or without the physical work. So, he can't expect much income through the commission.

17. Does he face the 'disturbance' by Loan?

The 6th Bhava indicates that a person earns money temporarily and returns back the money to other which was already borrowed as debt (loan) from that person. A person can get the dishonour and loss of self prestige by the loan (Can't clear the loan), when the 6th sub lord is inter linked with 8 and 12th Bhavas through its star lord & sub lord.

A person can't get a loan from anybody and as well as no body will not give loan to native, when the 6th sub lord through its star lord and sub lord is inter linked with 1,5th Bhavas, i.e., 8, 12th Bhavam to 6th Bhavas.

In this chart 6th sub lord is Rahu and it is in Mercury star and Venus sub.

Mercury is the sub lord of the 4, 8, 12 Bhava's sub lord and the Venus is the 11th Bhava sub lord. The 11th Bhava sub lord Venus makes weak the star lord Mercury's 4, 8, 12th Bhavas, Why? because, the 11th Bhava is the 8th Bhavam to 4th Bhava and 12th Bhavam to the 12th Bhava. The 11th Bhava is the 4th bhavam from 8th Bhava. So, the 4th bhavam make weaken the 8th Bhava also. The star Mercury indicates that this person is suffering by the debt (8, 12) and the 4th Bhavam indicates that he can't close the debt. So, the sub lord show the objection matter, which was indicated by the star lord.

The 6th Bhavam is kept on neutral, even though sub lord refuses the matter of star lord. Because the 11th Bhavam is the 6th Bhavam from the 6th Bhava and he can't face the problem and ashamed regarding the debt. His fate is determined because the 6th Bhavam is in the neutral position. A person can temporarily get the loan in the period of the 4, 8, 12th. Bhava inter linked period and even though, it is favourable to the 6th Bhavam and unfavorable to the Lagna. In this chart, Venus, Kethu, Moon planets are inter linked with 4, 8, 12 Bhavas. So he can't resettle the loan and he gets the new loan in this planets periods.

A person, mostly, decrease to get the loan and close the debt, when the planets are favourable to Lagna and unfavorable to the 6th Bhava. In this chart, the Mars, Jupiter, Mercury, Saturn are favorable to Lagna and unfavorable to the 6th Bhava and in this period he can get the above referred result.

Further, Sun, Rahu give the normal result to the 6th Bhava.
